Mrs. Geo. Hadwin, worthy matron of the local Eastern Star chapter, left Monday evening for Grand Rapids to attend the annual meeting of the Grand Chapter of Michigan which has been in session in that city this week.

Celebrations in honor of the 25th anniversary of the organization of the Ancient Order of Gleaners are being held in various parts of the state this month. The Gleaners fair at Hale a couple of weeks ago was a part of this big celebration.

Stephen Ferguson moved his grocery stock this week into the new store which he has just completed on the site of his burned one. The new building is much more convenient and commodious than the old, and is up-to-date in every particular. E. H. Buch's new building is also nearly completed and he will move in at an early date.

Someone is liable to get into serious trouble if the law regarding bicycle riding is not better observed. Twice during the past week children have been knocked down by boys riding bicycles on the sidewalks. It is not the older riders who cause the trouble, but the small boys who ride on the sidewalks everywhere in the city without bells or lights at night, and whose aim seems to be to see how fast they can go regardless of the rights of pedestrians. If their parents cannot control these boys it is time someone else took a hand.

Dr. C. A. Wakeman sold his residence in this city last week to Mr. Coyle. On Tuesday of this week Dr. and Mrs. Wakeman left for Pinconning, where they have purchased a residence and will make their home. They have been residents of Iosco county for thirty-five years. Dr. Wakeman being the pioneer doctor of the county. For sixteen years he practiced at Whittemore and then removed to this city where they have lived for nineteen years. The doctor leaves a lucrative practice and he and his wife have many friends in the county who will regret their removal, but wish them happiness and success in their new home.

CELEBRATES ITS THIRTEENTH ANNIVERSARY

The Twentieth Century Club held its first meeting of the year on Oct. 4, at the home of Mrs. Stickney.

The program opened by the singing of a group of favorite songs, followed by the president's address, which was an inspiration to each member for combined effort and greater service.

As this was the 13th anniversary of the club, the program committee issued invitations to all previous members to attend and respond to roll call by giving a greeting or reminiscence. The response received from the many out-of-town and members present were very interesting and greatly enjoyed.

After a very pleasing instrumental, by Mrs. Conant, the meeting was adjourned and those present held a short social session.

They were then invited to the tastily decorated dining-room, where delectable refreshments were served. The center of attraction being a delicious white cake resplendent with 13 lighted candles.

NIXON-SMITH
At the Central Methodist church, Detroit, on Monday, Oct. 6 at 2:15 p. m. occurred the marriage of Miss Fanny Dixon, daughter of Mr. and Mrs. George Dixon of Almont, to Mr. Ray Smith of Tawas City, Rev. Kenzie, pastor of the church officiating.

The happy couple arrived in Tawas City Tuesday afternoon and after next week will be at home in their residence on Sherman street.

Mr. Smith has a large circle of friends in this city and the surrounding county who will extend their hearty congratulations and best wishes and a hearty welcome to him and his bride.

THE FIRE ENGINE SITUATION

At the regular meeting of the common council last Friday evening the fire engine question was again under discussion, and considerable interest was aroused when Mayor Myles read an affidavit signed and sworn to by City Clerk Allen stating that on Monday, Sept 1, C. H. Sutphen, who was trying to sell the city his fire engine mounted on a Ford truck, attempted to bribe him by offering him the sum of \$20.00 to use his influence in persuading the city council to buy said engine.

A number of the members of the council now regret their hasty action in purchasing this machine, and they, together with many of the citizen taxpayers of the city, will be glad if a way can be found to cancel this contract and leave the way clear for consideration of other apparatus. Propositions have been received from two other firms, either of which promises better equipment than would be afforded by that contracted for.

Had the council advertised for bids in the legal way or even waited for replies from the firms that were notified that the city was in the market for a fire engine, much dissatisfaction could have been averted. But whenever the city has considered the purchase of equipment of any magnitude, the city council has always bought the equipment without waiting for more than one firm to submit a proposition.

As witness the electric light plant purchased some years ago and the bridges purchased a few years later. And now the same tactics have been followed in the purchase of a fire engine.

Whether a way will be found out of the present dilemma or not remains to be seen, but if one can be found it is certain that the council will be more careful before being bound by a contract.

CORN SMUT BAD IN STATE THIS YEAR

East Lansing, Oct. 1—That corn smut is worse in Michigan this year than ever before is the opinion of plant disease experts of the Michigan Agricultural College, who have found as high as twenty-five per cent of the plants in fields of the central part of the State infected with the smut. This does not mean that a fourth of the crop is lost, however, for many plants that are infected produce one or more fully developed ears.

"There is no seed treatment for corn smut," says Dr. G. H. Coon, of the Botany Department at the college. "Many farmers expect to treat corn in a manner similar to the wheat treatment, but there is no such treatment for corn. Corn smut is not spread through the seeds."

