Through the kindness of Mrs. Stephen Brabant the Herald editor was privileged to read two very interesting letters from her sons, Joe and George. The former had just returned from a trip to Camp Merritt, N. J., where he had gone in the hope of seeing his brother, Leo, before he left for France. He did not find his brother, but writes very interestingly of the camp and the life the soldiers lead there. George is working in Buffalo at a plant where the mattresses for army use are made. The mattresses are made of felt and asbestos, covered with canvas and are fire and water proof. Both boys are anxiously awaiting the time when they, too, will be called to serve with the colors.

About sixty men from the Tawasess went to Oscoda on a special train Tuesday evening to attend the patriotic meeting of the Tri-County Lincoln club. The meeting was held in the new auditorium at Oscoda, which is one of the finest buildings in northern Michigan and would do credit to a town many times the size of Oscoda. Clarence Burkholder of Alpena was the toastmaster for the occasion and introduced the speakers in a pleasing manner. Short talks were given by several local men, after which the speaker of the evening, Chase S. Osborn, was introduced. Mr. Osborn gave an inspiring address touching upon the subject uppermost in every mind today, the conduct of the war, and saying that at the present time every man must show his patriotism by deeds as well as words. Mr. Osborn is an eloquent speaker and those who heard him expressed themselves as very much pleased with his address. East Tawas was decided on as the place for holding the meeting next year.

FROM SERGEANT ISADORE FRIEDMAN

The Herald is in receipt of a copy of the St. Patrick's day edition of the "Plane News," a little paper issued by the aviation department at one of the U. S. army posts in France. The paper was sent by Sergeant Isadore Friedman, accompanied by the following brief note:

"A St. P." edition of our camp paper, which I thought might possibly prove a bit interesting to you. Glad to advise that all is well. Since the weather has opened up things have begun to get lively, and everything and everyone is in a bustle. A very marked reception was given Mr. Baker and General Pershing during their inspection of the post yesterday, as you will note below. Great dope.

Kindest regards,
Sgt. I. D. Friedman.

The Plane News gives a short resume of the news most interesting to the boys in the camp, together with some excellent cartoons and considerable humorous matter. The paper is entirely under the management of the men in the service.

WAR NEWS DIGEST

The shipping board plans construction of three launching ways for three 3,500-ton concrete vessels. This type of vessel is still in an experimental stage, and if found successful the board may build 7,500-ton concrete ships.

The order prohibiting the sale of flour in lots of less than 12 pounds has been suspended. Licensed dealers have been advised that they may market several sizes of packages weighing less than 12 pounds, with a 2-pound minimum.

Over 200,000 applications for insurance by officers and enlisted men of the naval service had been filed by March 31. The average amount of insurance on each policy was about \$7,300, making a total of more than \$1,500,000,000. Payments on war risk allotments are now about \$1,000,000 a month.

English market reports show the amount of home-grown meat of all kinds coming to the principal markets has averaged 55,000,000 pounds a week since January 1, as against 227,000,000 pounds average for the same period of 1916. PLAN A "VICTORY" GARDEN

Each family that can grow a garden this year and doesn't, will fall short in the most urgent services demanded of the Nation.

War gardens have pulled Germany through two summers.

In the largest cities of Germany, as much as 25% or 30% of the food consumption of the people during the summer months is fresh vegetables. One of the great values of the back lot garden is that its products are consumed where they are grown, and thus transportation is conserved.

Gardening is the extra war work of those who do it, so no added strain is put upon the labor supply of the country.

Everything grown in war gardens is in addition to the normal food production, hence it releases food for our soldiers and our allies.

War gardens also reduce living expenses.

Plan your Victory Garden now.

HEALTH CONDITIONS GOOD IN ARMY CAMPS

The health of troops in the United States continues very good, according to a recent report to the surgeon general of the army by the division of Field Sanitation. Admission, non-effective and death rates are somewhat higher than last report, due chiefly to prevalence of influenza bronchitis with complicating pneumonia in many of our northern camps.

National Guard camps, as a group, continue with remarkably low rates. Very few cases of measles and meningitis have occurred.

National Army camps continue to have high sick rates as compared with camps of other groups, though the rates are lower than last report. Scattering cases of measles are reported from all the camps.

WAR FOR HUMANITY.

War, in a good cause, is not the greatest evil which a nation can suffer. War is an ugly thing, but not the ugliest of things; the decayed and degraded state of moral and patriotic feeling which thinks nothing worth a war is worse. When a people are used as mere human instruments for firing cannon or thrusting bayonets, in the service for the selfish purposes of a master, such war degrades a people. A war to protect other human beings against tyrannical injustice; a war to give victory to their own ideas of right and good, and which is their own war, carried on for an honest purpose by their free choice, is often the means of their regeneration. A man who has nothing which he cares more for than his miserable creature, who has no chance of being free, unless made and kept so by the exertions of better men than himself. As long as justice and injustice have not terminated ever-renewing fight for ascendancy in the affairs of mankind, human beings must be willing, when need is, to do battle for the one against the other.—John Stuart Mill.

