A WELL FOUGHT FIRE

Heroic Efforts of Firemen Save the Business District From Severe Loss

At about 8:30 Tuesday morning the alarm of fire was sounded, a blaze having been discovered in the back part of the old Bay Side hotel, occupied at the time as a residence by Samuel Proper and family, who had just moved in last week.

A high wind was blowing, and for a time it looked as though the entire block west of the burning building would be destroyed. The Tawas City volunteer fire department was on the ground a few minutes after the alarm was blown, and soon had two streams of water playing on the fire. The engine was pumping from the bay and soon became plugged with sand, and it was necessary to transfer to the river. While this was being done the fire gained considerable headway, and it was only by most heroic work that the adjacent buildings were saved.

A call was sent for the East Tawas department, who quickly responded and cannot be too highly praised for the able assistance they gave. They brought along some of their hose, but as it was of a different size from that used here it could not be used until a D. & M. By engine was run down to Hamilton's crossing, when the East Tawas hose was coupled on to the engine and thereafter gave good service.

The next building, toward which the wind was blowing directly, was only about 14 feet from the old hotel and everyone who saw the fire has expressed their wonder and admiration at the work of the boys in confining the fire to the one building and preventing its spread to adjacent ones. The stock from H. W. Buckle's hardware store, Mrs. Huston's shoe store and from the restaurant were all moved out and across the street. This work proved to be labor lost, though at the time it was done it seemed that nothing could save these buildings.

Someone also telephoned to Whittemore and Hale for help and several cars from the former place and two from Hale came down, the latter bringing their chemical fire extinguishers, which however they found no occasion to use. The impression went abroad that the whole town was burning up, and the telephone central was kept busy answering inquiries.

The building that was destroyed was one of the oldest in Tawas City, having been erected in 1868 by Stephen Haskell for a general store. It was for a number of years used as a hotel, having been remodeled for that purpose by Mr. VanWey and was the property of his estate when it was destroyed. It was later used as a hotel by different parties, but has been vacant for some time, except as it was once or twice used for residence purposes.

A TRAGIC ACCIDENT

Percy Allen Killed by Car Turning Turtle Last Thursday.

On Thursday evening of last week while Percy Allen was returning from an auction sale in Reno township, his car, which he was driving at a fast speed, struck a piece of loose sand in the road and turned turtle, killing him instantly. The car turned completely over and was found lying several feet from the body at the side of the road. He had suffered only one wound, some part of the car striking the back of his head on the first turnover and crushing a hole in his skull.

There were no eye-witnesses of the accident, but neighbors shortly discovered what had occurred and medical help was summoned, though of no avail. The body was carried to his home, which was only about sixty rods from the scene of the accident, and his relatives and friends were notified.

Two wheels were smashed completely on the auto, and the car was otherwise damaged.

Percy George Allen was born in Reno township on April 28, 1892, and died April 4, 1918, aged 25 years, 11 months and 24 days.

On December 24, 1913, he was united in marriage to Miss Joan Campbell, who preceded him in death a little less than a year on April 18, 1917.

To this union two children were born, one of whom died in infancy, the other, a little daughter aged four years, being left to mourn the loss of both father and mother. Besides the little daughter there are left his father, one sister and two brothers, besides a number of other relatives and a host of friends.

The funeral services were held Sunday afternoon at two o'clock from the Reno Baptist church. Rev. McKenzie of Whittemore officiating, and was one of the largest funerals ever held from that church. The remains were laid to rest in the Reno cemetery beside those of his wife.

A NUMBER OF SMALL FIRES

During the past week a number of fires in East Tawas have been reported. The latter part of last week a small fire started at Bonney's garage, but was extinguished without having to give the alarm. On Monday morning at 7:30 the alarm was sounded and the fire department was called out to the home of C. A. Bonney in the First ward. The fire was soon out, with little damage except from water.

