KRUMM—PHILLIPS

Sunday afternoon, Aug. 31st, at 3 o'clock, a very pretty wedding was solemnized at the Emmanuel Lutheran church in Tawas City, when Miss Alma Minnie Krumm, daughter of Mr. and Mrs. August Krumm of the Meadow road, and Byron C. Phillips of Flint were united in marriage by Rev. Aug. Kehrberg in the presence of a large number of friends and relatives.

The bride, who entered on the arm of her brother, Wm. Krumm of Detroit, was very attractive in a gown of white georgette over satin with a long train falling from the shoulders, and carried a shower bouquet of brides roses and sweet peas. Her veil was formed in cap effect with a wreath of lilies of the valley. Her only ornament was a diamond lavalier, a gift of the groom. She was attended by Agnes Dyer and Laura Knaack of Bay City, who wore dresses of pale blue and white pineapple tulle and net, and large hats to match. They carried bouquets of pale pink asters.

The groom was attended by Mr. Charles William of Flint. Miss Minnie Knaack of Bay City played the Mendelssohn wedding march and also rendered other selections during the ceremony, and Mr. and Mrs. Henry Bown of Bay City rendered vocal selections.

After the ceremony a reception was held at the home of the brides parents, about 100 guests attending.

After a short wedding trip, Mr. and Mrs. Phillips will be at home at 754 Patterson Ave. Flint, Michigan.

TAWAS CITY WINS GAME FROM HARRISVILLE

Tawas City, without a manager, took a bunch of fellows up to Harrisville to play off their schedule game Sunday. Atlee Mark, who was acting manager, placed the men where he thought best and was well rewarded by seeing them defeat Harrisville 3 to 1. Hoshbach played third, did some sensational work making several nice pickups and throws to get his man by a step. Olson, a new man for Harrisville started the game but was taken out in the first inning when Tawas had scored three runs with but one out. Barber finished the game pitching somewhat as he used to. Next Sunday Tawas plays Oscoda at the Fair grounds. Everybody come as a good game is expected.

Greatest in 24 hours .60 on the 13th.
Number of days with .01 inch or more precipitation 9, clear 19; partly cloudy, 12; cloudy, 0.

AERIAL PATROL PREVENTS FIRES

That guarding National Forests with airplanes to prevent fire is effective under favorable conditions is shown by the fact that during the six weeks of aerial patrol ending August 2, 56 fires were discovered in the California forests before they could do great damage. The aviators from the three flying stations, Mather Field Sacramento; March Field, Alessandro; and Rockwell Field San Diego, made 373 flights, covering a distance of 45,376 miles in 38,545 minutes. To this is added the work done by the United States Army Balloon School at Arcadia, where is maintained in the air night and day an observation balloon similar to those that were used on the western front.

LABOR DAY CELEBRATION

The Labor day celebration under the auspices of the various crafts employed by the D. & M. Ry. and Baldwin Lodge I. O. O. F. of East Tawas was one of the most successful affairs of the kind ever attempted here. The weather was auspicious and an immense crowd turned out at Tawas Beach to enjoy the basket picnic and dance and witness the various sports and games.

The parade started from the city hall, Tawas City about ten o'clock. It was headed by Uncle Sam, impersonated by Fred Noel, followed by a band and then by the Odd Fellows and the various federated crafts, each in its own special formation. Some of the crafts had floats depicting their special branch of service, prominent among these being the blacksmiths and the carmen. Following were the decorated automobiles and others not decorated.

The line of march was through Tawas City to East Tawas, up Newman street and around to the city hall, where the parade disbanded.

The prize for the best decorated car in the parade was awarded to Charles Quick and second prize went to Oscar Whitman.

At Tawas Beach in the afternoon a good program of sports was pulled off, with liberal prizes for the winners, and a baseball game was played between East Tawas and Harrisville which was won by East Tawas by the score of 6 to 0.

The dance at the pavilion was a very enjoyable feature of the day, and everyone who attended the celebration reported a splendid time.

Following are the winners of the prizes in the races:

100 yard dash for boys under 18—First, Wade Lomas; second Geo. Cater

50 yard dash for girls under 18—First Norma Mitchell, second Clara Leit.

100 yard dash, free for all men—First, Emil Buchholz; second A. J. Carlson.

25 yard dash for girls under 8 yrs.—First Lucie Klump; second Helen Fernette.

25 yard dash for boys under 8 yrs.—First, Arnold Lomas; second Geo. Lomas.

