FOOD TOO HIGH SAYS PRESCOTT

State Ration Director Finds Wide Variation in Dealers' Prices.

Lansing, Mich., Oct. 25.—"Exorbitant" is what State Food Administrator Prescott calls some of the prices retailers are getting for foodstuffs in Michigan.

This afternoon Mr. Prescott was handed the concrete result of a survey made by the dairy and food department October 1. On that date Commissioner Woodworth had his men try the prices in 46 towns in the state. They priced eight different kinds of canned goods, 16 different cereal products, three dried fruits, sugars and syrups, nine fats, five vegetables and 12 kinds of meat and fish.

Flour Prices Vary \$1.32 a Sack. The differences between the high and low prices is what caused the explosion from Mr. Prescott. For instance, flour, one of the most important of all staples is priced from \$2.40 to \$3.72 in 49 pound sacks. This is the best of No. 1 flour. The low price is obtainable in Ann Arbor and Adrian, while the top notch of \$3.72 is reached in Holland.

Rye flour which in these days of war breads and substitutes to be used on wheatless days, runs from \$1.20 a 24 1/2-pound sack in the village of Rockport to \$3 for the same sized sack in the city of Allegan, less than 50 miles away. A 10-pound sack of Graham flour could be bought in Manchester for 55 cents, while in Alpena on the same day it cost \$1. There was a big price variation in ordinary soda crackers sold in bulk. In Alpena they were six cents a pound, while in Grand Ledge they were 22.

Canned goods did not have nearly so large a range, but when the prices of the three dried fruits listed by the department are looked at a return to "exorbitant" is noticed. Prunes sold for 10 cents a pound in Traverse City and Pinconning, while in Otsego on the same day they were 35 cents. Evaporated apples were 11 cents at Tawas City and 25 cents at Traverse City.

Granulated sugar shows a range only of from 9 to 11 cents, butter from 44 to 51 cents, leaf lard from 26 to 33, oleo from 28 to 37, but olive oil has the big space of from 62 cents to \$1.50 a quart tin. It was low in Highland Park and high in Port Huron. The state average is \$1.03.

Cottontseed oil varied from 50 cents to 98 cents, corn oil 61 to 80, milk 7 to 12 a quart. American cheddar cheese 28 to 35 cents a pound.

Fresh eggs were low at 39 cents in Allegan and high at 50 in Detroit, Highland Park and Pontiac. The state average on eggs was 44 cents.

Potatoes High in Detroit. White potatoes ran all the way from 90 cents a bushel in Alpena to \$1.87 a bushel in Detroit. Sweet potatoes were \$1.25 a bushel in Alpena and \$4 in Sault Ste. Marie. The potato state average was white \$1.25 a bushel, sweet \$2.70 a bushel.

Staple cuts of meat showed little variation, but when it comes to the fish the range of price in some cases was very marked. Salt mackerel were only 12 1/2 cents a pound in Battle Creek, but 40 cents in Manchester. The average was 22. Salmon sold in Lansing at 15 cents a pound and in Manchester 40. The state average was 25.

Salt cod ranged from 21 to 30, while halibut steak was 22 cents a pound in Holland, Greenville and Manchester and 50 cents a pound in Port Huron with an average over the state of 27 cents.

White fish was 15 cents a pound in Lansing and 28 cents a pound in Dundee.—Detroit Free Press.

DEATH OF ALBERT H. SHORTT. Albert H. Shortt died at his home in Tawas township last Saturday, November 3, after a short illness with pneumonia.

Albert Henry Shortt was born in Brighton, Ontario, January 5, 1863, and was therefore 54 years and 10 months old at the time of his death.

In 1881 he was united in marriage to Eliza Calcott, and to this union two sons were born, Albert and Robert, the latter of whom survives him. Mrs. Shortt died October 20, 1888.

In 1889 he was united in marriage to Anna Charles of Stirling, Can. The family resided in New York state for a time and 13 years ago moved to Michigan and Iosco county. They resided in Reno township for 11 years and for the past two years in Tawas township. Three daughters were born to the latter union, Mrs. Ellen Daugherty of Reno, Mrs. Martha Murray of Tawas City, and Mrs. Emma Fitzgerald of Medina, N. Y. Besides these there are left to mourn his demise, George, Wesley and Robert, all of New York, and five grandchildren.