Tuesday morning the alarm was sounded for help from Tawas City. The Bay Side hotel was reported on

fire, and the East Tawas fire department was called, and by the help of the combined work of the fire departments the buildings nearby the hotel were saved. Shortly after this alarm, another alarm was sent in, the barn on the premises of Will Sedgeman's property having caught fire from sparks flying from an engine. The East Tawas Reserve fire department hurried to the town hall and were soon running down the street with the second hose cart. They comprised W. B. Murray, J. W. Tait, Elgin Gates, J. W. Appin and Bob Thibault. After going some distance they gave out, and Mr. Hilton F. Pinkerton and G. Herman came to their assistance. Finally, they met a horse and he hauled the cart the rest of the way, but on reaching there they found their exertions were all to no purpose, as the men from the D. & M. shops had extinguished the fire. All honor is due, however, to the heroic East Tawas Reserve fire department.

KEEP THE ICE BOX CLEAN

"An ice box which has an unpleasant odor is indicative of poor house-keeping," says a statement issued by the United States Department of Agriculture. "Any food dropped or spilled from dishes placed in the refrigerator," continues the statement, "should immediately be removed and the soiled spot cleaned. Once a week at least the ice box should be emptied and thoroughly cleaned with warm water containing soap or preferably washing soda and household ammonia at the rate of two tablespoonsful to a gallon of water."

"The drainpipe leading from the ice compartment should not be forgotten. It may be cleaned most easily with a brush having a long wire handle or a swab may be made by winding a cloth on a round stick small enough to pass through the pipe. Some ice boxes are constructed so that the drainpipe may be removed for washing. After thorough cleaning, the interior of the ice box, including the drainpipe, should be scalded with plenty of boiling water and then rinsed in cold water. The refrigerator should then be dried and aired before putting in the ice and food."

"Here are some suggestions for preventing odors in ice boxes:

"(1) Keep refrigerator clean; (2) keep milk, butter, and eggs covered to prevent absorption of foreign odors; (3) put foods with strong odors like fish, into closed receptacles; (4) temperature before putting them in the refrigerator; (5) don't keep onions and bananas in the ice box."

Now is the time to clean up the accumulations of rubbish which have been gathering through the winter. Ashes, tin cans, etc., may be necessary but they are not ornamental.

Potatoes.

Potatoes, be patriotic, don't let them sprout or rot. Sell them and buy Liberty Bonds.

THIS PAPER HAS ENLISTED WITH THE GOVERNMENT IN THE CAUSE OF AMERICA FOR THE PERIOD OF THE WAR

THIS IS LABOR'S WAR

This is labor's war. No element of the people of this country, or of other countries, would suffer more than the workers from a German victory—a German peace.

What the Germans mean by a "strong peace," a "German peace," was recently expressed by Gen. Von Liebert, a leading Prussian conservative.

"For us there is but one principle to be followed, and we recognize no other. We hold that might is right. We must know neither sentiment, humanity, consideration, nor compassion. We must have Belgium and the north of France. France must be made to pay until she is bled white. We must have a strong peace."

Mr Gompers spoke well for American labor when he said,

"The Republic of the United States is not perfect; it has the imperfection of the human—but it is the best country on the face of the earth, and those who do not love it enough to work for it, to fight for it, to die for it, are not worthy of the privilege of living in it."

"I say to the Kaiser, I say to the Germans, in the name of the American labor movement. You can't talk peace with the American workers; you can't talk peace with us; you can't talk to us at all now. We are fighting now. Either you smash your Kaiser autocracy or we will smash it for you."

The workingmen of America have a tremendous interest to serve, a vital cause to defend, a work of surpassing importance to accomplish. What is vital to them is vital to America and to the world. That they see their duty and the great mass of them are performing it with unimpeachable loyalty is a cause for congratulation to the Nation and to the world.

HOW ABOUT YOUR CREDIT?

Can you get anything you want to buy on credit? In nine cases out of ten the man who answers this question affirmatively is a man who has very little charged on the books of his local merchants. The man whose credit is good uses it sparingly; pays his accounts and has small occasion to borrow from others.

