WOMEN SHOULD REGISTER FOR SPRING PRIMARIES

The spring primaries will be held March 5th, at which time the following state candidates will be nominated:

2 Regents of the State University
1 Superintendent of Public Instruction

1 Member State Board of Education
2 State Board of Agriculture Members

1 State Highway Commissioner.

In addition to these there are numerous county, township and city officials in their respective localities. These nominees will compose the candidates for republican, democratic and socialist tickets.

If a woman desires to name a candidate at the primaries, she must be registered before February 11th. It is just as important to vote at the primaries as at the general election, for if desirable candidates are not selected at the primaries, it is too late to do much in the way of effecting a change.

After the primaries, there will still be time to register in order to vote at the general election April 7th, but every man and woman should feel it a duty to vote at the primaries March 5th, and help name the best men possible for the offices they are to fill.

Where to Register
In cities go to the city clerk; in townships go to the township clerk. You cannot vote unless you are registered, and you must have registered since December 5th, 1918.

Old registrations such as were formerly made by women are void under the new constitutional amendment granting the full suffrage to women.

Who May Register to Vote
Any unmarried woman twenty-one years of age and over, born in the United States.

Any unmarried woman, foreign born, twenty-one years of age or over, whose father was naturalized before she was twenty-one.

Any unmarried woman, twenty-one years of age or over, who has been naturalized.

Any married woman, twenty-one years of age or over, regardless of where she was born, whose husband is an American citizen.

Every voter must have lived in the State of Michigan for six months prior to the date of the election, and must have lived in the ward in which he or she votes for twenty-one days prior to the date of the election.

Every woman must register regardless of whether she has been registered to vote for school board or anything else before this time. This means that every woman, legally qualified to vote, must register.

A woman cannot vote if she is married to an alien. When she marries an alien, even though she was born in this country, she loses her citizenship, and becomes a citizen of the country of which her husband is a subject.

A woman cannot vote if she is foreign born and is the daughter of a foreign born citizen, who became a citizen after she was twenty-one years of age.

If you are the wife of an alien, have your husband go to the county clerk's office and start citizenship proceedings.

If you are unmarried, and were born in a foreign country, start citizenship proceedings.

February 3-7 will be a red letter day at M. A. C. It is the time of the Annual Farmers week. Attractions of interest will be courses of study along dairy, soils, crops, farm management, poultry, livestock, and the use of mechanical machinery. The annual meeting of the Michigan Crop Improvement Association will be held, and an exhibit of the best products raised in Michigan this year. The members of this organization are the men who are raising the pedigreed seed grains which have shown such phenomenal yields. Also the meeting of the Michigan Livestock Feeders and Breeders Association, and the various breeders associations of the state. Sales of livestock will be conducted. A profitable time is assured every one who attends.

Preparations have been made where by the government is to sell at cost nitrate of soda. Applications must be in by January 25th. For further information see the agricultural agent.

Many farmers have started accounts the first of January. They can be started at any time of year, but spring is the best time. Two booklets have been published especially for farm records, and now one has been sent out which has been made especially for farm homes; this is known as a Home Account Book. A good deal has been said about an expense budget. This book enables a person to tell just what part of their income goes for food, shelter, clothing, operating expenses and advancement.

During the same week a number of the leading organizations in Michigan rural life will convene at the college. Among these will be the Michigan Improved Livestock Breeders and Feeders association, the Michigan Muck Growers Association, the Michigan Drain Commissioners, the Michigan School Commissioners, members of the Michigan Farm Bureaus and members of the Michigan Crop Improvement Association.

NOTABLES TO MEET IN CONGRESS WITH MICHIGAN FARMERS

East Lansing, Mich., Jan. 6—Michigan farmers and housewives, who will assemble at M. A. C. February 3 to 7 for a week of lectures, demonstrations and inspirational activities, will hob-nob during their visit to the campus with a number of men and women recognized nationally as agricultural and sociological leaders. Among these guests of honor, all of whom will make addresses to the farmers' week audiences, will be Miss Jane Adams, of Hull House, Chicago; President Thompson, of Ohio State University; President Creelman of Guelph University, Ontario; Doctor McCullum, of John Hopkins University, most famous of animal nutrition specialists and O. H. Benson, national leader of boys and girls clubs. With these personages will be a number of other specialists in farming and household fields.

