CELEBRATE 50TH WEDDING ANNIVERSARY.

On the evening of Saturday, May 12, about thirty of the relatives of Mr. and Mrs. George Culham, sr., gathered at their home in Tawas City to assist them in celebrating their fiftieth wedding anniversary.

At 7:00 o'clock a most delicious five-course dinner was served. The dining room was very beautifully decorated with pink and white carnations, which were presented Mr. and Mrs. Culham by the guests.

The evening was spent in social chat, story telling and singing and was concluded by singing, "Put On Your Old Gray Bonnet," which was a happy reminder of the days spent together fifty years ago.

Those present were Mr. and Mrs. Elza Laidlaw and family, Mr. and Mrs. George Fahselt and family, Mr. and Mrs. Joseph Waits and family, Mr. and Mrs. Edw. Graham and family, Mr. and Mrs. Carl Fahselt and Mr. and Mrs. Frank Dease, jr.

The many friends of Mr. and Mrs. Culham join in wishing them many more bright and happy wedding anniversaries.

A CHAPTER OF THRILLS.

Any movie corporation would have paid good money to see our fire department in action on Wednesday last, as the famous "Chapter of Accidents" was beaten seven ways. The various units of the department showed great consistency in distributing parts of their paraphernalia around the landscape. One part of the fire fighting apparatus deposited a tool box in front of F. F. Taylor & Co.'s store and neglected to stop and retrieve it. A car following, stopped to pick it up in order that none of the decorations should be lacking when they finally arrived at their destination. There also happened to be another immediately behind the one that was playing the part of the Good Samaritan and its driver seemingly thought that it was a U-Boat or something of the kind and as a patriotic American proceeded to ram it. This round was practically a draw; the rammer having a tire broken loose from its moorings and the rammer receiving a somewhat dilapidated radiator and a bent lamp, which gave it a slightly cock-eyed appearance.

As a culminating event of the day, one of the volunteer fire fighters from the Herald office upon coming back in a car going at a fair rate of speed became an exponent of the "back to the land" movement for on jumping from the car he endeavored to plow up a portion of Bay street with his olfactory organ. He luckily escaped with nothing more than considerable Tawas City real estate clinging to his person and a short temper.

NO FLAG—NO SCHOOL.
The young Americans of district number five, Sherman township, have proven their patriotic spirit, and shown us that they keep pace with the time.

Monday noon the pupils of district five met and called a strike, because they had no flag pole. Singing "America" they marched to their homes, declaring they would not return until a flag pole was placed. It is needless to say they were victorious and the following day saw "Old Glory" floating in the breeze.

SEE THE MAY MUSICAL FESTIVAL.

The Musical Festival to be held in the Methodist church tomorrow night, Saturday, May 19, under the auspices of the Epworth League promises to be the big musical event of the season. There are three arrangements of quartettes, ladies', men's and mixed, in addition to solos, duets, trios, and choruses, works of Donizetti, Verdi and Mozart taking an important part in the program. Miss Cecil Bonney will be accompanist. An orchestra completes a well rounded evening. The "Backward Man" will fill the intermission with laughter and paths. If you miss it you will surely be sorry.

FOOD PREPAREDNESS CAMPAIGN.

State Food Preparedness Agent R. E. Prescott of Lincoln, who is looking after the seed and acreage in Iosco and Alcona counties, was covering Iosco county this week, making preliminary arrangements and getting the work systematized. Mr. Prescott, who is a newspaper man, will cover the situation in this county in these columns from time to time.

To the Herald the food man stated that he believed the situation in Iosco county was as favorable as that of any in the state. From the reports now in it is found that there is on hand in the county plenty of seed of every kind to supply the demand, as indicated by our farmers to their supervisor. Aside from a few isolated cases, which will be attended to, nothing is needed in the way of help in order to produce a maximum crop. In this work the bankers and seed men of the county have been enthusiastically willing to help in every way that they are a live, enterprising group, and that they realize the gravity of the food situation.

As soon as possible, the food agent will try to see each farmer in the territory personally, but at present must see that the whole territory is supplied with seed, and as this is the immediate work, his whole attention will be devoted to this matter. Should any farmer in Iosco county need seed or money in order to make every available acre produce, the matter will receive immediate attention by writing to the office of the food agent at Lincoln, or by filing his request with any of the following gentlemen, who have agreed to act as advisory committee for the county:

Dwight Arthur, G. N. Shattuck, Hale; C. H. Ridegely, Whittemore; Fred Swartz, Tawas City; A. Barkman, Will Grant, East Tawas; A. B. Chrysler, Oscoda; and all supervisors in the county.