Control methods for corn smut include a rotation of crops in order to avoid planting corn on ground infected the year before, and the cutting out of all smut early—before it matures enough to spread in the powdery form. Smut which is cut out should always be burned or buried. If it is left in or near the field it will mature and spread just as well as if it had not been cut off the plants.

Seed corn can be selected from smutty fields with perfect safety, according to Dr. Coon. The fact that the smut is not spread through the seed makes this possible, and there is no reason why farmers should hesitate to use good seed selected from a field which is infected with smut.

WE WARN THEM

Now that a civil service law gives postmasters a life job, we hope none of them will spoil it all like a famous New Yorker did last summer—resign it to run for president.

COUNTY AGENT COLUMN

C. P. Milham

POTATO DEMONSTRATION ON COUNTY FARM

The result of the demonstration of potato varieties planted on the county farm by the county agent, showed that some varieties of potatoes were superior to others. As a general rule the russet type potatoes proved the most resistant to disease and to the leaf hoppers and plant lice which did so much damage this year. The Petoskeys surpassed all others in size of plants, and yield of marketable tubers. Of the white potatoes the Carman seemed best. There are on exhibit in the county agent's office one hill samples of each of the thirteen varieties.

Two other demonstrations were carried out. One potato was laid in the sun for at least six weeks before planting time, and another was kept in storage. Twenty-one hills were raised from each. The "greened" hills outyielded the "stored" ones. Another year people desiring early potatoes may hurry the maturity at least a week by greening them.

Twenty-five Petoskey potatoes were planted in sets of four hills from each potato. The best set was far superior to the poorest, and all showed by their increased size and yield of tatty potatoes that choice seed will raise choice potatoes.

SEED CORN

We must profit by the lesson of 1915 and 1917 and save enough seed corn for two or more years. The 1919 crop promises to be one of the largest on record, and few farmers will lack for mature corn. There are a number who have badly mixed corn and it is to them that an appeal is made to secure enough seed of a pure strain to plant two years acreage. This is "playing safe." No one knows whether frosts will kill the corn planted next spring or next fall. So play safe and save enough seed.

STATE AGRICULTURAL COLLEGE OPENS WITH BIG ATTENDANCE

East Lansing, Oct. 7—The Michigan Agricultural College opened for the year last week with one of the heaviest enrollments in its history. Nearly 1,400 students registered the first three days, and late arrivals were expected to boost the attendance above the college record of 1,600 four-year students.

The agricultural division continues to lead in total enrollment, more than 500 men being entered in this section. Engineering, Home Economics, Veterinary Medicine and Forestry divisions also came in for a full share of the enrollment.

The freshman class, numbering more than 600 men and women, is the largest ever enrolled at the institution.

YOUNG FOLKS WILL BOOST ROOSEVELT MEMORIAL

Michigan's younger generation of Americans are taking an active part in the state's campaign to raise the \$200,000 share of the national quota of \$5,000,000 for memorials to the late Theodore Roosevelt. Announcement is made at state headquarters, in Detroit, that indications are that a large majority of the Camp Fire Girl and Boy Scout organizations of the state will be enlisted for the cause.

One of the first counties of the state to call on the children for co-operation is Cheboygan. Mrs. John B. Boucher, who has been appointed vice-chairman for the county, has arranged with the local Camp Fire girls for their service, not only in assisting in the distribution of publicity material and information on the purposes of the campaign, but also during the week of the intensive campaign, Oct. 20 to 27, inclusive, in collecting the contribution of the citizens.

In this and other counties, the Boy Scout organizations will be assigned to various duties in connection with the campaign. Both organizations will have special parts in the school exercises which will mark Roosevelt's birthday anniversary, Oct. 27, the last day of the campaign. County chairmen are also instructed to keep the newspapers in their sections supplied with news of the local activities and editors in all sections of the state have promised their best cooperation in keeping the campaign before their readers.

COUNTY ATHLETIC TESTS FOR SCHOOLS

Athletic tests on a weight class basis are being planned for the rural schools of Iosco county. Every boy is expected to take part in all the events in his class and is advised to begin training now. The scoring table is so arranged that every boy is credited with whatever points he earns whether his weight be 60 or 125 pounds. A suggestion of events and basis of scoring is given below.

Weight classes.	Honor	100
60-80 lb. class	Standard points	
50 yd. dash	8 sec.	6 sec.
Standing board jump	5ft. 6in	7ft. 7in.
Running broad jump	5ft. 6in.	7ft. 7in.
Baseball throw	120 ft.	170ft.

81-95 lb. class		
75 yd. dash	11 sec.	9 sec.
Standing board jump	6 ft.	8ft. 1in.
Running broad jump	11ft.	15ft. 2in.
Baseball throw	150ft.	200ft.

96-110 lb. class		
100 yd. dash	14 sec.	12sec.
Standing board jump	6ft. 6in	8ft. 7in.
Running broad jump	12ft. 16 ft.	2in.
Running high jump	3ft. 9in	4 ft. 9 1/2 in.
Baseball throw	180 ft.	230ft.

