IOSCO COUNTY'S 43D ANNUAL

FAIR

Sept. 26, 27, 28

Now promises to be the best yet

GOV. SLEEPER and several more of Michigan's public men have been invited and have signified their intention to be present and speak on the first day of the Fair, which will be "IOSCO COUNTY'S PATRIOTIC DAY." There are also three good horse races billed for that day. More good races and a ball game is scheduled for Thursday the second day. Friday will be up to the other days in all respects. In fact it will be three of the biggest days' Fair held in this part of the State.

One of the Big Features of this year's Fair will be the Pig exhibit by the Boys' Pig Clubs of the County. There has been a goodly number of these organized in the county this year through the effort of the Northeastern Michigan Development Bureau, and one of the requirements is that the pigs must be exhibited at the Iosce County Fair. To encourage the boys in their effort the Society is offering several prizes.

Several of the Schools of the county will compete for prizes well worth winning, and all these exhibits will make up a combination of very attractive and interesting features.

Let Your Slogan be---

INSURING OUR FIGHTING MEN

The plan of Secretary of the Treasury McAdoo for life and indemnity insurance for the soldiers and sailors of the United States, after discussions by representative insurance men and report on by advisory committees, has been put in definite form and submitted to President Wilson.

The President's comment was as follows:

"I have examined the enclosed papers very carefully and take pleasure in returning with my entire approval."

A bill has been introduced in Congress along the lines suggested by the Secretary of the Treasury and approved by the President.

In essentials it is proposed that the government furnish at cost to the soldiers and sailors of the United States life and indemnity insurance.

The main features of the Secretary's plan are that the government shall bear all the cost of the administration of the insurance plan and that no expense of any kind shall be a charge on the funds created by the payment of premiums by the soldiers and sailors. Relieved of over-head charges, eight dollars a year for every thousand dollars insurance will be an adequate charge, under the plan, and this figure will put the maximum insurance of ten thousand dollars within the reach of practically every private soldier or sailor. Insurance in private companies would cost many times this sum for men actually engaged in warfare.

After the war the insurance may be converted into other forms. The insurance is to be payable in installments, is non-assignable and free from the claims of creditors of the insured or of the beneficiary, and is limited to the wife, children, and other specified kindred.

If total disability results or disease is contracted in the course of service, the compensation is to be used on percentage of pay, with a minimum, however, of from forty to seventy-five dollars a month according to the size of the family. Partial disabilities are to be computed on a basis of percentages of total disability.

Medical, surgical and hospital treatments, supplies and appliances are to be given. Rehabilitation and re-education of the injured soldiers or sailors, fitting them for lives of activity and usefulness is part of the plan.

The plan also contemplates free allowances to the families of soldiers and sailors the government supplementing the sums set aside by the soldiers and sailors out of their wages.

The insurance is not to be a gift of the government but is to be paid for out of the pay of the insured men. The government, however, is to take upon itself the cost of collecting and administering the funds and also the extra hazard caused by the war, the rate of eight dollars per thousand being a normal rate in peace time and an entirely inadequate rate for war risk.

Secretary McAdoo emphasizes the justice and rightfulness of such a function of the government by citing the fact that in this war we are not relying upon the volunteer system but are drafting American men and compelling them to undergo danger and, if necessary, make the supreme sacrifice for their country. A higher obligation, he says, therefore rests upon the government not only towards the fighting men but towards those dependent on them and a just, generous and humane government should see to it that so far as is practicable they should be given this protection, not as a matter of mercy or charity but as a matter of right. And that they should enter into the service of their country with the certain knowledge that if death or misfortune comes to them they and their dependents are protected by insurance afforded them by their government as part of the compensation for the service they are rendering their country.

In conclusion Secretary McAdoo points out that while this plan may call for considerable expenditures at present, yet the eventual cost to the government of this plan will be very much less than that which would result from the adherence to the present pension program of the country, and, further, that the pension system will not provide the same benefits nor cover the subject in the same comprehensive, humane and equitable way.

There is no use to which the funds derived from the sale of Liberty Loan Bonds can be put which will be more cordially approved by the people of the country than to provide this just and deserved protection to the men who are braving all the dangers of this war on land and sea in the service of their country.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.
