C. A., there would have been mutiny and revolution here. That is where we get our comfort and cheer.' The Association has been providing amusement as well as warmth for the fighting forces; it has provided athletics wherever pos-Tourists from abroad complain that sible, and in other ways has relieved the soldiers from the strain whenever they have had a chance to obtain that wholesome life and play which takes

> a man away from his troubles. Many persons who do not understand the work of Association men in army camps seem to think that the secretaries remain far back from areas of danger, and are sheltered from harm. To correct this wrong impression, it may be said that in one of the districts I visited nine per cent of the Association secretaries had been either killed or wounded in three weeks of heavy fighting. But these secretaries know that their work is of great value to the troops. One of them remarked to me, "These would be the happiest days of my life if I only knew that eventually I would return to my home.' Of course he could have no assurance as to this, and he knew, probably as well as any one, of the many Association workers who have been killed while in performance of their duties.

> "It is no wonder that the soldiers say 'The Young Men's Christian Association men are not quitters!' The troops have seen the war secretaries stand under fire and shell as steadily as the soldiers have themselves, and go right along with the troops as they make their charge, and set up their dugouts, quickly getting ready for

Mr. Crossett could quote instance after instance of the great value to the French army, as well as to the British, of Association work. The American Association directs work in several of the French foyers, near one of which, not long ago, were about 100 soldiers on leave, going to their homes. They had been under tremendous strain for a long time; they were blue and discouraged. Also they thing to eat. As a result of it they were blaming the Government for their pitiable condition, and for the suffering of their families, and had started to raise trouble when the leader at this Association hut went out to them and said:

"Come around to the foyer, men, and we'll see what we can do for Rock chickens. Mrs. A. Anderson, Si-

Our school enjoyed an unusual treat ing. Here fresh tea was made, and with a fine program upon invitation set out fresh for the men who came of the teachers. Mr. Holmes played to the hut when relieved of their several very beautiful selections from A two-line report of a Kentucky terrific strain in the front line the classics, and Mr. Sutherland sang those trenches, and I am sure this school training. Mr. Holmes closed the

THE BATTLE OF REDS VS. BLUES Following is a report of the Y. M. C. A. campaign by the school in Alabaster, in which the Reds won and the

Blues scored a withdrawal.

the latter by a blue ribbon.

The Alabaster school children chose as their two captains for soliciting in the Y. M. C. A. funds Irene Benson and John Johnson, the former being Improved and unimproved land and assisted by Carl Erickson and Marguerite Baker; the latter by Florence Phelps and Clara Mielock, the one being represented by a red ribbon and

The campaign resulted in a collection of \$57.41; the Reds collecting \$26.90 and the Blues \$24.91. The U. S. G. Co. donated \$5.60, proceeds of the moving picture show which was given at an admission of 5c to adults and children free. One of the features in the closing of this campaign at the theater was Private Rollin, formerly of Tawas City. Mr. Rollin was asked just what could best be sent the boys, to which he responded that perhaps pie would be best or perhaps candy. When told that our school children soon intended to send pie, cake, candy and jelly, he said wouldn't they be rich.

When asked just how our boys received these things, also letters, he answered, "They swing their arms in the air and beckon to their companions and they come without coaxing where either letters as well as sweets are shared!"

Mr. Rollin was asked just how pro-German people were handled and he exhilited a terrible weapon that the wri'er did not take time to determine wheher it was a German Krupp or a cowboy revolver, aand said something about starting or clearing out.

When asked about the medal which he wore, he said, "O, that is nothing all the Michigan boys are going to

WHAT PIE FOR THANKSGIVING?

Who ever heard of a real Thanksgiving dinner without mince pie?

It can't be done. There may be cakes and cookies and puddings and all kinds of sweet things but unless there is minee pie there just isn't any real Thanksgiving dinner.

And since it takes mince pie to top off the feast dinners, wouldn't it be a good idea to have mince hie to top off many of the other good meals? Wouldn't it just make the meal on many occasions? As you probably know, NONE SUCH MINCE

MEAT comes in an up-to-date package form-secure from handling; is moderate in price and becomes three times the package weight when you add the necessary moisture. It is the economical way to buy mince meat because it prevents waste.

The package recipes are good for pies, cakes, puddings, and cookies.

Try a None Such War Pie-no top crust. Saves flour, shortening, labor, money -half the crust. Helps the U. S. Food Administration.

The pie that is good enough for Thanksgiving dinner is good enough for all other meals-breakfasts, lunches, suppers, and in the dinner pail. Try it with None Such MINCE MEAT.

Saves All Wasted With Other Stoves For Hard Coal, Soft Coal or Lignite

The waste of gas in burning hard coal is shown by opening the magazine cover of an ordinary base burner, when the oxygen supplied fills the entire stove with flaming gas. Cole's Hot Blast stove burns this gas in hard coal which, in ordinary stoves, escapes, on account of their leaky construction, causing great waste and endangering health and life when it escapes into the rooms.