This was written a half century and more ago, but it might have been written yesterday it applies so well to today's conditions. The truth is the same yesterday, today, and tomorrow.

A LETTER FROM FRANCE

Somewhere in France, March 10, 1918.

Dear Mother and All:

I am writing you a line to say that I arrived across O. K., and am feeling fine; had a headache for a couple of days, but was not sick while crossing.

Well, it sure is a long ways from Tawas, farther than I have ever been before. It certainly is a great thing a fellow can see, air ships, aeroplanes, flying around all the time.

It is warm here, and the crops are all up, while at home they won't be for a month.

I also think there is 5 hours difference in the time. While we are having dinner you are just eating breakfast.

Well, it probably will be April before you get this letter, as it takes a letter so long to go across.

The men out here wear wooden shoes I thought our army shoes were clumsy, but you had ought to see those wooden shoes, they are the limit.

The submarines have no chance with the American destroyers.

I sure wish that I could talk French as good as I can German, it would come in handy now.

Well, it is a month and a half ago since I left Custer.

I will come to a close. Am sending my best wishes to friends and relatives.

From your loving son,
Private Charles C. Miller.

PROTECT THE WHEAT CROP

Whereas, It has been represented to the War Preparedness Board by the Secretary of Agriculture of the United States that wheat and other cereals are apt to be more seriously injured by rust when grown in the vicinity of barberry bushes of the varieties hereinafter specified, and that the Black Stem Rust of wheat and other cereals and grasses develops on such barberry bushes in the spring and produces countless numbers of spores which are carried by the wind and find lodgment on grain and grasses; and

Whereas, The action of the board has been asked for the eradication of such bushes;

The Michigan War Preparedness Board orders as follows:

1. All barberry (Berberis sp.) bushes except the species and variety known as Japanese barberry (Berberis thunbergii) are hereby declared to be, and the same are, a public nuisance and a menace to the public welfare, and their maintenance, propagation, sale or introduction in the State is forbidden. It shall be the duty of every person owning or having charge of any premises on which barberry bushes of the rust-producing varieties are grown or at any time found growing, to forthwith destroy such bushes.

SOOT AND WOOD ASHES ENRICH GARDEN SOILS

East Lansing, Mich., April 15.—"Conserve your wood ashes and soot," the department of horticulture of the Michigan agricultural college is telling gardeners of the state now that the time for spading up the back yard has arrived. Both these materials, which many people have heretofore thrown away, are excellent for the garden, the horticulturists aver.

"Common soot from chimneys where soft coal is burned is most helpful to all vegetable crops," a new bulletin for boys' and girls' clubs declares. "When stored it should always be kept dry. In applying it to the garden it may be sprinkled on the ground and hoed in, or it may be used in the form of a liquid—using one peck of soot to 30 gallons of water, mixing it and allowing the water to stand until it is clear again.

"Save all wood ashes, and particularly those obtained from hard woods. These ashes are very rich in potash. Coal ashes, however, are not good for the garden."

Mrs. Charles McMullen of Lansing was badly burned last Saturday at her home while kindling a bonfire in the yard. Her clothes caught fire and she started to run for the house, thus giving the flames a chance to do their worst. Although the burns are not deep she will be confined to her bed for several weeks. Mrs. Ed Alford of this city was called to Lansing to be in attendance upon her daughter. She left East Tawas last Saturday evening.

Fires have been raging near East Tawas during the past week, and also in this vicinity. Near Glennie and Curtisville reports are that the fires have been very bad, and several homes have been destroyed. Last Tuesday afternoon the fire had started near the residence of Charles Haight, and was sweeping fences and trees in its way. ..... This paper has enlisted with the government in the cause of America for the period of the war

PEACE

The United States did not enter into this war unadvisedly, hastily, under stress of heat or passion. We took the step calmly, soberly, reluctantly, with a full sense of the awful responsibilities involved, the sacrifices demanded, the magnitude of the task.

President Wilson did not advise in his war message, nor did Congress act in declaring a state war between the United States and Germany without giving the most solemn consideration to what the action meant. They knew it meant the death of thousands of brave Americans; they knew it meant suffering and wounds and the disabling for life of hundreds of thousands of our young men. They counted on the full the human cost and the material cost.

Every development since has justified and proved the wisdom and the imperative necessity of America's participation. Every German success and every German failure have shown how necessary to our own welfare and peace, how necessary to the safety and peace of the world the defeat of Germany is. Every foot of ground Germany has been forced to give up, every foot of land she seized, have demonstrated the imperative necessity of defeating that sinister, intolerable thing called Germanism.