Credit is not favor, it is not an implied compliment but it is poor

business. In the first place, it is poor business on your part because it will lead you to extravagance. You will spend more money when you charge things than when you reach in your pocket and pay the fare as you go. The merchants realize that extended credit is poor business. Your credit is your business alone. You must take care of it; make other people respect it and respect it yourself.

PERSONAL HYGIENE AND DISEASE PREVENTION.

Personal hygiene plays a prominent part in the prevention of disease, and simple as it seems, there is a lot of good sound sense in the suggestion that frequent washing of the hands is a means of prevention. Remember that the three F's—fingers, flies and filth—cause many of the preventable diseases, and you will readily appreciate the wisdom of personal hygiene in this respect. Here are a few suggestions along this line:—

Be suspicious of the person with a cold. Scarlet fever, diphtheria and measles begin with cold.

Keep away from a house where you know there is a case of scarlet fever, diphtheria, measles or whooping cough.

Do not neglect a sore throat. It may mean serious illness. Call in a physician.

Do not spit if you can help it. Never spit on the floor or sidewalk.

Do not put the finger into the mouth.

Do not wet the finger in the mouth when turning the leaves of books.

Do not put pencils, money or pins into the mouth. Food and drink are the only articles that should be put in the mouth.

Never cough or sneeze in a person's face. Cover the mouth and turn your face to one side when coughing.

Keep your face and hands clean. Wash the hands with soap and water before each meal.

Get in the garden campaign that will begin shortly. A home garden will help out in these days of high prices.

W. S. S.—BUY THEM!

THE IOSCO COUNTY AGRICULTURAL AGENT.

By C. P. Milham.

The real purpose of county agent work is to assist in the development of a type of permanent agriculture which will yield to the farmers a reasonable return for labor and capital, and stimulate a desire for the best use of these profits in the advancement of all that pertains to more satisfying country life. The county agent is the personal agency through which the State Agricultural College, the experiment station and the United States Department of Agriculture offer the results of their research and experiments in a personal way to the farmer.

In every county there are many skilled farmers, the lessons of whose success the county agent makes available to all. In the broadest sense he is a teacher. His classroom is the county, and his laboratory the farms. His teaching, if possible, is by object lessons and by demonstration rather than by books. Demonstrations illustrating the improved methods provided for are carried on in co-operation with a number of farmers. When results are apparent field meetings are held in order that farmers may see the results and determine their value. It is the business of the county agent to find good farmers who have carried on some experiment that will be of benefit to all who may see it.

By the time this article is off from the press the county agent will have a car with which to visit farmers on their own farms, to talk over problems, and to demonstrate the best, easiest and cheapest methods of doing things. Another article appearing elsewhere on the treatment of oat smut should be studied carefully from time to time articles like this will appear in time to make application of them. It has been proven nearly every time that treated seed will yield a greater profit by at least five dollars per acre than untreated seed. Too much importance cannot be placed upon the necessity of properly treating smutty oats. If anyone is desirous of purchasing corn, oats, barley, potatoes, or any kind of seed, the county agent will do all in his power to locate same. Also if a man has any of these seeds to sell, the county agent should be informed so he may act as the medium by which the buyer and seller can be brought together.

Immediate action on both of these ideas should be taken by the farmers. The success of a county agent depends on the amount of work the people of the county get him to do. He is here to be of as much service as possible to the greatest number of people. If the county agent does nothing, it is because the people are not asking for anything. Use the county agent. There are no fees connected with the work he does, and you are at liberty to put him to every possible use. The more you find for him to do, the better he will like it.

To get the county agent by phone, call 28-F-21, and some one will answer the phone. He will be in the court house, Tawas City, in the old prosecuting attorney's office, every Saturday. Call and see him, or ask him to come and see you. The sooner you are acquainted with him, the sooner all will be working together to put Iosco county agriculturally and socially in a better position in respect to other counties. People in the country co-operating with the county agent can do it. They have done it in other counties of our great state. Let us "do it now" in Iosco.

