THE EDITORS VICTORY LOAN CONFERENCE
What is said to be the largest gathering of newspaper men ever held in the country, assembled at the Auditorium in Chicago last Friday in response to the invitation of the Federal Reserve bank to a conference and the Victory Loan. About 2,000 editors and publishers were present from Michigan, Wisconsin, Illinois, Iowa, and Indiana and a very pleasant and profitable meeting was held.

In the forenoon the various state meetings were held. The Michigan meeting was presided over by James Schermerhorn, editor of the Detroit Times, and perhaps the most prominent newspaper man in the state. Short addresses were made by Chas. Fenion, director of the loan for Michigan, Eddie Guest of the Detroit Free Press, and Mr. Anderson of the Grand Rapids News.

After luncheon at the Congress hotel the general conference was held at the Auditorium. In an address of welcome which he read in a very creditable manner, Mayor Thompson of Chicago extended a few words of welcome to the delegates and then proceeded to try to justify himself in the eyes of the editors for his actions which had received such censure from the local papers.

Major-General Leonard Wood was the next speaker and was welcomed by the assembly by a marked ovation. General Wood is not an eloquent orator, but his words were fraught with patriotism and good advice to his hearers.

Miss Grace Dixon, director of the Women's committee for the district, one of the best women speakers in the country, gave one of her characteristic addresses and was followed by a number of lesser speakers.

If the editors present can arouse as much enthusiasm in their various communities regarding the Victory Loan as was shown at this meeting there should be no difficulty in putting the loan over big.

Some people spend a lot of time in explaining things they know nothing about. Giving advice is like kissing—easy and pleasant. Taking advice—well, that's different.

HOUSEWIVES ADVISED TO PUT DOWN EGGS

East Lansing, Mich., April 15—"Put down eggs in water-glass and do it now," is the advice of the Poultry Department of the Michigan Agricultural College. Experiments at the college have shown ordinary water-glass, sodium silicate, to be the best all around preservative, while April is recommended as the best month in which to store eggs.

Receptacles of stone, wood, glass or porcelain may be used as containers, and they should always be thoroughly scoured and scalded before the solution is added. Eggs which are to be put down should never be more than a week old, the best results being attained when eggs are preserved the day they are laid, declares Prof. C. H. Burgess of the M. A. C. staff.

A solution of one part water-glass and nine parts distilled or freshly caught rain water is recommended. The water should be boiled for 35 minutes and then allowed to cool before the water-glass is added. Eggs which show a tendency to float should be rejected, and all shells should be clean and solid. Covering of the containers to prevent evaporation is also advised.

SELECTING SUPERIOR SPUDS.

To select strains of potatoes which are best adapted for commercial production, the United States Department of Agriculture and cooperating State agencies are conducting extensive experiments in seed improvement. Trials are being made in Wisconsin, Minnesota, Iowa, Oregon, Washington, Maine, Louisiana, Texas, Oklahoma and Arkansas. Several strains of the leading commercial varieties now grown in the North are under test, the purpose being to study them under actual growing and harvest conditions in the field, and to select the best strain of seed of each commercial variety. The following year each strain will be grown on a larger scale. As the supply of seed stock permits, the seed is to be distributed among growers and seedmen, and in this way is to be gradually popularized and disseminated.

This investigation will be of country-wide significance in improving the future stock of seed potatoes.

THE J. C. ROCKWELL "SUNNY SOUTH" COMPANY

J. C. Rockwell's "Sunny South" company, an organization numbering about twenty-five colored people, is announced to appear in the opera house, East Tawas, Wednesday evening, April 23rd. This is conceded to be one of the strongest combinations of colored talent ever sent on tour. It is entirely different from nearly all other colored shows, inasmuch as it is clean to a fault and during the entire performance there is not a line, an action nor an insinuation which will be handed over the foot-lights, is all new and needs no arrow to point the way to the laughs. It is bristling with new, novel and entertaining features and it is brim full of laughable situations, charming musical numbers and excellent specialties and clean and amusing comedy. Mr. Rockwell claims to have the newest, freshest, most artistic and thoroughly equipped colored show touring the country. He has his claim and arrests public attention by presenting a musical performance that has more original ideas and up-to-the-minute novelties than any similar organization. It is characteristic throughout, being a mixture of fun, melody and dancing, consisting of all the features peculiar to the negro in Dixie Land, presented by negroes of the cultured and educated class, free from vulgarity, without any objectionable features, at the same time sparkling with wit and good humor. It is claimed by the management that the music is all new and original, most of it being of that catchy, rippling sort, which captivates the audience to such an extent that they leave the theatre whistling tuneful snatches and you will hum it on the streets for days to come.

