Rev. Alex Anderson will preach his farewell sermon at the Baptist church next Sunday evening. During Rev. Mr. Steinhurst has been engaged in the harness business here for a great many years and has many warm friends who will regret his departure. The family will remain here until the business is firmly established.

DEATH OF ERNEST BROWN.

The many friends of Ernest E. Brown were surprised and shocked last Sunday morning to hear of his death, which occurred Saturday night, March 17, after an illness of only one week, with pneumonia.

Ernest E. Brown was born in Saginaw October 29, 1869. He was married October 15, 1898, to Miss Lucy Wingrove at Tawas City and to this union five children were born, all of whom with the bereaved wife survive him.

Mr. Brown came to Tawas City in 1893 and has been a resident of the city since that time with the exception of five years when he was superintendent of the county farm, being one of the most faithful and efficient men who have held that position.

At various times he has held the position of alderman in the city, and held that office at the time of his death, having one more year of his term to serve. He has always been deeply interested in the progress of the city and has always worked for its best interests, both in office and out. In his death the city has lost an industrious, public spirited man, and the family a kind and faithful husband and father. He will be sorely missed by a host of friends.

Those left to mourn his untimely death are the wife and five children, Luella, aged 16, Gladys, aged 12, Allen, aged 10, Pearl, aged 7 and Bessie, aged 4. He also leaves three brothers, Walter W. Brown of Hale, Archie S. Brown of Tuscola county, Carl S. Brown of Montana, and one sister, Mrs. Walter N. Isbell of Detroit.

Funeral services were held Tuesday afternoon at 1:30 from the house and at 2:00 at the Baptist church, Rev. Alex Anderson officiating, and the remains were laid at rest in the Tawas City cemetery. The flag on the city hall was floated at half mast during the day in token of his official position.

The following paragraph is printed by request:

"A sturdy oak has fallen, one whose roots sunk deep in the eternal truths of God and the principles of right. He went forward without faltering, feeling that as his strength was spent in worthy toil that God His strength would give. Our loss is his eternal gain, his now a broader, larger sphere, where he awaits his loved ones."

TWO PLEASANT SURPRISE PARTIES.

On Monday evening of this week about a dozen of the members of the congregation of the Baptist church surprised Rev. Alex Anderson and family at their home in this city. The evening was spent in music and social intercourse, refreshments were served and a very pleasant evening enjoyed by those present. Rev. Anderson was presented with a handsome leather traveling bag.

On Tuesday evening another party of about twenty gave Rev. Anderson and family another surprise and another pleasant evening was spent in a manner similar to the preceding one. Among the members of the latter party were Rev. and Mrs. Wm. Roberts of East Tawas.

This (Friday) evening the congregation of the Hemlock road Baptist church will give a social party at the Orange hall, at which Rev. Anderson and family will be the guests of honor.

These social events testify to the high esteem and respect in which Rev. Anderson and family are held in the community and the regret of the people at his resignation. However, the Anderson's will remain in Tawas City, for a time at least, Rev. Anderson planning on devoting his time to work on the lecture platform. With his musical training and his series of lectures on Scotland he is particularly well fitted for this work and will doubtless meet with unqualified success.

WHY BUILD STATE REWARD ROADS

(By Leslie H. Belknap)

There are two very good reasons for building state reward roads—they are: first, because of the state aid, and second, because of the necessity to merit state reward, it means the building of roads that measure up to a certain standard.

What is state aid? This money comes from two sources—a regular tax, and from automobile licenses. Of course, Iosco contributes to both funds, but what the county contributes, as compared with what the county may get in return for building good roads, is relatively small. For instance, in nine years the county has paid a regular tax amounting to \$5,426.06, and paid in automobile licenses last year \$1,285.48, but the state has returned to Iosco as aid or rewards in nine years \$16,885.00. This was the total up to January 1, 1917, but there is now due the county about \$2,000, which will make the total to date about \$19,000. The figures show then that Iosco county has received nearly three times as much as it has paid in. Therefore, it would seem that this were a very economical way of constructing roads.

However, the second reason as given in the first paragraph is the best reason of the two. Every road that is built to certain standards and specifications is money well spent, and in the case of building state reward roads, that very thing is insured. The roads, which meet the approval of the State Highway Department, measure up with all the rest of the good roads built in the state. And further, it costs almost as much to build a road that is nearly as good as a state reward road, whereas a small additional expenditure would bring the road up to certain requirements as laid down by the state, which additional expenditure would be more than offset by the state reward.