The funeral was held at the Reno Baptist church on Tuesday, Nov. 6, Rev. Charles McKenzie, pastor of the M. E. churches of the Whittemore circuit officiating, and the remains were laid to rest in the Reno cemetery.

Deceased was well liked in the community as was evidenced by the large attendance at the funeral, and the family have the sincere sympathy of a large circle of friends in their bereavement.

EFFICIENCY IN A DAIRY. By strapping a milk stool onto the part of his anatomy where a milk stool would be likely to do the most good, each milker on a California dairy ranch saves just that much time and labor at milking time.

Willful waste makes war-time want

THE ENEMY WITHIN THE LINES

So you, too, would be in favor of this country going to war with Germany, if the enemy were coming over here to fight!

If the Germans were on their way all loyal Americans would rally to the standard of liberty, to defend the nation from invasion by the Huns? Ah, then you would be willing to have that son of yours, that husband, that father, that brother join the colors in your defense! "But why," you say, "should we get into the struggle when the quarrel is none of ours, and when there is no immediate danger to us?"

Any man or woman who hands out this line of talk is as much an enemy of our country as the German within the lines. Why do you wish to wait until Germany sends her brutal forces over here? Do you want this struggle carried on, on our own soil, industries of which we, as a nation, are less farms, factories, and all the industries of which we, as a nation, are so proud? Do you wish to wait until the German forces have disembarked on our own shores, to fight us on our own ground, to destroy our own property, and cause the face of this beautiful land to become as disfigured by the struggle as that of Europe has already become? Then why, in the name of common sense, do you suppose the north fought so desperately to confine the struggle to southern territory during the Civil war? Would we gain anything by waiting until the Germans were here in our own land, rifling our own homes, murdering our own women and children, as they have already done in Belgium?

Do you realize that if we had let freedom's cry of distress pass unheeded, and Germany had indeed won this war, that in a few years she would have recuperated enough to wage war upon us, for complete conquest, with all of Europe to draw upon to supply her fighting force?

Wake up to the sense of the nation's danger, and to a sense of your own responsibility in a matter of such grave importance! "I didn't raise my boy to be a soldier," may be very well in time of peace, but it has no place in a time such as this. Of course we didn't raise our boys to be soldiers, but the fact still remains that the Kaiser did, and we can't back off like the small boy and say, "Mother said I mustn't fight." His comrades are not to be blamed for calling him a "sissy." Who does not respect the chap whose coat comes off when he feels that someone else is trampling on his rights, and endangering his personal liberty?

This nation was left to us by an unbroken line of liberty-loving ancestors as a sacred heritage in trust for the coming generations. Our work is to transmit that trust, intact, to the next generation. Our forefathers bled and died on a hundred battlefields that we might enjoy the blessings of liberty and prosperity.

SCHOOL SANITATION

By J. A. Campbell, Commissioner of Schools, Iosco County

The question of school sanitation is of vital importance to the present generation from the fact that America's youth spend about thirty hours of each week for nine or ten months a year too often in very insanitary school rooms.

It is difficult to arouse public sentiment in many communities to the great need along these lines because of the vigorous men and women produced under the old regime. Modern science is slowly but surely breaking down this wall of prejudice that has so long encircled us. The majority are being convinced that health may be safeguarded and life prolonged by heeding the admonitions of the State Board of Health and other agencies.

Many of our Michigan school districts, I am afraid, cleanse and purify their rooms two or three times a year. Poor floors are a fruitful source of clouds of dust and are ideal for the cultivation and dissemination of harmful bacteria. Good hardwood floors, properly oiled, are a necessity. I need not add that they should be kept clean and well disinfected. Proper heating, lighting, ventilation and seating, prime essentials, are too often sadly neglected. The old box stove of past days is yet too often in evidence. How we have pitted the overheated child seated too near the source of heat, also the cold one remote from its influence. A proper heating and ventilating system should be installed, so that all parts may be equally warmed and foul air quickly removed.