Three legger race, men—First, Carlson and Brass; second, McDonald and Cecil.

50 yard dash, married women—First Mrs. Jed Harrington; second Mrs. Walter Luce.

Running broad jump, free for all—First, Charles Beck; second H. Brass.

Hop step and jump, free for all—First Charles Beck; second H. Brass.

VICTORY BUTTONS FOR THE RETURNED SOLDIERS

The War Department has notified Secretary F. F. Taylor of the Iosco County Red Cross that at an early date a distribution of the Victory Buttons for all men who saw active duty in the late war, will be made through the agency of the local Red Cross societies.

The buttons will be issued to all officers, enlisted men, field clerks and members of the Army Nurses' Corps who served on active duty in the army of the United States between April 6, 1917, and Nov. 11, 1918, and whose service was honorable. The buttons will be of silver for those who were wounded in action and bronze for all others.

Victory medals will not be issued to the following classes, as they rendered no service to the War Department and were never on active duty within the meaning of the phrase as applied to the button:

1. Conscientious objectors who refused to wear the uniform or accept service in a branch of the army.

2. Men accepted by local draft boards but rejected at camps before entering upon regular duty thereat.

It has been suggested that the date for the distribution of these buttons be made the occasion for a regular "Welcome Home" for all Iosco county boys who have returned from service. If the war department gives sufficient notice so that such a celebration can be arranged it would be an excellent feature and should be carried out.

Watch for further announcement of date of the distribution.

PAPER FROM COTTON HULLS

As a result of experiments conducted by the Firest Products Laboratory, United States Department of Agriculture, a good grade of paper is being produced in commercial quantities from cotton-hull fiber. Pulp made from second-cut cotton linters and hull fiber, the forest specialists say, is well suited for the manufacture of books, writing, printing, blotting, cover, and other high grades of paper, and is equal in quality to the highest grades of paper stock.

COUNTY AGENT COLUMN
C. P. Milham

WHEN THE FARMER GETS AN EIGHT-HOUR DAY

The following paragraphs compose a letter written the other day by R. C. Holbert, a New York state farmer, and published in the New York Tribune. It expresses the farmers' viewpoint so well on the most important issues now before the American people that it is printed herewith:

"To all labor organizations and the American government at Washington I beg to say that the scheme of more pay, shorter hours and cheaper cost of living will never work side by side.

"Higher railroad rates will increase, instead of decrease, the cost of living.

"I will make this statement as a farmer. There isn't a farmer in the United States who can make a living for himself and family by working his farm on an eight-hour-day system, and as everything we live on comes from the farm the farmer and his family are all laborers and are entitled to the same hour schedule per day or week that railroad unions and other unions enjoy, they will in the future demand it as their right.

"When the eight-hour day actually goes into force and the labor organizations' schedule of prices is adopted on the farm the cost of living will have to go up 50 to 100 per cent.

"The difference between the farmer and his family producing foodstuff and the labor unionist and his family in regard to earning capacity is this. In a large percentage of the city workers the man or head of the family is the only one that has any earning capacity. The boys and girls, when not in school, run the streets; the wife prepares a meal which is already cooked in a bake-shop, hires her washing done at a laundry, and the balance of the time attends the movies or sewing circle.

"In the farmers' case they all work from the smallest to the biggest, and work fourteen to sixteen hours a day, and a very nice fat mortgage hanging over their home." Farmers Dispatch.

MORE PHEASANTS RELEASED IN IOSCO COUNTY

Fifty adult ring-necked pheasants have been released in Iosco county by J. H. McGilivray of the State Game department. The birds were segregated into small coveys and placed in the most advantageous covert for protection and general distribution in the county areas. The locations chosen were Tawas township the Prescott ranch, Long Lake near Hale, Wilber swamp, Fish Point and Foote Site dam on the AuSable.

The "ring-neck" is an importation from the province of Mongolia, China, and has long been exploited as a game bird in Europe. It is now being distributed in many sections of the United States. The Michigan State Game Farm is rearing the pheasant as an adjunct to our native American grouse or "partridge" last year 27,000 pheasant eggs were assigned to applicants in Michigan for incubation under domestic hens. More than fifty percent of the eggs hatched and more than 14,000 birds were released in the wilds. Besides the birds thus reared more than five thousand adult pheasants were liberated direct from the State Game Farm, Mason. The birds are showing a marked increase in natural covert and indications are that an open game season will be placed on them a few years.