111-125 lb. class		
100 yd. dash	13 sec.	11sec.
Standing board jump	7ft.	9ft. 1in.
Running broad jump	13ft.	17ft. 2in.
Running high jump	4 ft.	5ft. 2in.
Baseball throw	195 ft.	245 ft.

126-150 lb. class		
8 lb. shot put	28ft.	40 ft. 2in

Extra points are awarded for all scores above those listed in these tables, and all boys weighing over 125 pounds are entered in the unlimited class.

It is recommended that these tests be held in each school separately so that pupils can train for township or county meets.

Teachers and pupils in rural schools are requested to contact this out for further reference.

MUSHROOM GATHERING HELD AS DANGEROUS

East Lansing, Oct. 7—Recent rains and rather warm weather are causing mushrooms to appear in Michigan by the thousands, and a warning has been sent out by Dr. E. A. Bessey, Professor of Botany at the Agricultural College, that indiscriminate picking of mushrooms by people who do not know the individual varieties is a very dangerous proceeding.

"While only 20 or 30 of the six or seven thousand kinds of mushrooms are really very dangerous, the chances are too great to warrant the use of any mushroom which is not absolutely known to the collector," says Dr. Bessey. "The danger is all the greater in that in some cases the symptoms of poisoning do not show up until some hours after the mushroom is eaten. It is then too late to get rid of the poison by emetics.

"There is no one rule by which one can safely distinguish the edible from poisonous mushrooms. The silver spoon test relied upon by some with the idea that a poisonous mushroom will turn the spoon black when cooked with them, while wholesome mushrooms will not tarnish it, is only good to this degree—that the blackening merely indicates that the mushroom has begun to decay. It does not, however, tell whether a mushroom is poisonous or not. The idea that if the skin peels off easily it is to be considered as a good mushroom, does not hold because in some of the most poisonous ones the skin peels nicely, while some of the edible ones do not peel.

"The color of the gills is not a safe criterion when taken by itself. Most pink-gilled species are wholesome, but some are poisonous. The safest rule is to learn to know the mushroom."

Anyone who wishes to learn the various mushrooms should consult a reliable book. Such a book has recently been published by the Michigan State Geological and Biological Survey under the title "The Agaricaceae of Michigan."

BIG DEMAND FOR FARM LANDS

From Alpena comes the report that there have been more real estate sales, chiefly farm lands, during the past fourteen months than in the past 14 years. It sounds just a little bit exaggerated, but reports which Secretary Marston, of the Northeastern Michigan Development Bureau, has received from nearly every county in the district are to the effect that the demand for land, both improved and unimproved, was never greater than it is this year, and every farm sold means a new booster for the community into which the purchaser comes.

Miss Cora LaBerge went to Saginaw Friday and spent the week end with her sister, Mrs. Roy McMurray. Miss Aurora LaBerge also went down on Saturday.

Mr. and Mrs. Joe Flint and Miss Iva Anschuetz returned on Friday of last week from a visit with Mr. Flint's mother and brother at Chippewa Falls, Minn.

THE RED CROSS SEAL SALE

Lansing, Oct. 6—There are a great many people who still believe that dollars grow on mulberry bushes so far as the tuberculosis campaign is concerned, according to Miss Charlotte Ludington, field nurse of the Michigan Anti-tuberculosis Association. Miss Ludington, during recent months, has visited many parts of the state assisting in the holding of free clinics, and she has learned at first hand how the people regard the tuberculosis campaign.

"There are literally hundreds of thousands of people who do not know where the funds come from," she declared. "They know of course that free clinics cost money. There are the heavy traveling expenses, the salaries for doctors and nurses, the money needed for supplies. It all costs a lot of money. The service is entirely free to the public, as is all the service given in its various forms by the Michigan Anti-tuberculosis Association. But a great many Michigan people simply take for granted that the funds will be forthcoming somehow."

But the only source of income the Michigan Anti-tuberculosis Association has is the annual Red Cross seal sale in December. There is literally not a red cent coming from any other source. If the seal sale should fail, the association would have to discontinue its work. The one would automatically follow from the other.

The seal sale the coming December is to be the biggest effort along that line that the Michigan Anti-tuberculosis Association has ever attempted. Miss Ruby B. Carlton, in charge of the work, is already busy organizing the state. The Michigan Association has big plans for anti-tuberculosis work in 1920, but those plans will be contingent on the success of the seal sale.

COLD STORAGE

Uncle Joe Cannon believes in practical regulation of cold storage, and he told his fellow members of congress that he wanted the law so fixed that "when it said 'spring chicken' on the dining-car menu he would know which spring was referred to, whether it was this spring or last spring."

