## ANNUAL MEETING OF IOSCO RED CROSS CHAPTER

The annual meeting of the Iosco Chapter of the American Red Cross for the election of officers was held at the court house, Wednesday afternoon, the 10th inst. The board of supervisors were in session at the time but kindly took a recess to allow the meeting to be held in their room. In the absence of the chairman, Mr. George A. Prescott, the vice-chairman, Mr. James E. Dillon, presided. The call for the meeting was read by the secretary, who stated that the call was made from the headquarters at Washington, and furnished to the executive committee to be elected under the by-laws would consist of twelve members, four to be elected for one year, four for two years and four for three years.

The secretary reported that there were 937 members enrolled in the county, with five women's branches in the various communities who were doing good work, a large quantity of knit goods and hospital supplies having already been turned in to the secretary, which would be shipped to Chicago at once.

The treasurer made a full report which will be published as soon as audited by the auditing committee.

The following members were then elected:

For one year—G. A. Prescott, W. B. Murray, H. J. Jacques, and Burley Wilson.

For two years—W. J. Robinson, C. W. Luce, A. R. Weir and F. F. Taylor.

For three years—J. E. Dillon, N. C. Harting, J. G. Dimmick and L. G. McKay.

The meeting was informed that the board of supervisors had appropriated the sum of \$250 for the work of the Iosco County Chapter by a unanimous vote, and had further, by a rising vote expressed their appreciation of the work being done by the women's branches throughout the county.

Resolutions were offered thanking the board of supervisors for their generous action in voting the appropriation and for their expression of approval of the work being done, and for their courtesy in permitting the use of the room at the time they were in session, which were adopted unanimously.

A further resolution was adopted recommending that a copy of the Red Cross Magazine be placed in every school room in the county and that County School Commissioner Campbell be requested to advise all school boards to comply with this recommendation.

The board of directors will meet in a few days and elect officers for the ensuing year.

**FROM KENNETH WEBSTER, A U. S. MARINE**

Through the courtesy of his mother, Mrs. Thornton, we are enabled to publish a portion of a letter written to her by Kenneth Webster, who is now serving with the United States Marine Corps in Santo Domingo. Many people do not realize the eagerness with which the boys in the service look for news from the home folks, but this letter may give some idea and we hope will prompt the friends and relatives of our soldier boys to be more regular in their correspondence.

"I am well and getting along fine so there is no need for you to worry about me. I do not think I will be sent to France this winter, possibly may stay here all winter. Can not say for certain because we may be ordered almost anywhere, at any time, during the war."

"I have only one year and nine months to do this enlistment now, possibly the war will be over with by then, and I can be home again. The time will not be long in passing by."

"I am glad now I enlisted when I did. Undoubtedly I would have been called back now and it would have been a harder blow to you now than it was then. You miss me, I know, but you have become accustomed to me being in the service. I suppose a good many homes are feeling the loss of their darling sons. A little military training may do the sons good, but the mothers are the ones who suffer. It is for a good cause, though, and everyone should make some sort of a sacrifice for our country. If we must die for it, what more glorious death would a person want to die."

"I was almost certain that Jack would not be called because of his health. I hope he is feeling better now. I wish I could be there to help you all."

"I have not heard from Jack, Alta, the girls, or anybody except you, for over three months. I guess they have forgotten me. If they knew how much a letter is appreciated they would be more prompt about writing. I do not know what I would do if I did not get your letters."

My address is Private Kenneth S. Webster U. S. Marine Corps, Headquarters of 2nd Prov. Brig. Santo Domingo City, S. D. Care Postmaster, New York City.

## PATRIOTIC DAY NEXT MONDAY

GOVERNOR ASKS EVERY CITIZEN TO JOIN IN OBSERVANCE.

## SCHOOLS WILL HAVE PROGRAMS

Every Schoolhouse in Michigan to be Center of Patriotic That Evening.

