## COUNTY AGENT COLUMN

C. P. Milham

Owing to a marriage in the family of the county agent (not himself though) he will be absent from the county until Thursday afternoon, October 9th.

Again the county agent found it necessary to call for the state veterinarian to come to the county to study serious troubles with livestock. He hopes the troubles will soon be checked, and will do all he can to check them.

## CORRECTION OF ERROR

A purely unintentional error was made by the county agent when he reported the fair at Hale to the press. The Cleaners are entitled to the credit for the successful fair at Hale, and not the Grangers as stated. He is sorry the error was made and assures everyone it was unintentional and begs forgiveness.

## COMMUNITY MEETINGS

Community meetings are being arranged in some sections of the county. Not only are farm families planning on talking over new ideas, progressive methods, and business connections, but they are meeting for a good time.

Box socials, pie socials, and other kinds of socials are being planned at a number of places. Two will be held next week, one at the Vine school and another at the Corrigan school. The Corrigan school will have a box social with their community meeting on Friday night October 10th, and the county agent will be there to give a talk. If you are planning on doings in your school, get the county agent out to attend. He will do you no harm, and might do you some good.

## AGRICULTURE AT FAIR

The county agent is glad of so many exhibits in the grain and vegetable department of which he was superintendent. Exhibits of corn, potatoes, pumpkin, squash, and cabbage excelled last years exhibits both in size and quality. Some who exhibited perhaps have wondered why they did not win a first premium. In watching the judges, who were both good farmers living in the county, several things were noticed: they awarded premiums on the quality rather than on the size.

In the potato exhibits there were several entries of potatoes of monster size. Had the premium been awarded on the peck of largest potatoes, they would win easily. Other exhibits were medium size, smooth and uniform, and it was to these the judges awarded the premium. In picking the winners on cabbage, the judges also awarded the premiums to the hardest cabbage rather than the large soft ones. Corn judging also upset the dope somewhat. First prize was awarded to a sample of medium sized ears which showed uniformity and early maturity rather than on a large eared sample which would ripen only once in four or five years. The judges awarded the premiums to the best of their ability to the kind of produce they would prefer to grow, the quality kind. Next year, those who were beaten at this fair will know what to select, and will be liable to carry off the honors. Always select the best, not the largest.

## THE IOSCO COUNTY FAIR

From a financial standpoint the 1919 fair of the Iosco County Agricultural society was one of the most successful held in recent years. After paying all expenses Secretary Mark informs the Herald that there will be a good surplus left to be expended in making improvements to the grounds and buildings.

As an agricultural exhibit the fair this year, however, was one of the poorest. The hall devoted to the showing of fruits, vegetables, etc. was barely half filled, and while the exhibits shown were of a splendid quality there was not enough of them to form an adequate representation of the agricultural interests of the county. This lack of exhibits is due in part to the small premiums offered for displays, the sums offered not being sufficient to repay the producers for the trouble of bringing their products in and taking care of them while at the fair. Especially is this true of the stock and poultry exhibits, in which departments the exhibits this year were the smallest ever shown here. Only one man entered cattle, in the sheep exhibits only six animals were entered, no pigs were shown and the poultry exhibit was small.

Only four school exhibits were shown this year, as against eight or nine last year. This is undoubtedly due to the fact that no premiums were paid on the school exhibits last year, which naturally acted as a deterrent to making exhibits this year. This is regrettable, as the school exhibits for the past three years have formed the major portion of the displays in the hall, and unless fair treatment is given the schools and their premiums paid he exhibits will undoubtedly be entirely discontinued.

First prize in the school exhibits was won by Baldwin No. 3, second by Alabaster No. 1, and third by Tawas No. 2.

Something should be done by the officers and directors of the fair association to create more interest in the agricultural exhibits and to bring it to a standard where it would represent the products of the county in a better manner than was done this year. Other counties are doing this without neglecting the entertainment features, why not Iosco county?

A great deal of criticism of the fair management was heard this year on account of the concessions granted to the Robinson & Jennings Amusement company. Besides the merry-go-round and Ferris wheel this company had a large number of catch-penny concessions which nearly or quite bordered on gambling. Wheels of fortune, fish ponds and many other devices where the majority of the prizes were particularly worthless, and one game where money was the bait to lure the nickles and dimes from the public, were much in evidence. These games were naturally avoided by people of mature judgement, but were a great temptation to the young folks, who spent their money freely with little return for it. There was also a show of the risque order which catered mostly to the male element.

Sakata, the Japanese wire artist did some very thrilling and entertaining feats of juggling and slack wire walking, giving two exhibitions daily and eliciting much applause.

The races were fast and exciting and formed a very considerable portion of the entertainment of the fair. The baseball games, too, were very interesting and were witnessed by a large number of "fans". The game the second day of the fair was between Alabaster and Harrisville and resulted as follows:

## DEATH OF GEORGE E. HALL

George Hall, for forty-five years a resident of Iosco county was called to his rest last Wednesday morning, Sept. 25, at 11:30.

Mr. Hall was born in Strathroy, Ont. Aug 31, 1847, being but a few weeks past his seventy-second birthday. When a young boy he came with his family to the United States, settling in Port Huron. About forty-five years ago he came to Tawas City, which was but a hamlet at that time. He was employed as sawyer in the Hale mill and later in the Emery mill in this city. He was also filer in the old company mill here, and run the first hand saw in the Emery mill. During the portions of the year when the mills were not running he drove stage between East Tawas and AuGres, being thus employed for many years.

Thirty-eight years ago he married Miss Ada Rath whom he met at AuGres. After their marriage they lived in AuGres where Mr. Hall was employed in the Whitney mill, for two seasons, after which they returned to East Tawas. After a six years residence here they purchased the farm on the Hemlock road, where they made their home until two years ago, when they retired from active life and returned to this city, where they purchased a cozy home in which to spend their remaining days.