Will You HELP Bring Back The Boys of This Community?

Our boys, the boys from this town and this county and this state, are fighting the Huns. They are in the trenches in France, they are sailing the U-boat-infested seas, they are going "over the top" in the face of German cannon and machine gun fire.

Many, many more of our boys are now training and will soon be in France, and more are yet to be called.

And, remember, these are our boys; those who are near and dear to us. They are doing their ALL. They are giving their ALL. They are prepared to make the extreme sacrifice that our homes, our town, our nation, may escape the ravages of the Hun.

We want them—one and all—to come back to us—

Will You Help to Bring Them Back?

Will you help to provide them with the things they need, with clothes and food and munitions, that they may complete as quickly as possible the terrible task assigned to them?

Will you support our boys while they are fighting for us, fighting the German autocracy that seeks to destroy our ideals of liberty and justice?

Compared to their heroic sacrifice our part is but small—that of providing the funds to keep them equipped; to build and man the ships that will transport their food, their clothes, their guns and their ammunition, and to pay for these things.

Yes, we, the people of this community, will support our boys.

We will do it by buying bonds of the Third Liberty Loan; by buying all these bonds we can; by making such sacrifices as are necessary to do this. That will be our support for Our Boys.

Tawas City, Mich., March 27, 1918. To the Hon. Board of Supervisors of Isosco County:

Gentlemen—Your delegates who were elected to the meeting of the State Board of Supervisors at a meeting of the Board of Supervisors of this county beg leave to report as follows: That they left East Tawas on the night of Feb. 11, and at Bay City transferred over to the M. C. R. R., and proceeded on the same road to Lansing, where we arrived at about 2 a. m. Supervisor Belknap of Whittemore having joined in on the way. Any supervisor who has been a delegate in the past is eligible to vote, and is a member of the association if he desires to attend. On Tuesday the delegates registered, and Isosco county was represented by three members of its present board. After listening to the address of Hon. A. W. Thompson, president of the state association, got down to business. In the president's opening address he pointed out plainly the importance of such a meeting at the present time, when the country needs the thoughts and consideration of every citizen, and especially the supervisors. President Thompson, while not an orator, brought out some very good thoughts, as follows. History reveals the rise and fall of empires, but never before has a republic in our country with the freedom of speech and church been known to claim that the voters in townships were too negligent in performing their duties as voters, as they didn't consider the qualifications of the men they elect to township office rightly. He further said that people often turn down their supervisor and elect a man with no qualifications whatever, the only excuse being that he has held it long enough and wanted a change. He opposed electing men to township office who were unable to perform the duties themselves, but depended upon deputies. Why not elect the deputies? He said the centralization of rural schools and the building of good roads he held to be of vital importance, and referred to the downfall of Russia for the principal reason that she had no highways upon which to move her soldiers and provisions.

Mayor Rentler of Lansing welcomed the delegates to the city in a few well spoken words, followed by State Commissioner Rogers, who spoke for some time. Mr. Rogers discussed the present real projects, and left some very good points. Mr. Rogers was followed by Hon. Geo. L. Lusk, deputy secretary of state, who gave a fine patriotic address. Cass R. Burton, member of the state tax commission, advocated the holding of a tax conference in the different communities to discuss the problem along the lines similar to former institutes, and at their conference all matters in regard to taxes be discussed on the second day. Hon. J. N. Southgate of Saginaw spoke on taxation. He is opposed to our present system of taxation as unjust and unequal, and claimed that millions of dollars of property is escaping the rolls that should be assessed. He claims that intangible property is escaping the rolls, and is in favor of the taxation of mortgages by placing the same on the rolls as personal property. Mr. Southgate is city assessor from Saginaw, and Mr. John C. Nagle, assessor from Detroit, took the same position in regard to intangible property, and also advocated a state income tax as a means of providing additional revenue. Gov. Sleeper spoke to us twice—once at the convention, and again at the banquet, and both times urged upon the delegates the importance of their duty as supervisors, and especially as in regard to their relation to the war. It was the consensus of opinion among all delegates and the speakers that all counties should have a county farm agent. Already 59 counties in the state have one, and of the 15 counties of the upper peninsula, 11 counties have an agent. Your committee believes that as a whole the State Association of Supervisors, as an association, is a benefit to the state, and that Isosco county should retain its membership.