Representative King of Illinois, told the house that he believed that from three to five per cent of the membership of congress suffered constantly from ptomaine poisoning caused from eating cold-storage food, "and if the truth were known," he added, "it would be found that the President of the United States, on his long trip to the Pacific coast, was served with cold-storage food, so that he is now suffering from nothing else than

ptomaine poisoning." Hoarding and profiteering are charged up to the cold-storage system, but in defence of the practice it is pointed out that the Government itself is right now disposing of thousands of carloads of food that were held in cold storage for the army and navy.

And so, congress, weighing the ifs and ands of the storage problem has decided in its favor, but is intent on maintaining stiff rules and bylaws in order that the thing may be done right.

STRIKE AND UNIONS

Careful students agree that the industrial disputes are not upsetting American ideals of free government.

Secretary of Commerce Redfield says that "organized labor is losing the sympathy of the general public." He explains that "organized labor agitators are taking advantage of a sort of post-war economic crisis to increase their power over the whole field of industry at a time when all elements should be moderate and pull together for the national well being."

WHAT THE DEVELOPMENT BUREAU IS DOING FOR NORTH-EASTERN MICHIGAN

The time is nearly here when the supervisors of the counties of North-eastern Michigan will be asked to renew their subscription or membership to the Development Bureau and the question may naturally arise as to just what the bureau is doing for the counties which belong to and support that organization, a question which is often asked and which to those who take the pains to investigate is answered to their entire satisfaction.

The Development Bureau has carried on for years an advertising campaign for the 17 counties which help support it which is having a cumulative effect that grows greater every year, and results of advertising done in the very earliest years of the development bureau's existence are still bringing land buyers to the district. And the greater portion of this sum comes from the counties of Bay and Saginaw, the former contributing \$2,000 each year and the latter \$1,000, while a majority of the individual membership also comes from those counties. It is only fair, however, that these two counties should contribute the largest sums for this work, as they are the wealthiest, but their interest in the development of the entire district is no greater than that of any other county and they get no more direct benefit than does the least developed county in the district.

But there are 17 counties with memberships in the bureau this year and with an expenditure of an average of less than \$300 each of these counties has received direct advertising and publicity which has cost an average of \$1,000 per county. Those who have investigated the work of the bureau all realize that in no other way could they get the results obtained for the small amount of expenditure involved.

This Year's Publicity

During the present year, for instance, the bureau has issued 15,000 copies of booklet entitled "Health and Pleasure in North-eastern Michigan," which has advertised the summer resorts of the district, copies of which have been sent all over the United States and which have brought to the bureau many complimentary remarks upon its appearance and its contents. Five thousand copies of a booklet entitled "Ranching in North-eastern Michigan" have also been distributed. A special booklet on Midland county, similar to booklets covering other counties issued in other years has also been published, to the extent of 10,000 copies and there will be issued this fall 15,000 copies of a very comprehensive story, in booklet form, on the subject of "Live Stock Raising in North-eastern Michigan." All of these booklets have been issued at a comparatively small cost to the counties which they advertise, as a large part of the expense has been covered by the sale of advertising space or of the booklets themselves.

Another feature new this year, has been the addition of a great amount of newspaper publicity, through the co-operation of the publishers of all of the papers in the district. This has been done by the publication in these papers of news stories on the development of the district and many of these have been of so great readable value that they have been copied in trade papers, agricultural publication, etc., having a wide circulation not only in Michigan but throughout the country.

That the advertising carried on by the bureau is effective is shown by the scores of people who are coming into the district looking for improved farms or large tracts of cut over lands and the far reaching effect of that advertising is indicated by an instance which occurred this year when a man from Illinois walked into the office of the bureau announcing that he had come to buy a farm here and brought with him a worn copy of a booklet issued in the second year of the bureau's existence which, he said, was what had attracted him to North-eastern Michigan.

Among the important things which the bureau has done and is doing for the counties which are members is bringing their advantages to the attention of the stockraisers of the west and southwest, many of whom are coming here to find grazing lands, and the making of displays at the state fair of products from all counties of the district, which displays attract attention in a manner which no exhibit by a single county could possibly secure. Similar displays have been made at the large county fairs and, frequently, at state fairs in other states. The fact that the district exhibits made almost invariably carried off the first prizes and blue ribbons at the Michigan state fair is an indication of how they attract attention of the farmer and the stock breeder to the district, and not a year has passed that these exhibits have not brought prospective investors here looking for lands.

The special work of the bureau in teaching the value of and introducing through calf and pig clubs, of thoroughbred livestock, has been a great educational feature which is helping to develop the district as a dairy and stock-breeding country, and this work is continuing to grow in extent and value.