There is absolutely no reason why any worthy person wishing to plant anything should not obtain the necessary seed, as the agen makes all financial arrangements and obtains the seed if it can be gotten. In this respect there is an erroneous opinion prevalent that the state is furnishing money and seed. This is incorrect, as the state only sees that it is furnished.

BE KIND TO YOUR HORSE AND ALL DUMB CREATURES. IT SHOWS THE GENTLEMAN. adv

TAWAS CITY HIGH SCHOOL WINS

With the weather too cold for baseball and under threatening skies Tawas high school defeated Whittemore by a score of 16-4. The Whittemore boys did well for not having played baseball before. Much credit for Whittemore's runs was due to the inexhaustible lung power of the W. girls. A little comedy was furnished by several arguments over the rules of the game. They were all decided in favor of Whittemore in order to get the game finished before dark. A return game is to be played at Tawas City June 16. It was prophesied that the home team is to receive a severe beating.

BELKNAP-REYNOLDS.
A wedding of interest took place at the home of Mr. and Mrs. M. C. Robinson, 725 North Larch St., Wednesday at 10 o'clock when their daughter, Leila Marie Reynolds, was united in marriage to Lyle E. Belknap of Gladwin, Mich. With the strains of the Mendelssohn wedding march played by Miss Lillian Campbell, the couple unattended took their places before a bank of palms. Rev. H. H. Pitzer of the Franklin Avenue Presbyterian church performed the ceremony, using the ring service. The bride was prettily gowned in white Georgette crepe, trimmed in pearls, and carried a shower bouquet of roses and lilies of the valley. A color scheme of pink and white was carried throughout the dining breakfast was served. Guests from away were Mr. and Mrs. Earl Barnard and son, Ray, of Mt. Pleasant; Miss Ethel McDowell of Grand Ledge; Otis Pringle of Port Huron, a classmate of Mr. Belknap; Mr. and Mrs. H. M. Belknap of Whittemore, parents of the groom; Mrs. Anna Robb of Mason, and Mr. Robinson's mother and sister of Mason; Misses Gladys and Lenna Robinson of Mason. Mr. and Mrs. Belknap will be at home after June 1 at Gladwin, Mich.—Lansing State Journal.

NOTICE TO APPLICANTS FOR FARM LOANS.

I wish to advise all members of the Tawas National Farm Loan Association and all other applicants for loans, that I have been instructed by the Federal Land Bank at St. Paul that all applications for loans must be accompanied by abstracts of the property upon which the loan is requested, these abstracts to be forwarded with the applications. The abstracts must be brought down to date.

Also when making affidavit to your application, do so before a notary public with a seal. If made before a justice of the peace a certificate must be furnished from a court of record that he is a justice.

Please bear these points in mind when making your applications.

Mid-week service Thursday at 7:30 p. m. William Roberts, minister.

Mrs. Eli Miller left Thursday morning for Memphis, Detroit, Owosso, Port Huron and other points, where she will visit with relatives and friends for a few weeks. She was accompanied by her mother-in-law, Mrs. Paul Miller, who was on her way home to Memphis after spending the winter with her son in East Tawas.

BASEBALL.

Forcing the Oscoda high school to go to its limit last Saturday, the East Tawas high school team demonstrated that they could hit the ball when the occasion presented itself. The hitting by Applin and Thompson was the real event of the game. The game was characterized by some very good and some very poor playing on both sides. C. McGuire for the locals pitched a very creditable game, and had he had the right kind of support would have won his game without a doubt. The players on both sides were overly anxious in making plays and as a result errors were very much in evidence. The final score was 16-15 in favor of Oscoda. The lineup of the teams is given below:

Oscoda—Damerau 3rd, Camiff 2nd, B. Marks ss, Larson 1st, Bertan c, Lushniski p, L. Marks m, Curriel, Erickson r.

East Tawas—J. McGuire 3rd, Applin ss, Thompson 1st, C. McGuire p, Cooper 1st, Stuckney c, Hamilton 2nd, Taylor r, Roberts m.