Germanism is 3,000 miles away. It must never come any nearer. Let this war result in anything but defeat of Germany, let her emerge with her power unbroken and her Kultur still dominant, and it is but a question of time until we alone will be fighting Germany instead of warring against her with our Allies on our side.

Lincoln said that this country could not exist half slave and half free. All Americans now recognize that truth. The events of the last few years have shown equally clearly that this world cannot exist half free and half autocratic—half free people loving liberty and justice and peace and half an autocracy seeking to dominate the world, caring nothing for liberty or justice and nothing for humanity and civilization where they interfere with its ambition.

There is no peace for America except a just peace, a peace that means a world fit for free people to live in. German ideals, German purposes, and German practices are the antitheses of American. The beliefs we love and honor and uphold are contemptible to them: the objects for which they send to death millions of their own men and millions of their enemy are abhorrent to our ideas of right and justice; their methods and practices in warfare are an abomination and horror to us.

The American who now advocates or wishes for peace, except a just peace, is either woefully misguided or a traitor to America's future and America's past, to all things American—the things which have made our country great and free, which hundreds of thousands of Americans have died to maintain, and for which Americans are now dying in France.

There can be no peace with honor or safety to ourselves or to posterity, except a just peace, and there can and will be no other peace. Work for peace accomplishes nothing but the hampering of our effort, the delay of the real peace, and a greater toll of death of America's fighting men. Our duty is to war for a just and righteous peace; to work or speak for any other peace is treason.

AN OPEN LETTER

Just a line to all Americans. I was called on to make a speech at the court house. While I don't claim to be an orator, I did the best I could, and have no apologies to make as to what I said. But I wish to correct some false statements as to what I did not say—that is, I did not mention any person or any name of any person to be a slacker, but I did say any person that was a slacker, take and hang him. I say so yet, and I further state I made no complaint as to what flour Chas. Kruger had, because I don't know, and that statement is false. I did say any German that could afford to buy a bond, and won't, I would tell him to pack his goods up and go back to Germany.

I say so yet, and any true German-American could not take any offense at that.

I also further state there have been several persons told me there have been threats made to me as to what German-Americans have said. I shall further say to those parties if they ever attempt those threats on me, I will use means to protect myself the same as if I were on the firing line in France. So I will give those parties a fair warning to take the consequences, and I mean just what I say. I will further say I am 63 years of age, and I am ready to enlist to go to France on the firing line at any time.

And to conclude, the sooner German schools are stopped in this country, we will have better citizens and better Americans.

From a true, loyal American
Yours truly,
adv. George Bennett.

Tawas City, March 27, 1918. To the Hon. Board of Supervisors of Iosco County:

Whereas, Death has entered into our midst since our last meeting, and taken from us one of our members, Supervisor Joseph W. Minor of Tawas City, Mich.; and while we recall with pleasure the days which he spent with us as a member of this Board, and his strong traits of character in adherence to what he believed to be his duty, we must nevertheless bow to the will of Him who doeth all things well.

The Board of Supervisors for Iosco county met in the court house in the city of Tawas City, said county, on Thursday, the 28th day of March, 1918, pursuant to a recess from Wednesday, March 27, 1918.

Motion carried.

The time having arrived, 10 o'clock, when the matter of a county agent was to be taken up, there being several representatives present from East Tawas Board of Commerce, Pomona Grange and Normal School pupils, also Mr. Robinson from Lansing, secretary of the County Extension Course, it was moved by Supervisor Searle, supported by Smith, that the Board take a recess of ten minutes to get acquainted with the representatives.

Motion prevailed.

Board called to order by Chairman C. A. Pinkerton.

After discussion by Mr. Robinson and the other representatives, the following resolutions were presented:

Believing that a county agricultural agent is useful and necessary for the purpose of aiding the farmers in scientific methods of agriculture and marketing, and further in the recent food crisis he is indispensable as a direct representative of the Michigan Agricultural College and the department of agriculture of the United States, that the agent can help to successfully solve the most vital problem of increased food production, which will largely help to win the war, as congress has appropriated funds to pay an agent's

salary, we believe at this particular time Iosco county cannot afford to be without an agent. We, members of Wesley C. Arbor of the Ancient Order of Gleaners, do hereby offer the following resolution:

Resolved: That we urge the Board of Supervisors of Iosco county to use every means at its disposal to secure at the earliest possible opportunity a man qualified to carry on the most essential work of a county agent.

That a copy of this resolution be sent to the next meeting of the Board of Supervisors, to the supervisor of Plainfield township, and a copy be sent to the several papers published in Iosco county.

Hale, Mich., March 27, 1918.

