## THE LAST OPPORTUNITY

There are a number of Herald subscribers who have neglected to attend to the matter of paying their subscription in advance, and who, unless this is promptly done, will be removed from our mailing list this week. We regret the necessity of refusing credit to those of our subscribers whom we know will pay, but the government has issued its orders and we must obey. By Nov. 1 all subscriptions must be paid in advance so that we can make a clear statement when required by the postoffice department. Look at the label on your paper today, and if you are not paid in advance send or bring your remittance to us before next Friday in order to make sure of receiving your paper.

## IMPORTANT—FOR YOUR IMMEDIATE ATTENTION

There is a great demand for young girls between sixteen and twenty-five to do work in our drug laboratories. The initial wage is about \$11.50 a week and inexperienced girls with a grammar school education can generally qualify, but the work calls for exactness and precision therefore the girls must have at least ordinary intelligence. The work is simple and light the factory conditions very good and the need extremely great as these laboratories are preparing serums and drugs which must be gotten over to France. The workers really form a line of defense behind the nurses at the front. As the laboratory work would be an indirect aid in nursing I thought we might be able to appeal to the young women who are desirous of joining the nurses course but on account of the physical or educational requirements cannot qualify for that line of work. We want from three hundred to five hundred girls at once.

The Bureau of Internal Revenue, Treasury Dept. Washington, D. C. is in immediate need of three hundred women as auditing clerks who fill the requirements as stated in the Civil Service announcement No. 464. If any young woman from 21 to 35 years of age is interested in this ask them to apply at once to Mrs. Craig C. Miller, Marshall, Mich., State chairman of Placement Women's Committee, Council of National Defense for information as to requirements. Salary from \$1200 to \$1400 at first leading to \$2000.

## CARD OF THANKS

We wish to extend our sincere and heartfelt thanks to those kind friends and neighbors who tendered their assistance and sympathy during the illness and death of our loved son, and to those who furnished the beautiful flowers. These touching tributes showed us that we had in Tawas City more warm friends that we had imagined. While our present intention is to move to Midland, our many friends in Tawas City will never be forgotten.

## HOW TO SEND CHRISTMAS BOXES TO MEN OVERSEAS

No Christmas Parcel can be Mailed Later Than Nov. 15, 1918

In an effort to meet the desires of the families of men in service abroad the War Department has decided that each man may receive from his family a Christmas package of standard size, and approximately standard articles. To this end, an arrangement has been completed between the War Department, Post Office Department and the American Red Cross, whereby the latter has undertaken to co-operate in the preparation and mailing of these Christmas parcels. To expedite the plan a large number of specially manufactured cardboard cartons have been purchased which will be distributed through the Chapters to the relatives and friends of men in service overseas.

**General Description of the Plan**  
1 To avoid duplication and erroneous addresses, army authorities under General Pershing, are issuing Christmas Parcel label to each man. This measure is required by shipping space limitations.  
2 The men will be instructed to mail this label to home relatives or friends, who upon receiving it will present it to the nearest Chapter or branch headquarters and will receive one carton 3x4x inches in size.  
3 The person receiving it may fill it with any combination of articles which will fit in it and which are not barred by the P. O. regulations. (See list of unmailable articles attached) When ready for mailing the weight of the carton must not exceed three pounds.

4 Parcels ready for shipment will be presented at place designated and Red Cross representatives will examine the contents in order to (a) exclude any articles barred by P. O. Department from Christmas Parcels. (b) Remove any notes or messages found among the contents. (c) Wrap, tie and weigh parcel. (d) Place on parcel Christmas Label received from man for whom it is intended. (e) Person sending the parcel shall then, in the presence of the Red Cross representative, affix stamps sufficient to carry the parcel to Hoboken, N. J. The postage charges for Christmas packages shall be at the rate of 4th class or parcel post zone rate. (e) The Red Cross inspection label certifying as to complete examination of the parcel by the Red Cross shall then be placed on the parcel. (f) Parcels ready for mailing shall remain in the custody of the Red Cross until delivered by its representatives to the P. O. authorities. No Christmas Parcels can be mailed later than Nov. 15, 1918.

**Articles Prohibited**  
All spirituous, vinous, malted, fermented or other intoxicating liquors. All kinds of poison and all articles and compositions containing poison. Explosives of all kinds. Inflammable materials, including friction matches. Infernal machines and mechanical, chemical or other devices or compositions which may ignite or explode. Note—Under this classification would come cigarette lighters, etc.

Liquors or liquefiable articles, fragile articles and other admissible matter when not packed in accordance with the requirements of the postal laws and regulations.

