

OUR MONEY NOT WASTED.

All of the money being expended for war purposes is not going to be a waste. Some of it is going to be shot away; some of it is going to be sunk at sea; and some of it is going to be invested in machinery that will be useless in time of peace.

But a very great portion of it is being spent for things that will be as valuable when peace comes as now, though not so imperatively needed then—ships for instance. And as for the immense amount spent in adapting our manufacturing plants to war purposes, it is estimated that 90 per cent of our war machinery can and will be used for other manufacturing work after the war.

The invisible and intangible forces, the moral forces of the world, the soul and conscience of mankind are fighting on our side.

NOTICE.

The right is reserved to reject any or all bids.
FRANK E. DEASE,
Clerk of Said Board.

GROUND GLASS AND POISON FOUND BY STATE ANALYSTS.

Lansing, Mich., May 7.—Reports of ground glass in food are no longer attributed to hysteria by officials of the state food and drug commission. During the past month State Analyst Todd has discovered bi-chloride of mercury in flour, and has discovered ground glass in several articles of food.

The most recent case, which is hardly considered to be the result of an accident in a bake shop, came to the attention of the state analyst from Grand Rapids. Several ginger-snaps of the small variety of cookie which is the delight of the children had jagged pieces of glass about an eighth of an inch in diameter skillfully concealed in the center.

As each piece of glass was identically the same size and was located in the center of each cookie, it is generally believed the glass got into the dough by design rather than by accident.

It is believed here that the placing of ground glass and other poisonous substances in food stuffs is part of a general German propaganda inaugurated for the purpose of spreading a reign of terror among civilians.

"The same mind that would put typhus germs in drinking water in Belgium and France, would not hesitate to put ground glass in food manufactured in this country," said Dr. Richard M. Olin, secretary of the state board of health.

VARIOUS LIBERTY BOND ISSUES.

There are at present issued and outstanding four issues of Liberty Bonds, and soon there will be six issues. They are as follows:

1. The original bonds of the First Liberty Loan; they bear 3 1/2 per cent interest and mature June 15, 1947, but are redeemable at the Government's option on or after June 15, 1932. They have a conversion privilege.

2. The original bonds of the Second Liberty Loan; they bear 4 per cent interest and mature November 15, 1942, but are redeemable at the Government's option on or after November 15, 1927. They have a conversion privilege.

3. Bonds of the second issue which have been obtained by the conversion of bonds of the first issue into bonds of the second; they bear 4 per cent interest and mature June 15, 1947, but are redeemable on or after June 15, 1932. They have a conversion privilege.

4. The original bonds of the Third Liberty Loan; they bear 4 1/4 per cent interest and mature September 15, 1928, and are not redeemable until maturity. They have no conversion privilege.

The other two issues which will soon be outstanding will be 4 1/2 per cent bonds obtained by the conversion of bonds of the first issue, and 4 1/4 per cent bonds obtained by conversion of bonds of the second issue, into bonds of the Third Liberty Loan. They will have no conversion privilege.

EARN 14 CENTS A DAY; HAS WIFE AND BABY

And Yet This True Story Has a Happy Ending.

Even a Frenchman sometimes loses for awhile at least, his "unfailing" sense of humor.

Take, for instance, the case of a man from Lille, a soldier, Waelte by name and only twenty-three. He had done pretty well, for the youngster had already his own printing shop in that northern French town, which is still inside the German lines. In the trenches Waelte developed tuberculosis, and he was sent to a hospital at Grenoble.

There he was considered incurable, and after the usual three months of treatment he was granted his 14 cents a day pension. Said his fatherly army doctor, "My son, you can perhaps cure yourself if you will live in the mountains. If you will eat plenty of nourishing food and, above all, if you don't worry."

Waelte should have smiled, but he didn't. He was thinking of his baby and his wife—and his 14 cents. "Don't worry!" The humor of it entirely escaped him.

Then the Red Cross stepped in. He was found by an American woman with some American Red Cross money for just such cases, and within a few hours he no longer had need to worry. He was sent to the mountains at Lamure, in the French Alps, happy in the knowledge that his family was being cared for by these amazingly kind Americans.

And now the army doctor's words are coming true. Waelte's lung is healing fast, and he is dreaming of another printing shop and of living again some day with that little family.

There have been over 400,000 new cases of tuberculosis in France since the war started, and to care for these cases and check the White Plague's spread is merely one of the big jobs the American Red Cross has set out to accomplish.

FATHER AT WAR, TRAGEDY AT HOME

Just What Home Service Means to a Soldier.

The father kisses his wife and kiddies goodby, shoulders his gun and marches away to war.