The water supply in many schools is a menace to the community's health. Shallow wells, filled with surface water or too low in times of drought, are the source of many typhoid epidemics. Each school should be supplied with a proper drinking fountain or at least a tightly closed water jar. In the latter case, the water in the jar should be frequently changed.

Outdoor closets used at present should be abolished. Their place should be taken by a sanitary indoor closet system. The outdoor closet has not only been a menace to health, it tends to lower the moral nature of the children.

We screen our doors and windows to keep out the obnoxious fly. Should we not also do the same to our school house openings?

Medical inspection of schools at least once a month is a modern necessity. America's problems in the future require a clear vision, virile race to solve them. Neglect the school child and you sap the vitality of the future men and women.

We may differ in religion, politics, etc. The public school is common property. We are all equally interested. Let us, as intelligent people, be one in meeting and solving its sanitary problems.

In my county, much is being done in the right way. The intelligent people of Iosco will do their share.

A GREAT PATRIOTIC DUTY. The War Work Council of the American Y. M. C. A. has offered its equipment, its great organization, its men, to the armies of the nation to give pleasant, home-like club rooms, entertainment, clean pleasure, whole-some friends, a bit of home to the boys Michigan and the other states are sending out to go over the top of that last dread line of trenches in the world's war for democracy.

Not for any religious sect, not for any private organization with theoretical plans for service, but to a great national organization that is already doing the job of greatest service in army camps and on battle fronts is the money asked in the Y. M. C. A.'s war fund campaign.

Michigan people are asked to give not on a promise of service some time to be performed but on the pledge of service that is being fulfilled day by day in the Y. M. C. A. camp at Custer.

DID YOU KNOW THAT— The power contained in the waterfalls of Norway has been estimated at 10,000,000 horsepower? Japan's last rice crop amounted to 298,466,706 bushels?

Up to March 1st 875 motor car licenses had been issued in Bangkok? The world's tin smelting capacity is estimated at 137,600 tons?

The U. S. imports a third of a billion pounds of wool yearly? It is estimated that \$350,000,000 will be spent for tires this year?

Two thousand gallons of air is a grown up person's allowance for twenty-four hours. The first treaty with China which opened its ports to foreign trade was signed in 1842?

NOTICE TO FARMERS. Farmers, I am in the market for more hides, more chickens, more eggs and junk. Don't sell it to any buyers who buy on commission. Sell to a regular dealer and be sure you make more money. Don't sell your stuff before you see me. I can please you with the top price. Deliver Fridays and Saturdays.

HARRY P. DOREY, DECEASED

Harry Potter Dorey, of Wilber, passed away last Monday morning at 1:30 at the home of his sister-in-law, Miss Edna Otis, in this city. Mr. Dorey had been suffering with anaemia for the past year. About six weeks ago he was taken to Chicago for treatment. He returned to East Tawas on October 27, there being no hope for his recovery and was taken to the home of his sister-in-law.

Harry Dorey has been a resident of Wilber since the fall of 1907. He was born June 25, 1862 in Pennsylvania. On October 15, 1903, he was united in marriage to Miss Clara Otis of East Tawas, the marriage taking place at Duluth, Minn.

Funeral services were held from the M. E. church Thursday afternoon, Rev. Samuel Howarth officiating. Interment was made in Greenwood cemetery.

Relatives left to mourn are the wife and four children, three sons and one daughter, also two sisters and one brother. One sister, Mrs. Henry Drummen and brother, O. H. Dorey of Chicago were in attendance at the funeral.

Many friends in the Tawas and vicinity extend their sincere sympathy to the sorrowing family and relatives.

President—Miss Helen Applin. 1st Vice-pres.—Mrs. Adelbert Trudell. 2nd Vice-pres.—Mrs. Ernest Schreiber. Secretary—Mrs. Ernest Cecil. Treasurer—Mrs. George Lake.