All other articles which may kill, or in any wise hurt, harm, or injure another or damage or defect, or otherwise injure the mails or other property.

**Be Wise—These Facts in Mind When Packing Your Christmas Packages**  
Nothing should go in a Christmas parcel which will not keep fresh from the time of packing until Christmas.

Dried fruits and other foods should be packed in small tin or wooden boxes, one quarter to one half pound size.

Hard candy, including chocolate, would probably be safe in tin foil or heavy cardboard, but no soft chocolates nor anything that could possibly be crushed should be used, as the remaining contents of the package might be spoiled thereby.

Several dainties packed in oblong tin boxes holding each a quarter of a pound will provide a better variety for a packet than a large quantity of a single confection.

No liquids or articles packed in glass should be placed in the packages. For wrapping the gifts use a khaki colored handkerchief twenty inches square.

## IOSCO COUNTY SCHOOLS

The average American is a voracious reader. He reads the newspaper at a glance. He takes time and delight in reading popular magazines. A good story book is a friend and often he is not too busy to read scientific nature. In fact whatever the American does, he puts his whole being, soul and body into it. He thinks and acts for himself. He plays hard, works hard, and he knows why he is fighting in the present war.

School libraries have done much to inspire, energize, and mentally help to develop our American type. The American knows his rights and will fight to maintain them.

Let us as never before take stock of our school libraries eliminating the useless books and restocking with the class of literature that will fill their needs of books suitable for all grades.

The reading habit should begin in the primary and be carried on to a greater degree in the higher grades. Listen to what a noted man, said of books, "The only true equalizers in the world are books the only treasure house to all comers is a library; the only wealth which will not decay is knowledge; the only jewel which you can carry beyond the grave is wisdom. To live in this equality, to share in these treasures, to possess this wealth, and secure this jewel may be the happy lot of every one; all that is needed for the acquisition of these treasures is the love of books."—John A. Langford.

Listen what Governor John A. Johnson says, "The man who influenced my career more than any other lived in our home town and died almost unknown. He lent me the right books; he taught me what to read and how much of what I am, I owe to that man—and to those books."

What a monument to the unknown person who helped to shape the wonderful character of Gov. Johnson. We may play a similar part if we place within reach of our children good books, through the medium of the school library.

## OF INTEREST TO FARM LABORERS

There is a great labor shortage among the manufacturing plants in this district. I find on this account are being solicited to help out as the season's work on the farm is nearly over.

In some instances the farmer has been given deferred classification by the District Board because of his services being required on the farm. While he might be spared temporarily from the farm, he hesitates to leave for fear that he will be placed in Class 1 by the Board.

It is true that when the status of a registrant changes he is subject to re-classification. I can, however, personally see no objection to a farm laborer who can be spared without injury to the farming enterprise, temporarily assisting in some other essential work providing, of course, the owner of the farm consents and he returns to the same farm in the spring for the season's operations.

As Industrial Adviser to the District Board, I want to be satisfied in each case of the good faith of all the parties interested. I would therefore suggest that before any registrant makes a change of this kind, he take the matter up with me to save any misunderstanding.

T. F. MARSTON  
Agricultural Adviser to the District Board.

## NELSON JOHNSON SLACKER

The members of the Iosco County War Board wish to make this statement to the people of Iosco county. Nelson Johnson, of Baldwin township, was reported to us by the Township War Board of that township as refusing to purchase any of the Fourth Liberty Bonds, and as having expressed the wish that he had the money which he invested in the Third Loan back. The members of the War Board with two representatives of the Federal Reserve Bank called on Mr. Johnson Friday evening, Sept. 28, and requested that he purchase bonds, using only such arguments as should appeal to the good citizenship and loyalty of any good American citizen.

Johnson was very abusive in his replies to the committee, insisting that he "had no money to invest in Liberty Bonds." While making great claims as a "Good American Citizen" Johnson still refuses to assist the Government in these trying times, and as he is known to be among the most well-to-do farmers of Iosco County, the County War Board feel that these facts should be made public, and that Johnson be published as a "Slacker" and the general public be requested to treat him as such.

## DEATH OF LEROY WILLIAM GOODALL

LeRoy William, the infant son of Mr. and Mrs. John Goodall of this city, died in Flint at the home of his grandparents, Mr. and Mrs. Henry Goodall, on Saturday, Oct. 19, aged 7 months.

The mother of the babe had gone to Flint with her three children three weeks ago, and she was taken seriously ill with Spanish influenza before reaching Flint, all of the children being attacked with the same disease in a very short time. The father also was attacked, his case and that of the baby developing into pneumonia. The father recovered, but the baby developed pleurisy and later an abscess formed on the head, and the tiny body could not withstand the combined weight of suffering, passing away on Saturday afternoon.