Some idea of the prosperity which has been brought to the counties of the district during the recent years, when there has been a rapid transition from the lumber camp to the farm and the stock ranch, may be gathered from the banking figures furnished by one of the northern counties which a comparatively few years ago had little in it but logging camps and saw mills and which now has not a single saw mill, no timber and is a solely agricultural county, its only manufacturing plants being those connected with agriculture. In the days of the lumbermen there was but one bank in the entire county and its deposits never exceeded \$40,000 or \$50,000. Now it has five banks located in its various villages and they have a total of \$1,500,000 or more of cash deposits, and the financial history of this county is being or will be duplicated by every county in the district, but can be bought about only by attracting to the various counties settlers from other states by cal-

ling to their notice the fact that there are in north eastern Michigan vast areas of good farming lands to be had at prices which make them desirable and attractive. There is no other agency which has the means to bring these facts to their attention in the broad and far-reaching manner of the development bureau.

IN MEMORIAM

THEODORE ROOSEVELT

A PROCLAMATION

To the People of the State of Michigan:

The people of the United States of America and its possessions, under the leadership of a nonpartisan association of friends and admirers of the Great American, are about to provide suitable memorials to the late Theodore Roosevelt.

It has been decided, during the week of October 20th to 27th, inclusive, to set forth the aims and purposes of the movement to the end that all shall have the opportunity to contribute to the fund for such memorials.

Theodore Roosevelt was an outstanding exponent of the "square deal" in all the relations of life, a champion of the common people, a passionate lover of his country, and an uncompromising defender of its institutions, its laws and its highest traditions;

Therefore, as Chief Executive of the State of Michigan, I deem it a high privilege to urge a universal participation in this movement, without regard to political ties, and the hearty cooperation of all citizens of the state in contributing their efforts and their gifts to the perpetuation of Roosevelt's memory. In honoring him we honor the principles for which he stood and inspire in this and future generations a greater reverence for our beloved country.

It would seem fitting to observe in some special manner the twenty-seventh day of October, the anniversary of Roosevelt's birth, and I, therefore, suggest appropriate exercises in our schools and the holding of public meetings in all communities to mark the event.

Given under my hand and seal of the State of Michigan this twenty-fourth day of September, 1919.

ALBERT E. SLEEPER,
Governor of Michigan.

WHOLE NATION TO HONOR MEMORY OF ROOSEVELT

WILL CONTRIBUTE MONUMENT FUNDS THROUGHOUT UNITED STATES AND ITS POSSESSIONS.

OCTOBER 20-27 DATE SET

Michigan Organizes to Raise \$200,000 Share of \$5,000,000 National Quota; Every Citizen Will Be Given Opportunity to Participate.

Perpetuation of the memory of Theodore Roosevelt, the man and the American, is the purpose of a campaign which, during the week of Oct. 20 to 27, will raise a fund of \$5,000,000 in the United States and its possessions.

The plans of the national committee in charge, headed by Col. William Boyce Thompson, call for a suitable monument in Washington and the establishment of a national park at Oyster Bay, Long Island, which, it is hoped, will include Sagamore Hill, the home of Col. Roosevelt, to be preserved like Mount Vernon and the Abraham Lincoln home at Springfield, Ill.

Michigan is to have a prominent part in the movement, which is already under way throughout the whole country and in Cuba, Panama, Hawaii, Alaska and the Philippine Islands. The state's share of the quota has been set at \$200,000 and an organization is now being formed to conduct an active campaign in every county.

The state organization is headed by Paul H. King, who was appointed chairman for Michigan by the national association. He is being aided by the following committee of prominent state people: Col. Charles B. Warren, chairman of the executive committee; Gustavus D. Pope, vice chairman, Detroit; Harry O. Turner, secretary, Detroit; Thomas P. Phillips, director of publicity, Detroit; Russell A. Alger, Detroit; Clarence L. Ayres, Detroit; John W. Blodgett, Grand Rapids; Dr. F. P. Bohn, Newberry; David A. Brown, Detroit; Fred W. Castator, Detroit; M. J. Cavanaugh, Ann Arbor; Frank Cody, Detroit; Gerrit J. Diekmann, Holland; Frank D. Eaman, Detroit; Woodbridge N. Ferris, Big Rapids; Rt. Rev. Michael J. Gallagher, Detroit; P. J. M. Hally, Detroit; Mrs. Rena L. Hamilton, Detroit; Col. Frank J. Hecker, Detroit; Thomas E. Johnson, Lansing; William Livingstone, Detroit; Mark T. McKee, Detroit; Alfred J. Murphy, Detroit; Mrs. Truman H. Newberry, Detroit; Charles A. Nichols, Detroit; Patrick O'Brien, Houghton; Chase S. Osborn, Sault Ste Marie; Thomas W. Payne, Detroit; Rev. M. S. Rice, Detroit; J. H. Rice, Houghton; Mrs. Abby Beecher Roberts, Marquette; Mrs. Huntley Russell, Grand Rapids; Albert E. Sleeper, Bad Axe; William Alden Smith, Grand Rapids; Otto E. Soversign, Bay City; Mark W. Stevens, Flint; Mrs. Ethel Ridgley Vorce, Grosse Ile; Lt. Col. George B. Waldo, Detroit; L. Whitney Watkins, Manchester; Miss Bina M. West, Port Huron; N. C. Wright, Detroit; Carl Young, Muskegon.