EARLY FALL WHEAT PLANTING IMPORTANT

East Lansing, Sept. 4—That the proper planting time of wheat is a factor which is not given the attention it deserves is the opinion of Prof. J. F. Cox, head of the crops department at the Michigan Agricultural College. The tendency in many sections of

Michigan is to plant at such a late date that the wheat does not develop sufficient top growth for best wintering. Tests have shown that earlier plantings give better results, early October being usually too late to plant for profitable crops.

The following dates are given by Professor Cox as safe planting times for Michigan: Southern Michigan counties, two tiers, September 20 to October 1st; Central Michigan, as far north as Saginaw Bay, September 14 to September 25; Northern lower peninsula, north of Saginaw Bay to the Straits, September 10 to September 20; Upper Peninsula, August 25 to September 10.

It is also important that rye be planted at the right time. Rye can generally be planted 15 to 20 days later than wheat with assurance of good returns but maximum results will be obtained if it is planted during the periods given for wheat. Late October and November plantings do not compare favorably with those planted at an earlier date.

"Preparation of the seed bed, treatment of seed, and proper fertilization are all important factors in wheat production," says Professor Cox, "but I believe that the planting time is vital. If we fail to observe it, our other efforts will be wasted."

SOME THRIFT COURSES IN ALL SCHOOLS THIS FALL

With the resumption of school in September many of the educational features of the Thrift and War Savings Stamps campaign will be centered in the classrooms. The continuation of the Little Lessons in Thrift which were sent direct to all teachers in the five states of the Seventh District during the first six months of the year will be provided for. These lessons are designed for all grades, but pay particular attention to the younger classes, where it is desired to instill early the principles of thrift and saving.

In all eighth grade schools and in high school it is planned to interest the pupils in personal accounts, a systematic and regularly conducted organization being formed in each school for that purpose. The system will include personal experiences in buying, selling and account keeping.

Students in all colleges and universities will be enlisted in a campaign to popularize personal accounts and systematic savings. Domestic science teachers in public schools, normal schools and colleges, and agents of extension departments will be utilized to make this individual budgeting of students incomes effective.

PRINCE ALBERT
The national joy smoke

SAY, you'll have a streak of smokeluck that'll put pep-in-your-smokemotor, all right, if you'll ring-in with a jimmy pipe or cigarette papers and nail some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, then, to hit the peak-of-pleasure you land square on that two-fisted-man-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pike with your smokethrottle wide open! Talk about smoke-sport! Quality makes Prince Albert so appealing all along the smoke line. Men who never before could smoke a pipe and men who've smoked pipes for years all testify to the delight it hands out! P. A. can't bite or parch! Both are cut out by our exclusive patented process!

Right now while the going's good you get out your old jimmy pipe or the papers and land on some P. A. for what ails your particular smokeappetite!

You buy Prince Albert everywhere tobacco is sold. Toppo red bags, tidy red tins, handsome pound and half pound tin humidors—and that classy, practical pound crystal glass humidor with sponge-moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

CAMELS are the most refreshing, satisfying cigarette you ever smoked! Put all your cigarette desires in a bunch, then buy some Camels, give them every taste-test and know for your own satisfaction that in quality, flavor, smooth-body and in many other delightful ways Camels are in a class by themselves!

Camels are an expert blend of choice Turkish and choice Domestic tobaccos. You'll not only prefer this blend to either kind of tobacco smoked straight, but you'll appreciate the remarkable full-bodied-mildness and smooth, refreshing flavor it provides! Camels are a cigarette revelation!

Camels win you in so many new ways! They not only permit you to smoke liberally without tiring your taste but leave no unpleasant cigarette aftertaste or unpleasant cigarette odor!

Compare Camels with any cigarette in the world at any price! You'll prefer Camel quality to premiums, coupons or gifts!

Camel CIGARETTES

Camels are sold everywhere in a scientifically sealed package of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel!

We have recently received a car of roofing and offer a strictly high grade Slate Surfaced Roofing at the price usually paid for inferior material. The recent fire in Tawas City proved the danger of shingle roofs as buildings blocks away caught fire on their shingled roofs while slate surfaced roofs were in no danger. With our high grade roofing you can re-roof without moving the shingles, saving much money and muss. Come in and we will tell you all about it.

If you buy a tire here, another there, you cannot expect uniform tire mileage and service.

Making Firestone Gray Sidewall Tires standard for your car means you can forget the tire question. And after that decision, the renewal question will come up far less frequently.

You can easily prove this by equipping with Firestones now.