The remains were brought to this city Monday afternoon and the funeral was held from the family home Tuesday morning at eleven o'clock. Rev. McAndrew officiating. Owing to the nature of the disease, and because of the state order prohibiting meetings also because of the serious illness in the same house of Mrs. Wm. Duval (Mrs. Goodall's mother), the services were strictly private. The remains were laid to rest in Greenwood cemetery. Those left to mourn the loss of the child, are the parents and two brothers, Howard and Charles. The many friends of the bereaved family extend their sympathy in the hour of sorrow.

Our aching hearts are sad today,  
Our home seems dark with gloom,  
We've laid our little son away  
Within the silent tomb.  
The Allwise Father in his love  
Should never tread the ways of earth  
Nor know its misery.  
And the we weep full many a tear  
And miss him every hour,  
We still can say "Thy will be done"  
And bow to heavenly power.  
His sorrowing parents

## CARD OF THANKS

## Ice Boxes on Wheels

Refrigerator cars for carrying meat are ice boxes traveling on wheels.

Most people in America would have to go without fresh meat, or would have to pay more for what they could get, if it were not for these traveling ice boxes.

Gustavus F. Swift, the first Swift in the packing industry, saw the need of these traveling ice boxes before others.

He asked the railroads to build them. The railroads refused. They were equipped, and preferred to haul cattle rather than dressed beef.

So Gustavus F. Swift had to make the cars himself. The first one was a box car rigged up to hold ice. Now there are 7,000 Swift refrigerator cars. Each one is as fine an ice box as you have in your home.

Day and night, fair weather and foul, through heat and cold, these 7,000 cars go rolling up and down the country, keeping meat just right, on its way to you.

Thus another phase of Swift & Company's activities has grown to meet a need no one else could or would supply, in way that matched Swift & Company ideas of being useful.

When you see one of these Swift & Company cars in a train, or on a siding, you will be reminded of what is being done for you as the fruit of experience and a desire to serve.

### FROM OUR SOLDIER BOYS

FROM ELGIN J. GLENDENIN  
September 5, 1918

Dear Folks:—

I guess you will think I have stopped writing entirely, but I am not quite so lazy today so I will write a few more lines and see if I can't get an answer to this one at least even if you don't get time to write very often. You must be somewhat impatient for I have been waiting since about the middle of June for a letter which has not arrived yet. Please make an effort to answer this Christmas.

The weather has been fine so far for most of the summer, but the nights are beginning to get quite cold now.

I got a letter from Norman the other day which he had written the 13th of July. I am glad he is staying in Flint. It is pretty good town. Don't forget to send Alice's and Elza's address when you answer this or better still send them a line and tell them to write. Surely they are not burdened with family cares that they can't write a line or two. I have not heard from them since Jan. when they were married. Norman wanted to know if there was anything he could send that I wanted, but there is nothing that you could send that we cannot use for about half what it costs in the states. The cigarettes and cigars are about half the price that they were in the states, so we don't lack anything.

This will not be a very long letter for there is not very much I can say, but can tell you all when I get back. We will probably be done with this war in a year or two. I will try and write again in awhile, but won't make any definite promises. You answer this one better than you did the others.

Is Pearl still in Cincinnati? Give my best regards to the people at home and be sure to kill a few rabbits and partridges for me this fall.

Well will close for this time and expect to get an answer before Christmas.

Your son,

### FROM CLAYTON BAGULEY

France, Sept. 13, 1918

Dear Mother and All at Home:—  
Have at last found a little time to write and let you know that I am still whole and in the best of health, and trust you are all well at home. Yesterday was your birthday and I tried to find time to write, but just couldn't make it, but I am going to wish you many happy returns of the day anyway. Although late better late than never. By the way tell father the same, for by the time this letter reaches you it will be near his birthday too. I have a few odd coins that I am going to send home for your collection, also a few other things that I have managed to pick up. A short time ago I could have sent you a whole lot of souvenirs, but there was no post office in that region, and we couldn't lug things around. I get my mail more regularly now.

I wrote some time ago saying he was going home for a vacation, I suppose he had a great time. I know I would have eaten you out of house and home too. We have plenty to eat, but it is not like getting good old home cooking.

Irl said he was going to enlist. So I suppose he has entered the Service by now. I hope he has entered the Navy he ought to get a good job with his telegraph experience.