Chairman King has already appointed a chairman in each county and these leaders are naming men and women workers in every city, village and township, to carry the message of the campaign to all the people.

Gov. Sleeper has issued a proclamation calling the attention of citizens to the movement and urging universal co-operation. Thomas E. Johnson, superintendent of public instruction, has communicated with school commissioners and superintendents of schools, teachers and pupils, asking for their whole-hearted support. The Michigan house of representatives, at the last session of the legislature, adopted a resolution calling on the superintendent to place a picture of Col. Roosevelt in each schoolroom in the state and Mr. Johnson is now making the distribution and suggesting that the pictures be dedicated, with appropriate exercises, on Roosevelt's birthday, Oct. 27. Students in the university and in all state colleges are being asked to take an active part in the campaign.

The work of the intensive campaign has been divided so that special efforts may be made by large civic groups of citizens. The following days have been set apart:

Sunday, Oct. 19, Church Day, with

NOTICE
Notice of hearing of objections to proposed improvement under Act 59, Public Acts of 1915, as amended, of assessment district road No. 2.

To all persons interested in said proposed improvement and to the townships of Grant and Tawas, in Isosco county and to the county of Isosco.

Whereas, A petition has been filed with us as the Board of County Road Commissioners of Isosco County, Michigan, praying for the improvement of the highway commencing at the south corner common to section 34 and 35, town 22 north, range 6 east, Grant township, Isosco County; thence north on the section line common to said sections 34 and 35 to the section corner common to sections 26, 27, 34 and 35; thence east on the section line common to sections 35 and 36, 25 and 26, said town 22 north, range 6 east, and sections 30 and 31, 29 and 32, 28 and 33, 27 and 34, 26 and 35 to the section corner common to sections 25, 26, 35 and 36, fractional town 22 north, range 7 east, Tawas township, thence continuing easterly on the present traveled road across fractional section 36 to the west corporation limits of the city of Tawas City, said point being 18 feet south of the north ¼ corner of said section 36; and

Whereas, we, as such Board of County Road Commissioners of Isosco County, are of the opinion that the proposed improvement is necessary for the benefit of the public and would be for the convenience and benefit of the public welfare; and

Whereas, we have made our first order of determination, stating that the proposed improvement is necessary, as aforesaid and have caused a survey and specifications and estimates of the cost thereof to be made and filed with us as such Board of County Road Commissioners of Isosco County; and

Whereas, the specifications made by us are not yet final and will not be made final until after the hearing of objections to the same by all persons interested therein; and

Whereas, we have determined the boundaries of the proposed assessment district for improving said highway in Grant and Tawas Townships, Isosco county, as above described; and

Whereas, it is proposed to improve said road or highway by constructing therein a Class B, gravel road, 9 feet in width, together with the proper culverts, bridges, drainage and grading, under the provisions of an Act, entitled "An Act to provide for and maintain of highways; for the levying, spreading and collecting of taxes and of special assessments therefor; to authorize the borrowing of money and the issuance of bonds under certain restrictions, regulations and limitations; to prescribe the powers and duties of certain officers with reference thereto; and to validate certain proceedings heretofore taken", Act 59, Public Acts of 1915, as amended.

Therefore, All persons affected thereby and the townships of Grant and Tawas, and the county of Isosco, and all persons owning or interested in any real estate in said townships or county are hereby notified that we will be present at the Grange Hall near the corner common to sections 28, 29, 32 and 33, fractional town 22 north, range 7 east, Tawas township, along the said highway proposed to be improved, at 10:00 o'clock a. m. on the 22nd day of October, A. D. 1919 for the purpose of hearing objections to the proposed improvement and for the purpose of finally determining the limits of the said assessment district.

The proposed assessment district for such highway is described as follows, to-wit: Said proposed district includes all lands within the following boundaries:

Commencing at the ¼ corner common to sections 22 and 23, town 22 north, range 7 east, Tawas township, Isosco county; thence west 4 miles on the east and west ¼ line of sections 22, 21, 20 and 19 to the ¼ post on the west side of said section 19; thence continuing west 2 ¼ miles on the east and west ¼ line of sections 24, 23 and 22, fractional town 22 north, range 6 east, Grant township, Isosco county to its intersection with the west north-and-south ¼ line of said section 22; thence 1 mile on the said west north-and-south ¼ line of sections 22 and 27 to its intersection with the east and west ¼ line of said section 27; thence west ¾ mile on the east and west ¼ line of sections 27 and 28 to the center of said section 28; thence south 1 mile on the north and south ¼ line of sections 28 and 33 to the center of said section 33; thence east ¾ mile on the east and west ¼ line of sections 33 and 34 to its intersection with the west north-and-south ¼ line of said section 34; thence south ½ mile on the said west north-and-south ¼ line of section 34 to the west ¼ post on the south side of said section 34; thence continuing south ¼ mile on the west north-and-south ¼ line of section 3, town 21 north, range 6 east, Sherman township, Isosco county to its intersection with the north east-and-west ¼ line of said section 3; thence east ½ mile on the said north east-and-west ¼ line of said section 3 to its intersection with the east north-and-south ¼ line of said section 3; thence south ¼ mile on the said east north-and-south ¼ line of said section 3 to its intersection with the east and west ¼ line of said section 3; thence east ¾ mile on the east and west ¼ line of sections 3 and 2 to its intersection with the west north-and-south ¼ line of said section 2; thence south ¼ mile on the said west north-and-south ¼ line of said section 2 to its intersection with the south east-and-west ¼ line of said section 2; thence east 1 ¾ miles on the south east-and-west ¼ line of sections 2 and 1 to the south ¼ post on the east side of said section 1; thence north ¼ mile on the east side of said section 1 to the ¼ post on the west side of section 6, fractional town 21 north, range 7 east, also Tawas township; thence east 4 ½ miles on the east and west ¼ line of sections 6, 5, 4, 3 and 2 to the center of the north-and-south ¼ line of said section 2; thence north ½ mile on the north-and-south ¼ line of said section 2 to the ¼ post on the north side of said section 2; thence continuing north ½ mile on the north and south ¼ line of section 35, fractional town 22 north, range 7 east, Tawas

township to the center of said section 35; thence east 1 mile on the east-and-west ¼ line of section 35 and fractional section 36 to the center of said fractional section 36; thence north ¼ mile on the north and south ¼ line of said fractional section 36 to the ¼ post on the north side of said fractional section 36; thence west ¼ mile on the north side of said fractional section 36 to the west ¼ post on the south side of section 25; thence north ½ mile on the west north-and-south ¼ line of said section 25 to its intersection with the east and west ¼ line of said section 25; thence west ¼ mile on the said east and west ¼ line of said section 25 to the ¼ post on the west side of said section 25; thence north ¼ mile on the west side of said section 25 to the north ¼ post on the east side of section 26; thence west ¼ mile on the north east-and-west ¼ line of said section 26 to its intersection with the west north-and-south ¼ line of said section 26; thence north ¼ mile on the said west north-and-south ¼ line of sections 26 and 23 to its intersection with the east and west ¼ line of said section 23; thence west ¼ mile on the said east and west ¼ line of said section 23 to the place of beginning.

And all persons interested are hereby notified that it is the intention of the Board of Isosco County Road Commissioners to assess all lands within the limits of said assessment district as finally determined at said hearing on account of the improvement of said highway according to plans and specifications on file at our office in the County Building, City of Tawas City, County of Isosco, and State of Michigan.

Given under our hands at Tawas City, Michigan, this 19th day of September, A. D. 1919.

Catarrahal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. F. J. CHENEY & CO., Toledo, O.

Slate Surfaced Roofing

We have recently received a car of roofing and offer a strictly high grade Slate Surfaced Roofing at the price usually paid for inferior material.

The recent fire in Tawas City proved the danger of shingle roofs as buildings blocks away caught fire on their shingled roofs while slate surfaced roofs were in no danger.

With our high grade roofing you can re-roof without moving the shingles, saving much money and muss.

STATE'S FIGHTERS PROMISE TO HELP

AMERICAN LEGION MEN READY FOR BIG PART IN ROOSEVELT MEMORIAL CAMPAIGN.

HAVE DAY OF THEIR OWN

Various Posts in Michigan Appoint Committees for Work During Week of "Drive", Oct. 20 to 27.

Much of the success of the campaign in Michigan to raise a fund of \$5,000,000 to provide memorials to the late Theodore Roosevelt will be due to the efforts of the Michigan men who fought in the great war. Soldiers, sailors and marines who have returned from overseas and from posts in this country, and are now banded together in the American Legion, have enlisted as a unit to carry on the work of the intensive campaign. They have pledged themselves to give their best efforts and state leaders feel certain that Monday, Oct. 20, which has been set for the fighting men, will see their share of the state's \$200,000 raised without trouble.

The men of the Legion were enthusiastic when invited to participate in the campaign. They knew and loved Roosevelt as a fighter who never weakened, even in the face of discouraging odds. They hailed him as a brother for those qualities of Americanism which they themselves displayed when answering the country's call. Many of the men knew the late leader of the Rough Riders personally through his frequent visits to Michigan and through their calls at his home when they were stationed at the embarkment post, Camp Mills, Long Island, only a short distance from Sagamore Hill.

The organization plans of the Legion for the campaign are such that committees are to be appointed in every community where a post exists, for co-operation with the other leaders of the movement.

"Mr. Roosevelt had punch and personality which made him immensely popular as an orator. He was also very human, and his robustness and ready accessibility endeared him to the public."

NATIONAL OFFICIALS HONOR ROOSEVELT

MEMBERS OF ADMINISTRATION SPOKE FEELINGLY OF COLONEL'S AMERICANISM AT TIME OF HIS DEATH.