It is interesting to compare what other counties have done in the matter of building state reward roads, and I will give a few for comparison. Kalkaska county, with an equalized valuation a little greater than Iosco county, has paid in \$8,704.61 and has merited \$35,000. Ogemaw county, of the same equalized valuation, has received about \$18,000 state reward. Misaukee county, of nearly the same equalized valuation, has paid in about \$8,000 and drawn out about \$27,000. However, there are a large number of counties which are far behind Iosco county in road building, but which will now rapidly come to the front. Two of them are our neighboring counties of Arenac and Alcona. The foregoing arguments are made with the idea of presenting the subject briefly at this time, without going into the subject of "Why Build Good Roads." However, I cannot close this article without this one observation, and that is, that it has always seemed to the writer that poor roads were the greatest drawback and the most costly expense to the less rich counties.

A DISASTROUS FIRE.

On Tuesday of this week the house on the old Minor farm, on the Plank road, owned by Mrs. L. L. Johnson and occupied by Steven Berkenbeck, caught fire from sparks from the chimney and was burned to the ground.

The family saved all their furniture but lost 25 bushels of potatoes which were stored in the cellar and a quantity of stove wood which was piled near the house.

The loss on the house was about \$1,000 with no insurance.

This house was one of the oldest in this vicinity, having been built by Moses Minor. When built it stood on the location where Mrs. Minor lives at present, next to the Presbyterian church, but a great many years ago was moved to the farm. Though old, the house was in good condition and was said to be one of the best finished houses inside in this locality.

INTEREST GROWING

Twenty-five members were present at the study class last Monday night in South American Neighbors. The interest is keen and growing with each meeting. In addition to the class text book, reports are given each week on various related topics.

As both denominations are included in the class, the meetings are held alternately in the Baptist and Methodist churches. Next Monday night it will be in the Baptist church seven o'clock, standard. The next chapter is an important one entitled "Some Social Factors" studying the causes of the sparsity of population, the prevailing type of civilization, and the land problem, so prominent also in Mexico and the other Latin American countries.

Visitors cordially invited.

DEATH SUMMONS ELIE BERUBE

Elie Berube of this city passed away at the family residence in this city last Sunday evening, March 18, at 10:45. Death came as a result of strangling caused by the hardening of the muscles. The deceased has been ill for the past eighteen months, during which time serious choking spells often occurred. Mr. Berube was confined to his bed for two months during his sickness.

Elie Berube was born in St. Arsen, Quebec, Canada, on May 23, 1854 and was nearly 63 years of age. On February 14, 1882, he was united in marriage to Miss Demerise P. Soucier, a graduate of Jesus Mary convent of Trois Pistoles and teacher of French in that institution. The marriage took place in the city of St. Simon, Canada. For 29 years the family were residents of Oscoda, moving to East Tawas at the time of the fire in July 1911. For four and one-half years Mr. Berube was employed as fireman at the city waterworks.

A wife and ten children are left to mourn his demise, besides brothers and sisters. The wife of this city, the children, Elias, A. J. Berube of this city, Philip and Emile of Detroit, Mrs. Roy LaBerge of Saginaw, Mrs. Frank Light of AuSable, Mrs. J. R. Connette, Romie, of Detroit and Clyde and Yvonne of this city.

Amendment to Constitution Required to Enable Michigan to Receive Federal Aid.

That Michigan's constitution does not give the State Highway Commissioner authority to originate plans for and to build roads as required by the federal aid road bill, which offers to Michigan \$2,186,756 during the next five years, is the claim made by the department of agriculture in a recent letter to Governor Sleeper.

To remedy this defect and some others affecting the Covert (assessment district) act and the sale of bonds by townships, a joint resolution has been unanimously passed by both houses of the legislature to submit to the voters of Michigan at the coming April election an amendment to section 26, article 8 of the state constitution.

The amendment makes but slight changes, but remedies all the defects mentioned. It is, therefore, very important to the road cause of Michigan that this amendment to the constitution be made at this time.

FRANK F. ROGERS,
State Highway Commissioner.

C. E. CANTATA.

Those who witnessed the presentation of the cantata, "The New Minister," by the C. E. society two years ago, will be pleased to know that the same society will present its sequel, "The Minister's Honeycomb," in the Presbyterian church, March 30, 1917.

You cannot afford to miss this literary treat. It will undoubtedly be one of the best entertainments of the season.

NOTICE TO AUTOMOBILE OWNERS

It has come to my notice that a number of automobiles are still being driven under the 1916 licenses. Automobile owners are warned that machines must not be driven hereafter without the 1917 license or the owners will be dealt with according to law.

CONSTITUTIONAL AMENDMENTS

At the election to be held in this state on Monday, April 2, there are five amendments to the state constitution to be voted upon by the people. Briefly they are as follows:

An amendment to section 8, authorizing drainage districts to bond for drainage purposes.

An amendment to Article 3 of the constitution regarding elections and making it possible for members of a military or naval training camp, sailors employed on the Great Lakes and railroad men employed in the state to vote, though absent from the precinct in which they reside.