Every resident of Michigan has been asked by Governor Albert E. Sleeper to take part in the monster Patriotic Day celebration which is to mark the state's start of the Liberty Loan campaign on October 15.

Governor Sleeper has sent the following telegram to all Michigan county school commissioners:

Detroit, Mich., Oct. 5, 1917.

With Michigan's sons going forth to defend the nation the people of the state must stand as one man behind them and provide a full share of whatever financial support may be required; must do wholeheartedly our part in the world conflict. I have designated Monday, October Fifteenth as patriotic day, when all the people of Michigan may show by their participation in public meetings and demonstrations that they stand ready to furnish the financial sinews of the war which their sons and brothers will wage overseas. I am asking that a meeting be held in each of the eight thousand schools of the state the evening of October Fifteenth with a program suitable to the occasion. It is of vital importance that every man, woman and child in all your school districts join in an enthusiastic patriotic demonstration of their loyalty to the government in its time of need. I am depending on you to instruct all the teachers in your county to arrange a program for such meetings and urge that you cooperate with the chairman of your county Liberty Loan Committee that speakers and organization leaders may be provided in every district. Let us put a light in the window of every one of the school houses of Michigan on that evening that all may see and know how our state meets its obligations in support of American fighting men on the field of battle.

ALBERT E. SLEEPER, Governor.

A similar telegram was sent each county Liberty Loan chairman, urging their cooperation with the school commissioners.

In accordance with this telegram Commissioner J. A. Campbell has sent a letter to each teacher in Iosco county asking that they prepare a suitable program for the evening of October 15, consisting of patriotic songs, readings and recitations and urging that they give full publicity to the meeting in order that every man, woman and child may turn out on this occasion.

The county Liberty Loan committee is cooperating in the movement and it is hoped to have enough speakers so that one or more may be present at each school house and assist in the program and organization.

Michigan's share of the second Liberty Loan is one hundred twenty-four million two hundred and fifty thousand dollars, and it is hoped that this was the allotment of the first loan. Our boys at the front must have the necessary equipment with which to fight and must be furnished with sufficient nourishing food and warm clothing in order that they may be kept fit for the arduous work ahead of them. America has entered the war with a high purpose and in order that this purpose may not fail every citizen must do his utmost to carry on the war to a successful conclusion. It is only through victory for our armies and those of our allies that a permanent peace may be brought to the world and we must not fail in our undertaking, and to succeed the government needs money, more money, and yet more money. And this money which is to carry on the war must come from the savings of every man and woman. The banks and wealthy people of the country absorbed most of the first loan, and they will take a large portion of the second loan. But even our immense financial institutions cannot underwrite loans to the amount that our government must have. The billions of dollars necessary to the conduct of the war must come from the small investors, the people who have \$50, \$100 or \$500 that they can invest in government bonds. It may mean sacrifice on the part of some, yet it must mean sacrifice, for it is better that we deny ourselves the luxuries and perhaps some of the necessities to which we have been accustomed than that our cause should fail and our armies be defeated for lack of financial assistance.

We are not asked to give our money to the government, but only to loan it. And as an investment the purchase of a government bond is the

safest and surest use to which money can be put. They pay four per cent interest, are non-taxable, and are convertible at any time into cash if one so desires. As collateral for a loan there is nothing better and it will be surprising if within a few years the bonds now being issued are not quoted above par. And every fifty or one hundred dollars invested in one of these bonds means another blow struck for world freedom.

We cannot all fight in the trenches, but we can let our dollars fight for us, and the financial assistance we give will be just as effectual in winning the war. Our brave soldier boys are offering their lives in the cause of world freedom from an autocratic form of government and we shall fail in our duty if we do not provide them with everything with which to fight successfully.