MR. MANUFACTURER, INCREASE YOUR GUARD

While manufacturers of products closely associated with the war activities of the country are no doubt fully warned about the presence everywhere of secret enemies there seems to be no need for the destruction of property which under guard might have been saved. A dispatch from Lansing yesterday tells of what appears like an attempt to destroy a large canning factory. This incident follows closely after the destruction of Parke, Davis & Co.'s serum plant at Rochester, this state, an institution whose products are among the necessities of army preparation.

If the various fires which are consuming huge quantities of products are merely incidents in the day's history it is rather peculiar that the good consumed are invariably connected with some phase of preparation. It is rather difficult for Americans to realize fully the nature of a perfectly arranged spy system which has been applied in peace and war times by the Central powers. As a class they are more unsophisticated than nationalities more or less under the direct influence of centralized governments, and nationalities, too, which being close together are more or less suspicious of each other. It is difficult even in war time for the people of the United States to believe that their property is in danger from aliens who are secretly at work in this country. But it would seem that the revelations of the past six months would have been warning enough. Having found the German foreign office at Washington knee deep in the mire of intrigue it ought not to be difficult to see that while the head and front of the demoralizing and plotting influence is gone from America its operators are still in different parts of the country ready to do the bidding of Potsdam.

That this country is infested with men who are secretly serving Berlin is not to be doubted. Manufacturers and food supply houses will be on the safe side if they increase their guard. The various fires over the country may be mere incidents but they have a most suspicious appearance.—Detroit Free Press.

THE BEST MEN IN THE WORLD

The best men in the world are serving the United States in this war. They are in the trenches, on the training field, in the government offices, in all of the war and navy departments, and in all branches of the service helping to carry on a successful war.

Have you heard anything about politics lately? Have you heard of a man being chosen for a position because he was republican or a democrat? Never.

Republicans, democrats and prohibitionists have all joined hands, forgotten politics and are bending every effort to help old Uncle Sam along. We regret that we cannot give as much praise to the socialists.

If the government needs a good man for any job it has it sends out a rush order for him and he drops whatever business he may have on hand and joins the colors. That was the way with Frank A. Vanderlip, New York banker. He serves the United States without a dollar reward. Now we read of John P. White, president of the United Mine Workers of America being called to Washington to help the fuel administrator. The country needs him and he obeys the call.

When we go up and down the whole list of loyal citizens who are giving their best efforts to the government in supporting the boys on the battleships and in the trenches,

we cannot bring ourselves to believe that there can be anything but a victory for our flag and our government in the dispute across the water. —Bay City Times-Tribune.

SOLDIERS WANT MINCE PIE

"Like Mother Used to Make"

Along the lines of the military encampments, mince pie proves to be prime favorite with the boys in khaki—from the noble little private straight up to the commanding officer all admire "great cats." They want the kind they used to get at home.

And as one piece of mince pie goes a long way toward a meal, the efficient American housewife is not slow to appreciate that she can turn this to advantage in her own home.

NONE SUCH MINCE MEAT is made just as the best housewife makes the best mince meat in her own kitchen. The package recipes are good for pies, cakes, puddings, and cookies.

Bake a NONE SUCH WAR PIE—no top crust. Saves flour, shortening, labor, money—half the cost. Good, too. In this way you help the U. S. Food Administration.

For economy NONE SUCH is the leader, for it comes in a paraffin-lined package which prevents waste, and is cheaper than bulk mince meat bought by the pound. The package weight increases three times its weight when the necessary moisture is added. It costs only a few cents—is absolutely clean and keeps like fruit cake.

DR. IRVING E. SANDERS

Will again visit Tawas City, Mich., and will be at Hotel Iosco, (Parlor Suite), on Saturday the 17th day of November, 1917, for ONE DAY ONLY
Hours 9 a. m. to 8 p. m.

holding a Dispensary Clinic for all his patients having appointments and others who may want to see him. Dr. Sanders is too well known to most people in this locality to need any introduction except to newcomers. Having practiced medicine in most of its branches for more than forty-five years in Michigan, he is known from one end of the state to the other as a great Medical Expert in the Diagnosis and Treatment of Chronic Diseases of MEN, WOMEN and CHILDREN.