Believing that a county agent is useful and necessary for the purpose of aiding the farmers in the problem of production and marketing; that he is indispensable as a direct representative of the Michigan Agricultural College and the Department of Agriculture of the United States; that the agent can be of great help in solving the most vital problems of increased food production, which is very vital in this time of war; and as congress has appropriated funds to pay agents a salary, we believe that Iosco county should have an agent; therefore, we, the members of Hale Grange No. 1063 do urge the Board of Supervisors of Iosco county to use every means at its disposal to secure

DEATH OF LEO SASE

The many relatives and friends were grieved and saddened a week ago Sunday when the news was circulated that Leo Sase had met with a serious accident the previous Saturday evening which resulted in his death. Leo, who was braving on the extra freight between Bay City and Alpena, and during the work of making up the train at Bay City Saturday evening, went between two cars to connect the air hose, when a switch engine bumped into the string of cars, causing them to back up a short distance. One of the lower limbs was badly mutilated to the hip, while the other one was cut off below the knee. The accident occurred at 9 o'clock, and he was delayed in being taken to Mercy hospital on account of the fire at Bay City. He was conscious to the end, and when he knew how serious the accident was, his only wish was that he would soon be relieved of his terrible suffering and death (which was caused from the loss of blood and the shock) came to his relief at 12:20 the same night.

Leo was born in Emery Junction and passed his childhood days there. He was 18 years of age at the time of his death, and had been employed on the D. & M. Ry. as brakeman for about ten months. He was loved and respected by everyone he came into contact with, for he was a young man that had a sterling character and a very promising future. His ambition was to work near his home for a few months longer, then to join his brother in serving his country by enlisting in the army.

The remains were brought from his home at Emery Junction to the home of his grandparents, Mr. and Mrs. J. Sands, on Wednesday afternoon, and the funeral services were held at St. Joseph's church at East Tawas, Thursday morning, with a solemn requiem mass, Rev. Bieren of Omer being the celebrant, Rev. Faucher of Onaway, deacon, and Rev. Albin of East Tawas, sub-deacon. A most impressive sermon was delivered by Rev. Faucher, who was a personal friend of the deceased. The very large attendance at the church was a proof of the high esteem in which the young man was held. Burial was made in the Catholic cemetery at East Tawas on Friday morning, the body being held over to await the arrival of his brother Henry.

The deceased leaves to mourn his loss his grief-stricken parents, two brothers, Private Henry J. Sase of the 10th company, Coast Artillery of Fort Moultrie, Sullivan's Island, S. C., and James at home; three sisters, Helen, (who underwent an operation at Bay City Saturday, and was not able to attend the funeral), Marcella and Margaret at home, and many relatives.

Those from out of town to attend the funeral were his brother Henry of Fort Moultrie, S. C., grandfather, J. Sands of Flint, uncle and aunts, M. J. and Misses Angela and Kathryn Sands of Detroit, and Anna of Onaway, a cousin, John Pinski of Saginaw, and Mr. and Mrs. Ed Cummings of Linwood.

The sorrowing relatives have the sympathy of the entire community in their sad hour of bereavement.

Card of Thanks.

We wish to extend our heartfelt thanks to our neighbors and friends for the assistance and sympathy extended to us during our sad hours of affliction in our recent bereavement. We wish also to thank the many friends for the beautiful floral offerings and for the use of the autos.

Mr. and Mrs. Geo. Sase and family
Mr. and Mrs. J. Sands and family.

ORGANIZE SCHOOL GARDEN CLUBS

Lansing, April 15.—The Food Administration has appealed to young America to help win this war. Increased production is the watchword. The organization of school garden clubs is being encouraged everywhere.

Upon America rests the principal responsibility of feeding not only our soldiers but the soldiers of our allies and their families. Without food these armies cannot be victorious. In Europe the burden of war work falls largely upon the women, the aged men and the children.

What are you going to do? Every teacher in the schools is asked to enlist children in garden work and food conservation.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

To win the war it is unavoidable that the rights of the individual be infringed. It is unavoidable that his personal comfort be temporarily ignored, his personal property temporarily conscripted, his personal fortunes temporarily impaired.

We Must Make Haste We Must Strike Hard

There is no time to weigh too carefully the questions of individual equity. The big job, the one job, is to win the war. There will be plenty of time to talk about it and adjust grievances afterward.

DE LAVAL CREAM SEPARATOR

They can't fool the creameryman. He knows which machine skims cleanest, costs the least to keep in good working order, and lasts the longest. He has to know. The wrong separator might easily mean a loss to him of several thousand dollars a year.

That's why 98% of all the separators used in the world's creameries and milk plants are De Laval's.

It's just as important to you as it is to the creameryman that you make no mistake in your choice of a cream separator. Why not be guided by the creameryman's experience?

The terms on which we sell a NEW De Laval are liberal. The machine will pay for itself out of its own savings. Come in and examine it before you buy. We'll be glad to talk it over with you.
