FROM ERNEST MIELOCK

Archangel Russia, Oct. 4, 1918
Dear Father, Mother and All:—
Received your letter yesterday, the first one since I left Camp Custer.
I certainly was glad to hear that everything was O. K. at home and that the crops were looking good.
I did not write sooner for I have been on detail most of the time today.
I started this letter at four o'clock this manning by condle light; not been sick ever since I came here, this morning by candle light; not nearly a month now in the hospital. much news, but the best I can do I am getting along pretty good now,
I have been up now for 5 days. I feel
pretty good, but I am quite weak
yet. This sickness is something like

I much hews, but the best I can tunder the circumstances, but a letter
at least, and will let you know that
I am still kicking around.
It is just noon and raining and I am

Well I am in Russia now. I suppose you got my other letter that I Love to all. Answer soon. Tell wrote when I was on the boat. In this everyone hello for me. place it gets much colder then Michigan; they say it gets about 40 degrees below zero and they have about 6 feet

I do not think you will get much mail from me this winter for the White sea freezes over and the boats will not be able to get to us. We had a little snow here yesterday, but do not worry about me for I am here to fight for my country and I will try and do my share.

SAVE 16,000,000 BUSHELS OF WHEAT THAT FORMER!

Our boys are doing good work here. Well this is all I have to say for this time. Hoping this finds everybody in the best of health at home.

I will try and write again when I get out of the hospital. It takes the mail some time to go from here to home for I am good many miles away as you can look on the map and figure

it out for yourself. Your loving son and brother, Ernest Mielock,

Co. G. 339th Inf Northern Russia American Expeditionary France

FROM VIRIL HILL

I suppose you are anxious and worried about me. But I am O. K. Feeling fine except for a cold and it

Well I was a real seasick boy coming across, especially for the first two days. I got pretty dippy. After I got over that I caught a cold and had chills and fever for three days; the rest of the time I improved until by the end of the voyage I was quite used to the roll of the boat.

U. S. The people are funny in their to reduce harvest losses from about ways and dress, some wear modern 31/4 per cent.—the estimated average shoes and queer hats. Some look like they would make good pin cushions You should see me forking my French money around. I got ten dollars changed and got enough paper to wrap a morris chair and a whole pocket full of lead washers, at least

they look like lead only much lighter. We are pretty busy. Everybody works over here, and I have not much time to write, at least not as yet. I have been on guard for the last twenty-four hours.

It rains here about every day, and is very muddy. But after a shower the sun comes out and is very pleasant. The soil here is fertile, but a lot different from that in Michigan. The towns are a lot different, the stores sell one or two things, and the next sell some thing else. The streets are narrow, but some are paved. The houses are all built of stone, also the barns, and they look very old. The people ride about in two wheel-

ed carts, not many auto's. When they use horses they put one ahead of the other. It sure looks queer. We are camped in a small field, with

a high hedge all around covered with

a thick bush. I do not know its name. We really get better eats than we did in U. S., or maybe they taste better. We had fried potatoes, good he has the secret. The fact is, there is built in imitation of the factors. bread, jam and coffee, with plenty of is a good deal of luck about it. Of mous palace of Versailles. sugar; that was a good army break- course everybody knows that the per-

same as ever it is getting cold ately and usefully has the advantage

Red Cross?

FROM OUR SOLDIER BOYS How do you like the way the war is going now? I think perhaps you get as much or more news than we do, as news paper men do not visit us. Ab least I have only bought one, it is a Archangel Russia, Oct. 4, 1918 soldiers paper called the Stars and

going now and see what the cook has

OF WHEAT THAT FORMERLY

Farmers, Urged by Food Administration, Provide Seven Extra Loaves of Bread for Every American.

France Oct. 20, 1918 the country. This result, accompanied by corresponding savings of barley, oats, rye and other grains, is shown by reports from 33 grain states to the U. S. Food Administration. Other states, although not prepared to furnish defigrain fields, report greatly reduced

This rural food saving achievement, accomplished in scarcely six months' time, was in direct response to requests by the Food Administration, France is a lot different from the which asked farmers and threshermen in normal times-to the lowest possible minimum. Country grain threshing committees carried into every grain growing community the official recommendations for accomplishing

the results desired. In numerous instances drivers of racks with leaky bottoms were sent the blood on the mucous surfaces of the from the fields to repair their equipprescribed by one of the best physicians ment and frequently bad order threshing machines were stopped until the cause of waste was removed. But in proportion to the number of persons engaged in gathering the nation's grain crop, cases of compulsion were comparatively rare. The Food Administration freely attributes the success of the grain threshing campaign to patriotic service by farmers, threshermen and their crews. Incidentally grain growers of the United States are many millions of dollars "in pocket" as a result of the grain saved.

NO ONE SUFFERED HERE.

The marvel of our voluntary foodsaving, now that we are "getting results," is that no one ever actually suffered any hardship from it; that we all are better in healtn and spirit and better satisfied with ourselves because of our friendly self-denial,

Food control in America held the price of breadstuffs steady, prevented vicious speculation and extortion and preserved tranquillity at home.

In no other nation is there so willing sense of voluntary self-sacrifice as in America—that was shown in the abstinence from wheat.

Find more wheat, it came; more pork, it came; save sugar, it was done. So Americans answered the challenge of German starvation.

Good will rules the new world as fear governed the old world. Through sharing food America helps make the whole world kin.

Food control made sufficiency from shortage, kept the rein on food prices, gave the nation's full strength exer-

Starvation by Germany challenged all the world; food conservation in of Probate. America answered the challenge.

Food conservation in America has been the triumph of individual devotion to the national cause.

First Principles.

The fact disclosed by a survey of the past that majorities have been wrong must not blind us to the complementary fact that majorities have

A Thanksgiving Revival

Back to the days when the Pilgrims celebrated the harvesting of their first crops;

Back to the days when the Revolutionary Fathers gave thanks for the successful termination of their long struggle.

Back to the days of Lincoln who first proclaimed an annual National Thanksgiving.

Thanksgiving oow, as in those years, has a deeper meaning. Let us dedicate ourselves to service and more serv-

ice-to saving, giving and doing; working all together for the success of a great cause.

Wild Duck Consumes Much Rice.

On his way down from Canada or Alaska to the Gulf, the wild duck makes a stop-over of 90 days in the California rice fields, and during his stay consumes a large part of the rice crop, a cupful of rice at a meal. This, considering that the wild duck appears in numbers of perhaps a million or so, makes the situation much more serious than it sounds.