The plans for the week's meetings, according to Ashley M. Berridge, who is in charge of arrangements, forecast a series of sessions on a scale much more pretentious than any of the past. A considerable feature will be an exposition. This will be set forth in the eight barracks buildings that until two weeks ago were occupied by the student army training corps and will contain exhibits of pedigreed grains, blue-blooded poultry, food and drugs, home economic contributions and public health lessons.

"BEST SELLERS" IN APPLES REALM ARE LISTED BY M. A. C.

East Lansing, Mich., Jan. 14—A list of the six best sellers— not of books, but of apple trees—has been compiled by the department of horticulture of M. A. C. for the information of orchardists, many of whom, in seasons past have plied the college with questions as to which varieties of apples are best to plant. The names of the most popular varieties were ascertained by the M. A. C. horticulturists by making inquiry of nurserymen every year for the past ten years.

In 1913, according to Prof. H. J. Eustace, it was found that the "best sellers" in the order named, were Northern Spy, Jonathan, Wealthy, Wagner, Oldenberg, Baldwin; in 1914, Northern Spy, Baldwin, Oldenberg, Winter Banana, Grimes Golden, Baldwin; in 1915, Jonathan, Wealthy, Oldenberg, Winter Banana, Grimes Golden, Baldwin; in 1916, Jonathan, Northern Spy, Rome Beauty and Wagener, McIntosh, Wealthy and Yellow Transparent; in 1917, Oldenberg, Wealthy, Yellow Transparent, Northern Spy, Wealthy, McIntosh and Yellow Transparent.

The most consistent favorites, in the order named were Jonathan, Northern Spy, Oldenberg, Wealthy, Wagener and McIntosh, and Baldwins.

Fishing Village That Floats.

In the shadow of the huge Manhattan bridge which connects New York proper with Brooklyn nestles a veritable fishing village consisting of nine two-story houseboats moored side by side so as to form a solid row and sheltering the fishermen and their families, on whom New York city is dependent for a good part of its fish supply. But unless you are familiar with the vagaries of fish and the localities in which they school in certain seasons you need not go in search of this village. Often it disappears from a locality overnight, without any farewells, reappearing as quietly a few months later.—Popular Science Monthly.

Wrist Score Pads.

A convenient little score pad for the golfer is attached to a leather strap, which may be fastened around the wrist.

The score pad is worn, of course, on the left wrist and the golfer may jot down memoranda of his score as easily as social memos are scrawled on starched cuffs—or used to be when starched cuffs were in fashion.

The usefulness of the wrist has been sadly neglected in other years, when the bracelet and occasionally the fan were the only things it was expected to carry. Wrist watches and golf scores now fall to its share as part of the burden of life's impediments, and very efficiently it meets its new obligations.

The Dream and the Business.

"The Germans thought war was romantic and glorious," said Brand Whitlock in a Toledo address. "They're finding it a very sordid and disappointing business."

"The Germans are in the position of the young lady who was asked if her seaside love affair had been very romantic."

"Romantic?" she replied. "No. Realistic, rather. Hubert and I each thought the other was an immensely rich swell, and it turns out that he collects the monthly installments on our near-silk parlor curtains."

The Ignorant Lady.

"Military ignorance is bound to show itself," said Representative Woodyard in a trenchant criticism of the German offensive. "All ignorance shows itself, for that matter."

"I heard a lady talking to a missionary the other day about a Turk."

"Did the scoundrel wear a fez?" the missionary asked.

"No," said the lady, "he was clean shaved."

"Indestructible Union."

The expression "an indestructible union of indestructible states" was used by Salmon P. Chase in a decision rendered by him when chief justice of the Supreme court. The case came up from Texas and involved the right of secession and the question whether Texas was ever out of the Union. The court declared that the Union was intended to be perpetual, and in emphasizing the idea the chief justice said: "The Constitution, in all of its provisions, looks to an indestructible Union, composed of indestructible states."