John A. Stewart, John Searle, H. M. Belknap, Delegates to State Board of Supervisors. Moved by Searle, supported by Nunn, report be accepted and spread upon the minutes. Carried. Committees ordered to their respective duties, balance of board to be at ease, subject to call of chairman. (Continued next week).

NEW PAMPHLET FOR BOY FARMERS

East Lansing, Mich. April 2—Do you know how to hitch a horse? Can you tell a root fork from a stable shovel? How do you grease a wagon? These are a few of the points that Michigan boys will have to know when they enlist for farm service this spring,—wherefore, as a preparedness measure, the Michigan Agricultural College has just issued for boys an edition of 50,000 pamphlets of "helpful farm hints." These pamphlets, according to an announcement from the extension department of the college, can be obtained by individuals who desire them if they will mail a card to the Office of Extension, East Lansing.

Politeness won't hurt you if you don't hurt it.

GERMAN KULTUR NOT A NEW THING.

"Every village they have passed through has been the victim of what is only organized pillage. Every city has been practically sacked, ransacked on system; its citizens plundered, its civil officials terrorized, imprisoned, outraged, or killed. The civil populations have been, contrary to the usage of modern warfare, forced to serve the invading armies, brutally put to death, reduced to wholesale starvation, and desolated. Vast tracts of the richest and most industrious districts of Europe have been deliberately stripped and plunged into famine, solely in order that the invaders might make war cheaply. Irregular troops, contrary to all the practices of war, have been systematically murdered, and civil populations indiscriminately massacred, solely to spread terror. A regular system of ingenious terrorism has been directed against civilians, as horrible as anything in the history of civil or religious wars. Large and populous cities have been, not once, but 20, 30, 40 times bombarded and burnt, and the women and children

in them wantonly slaughtered, with the sole object of inflicting suffering. All this has been done not in license or passion, but by the calculating ferocity of scientific soldiers."

The above was not written, though it might have been, yesterday, last week, last month, or last year. It appeared in the English Fortnightly Review February, 1871, shortly before the surrender of Paris. Frederick Harrison, the writer is still alive. Its statements were true then, are true now. Julius Caesar in his Commentaries narrates events which show that even before the time of Christ the Germans demonstrated the possession of all the rudiments of their modern "kultur." It is no new thing; and hundreds of thousands of men will have died in vain in this war if this sinister thing is not absolutely and utterly exterminated forever by the forces of civilization arrayed against it.

A newspaper man recently said a good citizen was a blessing to a town, and the next day a lot of men smiled at him.

BOYS AND GIRLS EARN 3600 PER CENT FOR STATE

East Lansing, Mich. April 2—The 16,000 boys and girls who were members of gardening, crops and livestock clubs in Michigan during 1917 have liberally repaid the state for the investment that was made in them, a report from the office of E. C. Lindemann shows. The work of organizing the boys and girls into clubs and interesting them in agricultural and home enterprise costs the state only 63 cents per youngster, but each club member who reported added an average of \$22.70 worth of foodstuffs to the national supply.

According to report filed with the college, the number of boys and girls who are now enrolled in these clubs is more than 30,000.

A Canadian order in council provides for the free admission into Canada of meat cattle until February 7, 1919, when imported by bona fide residents of Canada under regulations by the minister of customs. Cattle, except for breeding purposes, are ordinarily dutiable at 32½ per cent.

BUY LIBERTY BONDS TO VERY LIMIT OF RESOURCES

Everyone Should Give the Boys "O-or There" the Financial Support Needed for Victory.