An amendment empowering the state to acquire and operate any railroad or railway property in the state operating under a special charter, and empowering the state to lease, sell or dispose of the property so acquired.

An amendment to Article 6 providing that the salary of the governor and attorney general be fixed at \$5,000 per year, and the salary of the secretary of state, state treasurer and auditor general at \$4,000 per year.

An amendment to Article 8 extending the right of the state highway department to lay out, construct, improve and maintain highways, bridges and culverts; also providing that the limit to be raised in counties under the county road system, for highway purposes shall be five dollars upon each \$1,000 of assessed valuation.

Of these amendments there are two that should receive special notice at the hands of the electors. The one first mentioned above regarding drainage districts is more fully covered in another article in this paper.

The amendment enlarging the scope of the work of the highway department should meet with unqualified approval at the hands of the voters and should carry by a big majority.

BREAKING UP A COLD.

This is the open season for colds. Nearly half the people you meet have already had at least one cold this fall and winter. Others will soon follow suit. But what can the unfortunate victim do about it? This is the question.

There is no royal road to recovery, but here are some first aid suggestions that will usually help a lot. First of all, don't let your cold get the "jump on you." "Nip it in the bud" by beginning treatment at once. At the very first indication of headache, feverishness, sniffles or running nose, especially if you have been indiscreet and laid yourself liable to a cold, secure free and easy bowel movement. If constipation or overeating has been a probable factor in bringing on a cold, a warm enema, followed immediately by a cold enema, will usually help, particularly if supplemented by a laxative of some kind. Next, take a good hot foot bath. Soak the legs and feet nearly up to the knees in water as hot as can be borne for twenty to thirty minutes. Do this in a warm room.

In the meantime, keep well wrapped in warm blankets. Two or three glasses of hot lemonade should also be drunk, and the patient placed in a warm bed in an airy room for at least a day, but in no way exposed to drafts. One or two meals should be skipped and the diet made to consist largely of fruit and vegetables. Avoid whiskey, heavy doses of quinine and patent medicines. They usually contain coal tar products, and the body has trouble enough at such a time without adding these.

Finally, while taking the cold treatment is one of the best times to make deep-seated resolutions to avoid such things in the future by proper living.

POLITICAL ANNOUNCEMENT.

RAWDEN FOR JUDGE

An Able Attorney and an All Around Level Headed Man.

(From the Gladwin Record). The peculiar factional situation, a situation, by the way, which is very satisfactory to the minority party, which has prevailed in the Twenty-third judicial circuit, comprising the counties of Iosco, Alcona and Oscoda, since the appointment of a circuit judge made by Governor Ferris to fill the vacancy caused by the death of Judge Main J. Conline, and which has resulted in the failure of the majority party to agree on a candidate, promises to be cleared up. Attorney Edwin Rawden, who is in no manner identified with any faction and who is a life long republican and consistent, clean party worker, has been given a well deserved endorsement in the primaries and stands as the nominee of the republican party. Mr. Rawden is an able attorney with a statewide reputation as an all around level-headed man, and we believe that the republicans of the Twenty-third judicial circuit will be using good judgment in giving him their undivided support. adv

NEWS FROM THE STATE CAPITOL

Our Special Correspondent At Lansing Relates Doings of Legislature

SESSION WILL LAST TILL APR. 15.

Final Adjournment Will Probably Be About May 1—Senate Passes Forty-five Bills and Defeats One—House Passes Twenty-three and Defeats One.

By Lewis W. Bailey.

Lansing, Mich., March 21.—From week to week house and senate each have put forward the time for threshing out the big issues until they find themselves within two weeks of the date set for adjournment by the house with no real achievement to their credit.

Two weeks is too short a time in which to consider the important measures which have been left, like a boy's hardest task, to the last, and the heads of legislators swim with the thought of the weighty matters that now demand consideration within a limited time. That March 31 will not see their work finished is evident. Perhaps most of the time between now and that date will be taken up with the debate on prohibition legislation in one house or the other. Then there must be threshed out the budget matter, for each house has passed a bill looking to a budget system and they must be reconciled. The railroad rate measure and other measures affecting railroads are fruitful subjects for prolonged discussion. The Torrens bill may bring forth opponents to this system of guaranteeing land titles. The insurance measures have yet to run the gauntlet. Bills for the repeal of the mortgage tax law have not been considered and there is other tax legislation desired by the state tax commission or others which is likely to be given a chance on the floor rather than smothered in committee. And a small amount of debate on any one of these measures will take up an afternoon in either house.

Twelve Bills Made Ready for Governor's Signature.

Last week the senate had the most to show for its work, having given final passage to forty of its own measures and five from the house and defeated one, Senator Stewart's bill for the election at primaries of delegates to national conventions and the payment of \$50 to each delegate. The house passed 16 bills of its own origin and seven of senate origin and defeated one, Rep. Robinson's to permit poor authorities to contract with institutions for the care of dependent children. Thus a total of twelve bills were made ready for the governor's signature.