Three children were born to this union, one of whom Mrs. Hazel Katterman, died about ten years ago. The other two, Mrs. Lottie Pringle of Flint and Mrs. Ruby Durant of the Hemlock survive. Besides the widow and the two daughters above mentioned two brothers, Daniel, of Port Huron and James of Detroit, and two sisters, Martha and Mrs. Elizabeth Stocks of Port Huron, also survive. There are also five grandchildren living.

Mr. Hall suffered a paralytic stroke ten years ago and had been in failing health since that time, being under the care of specialists a greater share of the time. He also sustained a slight stroke at the time of his death. A curious incident lies in the fact that his watch stopped at the exact moment of his death, 11:30.

Mr. Hall was a consistent member of the Latter Day Saints church, and had been a member of the Odd Fellow lodge of Maple Ridge for many years.

The funeral was held in the Methodist church Saturday afternoon, Elder M. A. Sommerfield of the L. D. S. officiating. The remains were laid to rest amid a profusion of flowers, the tokens of esteem of a host of sympathizing and sorrowing friends. Interment was in the family lot in Tawas City.

Mr. Hall was of a quiet, home loving disposition, his chief pleasure being found at his own fireside with his loved ones around him. Through his industry he had built up a splendid farm, his especial attention being given to the improvement of stock, especially of horses, he having imported some blooded horses from Canada.

His wife and daughters were at his bedside when he died, and the relatives from out of town who came to attend the funeral were Mr. and Mrs. Louis Pringle and three children of Flint, Mr. Daniel Hall, of Port Huron, a niece, Mrs. Richard Coughall of Richmond, and a nephew, Wilfred Graham of Port Huron, Mr. and Mrs. James Rath of Bay City, and Mrs. Jones of Cass City, were also in attendance at the funeral, Mr. Rath and Mrs. Jones being brother and sister to the bereaved wife.

The sympathy of a large circle of friends in the Tawas and surrounding community is extended to the sorrowing family in the hour of their bereavement.

Mrs. Hall expects to close her home for the winter and visit with relatives and friends in Detroit, Port Huron, Cass City and Richmond, returning here in the spring.

## CARD OF THANKS

We desire to thank many friends and neighbors for the kindnesses shown us during the illness and at the death of our beloved husband and father, also for the many beautiful floral offerings.

One night last week, after the family of Riley Griffith had retired, a flash light was flashed into the room occupied by Omah, the sixteen year old daughter of Mr. Griffith, who has been acting as her father's housekeeper since the death of her mother a few weeks ago. It is thought that whoever the intruder was, believed that Miss Omah and her little sister were unprotected, but a relative of the family was asleep in another room. **Every Dot represents Ten Satisfied Delco-Light Users**

**More Than 75,000 Satisfied Users**

DELCO-LIGHT was designed and built by men who were raised in farm homes—who experienced the discomforts and inconveniences of farm life—and who set out deliberately years ago to develop an electric plant that would provide city advantages for rural communities.

They were the same men whose engineering talent had made DELCO Starting, Lighting and Ignition Equipment for automobiles the standard of the world—

They knew electricity—and they knew the needs and limitations of farm life—

They knew that an electric plant to give service in a farm home must be simple, so that it would not get out of order and require complicated repairs—

It must be easily operated and require little attention—

It must be very economical in operation—

It must be built to stand hard usage and it must last indefinitely—

It required five years to develop a plant that would measure up to these specifications.

There were five years of hard engineering effort back of DELCO-LIGHT before the first plant was put on the market three and a half years ago.

Today DELCO-LIGHT is furnishing the conveniences and comforts of electricity to more than Seventy-five Thousand farm homes.

It is providing an abundance of clean, bright, economical electric light for these homes. It is furnishing power to pump water, operate washing machine, churn, separator, vacuum cleaner, electric iron, milking machine, and other small machinery.

And everywhere it is demonstrating its wonderful efficiency—and actually paying for itself in time and labor saved.

**A SHORT STORY**  
 Cough.

**Catarrhal Deafness Cannot Be Cured**  
 by local applications, as they cannot reach  
 the diseased portion of the ear. There is  
 only one way to cure catarrhal deafness,  
 and that is by a constitutional remedy.  
 Catarrhal Deafness is caused by an in-  
 flamed condition of the mucous lining of  
 the Eustachian Tube. When this tube is  
 inflamed you have a rumbling sound or im-  
 perfect hearing, and when it is entirely  
 closed, Deafness is the result. Unless the  
 inflammation can be reduced and this tube  
 restored to its normal condition, hearing  
 will be destroyed forever. Many cases of  
 deafness are caused by catarrh, which is  
 an inflamed condition of the mucous sur-  
 faces. Hall's Catarrh Medicine acts thru  
 the blood on the mucous surfaces of the  
 system.

We will give One Hundred Dollars for  
 any case of Catarrhal Deafness that cannot  
 be cured by Hall's Catarrh Medicine. Cir-  
 culars free. All Druggists, etc.

**Slate Surfaced  
 Roofing**

We have recently received a car of roof-  
 ing and offer a strictly high grade Slate  
 Surfaced Roofing at the price usually paid  
 for inferior material.

The recent fire in Tawas City proved the  
 danger of shingle roofs as buildings blocks  
 away caught fire on their shingled roofs  
 while slate surfaced roofs were in no  
 danger.

With our high grade roofing you can re-  
 roof without moving the shingles, saving  
 much money and muss.

Come in and we will tell you all about it.

 hope to have more than a very  
 little knowledge of any make