An article recently published in some papers of the central West gave an erroneous impression as to the part the farmer should play in financing the great struggle for liberty and world freedom. It suggested that the farmer should not borrow money with which to buy Liberty bonds—that he should not "inconvenience himself" in lending financial support at this critical time in the history of the nation.

This is no time to think of inconvenience at home. If inconvenience is to be the basis of thought, let the American farmer consider first the inconvenience of the boys on the firing line in France. At this particular time it is up to all Americans to make sacrifices. This is no time to think of comfortable financial circumstances and freedom from inconvenience. The government is at a great deal of inconvenience. If the boys at the blazing, thunderous front are standing in muddy trenches dodging shell splinters and Hun bullets and facing the terrible gas attacks, there is no reason why the farmer at home should not extend himself to help out.

Don't think of inconvenience. Think of the inconvenience and danger of your son, or your neighbor's son, at the front, and buy Liberty bonds to the limit. Stretch your financial system to the breaking point, if need be, to support your government and the boys who are actually engaged in the business of fighting your fight.

If you haven't the money at hand to do your full duty toward the great cause, go out and borrow it from your bank—borrow so that you may buy bonds "until it hurts." Your financial support may be a measure of your practical patriotism—and the nation needs practical patriots at this critical period.

Don't think of inconvenience—think only of success.

HELPLESS CHINA A LESSON

Every Man, Woman and Child Should Contribute to Success of Third Liberty Loan.

Within the last few months the terrible bubonic plague has been sweeping over western China. Starting in Mongolia, it crossed the great wall and, with appalling speed, invaded province after province. And China—great, helpless China—is unable to care for its unfortunate people. Missionaries and the Rockefeller institute have been doing much to alleviate suffering, but their efforts have been little enough to stem the tide of the dread disease. China lacks the organization and the initiative to do much more than bow before the inevitable.

"There is a lesson for America at this time in the conditions in China," said a United States army medical officer a few days ago. "The United States is at war. Food, guns, clothing are needed for the soldiers, and ships are necessary to carry them to the battlefields in Europe. To conduct this enormous business of war, money is needed—billions in money. If the nation does not show initiative and organization, if every individual and every community are not closely knit to every other individual and every other community and interest by a common impulse, a common purpose to defeat the enemy, America will fall in this war as surely as China has failed in her hopeless battle against the bubonic plague.

"Every man, woman and child should contribute to the limit toward the success of the third Liberty loan. There must be no sectional feeling, no racial hatreds, no ancient grudges, no political ambitions, no community interests or individual schemes to stand in the way. If this nation of more than a hundred million souls stands together as one, the government at Washington will be provided with the money with which to finance ourselves and our allies in this war against a selfish and autocratic power that plots our political and commercial ruin as it plottied and accomplished the ruin of Belgium and Serbia and northern France.

"A prominent politician once protested against the 'China-ifying' of the United States.' Let the United States prove to itself and to the common foe that there is nothing of China's helplessness in us. It can do so by acting with a single purpose in this matter of a world war for democracy."

Be a Fighter and Buy Bonds.

It is time that we all realize the country is at war. The railroads found themselves relieved of the management of their properties over night. Prices have been set for food and steel and coal. The draft is in full operation. It is no longer a question of patriotism in supporting the government, it is an absolute necessity. If the soldiers refuse to fight, the war is lost. If we at home refuse to buy bonds, the war is lost because the government will be unable to finance the operation. The man who refuses to buy bonds in this great crisis is in a class with the soldier who refuses to fight.

Back Uncle Sam With Bonds.

Russia's condition today should be a lesson to us in America. Its government was overthrown and the Hun invaders overrun its soil. Your government must be supported in the face of the German menace. The purchase of Liberty bonds is the best assurance of support you can give at this time.

Arrangements are being made to keep a complete record of all Indians who serve in the Army or Navy during the war.