The issues of this war have been sharply drawn and it behooves every patriotic citizen to do his share. Buy one of these bonds of the second Liberty Loan and then scrimp and save and buy another one. Your boy may be at the front or preparing to go there. A number of our Iosco county boys are now in training and we must not let them suffer because of our neglect or parsimony. Iosco county's share of this loan is \$72,500. This means that about every twelfth person in the county must take a \$100 bond, or every sixth person a \$50 bond. Of course there are many who will take a larger amount, and there are many who can take none but in order to make up the amount the average must be maintained.

Not since the Civil war have our people really known what it means to sacrifice for the public good, but now they must learn the lesson again. Our fathers and mothers gave their all gladly and willingly that this country might indeed be "the land of the free," and this generation must rise to the occasion just as freely and willingly in order that the battle for world freedom may be decisively and permanently won.

Don't be a laggard in this matter. Don't wait to be coerced or cajoled into doing your duty, but step forward at once and open your purse strings to the widest, that our government may have no concern but that its citizens will respond to its needs however large they may be.

Buy your Liberty Bond NOW.

## A LESSON TO AUTO THIEVES

It appears that there are a number of young fellows around the Tawas who have been making free with other people's automobiles for joy riding purposes, and last week some of them got a lesson that they will no doubt remember.

Last Friday evening they broke into the garage and took out the machine belonging to W. A. Evans of East Tawas, and when they got through with it the machine was considerably smashed up. Mr. Evans still retains some of the detective instincts which he acquired while sheriff of Wexford county and chief of police of the city of Cadillac, so he set about discovering the culprits. He found them without a great deal of trouble and forced them to settle for the damage done, and it is probable that those same fellows will hesitate before taking another auto.

Mr. Evans informs us that he will probably not prosecute in this case, but if the practice keeps up the joy riders will eventually find someone who will not be so lenient and they will land in the county jail with a criminal charge against them.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. **DR. IRVING E. SANDERS**  
Bay City, Mich.

Will again visit Tawas City, Mich. and will be at Hotel Iosco (Parlor Suite) on Thursday, the 18th day of October, 1917, for ONE DAY ONLY. Hours, 9 a. m. to 8 p. m.

holding a Dispensary Clinic for all his patients having appointments and others who may want to see him. Dr. Sanders is too well known to most people in this locality to need any introduction except to newcomers. Having practiced medicine in most of its branches for more than forty-five years in Ohio, he is known from one end of the state to the other as a great Medical Expert in the Diagnosis and Treatment of Chronic Diseases of MEN, WOMEN and CHILDREN.

The hundreds of chronic sufferers cured give testimony to the truth of this assertion. Come and see some and talk to others who will meet, and be convinced.

No matter how long you are ailing, or what the nature of your ailments are, how many doctors you have seen, or what has been done for you. Go and see Dr. Sanders. Your visit will cost you nothing and at last you will meet a man, grown old in the service of humanity, honest, up-right, sincere, qualified, well recommended and able. He will examine you thoroughly and scientifically, thus diagnosing your case and tell you just where the trouble is and what to do to get rid of it.

Dr. Sanders treats MEN, WOMEN and CHILDREN afflicted with Chronic Diseases, that is to say, diseases of long standing. If you are now in the care of your family physician, and he is doing good work, do not come and take up his valuable time, as in that case he will not see you. If he can help you, he will tell you so, and give you such treatment, remedies and advices as will restore you to perfect health. If your case is not curable, he will give you such advice as will relieve and may prolong your life.

CONSULTATION and EXAMINATION at this visit is FREE. YOU will be charged only with the actual cost of the treatment required to affect your cure, which at all times will be reasonably moderate. Under no circumstances will he take a case for treatment that can not be cured.

This is not a scheme to trick you out of your money, not a C. O. D. snare or anything that it is not strictly ethical and according to law. Come and be convinced, and find at last that you are not hopelessly doomed to suffer for lack of expert medical skill and knowledge and that you may obtain perfect health for less money than you spend on patent medicine.

NOTE: If you have pain in the back bring a two-ounce bottle of urine for chemical and microscopical examination and analysis. Minors without parents or guardians not admitted to examination rooms. Calls to private homes \$10.00. Consultations with physicians by appointment only. Remember the date. Hours, 9 a. m. to 8 p. m.