The game with the Twining Independents on Friday was lost by the high school team by a score of 13-7.

BAD WEATHER FOR THE BBABIES

In the crusade for "Better Babies"—more correctly, healthier babies—the State Board of Health urges upon the custodian of baby's health, the importance of guarding exposure to cold and damp during the changeable spring weather. Older people ward off the effects of chill and damp by exercise such as required in performing the household tasks.

At floor level, the temperature is lower than at any other point and the child playing upon the floor, or near the floor, is subject to drafts not perceptible at higher levels. It should be borne in mind that on a cold, damp day as we are having this spring, the baby should be dressed in sufficient clothing to insure bodily comfort, but not be over-dressed. Many serious afflictions start with just a "common" cold caused by a little neglect during chilly, damp weather in early spring and occasionally in mid-summer. Mothers are therefore urged to bear in mind this very important matter in guarding baby's health.

ABANDON FOOD PREJUDICES

Don't be finicky. Be willing to try new foods. Certain plentiful and nourishing foods widely used and enjoyed in one section are practically unknown in other sections of the country. Learn to know all the good things; not a few only.

People too easily get into food ruts—insist on eating only the food they are used to and refuse to give a fair trial to others. This causes undue demand for certain staples, with resulting scarcity or high prices when crops are short. At the same time other valuable foods may be relatively cheap and available. A striking instance of this is failure fully to appreciate rice—a valuable source of starch—when potatoes are scarce and high. Another example is refusal in certain sections to use anything but wheat as a breadstuff when corn—a valuable cereal widely used elsewhere as a breadstuff—is plentiful and relatively cheap.

Cook food properly. Learn how to cook all kinds of staple foods and to serve them in a variety of ways. Simple dishes well prepared are better than expensive foods badly cooked.

Many persons are prejudiced against certain good foods because, when first tried, the foods were improperly cooked or prepared.

Remove from your vocabulary "don't like" or "can't eat."

Most individual prejudices against widely popular foods are either imaginary or baseless.</

“DO YOUR BIT.”

Do your bit—on the farm or in the trenches; in the Home Guard company or in the Red Cross; by making bandages or saving food. It's teamwork wins the modern war.

Which are you going to be young man, volunteer or conscript? The National Guard, made up of your friends is ready to welcome you. It will see as much service as any conscripted regiment—perhaps more than most of them.

The huge tabernacle on the city market in Grand Rapids, which has resounded for weeks to the thunders of Bob Jones, evangelist, as he exhorted the sinners, may be used as an airplane assembling plant. Furniture manufacturers are considering the manufacture of military air machines, each turning out a different part, and delivering them at a central building for the final test. Fast motorboats for submarine chasers may also be made and assembled in the Furniture City.

Edward J. Sharpe, religious director of the Grand Rapids Y. M. C. A., is fathering a plan to put Association boys who in past summers have enjoyed themselves in summer camps, at the disposal of farmers of the vicinity. The scheme has commended itself to the state “Y” authorities and may be used everywhere.

Young men had to go out in 1776 and face bullets that this might be a free nation, other young men went out in 1861 that it might endure; others gave their lives in 1898 that liberty might be extended. The young men of today owe a duty that is none the less as pressing now as it was in the past. How are they going to meet it?

Patriotism isn't in wearing the flag in your buttonhole or on the front of your automobile. That merely shows you claim to be patriotic. Prove your patriotism by doing your bit, no matter what that bit may be.

You can raise a lot of vegetables

on a plot 20 feet square in your back yard. Do it!

The woman of each community should see that every soldier who leaves for his regiment has a housewife, an extra pair of socks, an extra suit of underwear, and some handkerchiefs. This may save him discomfort for the government socks are none too plentiful.

The Red Cross helps the wounded soldier from the firing line back to the hospital. It may be your boy whose life is thus saved. Join the Red Cross.

JOIN THE SERVICE.

Lansing, Mich., May 14.—“In urging the enlistment of Michigan young men in the Federal service, there is one important point that the War Preparedness Board wishes to emphasize,” said Secretary of State Coleman C. Vaughan in a recent interview. “The man who takes the oath is obliged to serve only during the duration of the war. There will be no monotony and drudgery of barracks life for him after hostilities have ceased. He returns immediately to the walks of civil life.”