For a time the current of life flows smoothly for the soldier's little family. Then comes the tragedy. Mother is taken ill. The little brood of brothers and sisters is helpless. No father to turn to. A helpless mother!

To whom can the American soldier's family look at this critical period? Must a brave man's loyalty to his country mean desolation and suffering to those nearest and dearest to him? No! Emphatically no! The American people will not permit the families of their soldiers and sailors to suffer because their breadwinners are fighting for their country. And so the Red Cross Department of Civilian Relief has created a nation-wide organization for home service for the families of soldiers and sailors.

Under the banner of "Home Service" patriotic men and women have enrolled and are devoting themselves to the noble task of helping soldiers' families to meet and adjust the problems of everyday life and aiding them to maintain the standards of health, education and industry.

Home Service—True Service. Home service means keeping the soldier's children well and in school. It means tiding the family over financial troubles, arranging the household budget, meeting insurance premiums, adjusting a mortgage, bringing medical aid and legal advice to bear at the right moment. In short "Home Service" is true service, in that it provides the warm handclasp of friendship rather than the humiliation of charity. It calls for sympathetic understanding and intelligent consideration of the most vital needs of the soldier's family.

The Red Cross is pledged to "Home Service" wherever needed in the United States. In each chapter of the Red Cross there will be a home service section, under competent hands, whose mission will be to protect the welfare of the soldiers' and sailors' homes and to safeguard the normal development of their families in employment and in ideals of self help and self reliance.

NO PROFIT FERTILIZING THE BARNYARD

Manure at \$5.50 a Ton Should Be Fertilizing the Fields

They tell us that the commercial value of a ton of fresh horse manure is about \$5.50. The crop-increasing value is still more. Now that looks good, doesn't it? But just wait a moment. We said fresh manure. Let's see what may happen to this pile if it is not properly taken care of.

Experiments tell us that if that ton should be left to leach in the yard from April 25th to September 25th, about six months, there will be a loss of 60 per cent nitrogen, 47 per cent phosphorus, and 78 per cent of potash. The commercial value will have fallen from \$5.50 to \$2.36 per ton, a waste of \$3.14. Can you afford this?

"Stop—Look and Listen"

Suppose you let a couple of hundred loads lie that way. Two hundred loads at 3,000 pounds each would mean 300 tons. A loss of \$3.14 for each of these tons would mean an item of \$942 just thrown away. Do you feel you can afford that when prices for farm produce are so high and Uncle Sam needs the grain so badly to send to our boys who are "Somewhere in France" fighting for your home and mine?

The biggest help towards preventing such loss is a manure spreader. It saves so much time and labor that manure can be hauled out daily and spread on the field where it belongs. It's easy to spread with a spreader. The job is not put off, as it is when spreading must be done by hand. Experiments tell us that manure loses nothing by drying. The fermentation which goes on in the pile, causing loss of ammonia, stops when the manure is dried up. Of course, rains will fall on the manure spread on the field, but the plant food is washed into the soil where it belongs.

Composting Not Necessary

Many people are still of the idea that composting is necessary for liberation of the plant food. This may be necessary on truck farms, but actual experimenting along this line has shown that for general farm purposes composting is not necessary. Too much valuable plant food is lost by leaching and other processes. The plants cannot assimilate it fast enough.

Spreader Saves Fertility, Labor and Money

Many, many tests have shown the spreader to pay for itself in one season on less than fifteen acres of land, when comparing its results with those of hand spreading. This is due to the more even distribution and the saving of labor and horse power. The more liberal use of spreaders in this county would be a mighty good thing.

WAR NEWS DIGEST.

The Minister of Agriculture of Brazil has been authorized to establish modern experimental farms and agricultural colonies, especially for the education of orphans and abandoned children.

Two per cent of the enlisted personnel of the divisions and detached units of the regular army, National Guard and National Army, excepting the Coast Artillery and various staff corps, will be designated to attend the fourth series of officers' training schools, which will open May 15. Admission has also been granted to some men who have had at least one year's military training under Army officers at educational institutions which have earned Government recognition.

Mrs. Robert E. Johnson returned Tuesday from a month's visit in Chicago, and Mr. Johnson left for Chicago Wednesday night. He has been offered a position in the sales department of the Gypsum company, and expects to move to Chicago permanently in a few days.

The foundation work of organizing a Sunday school was done last Sunday when 39 members of the community showed their interest in such a service by gathering at the local church. R. E. Johnson acted as chairman of the meeting, and presided, while the following named officers were elected. Superintendent, Miss Grace Anderson; Secretary, Miss Hil-drick Hendricksen; treasurer, Miss Hilda Johnson. The boys and girls were assigned to classes and allowed to choose their teachers from six who were elected. Mrs. John White was chosen to lead the adult class. There are classes for all ages, and everyone is welcome. Sunday morning at 10:30 is the time of the next service.