What do you think of the Army over here now? Have they been doing anything lately? Wait till I get home and then I will tell you of a few places where I have been although you will probably have read about it.

We are back where things are a little more quiet now, but do not know how long we will be here, I hope quite a long time, for I do not miss the whizzing of the shells to any great extent.

Well mother I must close this letter and get ready for an inspection.

Love to all,  
Clayton

### FROM AUSTIN ALLEN

Hoquiam, October 6, 1918.

Dear Father and Mother:—  
Well as this is Sunday and I have my work all done for the day, will try and write you a few lines. I haven't had a letter from you in two weeks, but hope you are well as this is leaving me fine and feeling good. Sunday, instead of a day of rest is my busiest. I have my washing done, shaved, greased my shoes. I have some patching to do and some buttons to sew on. Then I will be caught up with my work. Some of the fellows send their laundry to Hoquiam, but that is so far from where I am working you can't tell when you'll get it back. It is fifty miles south east of camp, in Grays Harbor.

There is between 50 and 60 soldiers in this camp and every one took at least \$100.00 bond. Palsons camps together bought \$110,000.

Jack McArdle is still in Vancouver working in a saw mill or was the last time I heard from him. Since coming out into the woods we have heard quite a few stories about the rainy season, that they have here in the winter months. It started to rain three days ago so now we are getting a little doped on the weather ourselves and soon will be able to tell stories as good as any of the old timers. We were having ideal weather until three days ago, and when the fellows turned out of the

bunkhouse in the early morning with the moon still shining they used to crow in imitation of roosters. Now they come out quacking as they have nothing to crow about. They tell us this is only a shower, and it will be over next spring. I expect we will all come out of here web footed in the spring.

One of the boys here who, is from an eastern state said that he always had an ambition to cross the United States and now he is out here and still has the same ambition. They tell us that the average rain fall here is 85 inches, but as some of the trees here are as high as 200 ft. there is no danger of our drowning as long as we can climb.

They tell us that some of the trees are so tall that it takes two men and a boy to look to the top of them. I haven't seen any of them yet. Now I must tell you of the work we are doing as we really do work and pretty hard at that.

The work our camp is doing is cutting right off way for railroads into the woods and building the roads which will haul out the spruce for Uncle Sam so he can build the aeroplanes that will lick the Kaiser. Our officers tell us that this is as important an end of the big fight as my other, as aeroplanes will be a deciding factor in the finish of the big scrap.

In 1918 there has already been built 169 miles of roads into these forests. In August the spruce production division shipped 18,500,000 ft. of selected timber which is 1200 per cent the production of a year ago, we expect to average 30,000,000 feet a month by late fall.

Uncle Sam sure is doing things on a big scale and when those sticks start flying over Berlin in the shape of big powerful aeroplanes old Kaiser Bill had better crawl into his hole and pull the hole in after him.

Well dad when you write tell me all about the fair, because I am anxious to hear how my horse came out. If you have Georgie's address send it I haven't had a letter from him in a long time.

I guess I have told you all the news so will close.

### CROWN PRINCE TELLS PAPA WILHELM ALL ABOUT HIS RUN BACK TO RHINE

On the Run,  
Somewhere in France,  
July 20, Times

Dear Papa:—

I am writing on the run, as the brave and glorious soldiers under my command have not seen the Rhine for so long that they have started back that way, and of course I am going mid them. Oh, papa, dere has been some offel dings happened here in France. First, I started in my big offensive which was to crush de fool Americans, but they know so little about military tactics dat they will not crushed be like I want them. I sent my men in der fight in big waves and when they got ti the Americans dey all said "Boo" as loud as they could holler. Well, according to vat you haf always told me, de Americans should have turned and run like blazes. But vat do you tink! Dem fool Americans don't know anything about war, dey came right toward us. Some of dem was singing something about, "We von't come back till it's over over there," or some other foolish song, and some of dem laffin, like fools. Dey are so ignorant. But dey are awful reckless mit der guns and ven dey come toward us is was den dot my men took a notion dey wanted to go back to der dear old Rhine. Ve don't like de little old dirty Marne river anyhow. And, oh, papa, dem Americans use such offel language. Dey know nothing of kultur and say such offel dings right before us. And dey talk blasphemy, too. Vat you tink they said right in front of my face? One big huskey from a place dey call Arkansas, he said—oh papa, I hate to tell you vat an offel ding he said—but I can't help it—he said, "To hell mit der Kaiser!" Did you ever hear anything so offel? I didn't tink anybody would say such offel ting so I turned and run mit theh other boys.