“There seems to be some misunderstanding as to the rates of pay. The enlisted soldier is furnished uniforms, arms and equipment. The allowance for uniforms is about 28 cents a day and what is not expended in clothing may be drawn in cash at the end of the enlistment period. It is possible to save, roughly, more than half of the clothing allowance. Subsistence is furnished free.

“The private gets \$15 a month, first class private \$18, corporal \$21, sergeant \$30, and higher sergeants up to \$45. The second lieutenant is paid \$1,700 annually, the first lieutenant \$2,000 and the captain \$2,400. There are bonuses for foreign service which increase the pay of all grades twenty per cent.

“It must be remembered that the state, through the War Preparedness Board, supplements the pay of the enlisted man with a pledge to take care of his family with additional funds which the legislature voted, up to \$20 per month for dependent wife or mother, and \$7.50 per month for each child. Then the Red Cross is also collecting funds for disbursement where needed.

“I believe that the man with dependents who enlists today can be surer than those whom he leaves behind will be comfortable than has been the case in any other war in our history.”

DRAIN ON FRENCH MANHOOD

Comparison With Other Wars Shows How That Country Is Feeling Effects of Grim Struggle.

One day last week I heard Stephane Lauzanek, editor of the *Matin* of Paris, say that one person out of every ten in France is a soldier in the war.

That is a terrifically heavy mobilization. In no American war has the number of soldiers in proportion to population equaled that.

During the entire eight years of the American Revolution 300,000 soldiers served under Washington. Had they all been in the army at once it would only have matched the present French mobilization; but there were never 100,000 soldiers in the Revolution at one time—less than one person in thirty of the population.

About one in twenty, counting militia who never heard the whiz of a bullet, was the best they did in the war of 1812.

The war of Mexico required only one in 200.

Mobilization in the Confederate states during the Civil War was heavier than in the Union states. The biggest Union army in the field at one time was about 1,050,000, or one out of every twenty of the Northern population.

The war with Spain called out only one man from each 300 population.

Recently I heard a member of the Canadian parliament say that Canada had raised 400,000 troops for this war, which makes the drain upon the Dominion's manhood just half that in France.

Were Russia to call out its fighting strength, as France has done, the czar's army would embrace 17,000,000 soldiers.

Verily, in the grim language of Bismarck, on another occasion, France is being bled white.”—Girard in *Philadelphia Ledger*.

SHOT SHOWED HIDDEN RICHES

Long Search for Valuable Mineral Ended Through the Medium of a Lowly Jackrabbit.

That the Forty-niners who fought their way against great odds across the continent to California's goldfields did not locate all of the precious metal in the state, or extract all of the romance from the hunt for precious metals, is shown by a recent report of the United States geological survey on the tungsten deposits of Inyo county, California. The deposits were found in Owens valley, in Deep canyon, among the foothills of the Sierra Nevada, by prospectors who were looking not for tungsten, but for gold. In August, 1913, they located the first claim. They were mining placer gold, and found that the concentrates which they obtained were difficult to clean because the gold was invariably accompanied by a heavy white mineral. This troublesome material proved to be sheelite, one of the chief ore minerals of tungsten, and when its identity and value became known, search for it was soon begun. The quartz float over a large area was broken open in vain during a search that covered 18 months. One of the prospectors took a day off and went hunting for rabbits. He shot one as it was jumping among some garnet rocks, revealing some of the long-sought sheelite. He stacked his claim, called it Jackrabbit claim, and by the summer of 1916 the claim was the center of great activity, and two mills, with a total daily capacity of 400 tons a day, were in active operation.

Surprising Auntie.

The following, related by the *Achtson Globe*, is one little boy's idea of a pleasant surprise party: Little Fritz Krueger, a Globe carrier, recently was unfortunate enough to break his leg. Soon after the accident he learned that his aunt, Miss Doranthea Krueger, would arrive within a day or two from Crete, Neb., and he urged his parents not to inform his aunt that he had broken his leg. “I want to surprise her when she comes,” the little fellow said. When his aunt did arrive she assumed to him that she had not learned of his accident. On going to his bedside, she asked him why he had gone to bed so early. “Cause I was tired,” he said, but finally he added that a surprise party was in store for her. Then he threw back the covers and showed the cast of his leg and smiled triumphantly. It was his idea of the most successful kind of a surprise party.