Those which ran the gauntlet of both houses are: Rep. Croll's to require state banks in small cities to keep but one-third of the required aggregate reserve fund on hand in currency. The aggregate requirement is 15 per cent of their deposits.

Rep. Foote's to allow any school district with 75 children of school age to establish a graded school.

Rep. Newkirk's fixing a penalty for raising a false alarm of fire.

Rep. Eaton's consolidating the justice courts of Saginaw.

Rep. Flowers permitting boards of supervisors to fix salaries of probate registers in certain counties.

Senator Bryant's joint resolution raising the limit of taxation for road purposes from \$3 to \$5 on each \$1,000 of assessed valuation.

Senator Forrester's bill to raise the tuition fee of rural school children sent to high schools to \$25 a year.

Senator Planck's extending good time to trustees at the prisons.

Senator McRae's authorizing the public domain commission to issue certificates of correction of land titles.

Senator Tutts' to make it possible to collect from the estate of a person cared for as indigent whenever the county learns of such an estate.

Senator Condon's to permit school districts in territory annexed to a city to vote on consolidation with city schools and providing for disposition of property in districts divided by annexation.

Senator W. W. Smith's permitting board of supervisors to fix compensation of county commissioner of schools.

Each week for some weeks past the prediction has been made that the prohibition bills would be next taken up. This time there seems no doubt about it. As a matter of fact, consideration of the Damon bill in the senate was begun last week, but the members got into such a tangle that it was moved to make liquor legislation a special order for this week Wednesday. The house made the liquor bills a special order for Tuesday, so that the week sees all liquor measures in the hands of the members to do with as they will. It has been proposed that once the house bills reach the senate, the Damon bill and all the house bills be referred back to the liquor committee of the senate and that body permitted to report out a satisfactory measure.

Here is the Situation on Prohibition Legislation in Detail:

The senate committee reported out the Damon "bone dry" bill, prohibiting the use, possession and transportation of intoxicating liquors for any except the purposes named in the constitutional amendment, and extending the prohibition to proprietary remedies which may be used as beverages. Senator Tripp introduced a substitute measure which he says cures defects in the Damon bill and in each of the house bills and is the only one of the lot which would be effective liquor. He puts all dispensing of liquors under the constitution in the hands of druggists, requires physicians to make affidavit of necessity if prescribing more than a half pint a week, forces druggists to keep a record of purchases and sales, as in the case of habit-forming drugs, that their business may be checked up, disbars druggists who have been twice convicted of liquor law violations. It requires that patent medicines containing more than 5% alcohol be sold on prescription only and permits sale of bay rum and witch hazel to barbers and liquor in two gallon lots to hospitals.

The house liquor committee has reported out the Wiley bill providing only machinery for enforcing the constitutional amendment of last fall, the McArthur bill which goes a step further and duplicates the Reed measure passed by congress prohibiting the shipment of liquor into the state for beverage purposes, the Lewis bill extending the authority and amending the title of the state dairy and food commissioner to permit his department to enforce the prohibition laws, and the Culver bill to require all liquor sold in the state under the constitution to be up to a prescribed standard which is to be set by the state food and drug commissioner. There are therefore six bills pertaining to regulation of the liquor traffic before the legislature. That the Wiley and the McArthur bills were sure to furnish grounds for battle in the house has been known all along. The amount of support that Tripp will have for his substitute for the Damon bill in the senate remains to be seen, though the brief passage at arms of

THE NEW DE LAVAL

ALMOST any separator will do fairly good work when it is brand new, perfectly adjusted and skimming warm milk from freshened cows. But a separator can't always be new, cows can't always be fresh, nor can you always separate your milk while it is at 85 or 90 degrees. In other words, your separating is done under practical conditions, and the sensible thing to do is to get a practical separator.

The NEW De Laval is the most practical separator you can buy

because it is the only separator that you can depend upon to skim clean under any and all conditions of milk and temperature, and to deliver cream of uniform thickness.

If you want to own a separator that will do its work better than any other, and do it without constant tinkering and adjustment, then the NEW De Laval is the machine to buy. While this statement has always been true of De Laval machines, it is true today to an even greater degree than ever before because of the many improvements in the NEW De Laval.

The new self-centering bowl which gives the machine greater capacity and skimming efficiency, the De Laval bell speed-indicator, which alone would be worth many dollars a year to a cow owner, the improved automatic oiling system and the many other improvements found in no other make of machine, make the NEW De Laval by far the most satisfactory separator to operate and the most profitable to own.

You can buy a NEW De Laval from us on liberal terms. Come in and examine the machine and talk it over.