In the ordinary magazine hard coal stove, three-fourths of the coal is partially consumed in the magazine, where it gives off no heat, as it is not in contact with the radiating surface. The onefourth of the coal in the fire pot must be kept at a white heat combustion to throw the heat into the rooms, thus causing great waste.

Cole's Original Hot Blast The combustion chamber and the magazine are combined in this

stove and the Combustion is Perfect. The stove is filled to the top of the inside cast iron lining. This large body of hard coal is burned under perfect control by means of the absolutely air-tight construction of the stove giving perfect control over the drafts. The coal is kept at a slow, economical cherry red combustion and as the heat is in direct contact with every square inch of the sensitive steel radiating surface, all the heat is radiated into the room where it is wanted and not blanketed in and sent up the chimney. Hard coal at Cherry Red Combustion burns 48 hours, while at white heat it is consumed in from 2 to 5 hours.

Sold Under a Positive Guarantee

We Guarantee Cole's Original Hot Blast to use less hard coal for heating a given space than any base burner with the same heating surface.

Requires attention only morning and night with hard coal. Warm rooms day and night. No escaping gases to endanger life. The heat wasted up the chimney with other stoves is saved.

Burns Any Fuel—Saves Half

Cole's Hot Blast is not only a perfect hard coal stove, but is generally recognized as the most economical and cleanest soft coal stove made. Soft coal is half gas and a \$3.00 ton of soft coal or a \$2.00 ton of slack is made to do the work of \$9.00 worth of hard coal, as the gas half is utilized as a heat producer. It burns soft coal, hard coal or wood without any change of fixtures.

Scientific Construction

Cole's Original Hot Blast has an absolutely air-tight and gas tight construction throughout, by reason of its numerous patented improvements. The patented Hot Blast draft saves the gas. A patented steel collar connects the elbow draft to the stove body and cannot be made to leak air by action of the fiercest heat. The patented compound hinge on the ash door cannot warp and the door closes air-tight by its own weight. The heavy fire box protects the joints, where other stoves burn out first. The guaranteed smoke-proof feed door prevents smoke, soot or dust from escaping into the room when fuel is put into the stove. Perfect cleanliness, therefore, from soft coal. CAUTION. Like all original improvements, Cole's Original Hot Blast has many imitations: They are failures, because they do not have the above patented features. The words "Cole's Hot Blast from Chicago"

Burning

HARD COAL

We have a few medium and small sized Cole's Hot Blast and other heaters which we are offering below their real value.

will be found on the feed door of every Cole's Hot Blast. None genuine without it.

If you are working your main room stove overtime, put one of these smaller stoves in a nearby room. You will stop the unpleasant draft in the rooms, and reduce your fuel bills, besides saving your larger heater from early destruction.

AW, SHUX! If Adam had taken a tumble to himself, he never would have fallen.

"UP TO YOU" SAYS EMPEY

Arthur Guy Empey, American boy who went into the British army after the Lusitania disaster, who served two years, who came back to write that great book "Over the Top," says in America's greatest newspaper, the New York

"Then," he went on, with a change of tone, and with admiration in his voice that showed how he felt before he had got to the end of his sentence, "there is the Y. M. C. A. You people in America ought to do everything you can to help the Y. M. C. A. It is the real home of the American soldier in France. It can't give him his loved ones, but it gives him the comforts and interests and pleasures of home. It brings home to him there in the mud of the trenches. And those Association men aren't drawing any wonderful salaries, either; they are volunteers, and they are in the midst of the mud and the firing, as the soldiers are, to make the soldier comfortable and help him maintain the religion and the manliness that he had when he went into the war. The Y. M. C. A. doesn't make any distinction in any way-Protestant, Catholic, Jew, atheist, every one is welcome.

"Show me the soldier who makes a disparaging remark about the Y. M. C. A. or its work, and I'll show you a soldier who is a detriment to the army, who is constantly in trouble, and who has lost the respect of officers and mates. It's up to you people here at home to help the Y. M. C. A."

Have you done your bit?

Procrastination is the Thief of Time

Perhaps you have no surplus money at the present time that you want to place in a bank account. But you expect to have at some future time, at "harvest time" perhaps, whatever it may be that you expect to harvest. Don't procrastinate any longer make your start today--Come into our bank, deposit one dollar and we will loan you without charge an individual savings bank that no one can get the money out of until you bring it back to us. Drop your spare change into this bank, a nickle now, a dime then and almost before you know it you will become a capitalist and be able to take advantage of the chances to make money that come to every one who has a little money to invest.

Come in and talk it over.