De Morgan Left Unfinished Novels.

William De Morgan was a man of charming personality, and also of amazing industry. When twitted once about the lengths of his books, he replied: “My next will be a million words.” He possessed an extremely kind heart and always visioned the best in people. His own very happy life is reflected in the characteristic optimism in his work. He left two very fine novels unfinished.

Carrier Pigeons in Warfare.

The value of airplanes in the war is partly due to the speed of the carrier pigeons taken aloft and released with messages. Should the airplane be shot down the bird may accomplish the task the man set out to do. In the French army alone it is said upward of 15,000 carrier pigeons are used daily.

FOLLOW THE FLAG.

It is the right of the American people to enjoy a monopoly for their own flag within their own jurisdiction; it is the right, and should be the duty, of those who follow their flags to follow them elsewhere.—*The Century Magazine*.

One country, one constitution, one destiny.

It is related that a private in the army of the Potomac was sentenced to be shot for sleeping at his post of duty. In some way word of the approaching execution came to the attention of President Lincoln, and after writing out a reprieve he called his carriage and started out to see that the reprieve did not fail to reach the poor condemned soldier. It was a broiling hot day and the ride to camp was a long one of ten miles, but the great-hearted Lincoln was bent on saving the poor soldier and he went forward. Perhaps the president later forgot the incident amid weightier cares of state, but not so the soldier. When the Third Vermont charged upon the rifle pits before Yorktown the following year the enemy poured a volley upon them. The first man to fall was William Scott of Company K, with six bullets through his body. His comrades caught him as he fell and as his life blood ebbed away, he raised to heaven amid the din of battle, the cries of the dying and the shouts of the enemy, a prayer for the president, and as he died he remarked to his comrades that Lincoln had showed he was no coward and was not afraid to die. At the burial later the chaplain narrated the circumstances to the boys who stood about with uncovered heads. He had prayed for the president and paid him a most fervid and glowing tribute with his dying breath.

Lamb's Money. Cecil, aged four, had often gone with Aunt Elsie to the garden to weed, and had asked the names of the different weeds, and was told that one was lamb's-quarters. Several days later he went to the garden for lettuce, and called excitedly: “Oh, come quick, Aunt Elsie; here is some lamb's money.”

THE NEW DE LAVAL

ALMOST any separator will do fairly good work when it is brand new, perfectly adjusted and skimming warm milk from freshened cows.

But a separator can't always be new, cows can't always be fresh, nor can you always separate your milk while it is at 85 or 90 degrees. In other words, your separating is done under practical conditions, and the sensible thing to do is to get a practical separator.

The NEW De Laval is the most practical separator you can buy

because it is the *only* separator that you can depend upon to skim clean under any and all conditions of milk and temperature, and to deliver cream of uniform thickness.

If you want to own a separator that will do its work better than any other, and do it without constant tinkering and adjustment, then the NEW De Laval is the machine to buy.

While this statement has always been true of De Laval machines, it is true today to an even greater degree than ever before because of the many improvements in the NEW De Laval.

The new self-centering bowl which gives the machine greater capacity and skimming efficiency, the De Laval bell speed-indicator, which alone would be worth many dollars a year to a cow owner, the improved automatic oiling system and the many other improvements found in no other make of machine, make the NEW De Laval by far the most satisfactory separator to operate and the most profitable to own.

You can buy a NEW De Laval from us on liberal terms. Come in and examine the machine and talk it over.

Clerk read minutes of previous meeting and they were approved as read.
Mr. R. G. Hartingh presented a request from the common council of Tawas City to permit Mr. Hartingh to act on the board to represent Mr. John Preson, supervisor from 1st ward, he being absent from the city.
Moved by Minor, supported by Burt, that R. G. Hartingh be given a seat on the board.
Motion carried.
Mr. Hartingh took his seat.
Moved by Schroeder, supported by Gurley, that the county clerk send certified copies of all the proceedings in connection with fixing the salary of the sheriff at the October meeting and the action of rescinding the same at the January meeting of this board to the attorney general and that the prosecuting attorney obtain the opinion of the attorney general if this county can under the circumstances legally pay the salary of the sheriff

Moved by Belknap, supported by Searle, that the bill of sheriff for salary be deferred until the prosecuting attorney receives the opinion of the attorney general on this matter if the opinion of attorney general shows this to be a legal charge that the county treasurer pay the bill at once.
Motion prevailed.
To the Hon. Board of Supervisors:
Gentlemen:—In the case of Flynn and Wilkins vs. Iosco county, I beg leave to report as follows:
That the matter of transfer of the case has been ordered before Judge Emerick at Alpena. I am now waiting the final decision of the court as to where the case shall be tried.
Judge Emerick is inclined to set the case to be tried in the Bay county circuit, but has not rendered a final decision, so the matter rests there for the present.
F. F. FRENCH, Prosecuting Attorney.