FROM OUR SOLDIER BOYS

FROM REUBEN D. COX
France, Dec. 6, 1918.

Dear Sister and family:—
I received your letter this morning and I will answer it tonight.

I am well at this writing, and hope you are all well.

I hope any of you don't get the "flu." There isn't anyone around here that has got it. I hear it was quite bad in the states.

I have seen about everything I care to see over here. I have seen all kinds of dugouts.

The last front we were on was the Verdun front. It was north of Verdun. It surely was a lively one. There was one fellow killed on the last front in our battery. There were quite a few wounded. I think there was three killed in our battery in all.

There were times I didn't know if I would get back or not. When I get back I will tell you some of my experience I had over here.

The place we are staying at now is close to BorDuc. The name of the town is Leamont. It is not much of a place.

We drill and review about every four or five days.

I would like to eat Christmas dinner with you so I could get a good fill up.

I haven't got that box mother sent. Some of the boys have got theirs. I hope I will soon get mine.

I would like to send you all a souvenir from here, but it is a lot of bother. I will try and get something before I leave here.

We are having nice weather here at present. We haven't had any snow here, and hope we don't get any.

Some of the boys went on a seven day furlough, but it costs so much to travel here so I think I will save my money. Think I can have a better time in the states.

I have seen all of France I care to see.

I have told you all. So will close for this time.

With love to all.
From your brother,

She is a young woman of wonderfully attractive personality, with which is coupled a striking ability as an interpretative reader.

Mr. Howard F. Bolinger is of Welsh descent and possesses a high baritone voice of unusual range and volume, with the appealing sweetness and richness of tone so characteristic of the Welsh singer. His talent was discovered at the early age of six by Mr. John Emerson, well known in musical and dramatic circles of New

York city, and under his direction Mr. Bolinger developed into one of the best boy soloists in northern Ohio.

Later he sang under the direction of the late Charles Thompson, Trinity church, Toledo, and has also had choir experience in Salt Lake City, Chattanooga, Cleveland and Detroit. His voice is particularly adapted to the singing of ballad and folk songs, which always prove to be a popular part of the program.

Mr. Bolinger served nine months in the army and was honorably discharged because of injury received in the line of duty.

Norma Bosson, violinist, has been appearing in public recitals since she was ten years of age. She has successively studied under Karl Kuffer, Dr. Van Hulsteyn, Mrs. Thatcher, Ruth Thoburn and finally at the Peabody Conservatory of Music at Baltimore, Md., of which she is a graduate. Her three years' scholarship in Peabody she won in competition open to all residents of the United States under twenty-one years of age.

In this company are grouped together three artists of recognized worth in music and drama, presenting a well diversified program of music and entertainment of real artistic value. In addition to the solos, readings and ensemble numbers, one or more dramatic sketches will be given.

The Paramount Entertainers will appear as the second number on the Tawas City lyceum course, Thursday evening Jan. 30.

This Bird Can Sew.

The "tallor bird" of India is an excellent seamstress. When this bird decides to build a nest it chooses a leaf that suits its purpose and perforates the edges with its beak. Then it takes a long piece of grass fiber and sews the edges together, making a pocket. If the leaf is not large enough, it is pieced out with another leaf. At the end of the seam the bird makes a knot in the thread to prevent unraveling. This pocket is not the bird's home, however, but only the beginning of it. The nest is made within the pocket. The end of a slender branch is always selected, and as the nest remains its natural color the home of the bird is concealed very effectively from animals and other enemies of birds.—People's Home Journal.

Are You Open-Minded?

The average American is open-minded.

American business is conducted by true Americans of vision, open-minded men who believe in their country and strive to meet their country's needs. The men in the packing industry are no exception to the rule.

The business of Swift & Company has grown as the nation has progressed. Its affairs have been conducted honorably, efficiently, and economically, reducing the margin between the cost of live stock and the selling price of dressed meat, until today the profit is only a fraction of a cent a pound—too small to have any noticeable effect on prices.

The packing industry is a big, vital industry—one of the most important in the country. Do you understand it?

Swift & Company presents facts in the advertisements that appear in this paper. They are addressed to every open-minded person in the country.