The hundreds of chronic sufferers cured give testimony to the truth of this assertion. Come and see some and talk to others you will meet, and be convinced.

No matter how long you are ailing, or what the nature of your ailments are, how many doctors you have seen, or what has been done for you. Go and see Dr. Sanders. Your visit will cost you nothing, and at last you will meet a man, grown old in the service of humanity, honest, up-right, sincere, qualified, well recommended and able. He will examine you thoroughly and scientifically, thus diagnosing your case and tell you just where the trouble is and what to do to get rid of it.

Dr. Sanders treats MEN, WOMEN and CHILDREN, afflicted with Chronic Diseases that, in a way, is a disease of long standing. If you are now in the care of your family physician, and he is doing good work, do not come and take up his valuable time, as in that case he will not see you. If he can help you, he will tell you so, and give you such treatment, remedies and advice as will restore you to perfect health. If your case is not curable, he will give you such advice as will relieve and may prolong your life.

CONSULTATION and EXAMINATION at this visit is FREE. YOU will be charged only with the actual cost of the treatment required to affect your cure, which at all times will be reasonably moderate. Under no circumstances will be take a case for treatment that can not be cured.

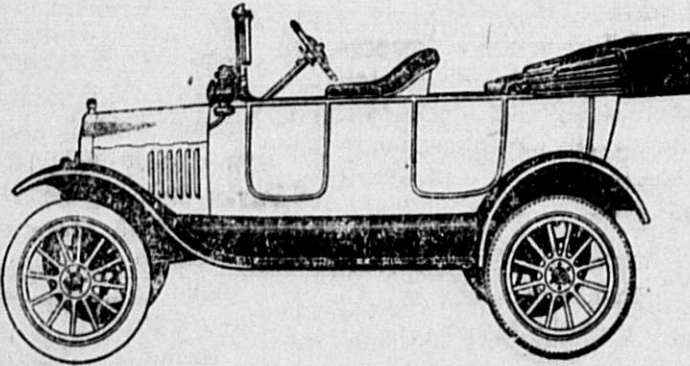

This is not a scheme to trick you out of your money, not a C. O. D. snare or anything that is not strictly ethical and according to law. Come and be convinced, and find at last that you are not hopelessly doomed to suffer for lack of expert medical attention and analysis. Minors without parents or guardians not admitted to examination rooms. Calls to private homes \$10.00. Consultation with physicians by appointment only. Remember the date. Hours, 9 a. m. to 8 p. m.

 To the Hon. Board of Supervisors:
 Your committee on finance and apportionment have examined the accounts of the county treasurer, Joseph G. Dimmick, of receipts and disbursements for the fiscal year ending October 8, 1917, and respectfully report that we have compared and checked all vouchers in the hands of

said treasurer with his cash book and find said accounts correct and find a balance on hand, Oct. 8, 1917, v. s. \$44,388.05.

We have also compared the several amounts of the receipts by said treasurer with the clerk's account of the same, and find that said accounts agree.

Your committee further report that we have examined the bank books of Joseph G. Dimmick, county treasurer and counted the currency in his hands, and we find that the same agrees with the amount reported by your committee to be cash on hand, which is \$44,388.05.

Removing Fence Posts Easily.

Fence posts of considerable size may be removed readily by hitching a chain around the post near the ground and passing it over a piece of 2 by 4 stock set at a slant against the post. A horse hitched to the chain can withdraw large posts by means of the leverage on the chain and the pull of wood.—Will Chapel, Manchester, Ia., in Popular Mechanics Magazine.

You say, "But what has that got to do with my buying Neponset?" Simply this: The larger the shipment the smaller the price. Where the average store buying five rolls must get the regular seventy-five cent price, this amount brings to us a factory demonstration and a sale price of Fifty-nine cents per square yard, and YOU are the winner.
 We've given Neponset the war test the past four weeks on the sidewalk in front of our store. Monday is your chance to give it the price test. Fifty-nine cents per square yard.
 Come in and let us show you this new-found floor covering. Lies flat on the floor without tacking, glueing or pasting. Will not curl up at the edges. Better than ordinary linoleum, absolutely waterproof.