We Want Your Cream and Eggs

The demand for cream was never so strong as it is at present. Many farmers during the past year or so have made the cream from a few cows pay the entire expense of running the house, leaving the money received for their other products as clear profit.

We are paying the highest market price for cream, and this fact, together with our guarantee of a fair test and cash payment offer a big inducement for you to sell us your cream.

We will accept your cream every day here—after instead of 3 days a week.

Mr. and Mrs. Pierce and family left Friday in a covered wagon enroute to Beulah, Mich., where they will make their home. During their few years here they made many friends, and will be missed in Christian circles, where they took a very active part. We wish them success in their new home.

The residents of Reno were fearfully shocked and grieved last Thursday afternoon, when the news came over the wires that Percy Allen had been killed in an auto wreck. He had attended a sale scarcely two miles from his home that afternoon, and returning, was running at a very rapid rate, his car turning turtle and killing him instantly. The tracks showed that the car had swerved a trifle to the ditch, and apparently he had given the wheel a quick turn to bring it into the road when the front wheel struck some sand, causing the accident. He was found about one-half hour after by Tommy Jackson, James Charters, jr., and Charles Lambert. Tommy hurried to the nearest phone, spreading the news far and near. In short time there was a crowd of relatives and friends to witness the scene. Among them was Dr. Smith, who pronounced it instant death. The remains were then taken to his home near by. The funeral was held from the Baptist church Sunday afternoon and a large crowd attended, many of whom had scarcely standing room, showing the high esteem in which deceased was held. Friends from far and near were in attendance. Rev. McKenzie of the M. E. church officiated, and the services were held under the auspices of the Gleaner Lodge, of which deceased was a member. Excellent music was rendered by the Tawas City choir. The pallbearers were Alva Hutchinson, George Charters, Hammil Hutchinson and Elza McDonald, nearly all being cousins of the deceased. Relatives from a distance at the funeral were his father, two brothers, Harold and Lyle, his sister, Mrs. James Syze of Detroit, and Mrs. Voller, a cousin from Gladwin. He also leaves to mourn his loss a little daughter and a host of other relatives and friends. The remains were laid to rest in the Reno cemetery beside those of his wife, who preceded him April 18, 1917. The heartfelt sympathy of the whole community is with the bereaved family during their time of deep sorrow.

Why Buy Liberty Bonds?

By **DARWIN P. KINGSLEY**
President, New York Life Insurance Co.

WHY do you save to build a home? It is usually cheaper to pay rent.

Why do you plan to give your children a good education? Will you get any money-dividends from that?

Why do you pay fire insurance premiums and life insurance premiums? You personally will get little if anything from that.

Why do you call the doctor quickly if the children are ailing? You don't stop to think whether you can afford it. Do you?

None of these expenditures are what we call good investments. They don't pay in money, yet all pay the finest of dividends.

Liberty Bonds represent the home, the school, the children; they represent all the great deeds of our fathers and grandfathers; they represent Bunker Hill and Yorktown and Gettysburg; they represent the blessed freedom under which we all live and they also represent the ORDER that makes freedom blessed.

They represent the boys "over there," they represent devastated Belgium and homeless Serbia and murdered Armenia;

They are the defense that shall keep from our shores the monster criminals who outraged the women of Belgium and Northern France and made the men slaves;

They represent the strength that shall restore Belgium and rebuild France and avenge Serbia;

They are the voice of those who are too young or too old or too weak to fight; they are the sword of the women and the cannon of the children; they are the voice of a free people calling to cruelly wronged, freedom-loving men and bringing them succor.

Buy them? Of course you will buy them. You'll borrow to buy them.

You don't need to be urged. You would be ashamed to go home to your children if you did not buy them.

The rate of interest is important but not of first importance. They would pay, they would appeal to you, if they bore no interest whatever.

Add to the rate of interest the dividends they pay in self interest, in safety, in public order, in liberty and law and you have a larger return than you receive from any other thing that you own.

They will never become "scraps of paper." They are the best secured investment in the world.

You Stand Behind Them You Should Buy Them