The organization is accompanied by an excellent solo concert band and a superb orchestra. The Kootnown parade takes place at the noon hour. Prices of admission are 35, 50, and 75 cents, plus war tax. Seats for sale at Kelly's Drug Store. adv

IOSCO COUNTY'S QUOTA

We are Ask to Raise \$61,550 as Our Share of Victory Loan

Chairman Len J. Patterson has been notified that Iosco County's quota of the Victory Loan is \$61,550, which is \$23,150 less than the amount asked for on the Fourth Loan. He expresses the opinion that Old Iosco will have her quota over subscribed on the three Volunteer Days, next Monday, Tuesday and Wednesday, and the Herald can see no reason why she should be disappointed. Our people have always met the requirements and exceeded them.

The investment offered by the government on this Victory Loan is more attractive than that of the previous loans as it is in the shape of convertible government gold notes, maturing in four years, and bearing 4 1/2 per cent interest. Interest will be payable December 15 and June 15. The terms on which these notes are offered are made more easy for those who buy on time. They are offered as follows: Ten per cent with application; 10 per cent July 15, 20 per cent August 12, 20 per cent September 9, 20 per cent October 11, and 20 per cent November 11, 1919. The notes are dated May 26, 1919, and mature May 20, 1923.

Iosco County has secured an "Honor Flag" on each of the previous loans. Now let us get a "Victory Flag," to complete our honor. If each city and township does their duty and secures a "Victory Flag," the county will have every reason to be proud of its record in war activities. A failure to do so will blot upon our previous good record.

The apportionment of the county quota among the various cities and townships is as follows:

East Tawas	\$8600
Tawas City	6125
Whittemore	2450
Oscola	5550
AsSable	1275
Alabaster	3600
Baldwin	2425
Burleigh	5525
Grant	3650
Plainfield	6125
Reno	4300
Sherman	4000
Tawas	5500

COUNTY AGENT COLUMN

C. P. Milham

THE HIRED MAN QUESTION.

In spite of the fact that many soldier boys are returning to their homes there is a scarcity of farm help. The farm help problem will be a perplexing one this summer. At the start of the war, when thousands of farm boys were taken from the farms, labor from the city was rushed to the rural districts to continue crop culture, and throughout the war emergency help has been the main stay of those who remained behind. Men are not rushing to the country to work. Employment agencies receive no applications from men desiring to work on farms. There is no doubt that there will be a great deal of the large crop of wheat spoiled unless help is forthcoming at the time it is needed.

Soldier boys have learned new trades in the service of their country. Many farmer boys are engaged as mechanics, and like that work more than working on a farm. To the fathers of those boys, the only advice which can be given is to motorize the farm. Do the work with tractors of some form of mechanical power.

What will the conditions be in Iosco county this summer? Does anyone wish to work on farms this summer? The only source of supply is the towns. Will the people in the towns be willing to lay aside their work, go out into the country, into the fields where the air is bracing and cool or hot and sultry, and help harvest the food products so necessary to the world today?

Last summer and fall the county agent received several very urgent calls for emergency farm help. The calls were filled to the best of his ability with the aid of willing city people. Some who went out appreciated the fact they were doing the farmer a service, their country a service, and were giving their bodies a form of exercise which was beneficial even though tiresome. By working among the farming people, the city dwellers get better acquainted with them, and the rule also works the other way.

Now is the time to plan for the summer work. If you need help, let the county agent know a little time in advance. If you are willing to go out into the country, let the agent know. Both parties must cooperate if the best results are desired.

I. C. M. A.

Religion becomes an argument when considered from the viewpoint that all creeds maintain individuality of opinion, that their own is the only one acceptable to reach heaven. Science is an argument as it meets with exceptions in nearly all of its findings. Social and political questions are arguments or else laws would be unnecessary or enactment. The duty of Iosco County has presented before it in the matter of the I. C. M. A. is not an argument but the How, When and Where and What are. It is a big job for one man to keep the dust, cobwebs, and microbes from covering this subject. While believing that the county is the proper agency to make it carry an atmosphere of welcome to everybody, to strat an argument present the following. If 25 people in Iosco county would give \$50.00 each, 50 would each give \$25.00, 100 give \$15.00 each, 200 give \$10.00 each, 300 give \$5.00 each it would make a fund of \$7500.00. With less than five dollar donations this fund could be made \$10,000.00. To make a start along this line we announce that two persons have signed up in the \$50.00 list. This makes the I. C. M. A. nearer by \$100.00 than six weeks ago. As individuals what is to be the final result?