Moved by Nunn, supported by Searle, report of prosecuting attorney be accepted and spread upon the records.
Motion carried.
Committees ordered to retire, balance of board to be at ease.

EARLY PLANTING GIVES BEST YIELDS OF CORN.
East Lansing, Mich., May 15.—Planting of corn as early as weather conditions will permit, in order to give the crop the benefit of the longest possible growing season, is mentioned by the farm crops department of the Michigan Agricultural College as a move which will make Michigan fields team more than commonly.
"The largest yields," according to the state agronomists, "usually result from comparatively early planting. May 10 to May 15 is usually a safe time to plant in southern Michigan, after May 15 in central Michigan, and late May to early June in northern Michigan. The old advice of the Indians, to 'plant when the leaves of the white oak are the size of squirrels' ears' is not far from correct."
"The depth to which to plant will vary with the nature of the soil. On a heavy loam, or clay loam, if the ground is wet, about one inch is proper. On light soils, or if the seed bed is dry, about two inches is the best depth. Three kernels per hill in the southern half of Michigan, and four kernels, in the northern half usually give best results when the corn is checked. Rows should be from 40 to 42 inches apart in the southern section of the state and from 36 to 38 in the northern part.
"If the seed is drilled, the kernels should be dropped 14 inches apart, in rows 38 to 42 inches apart. Weeds can be more easily controlled if the corn is checked, but drilling returns a slightly larger yield.

ALABASTER SCHOOL NOTES.

The Alabaster Senior club will hold an open meeting Thursday, May 17. At the last meeting of the club it was decided that instead of the usual games in the social hour a certain topic of general interest would be discussed. The topic for this week will be, "The Duties of the County Agent." The members who will take an active part in the discussion are John Mielock, Julius Anderson and Irene Benson. Anyone interested may attend this meeting.

The pupils of the school are taking an active interest in the club work for this summer, which is shown by the work they have done in the "Boys' Handicraft" and "Girls' Garment Making" clubs and by the successful organization of three more clubs for the summer work.

The members and officers of the "Bean Growing Club" are: President, John Mielock; vice president, Julius Anderson; secretary and treasurer, Arthur Spring; Edward Oates and James Mielock.

The girls who will take part in the canning contest are: Irene Benson, President; Alice White, vice-president; Grace Anderson, secretary and treasurer; Lillian Spring, Doris Doby, Hattie Doby, Lulu Baker, Mary Mielock, Alice Brown, Clara Mielock. Alice White has been elected county representative and Ruth Anderson as local club leader.

The members of the Gardening and Marketing club are: Alice White, President; Grace Anderson, vice-president; Margaret Baker, secretary; Lillian Spring, Doris Doby, Florence Phelps, Hattie Doby, Lulu Baker, Mary Mielock, Margaret Baker, and Clara Mielock. Charlie White and John Mielock were elected club advisers and Ruth Anderson local club leader, with Cecil White as assistant leader.

A farewell party in honor of Mr. Habel Miller was given by the pupils of the school Wednesday evening, May ninth. Games were played and light refreshments served. A number of school and patriotic songs were sung by all. As a token of the high esteem in which Mr. Miller was held by the school children a very beautiful silver drinking cup was presented him. All feel the utmost regret at Mr. Miller's departure.

The people in the play are working hard on their parts. A date will soon be set for the presentation.

Which one of our high school boys will receive the title of poet laureate?

The eighth graders are all glad that the "exams" are over. We hope that all were successful.

The twelfth and eighth grades held a class meeting Tuesday, May 15, in which they decided several items concerning the graduation.

The high school pupils enjoyed a vacation last Thursday and Friday, owing to the fact that the eighth grade examination was held in the high school room. Miss Nyda Campbell conducted the examination.