MILLS STATION AND LOCALITY

George Hickingbottom was calling here Tuesday. Mrs. G. Partlo is improving from her recent illness.

Florence and Blanche Bronson called on friends here Sunday. Mr. and Mrs. Ross and family spent Sunday evening at the Huff home. The Osborn boys from near Prescott were in this vicinity Tuesday.

Mr. and Mrs. Simon Goupil have been spending the past week with relatives here, while Simon has been moving his pool room outfit to Tawas City. They returned Monday.

The O. E. S. installed officers on Thursday evening of last week, Mrs. J. Dimmick of East Tawas acting as installing officer. A pleasant evening was spent, with refreshments as the closing order.

The Woman's Liberty Loan committee of Whittemore and Reno finished their work May 4th, having taken subscriptions during the drive amounting to \$3,050, which represents 51 individual subscriptions.

Mrs. Edgar Louks, accompanied by Mrs. Harriet Hall, spent Friday and Saturday at Saginaw. Miss Helen, who has been at the hospital there the past two weeks, was able to return with them, and is improving rapidly.

Misses Annie and Bessie Leslie entertained the young people at their home on Thursday evening last week in honor of Arthur Johnson and Stephen Nisbet, who have enrolled for Uncle Sam. Refreshments were served and the evening was spent with games and music. While we wish the Godspeed we feel that our loss is Uncle Sam's gain.

We wonder if Mayor Belknap will find it necessary to take the same action regarding our neighbors' chickens and live stock as did the mayor of Tawas City in last week's issue of the Herald. It has been no uncommon spectacle to see chickens ravishing a neighbor's garden, or the owner leading his cow at daylight from a neighbor's corn patch. We sincerely hope this may be discontinued, much to the satisfaction of those who work diligently to raise their own store of vegetables for their families. If it still continues we trust to Mayor Belknap to be "the man on the job."

ANOTHER LETTER FROM EARL ST. MARTIN. Following is a letter received from Corporal Earl St. Martin by his friend, Nelson Sawyer of this city. Somewhere in France, April 16, 1918.

Dear Friend Nelson: Just a few lines to let you know I am well, hoping you are the same. Well, Nelson, we are in the place where we get a gold stripe every six months, but I am just as happy there as 'way back. We are all close to the front, and that is where every American soldier likes to be, as the American soldier has got good nerve. They gave us all an iron hat, and they weigh about ten pounds each.

Well, Nelson, today we were hauling big six-inch guns for the heavy artillery. They weigh about three ton, so you see they are pretty big. Well, Nelson, if nothing happens maybe I will be back to see you in a couple of years. Tell all of the fellows I send them my best regards and hope to see them over here before very long, as there is quite a few that will have to come in next draft.

Say, Nelson, is my brother running my car yet? I am driving a big three ton Riker and like it first rate. Well, I guess this is all for this time. Answer often. Bye-bye. From your old pal, Corporal St. Martin, Motor Supply Train 409, Motor Supply Train 409, A. E. F. A. M. C.

NEWS OF A FORMER TAWAS CITY BOY. Newberry, Mich., May 1, 1918. To the Editor: I am sending you a letter which we would like to have published in your paper. It is of my son, Mr. Harold Goddard, who was born and raised in Tawas City, but who is now, I am very proud to say, serving his country. At the age of 18½ years he enlisted at Flint, Mich., in Company E, Third Regiment, Engineers Corps, and went from there into training at Columbus, Ohio. Was there six months, and from there he went to Corozal, Panama, and landed there the day he was 19 years old. He is now 20, and in the one year he was promoted three times. He was first private, second corporal, and is now sergeant. After his company landed at Corozal, they went into the jungles for three months. After he came from there he was over 65 negroes, building a target range. He said in his last letter there was not much prospect of him going over to France right away, but he is only anxious and waiting for their turn to do their bit for freedom and democracy.

I remain yours truly, Mr. and Mrs. John Goddard, Newberry, Mich.

FROM CORP. ALLAN J. BINDER. Somewhere in France, April 11, 1918.

My Dear Mother: Just a line to let you know I am well and hope everybody at home is the same. I have been pretty busy, so did not get a chance to write.

We have received our trucks, and we are sure busy working night and day. We live right in them all the while.

We sure have seen some of France since we came here, especially when we take trips of about two hundred miles. Something different all the while.

I haven't received a bit of mail yet, but I still expect some. I would sure like to hear from some of you people.

Well, mother, not much to say only that I am feeling fine. Will say goodbye.

Your loving son, Corporal Allan J. Binder, Motor Truck Co. No. 375, American Division, M. T. D. A. E. F. France.