# To The Farmers of America

You farmers of America are the backbone of the nation. You provide the wheat and corn and oats and meat and milk that enable us to live. You provide everything that goes upon our tables. You have furnished tons and tons of food to feed our soldiers and to feed our allies. Your sons and brothers by the tens of thousands have shouldered guns and gone to fight the Prussian hordes just as other farmer boys went out to fight the enemies of Freedom in 1861 and 1776.

But the United States now faces a far more cruel and deadly foe than it did in '61 or '76. It faces a foe that stops at nothing, a foe that tortures wounded soldiers and poisons wells and butchers women and girls and innocent babes.

And to fight this foe we've got to have more than food and men and guns. We've got to have MONEY. We've got to have billions and billions of dollars—or else we'll LOSE THIS WAR and the Prussian fiends will do to American farms what they did to the farms in France and Belgium. They'll destroy our orchards and growing fields as they destroyed the farms and growing fields of France and Belgium. They'll poison our wells as they poisoned the wells over there. And on those farms that they don't destroy they'll make Americans work as slaves under guard of German guns to fill the graneries of Germany and to fill the coffers of Berlin.

Not only that, but they'll torture our wounded soldiers and torture our wives and mothers and violate our girls and butcher our babes, because that's the Kaiser's idea of making war. That's why we appeal to every farmer in America now to buy U. S. Government Liberty Bonds and buy AS MANY OF THEM AS HE POSSIBLY CAN.

We need every dollar that can be raised. It is just as important that every farmer buy all the Bonds he can possibly take as it is that he raise all the food that he can. It is just as important to buy Liberty Bonds as it is to send your boys across to the trenches to fight. For the brave American boys CAN'T POSSIBLY WIN unless we back them up with all the money we've got.

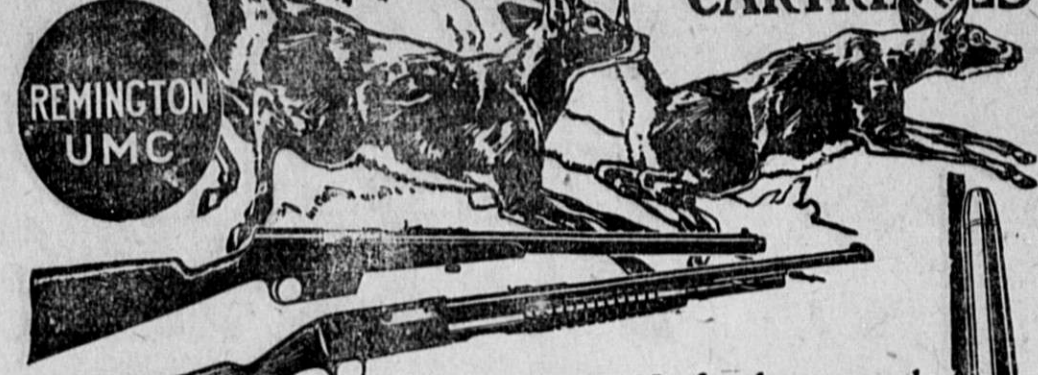

We urge you to go to the nearest Bank and arrange to get your Bonds at once. U. S. Government Liberty Bonds are the safest and surest form of investment in the world. You will get 4% interest on your money, and if you should ever need to you can sell your Bonds and get the cash, or you can borrow money on them. Moreover your income from these Bonds will be free from all state, county, municipal and normal income taxes.

We have reached a period when every man of honor must be willing to strain a point to help the United States. What good would your farms be to you if Germany should win? What good would your houses and barns be to you if America lost her freedom and was crushed beneath the iron heel of Prussia? What good would ANYTHING be if American farmers were reduced to the condition of the down-trodden peasants of Germany and our American women and American girls were made to work in the fields and be hitched to carts with dogs as the women of Germany are?