FROM OUR SOLDIER BOYS

FROM JAMES EARL WEBB
Bruck, Germany, March 21, 1919

Dear ones at home—
Just a few lines to let you know that I am O. K. and just as fat and saucy as ever this Friday evening, and I have been on guard today and am a little tired.
I got a letter from Libbie yesterday and also one from Edd and Ellen, and they told me about someone stealing three of their chickens. Well I bet they had a good feed and maybe they have been in the army. I don't blame them very much, if they have for I have not had a taste of chicken since I have been over here, and I have been over here for about eight months. Well we have been doing some hiking this last week. We went to a place about fifty kilometers from here the whole fourth division was there and General Peersing was there to inspect us. He came right down through the ranks and talked to the men. He is a fine looking fellow. We also passed in review before him and they took our pictures on the moving picture machine. Maybe you will see it over there if you go to the show some time. General Peersing also gave us a short talk. He told us we would go home in the near future, but we do not know whether it will be very soon or not. He also said that the fourth division was as good as a division as you would find in the American Ex. Forces. So that is not bad at all. We left Bruik on Sunday morning and we hiked for nearly two days. We got back home Thursday morning. We rode in trucks about fifteen kilometers. On our way we stayed over night in one little town. A couple of persons died and when they dug the graves they dug up the bones of a skeleton. I seen a skull that they dug up. It looks a little funny to such a thing as that. The Germans do not think anything of it. It makes a fellow feel a little funny.
Well Pa, how are you getting along with the chores. Hope the stock is looking good. You go right ahead and work my place this summer. You can have all you make. It will not make any difference if I get home this summer or not. I will not come in for any of the crops. I hope it paid you last year. Tell Alma and Ida to write. I am getting very sleepy and it is nearly time for taps to blow. Glad to hear that you got over the "Flu" alright. Libbie was saying that Winnie was just as fat as a little pig. I would give a lot of money if I could walk in on you folks and give you a real surprise. How is Walter and Ida and the baby getting along. Are you folks getting the allotment I made since I came over here. If not let me know and I will see what I can do about it.
Well mother how is the ear phone working. I hope you are having good luck with it. Well girls I have been cleaning my rifle and pressing my clothes for inspection in the morning.
Well news is scarce, so I will close with love to all. Give my best love to the boys and girls around home. I saw Ray Ristow of Tawas City and he gave me the Tawas Herald, it is the first one I have seen in a long time. Well I will close as it is bed time. Will close with love to all. I remain

FROM LESTER BIGGS
Northern Russia, Feb. 2, 1919.
Mr. Harry VanPatten.
Dear Friend—
I thought I would write you just a few lines for pass time and I think you would be glad to hear from some of us Ruskies over here. There isn't much news to write only I can say I am well and happy.
I will describe to you this place called Northern Russia and some of my experiences. So this is Russia. Every now and then the Stars and Stripes find their way up here to "no woman's land" and are instantly devoured by the news hungry, who are searching for information regarding their comrades and general conditions in France where we belong, but through fate were sent up to this part of the world to quell Bolshevism.
Probably about next month at this time some one will come around and say we will be pulling out of here in a day or so, but then the days will be six months long. In one issue of your popular paper we noticed a cartoon, "pity the boys in Siberia."
There are dogs of every description, from the poodle to the St. Bernard and from the wolf hound to the half dachshund, which are half German's and half Bolsheviki and looks the part.
The wind whistles across the Daina river like the twentieth century limited passing podonk. Snow flakes are as numerous as retreating Germans were in France a few weeks ago.
We have quarters when we are here. Thank fortune for that and good food when it comes up. If we can stand the winter, we will be all jake for a yank accustomed himself to anything if he wants to. We would like to see artists busy on "The boys in Northern Russia" and tell them not to leave out the word "Northern."
We read in the Stars and Stripes that the boys in Italy had some tough twisters and brain workers. Listen to this, centimes and sovs and francs may be hard to count, but did you ever hear of a ruble or a kopeck? A kopeck is worth a tenth of a cent, and there are a hundred of them in a ruble as you will see that makes a ruble worth a dime, and to make matters worse all the money is paper. Coins have gone out of circulation since the beginning of the mix up. A kopeck is the size of a postage stamp.

A ruble looks like a united cigar store certificate. A 27 ruble note resembles a porous plaster and a 100 ruble note the Declaration of Independence.

When a soldier in search of a meal enters a restaurant, he says to the waitress, "beefsteak lady please. You see you always say Barishna, which really means girl and until she is married she is always addressed as barishna. She will answer the hungry soldier, "I am sorry, but we are out of food today." He will try several other places—and if he is lucky he is apt to stumble across a place where he can get something to eat, but when he looks at the bill of fare and learns it costs him about \$7.50 for a sandwich and a cup of coffee he beats it back to the barracks.