Was I right? Vat? And oh, papa, you know dem breast plates vat you sent us—can you send some to put on our backs? You know we are going the other way now and breast plates are no good, for der cowardly Americans are shooting us right in der back. Some of our boys took off their breast plates and put 'em behind but der fool Americans are playing "Der Star Spangled Banner" mit machine guns on dem plates. Can't you help us? You remember in your speech you said nothing could stand before der brave German soldiers. Oh, papa, I don't believe dese ignorant Americans can ever read your speech for dey run after us just like ve was a lot of rabbits. Vat you tink of dot? Can't you send dem some of your speeches right away? Dey don't know how terrible ve are. Can't you move my army back to Belgium vere ve von all our glory? My men can vip all de vimmen and children von dem Belgians can bring up. But dese Americans are so rough and ignorant. Ve can't make 'em understand dot ve are der greatest soldiers on earth, and ven ve try to sing "Deutschlant Ueber Alles," dey laugh like a lot of monkeys. But ve are getting the best of der Americans. Ve can out run dem. Papa, if we are not the best fighters on earth we are sure the best runners. Nobody can't keep up mit

us ven ve tink of der dear old Rhine, and my army never did tink so much of dot dear old river. Let me know right away vot to do by return post office.

Must Have Regular Meals.

It is said that the native in India is extremely particular about regularity in his meals: once accustomed to eating at a certain hour he must stick to it at all costs. An English engineer had an awkward experience of this when erecting a 100-foot steel pole with the aid of about thirty natives and the minimum of tackle. The pole was halfway up when the "headman" intimated that it was dinner time. Only the most desperate entreaties, coupled with threats, prevented the men letting the pole come down with a run, though it had taken several hours to get it into this position.

### POLITICAL ANNOUNCEMENT

Baldwin Township, Oct. 23, 1918  
Mr. Joseph Dimmick,  
East Tawas, Mich.

Replying to your letter in Herald of Oct. 18th, 1918, will say that what you said about my books and shortages is not true. I was five terms treasurer of Baldwin township and never was short \$100. The books were taken to you at East Tawas and you made two reports. One was that Charles Martin, who held the office before me, was short \$60.00. That report was sent to Charles Martin at Alpena and he paid the \$60.00 to the township treasurer. That is the \$60.00 you say I was short. You made another written statement and gave it to the township board saying Martin's balance when his book was turned over to me was wrong and that Martin paid me \$30.00 more than the book called for, but that my accounts were correct. How you made that out I never could understand, as I gave Martin a receipt for the balance he turned over to me. Is it reasonable to think Martin would take a receipt for less than he paid me? Martin did not claim he did. I paid the \$30.00 and I always believed that I was that much out.

You told several persons that my accounts were correct; although you said I only kept four accounts, there were three schools districts and the usual number of township accounts, and you reported that my accounts were correct. There is just as much truth in that statement as in any you made in your letter.

Mr. Dimmick, I want you to put a statement in the Herald not later than Nov. 1, 1918, that what you stated in your letter of Oct. 15th about the condition of my books and shortage was not true. If you do not I will bring you into court. I was about 8 years secretary of the poor board and my books were examined in court in a case being tried there and were found correct. I will say if I am elected Nov. 5, 1918, the taxpayers will never have cause to regret their doing it. I repeat again that I am going to fill the position.  
adv JOHN SULLIVAN

### Willfulness and Will.

Do not mistake willfulness for will. Very often the girl who is most determined to get her own way in everything, lacks will-power. Will is conducive to self-control, willfulness to a lack of it. The difficulty a girl's proper guardian, her parents and her teachers, encounter in bringing her to do what is expected of her is not the measure of her will, but of her willfulness.—Pennsylvania Grit.

### Japanese Superstitions.

In Japan a light-colored mouse in the house is a sign of happiness. If a spider falls from the ceiling in the morning it brings pleasure, but if at night it is thought to be very unlucky.

We may truly say hundreds have been here coming from various parts of the country and from neighboring towns to attend the mammoth sale of Danin & McLean at the Blumenau block. Every day the store has been filled to its capacity with customers eager for the many splendid bargains that awaited them. It has required a force of fifteen clerks to attend the volume of business that followed in the wake of the large "ad" put out by the proprietor of this sale last week. **Never Give Up.**  
No matter how old you are you should never give up trying to better your best. The spirit to give up is by far a greater foe than years. When you think right and aim to materialize your thoughts it's wonderful what you can do. So root out the craven ideas of life and keep your eyes turned westward. Forget your years and tackle the young man's task. What you lack in freshness you will make up in good judgment. What you need is the effort will you really learn what's in you.—Pennysylvania Grit.