Every time you get on a street car you have to count out 60 kopecs for your fare, and most of us would rather walk than to be jammed in the two by four buses and fish for the money. Before boarding the car each passenger usually hunts up a couple of milk cans, a market basket or two and a bag of smashed herring so they will get their kopecs worth and the ride besides making the atmosphere nice and pleasant for the rest of the passengers. If you should see a soldier walking down the street with his nose turned up and his mouth puckered in an apparent contempt, you would be wrong in thinking he was conceited, for if the truth be known he probably just got his shirt back from the washwoman and she has used fish oil instead of soap and he is trying to escape the fumes. When you take your clothes to have them laundered and tell the woman to please omit the odor, she'll tell you that she has no soap and if you want them washed to your satisfaction, please send in a cake. Anything in the world to keep your clothes from smelling of fishoil, and so you double-time back and get her the soap and then she gives the kids a bath and that's the end of your soap. When a Russian meets another man he shakes his hands with each other. If they stop to talk they always shake hands even if they haven't seen each other for fully 20 minutes. But other folks shake hands again when they leave. When a man meets a lady friend he usually kisses her hand and shows her how far he can bend over without breaking his suspenders. He will say, "How do you do," which she will reply, "very well thank you." A fellow has to shake hands so much that some of them are getting the habit around the company. Another thing Ed, are they really holding a separate war up here for our benefit? Just because we were not in on the big things in France, is no reason they should run a post season series especially for us. We appreciate the kindness and honor where everybody has to use. Believe me after all the dope one got on the trenches. About peones and wooden flowers, steam heat and other conveniences, we see ourselves on out post with one blanket and a poncho sleeping not on duty of course in 28 inches of pure oozy mud, which before we wake, turns to thin ice it makes us cry out and ask the universe what we have done to deserve this exile. Now don't think dear old pal that we are kicking. American soldiers never do. We just wanted to have something to write about to remind you that we are a part of the American E. F. Although isolated with many greetings, we hope to meet you again. Excuse writing and mistakes. I must close. Write to me once in a century.
I remain as ever, Lester

In This Age of Hurle.
 A friend of Goethe's once said to him upon his return from a sojourn in Rome, "You must know Rome very well." "Oh, no," replied Goethe, "I was there only seven years." More of our modern plays, it would seem, are written in a period that might be covered by seven days rather than anything like a period of seven years of study or training.

Catarrah Deafness Cannot Be Cured
 by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrah deafness, and that is by a constitutional remedy. Catarrah deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrah, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.
 We will give One Hundred Dollars for any case of Catarrah Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, Etc.

A well-kept home
 is a paying investment. Letting your home "run down" will prove costly economy when the bill for repairs comes in. Save your home from the wear and tear of weather and hard usage and it will save you money in the end. Don't forget that a house well-painted will rent or sell for 20 per cent more than the house that shows lack of care.
 The wise property owner looks carefully to the paints and varnishes that he uses for he knows that those that give the greatest length of service will, in the long run, always mean a saving of dollars and cents. That is the common-sense business reason behind the wide use of
ROGERS' PAINTS AND VARNISHES
 They have proved themselves money savers to the user, and the careful buyer of paint and varnish looks for the Rogers' Trade Mark on every can.

The Boys Are Marching Home

WE HAVE paid our debt to France and have shown all the world that we could do what most of the world thought we couldn't do.

We have made the Kaiser's prophecy that "German ships would unload troops in New York docks" come true---but they are not German soldiers.

But we haven't paid all the debts incurred in this gigantic task.

We have one more Liberty Loan to float. It's a victory loan and we should subscribe it in a hurry.

Readjustments are taking place and all good citizens are getting ready for the arrival of big business, which is almost here.

Those in charge of the bond sales for Michigan's quota believe that the people of Michigan are big enough, loyal enough and liberal enough to adopt the volunteer plan of subscription and make it a grand success.

Wouldn't it make your heart thrill with pride if you could read in your morning paper April 22nd, a headline across the page "Michigan subscribed her quota the first day?"

It can be done. All that is necessary to accomplish this wonderful feat is for YOU and ME and every other YOU and ME in the county deciding beforehand how much of the loan we can subscribe for and then making that our first duty on April 21st, by calling on the Local Committee and filing our application.

We'll feel a lot better wearing a volunteer button than we will to wait for some of our neighbors to leave important work to come and "sell" us our share.

We know the money has to be raised. We know the security is the best in the world, and we know it's up to every American citizen to do his share. Let's make Iosco County lead the bunch.