The death of Col. Roosevelt, last January, caused a wave of sincere mourning to spread itself over the entire country. Of the thousands of expressions of appreciation from every class of citizenship, there were none more eloquent than those of the officials of the national government, at Washington.

William G. McAdoo, then Secretary of the Treasury, said:

"Theodore Roosevelt incarnated the fighting spirit of America. He did not snuff the battle from afar. He drank deeply of its fire at the storm's center. Whether upon the field of war or in the political arena, he struck with mighty blows. He preferred the battle-axe to the rapier because he could cut deeper, and the trip-hammer to the sledge because he could hit harder.

"Like all men of genius, Mr. Roosevelt had his eccentricities, and like all men of impetuous force, his judgments were not always right. He could not have been human if he had been infallible. No one will claim infallibility for Mr. Roosevelt, or for any man, and while it was not always possible to agree with his views and policies, no one could be so partisan or blind as to deny his great virtues or to give just recognition to the invaluable services he rendered to his country."

SECRETARY BAKER:—During his long and brilliant career he touched the public life of America in more ways than any other of our public men. It is the close of a great career, typically American and marked at every point by loyalty to American ideals as well as by resistless energy and determination.

SPEAKER CHAMP CLARK:—He exercised his talents and industry in many fields of human endeavor, and in every one of them was distinguished to a remarkable degree. He will hold a high place in American history.

Death of Kathryn Jordan

Mrs. Kathryn Jordan, a resident of Sherman township for the past 42 years, died at the home of her son, Matt Jordan, on Oct. 1, 1919, aged 84 years, 5 months and 17 days. The cause of death was the infirmities due to old age, she being ill but one day preceding her death. Kathryn Schneider was born in Germany April 14th, 1835. She came to Detroit while a girl and in 1865 was married in that city to Joseph Jordan, who preceded her in death about four years ago, since which time she has made her home with her son, Matt. To this union nine children were born, six sons and three daughters, seven of whom survive her, the two oldest sons being dead. The surviving children are Mrs. Andrew Pavlock of Sherman, Mrs. John Wood of Seattle, Wash., Mrs. Joseph Brandt of Cleveland, Ohio, Matt, John and Joseph of Sherman and Henry Jordan of Grayling, Mich. There are also 33 grandchildren and four great-grandchildren living. The funeral was held at St. Joseph's Catholic church, East Tawas, on Oct. 3, Rev. Walsh of Omer officiating, and the remains were laid to rest in the East Tawas Catholic cemetery. Mrs. Jordan was a woman of sterling qualities, a faithful wife and loving mother. She numbered her friends by the hundreds and the sympathy of the entire community goes out to the bereaved family in their great loss.

Card of Thanks

We wish to extend our heartfelt thanks to the friends and neighbors who offered their sympathy and assistance in our recent bereavement in the loss of our loved mother. Also for the beautiful flowers. Mr. and Mrs. Matt Jordan and Family Mr. and Mrs. Andrew Pavlock and Family John Jordan and Family Joseph Jordan and Family Henry Jordan.

FERTILIZER TESTS SHOW WHEAT PROFIT

East Lansing, Sept. 22.—An increase of more than fifty dollars an acre in the value of wheat crops has been secured by the use of lime and complete fertilizers in soil fertility tests made at the Michigan Agricultural College by M. M. McCool and G. M. Graham of the college soils department. This increase was above the cost of applying the fertilizer. The following report is sent out by Dr. McCool at the finish of his test: "On untreated sandy soil we obtained \$10.55 per acre from the wheat crop. On soil where lime was used the acre value was \$25.11 above the cost of treatment. Where lime and complete fertilizers were added, the acre value was \$66.00 above the cost of the lime and fertilizer. The fertilizer consisted of one hundred pounds of nitrate of soda, one-half being applied at the time of seeding, and the remainder in the spring as a top dressing, two hundred and fifty pounds of acid phosphate and one hundred pounds of potash applied to the previous crop."

MARINES MAY ENLIST FOR A SHORTER TERM

Washington, September, 19.—Officers of the Marine Corps are looking forward to a marked increase in the number of enlistments in that branch of the service due to the fact that President Wilson has directed that enlistments in the Marine Corps, until June 30, 1920, may be for terms of two, three, or four years. While enlistments in the Marine Corps have shown a steady increase in recent months, recruiting officers say that many men who desired to serve with the Marines have declined to enlist for four years and have gone into some other service where the enlistment period was shorter. The following telegram, announcing the change was sent to all recruiting officers of the Marine Corps today: "The President has directed that enlistments in the Marine Corps until June 30, 1920, may be for terms of two, three or four years and all laws applicable to four years enlistments shall apply under such regulations as may be prescribed by the Secretary of the Navy to enlistments for a shorter period, with proportionate benefits upon discharge and re-enlistment."

TIN IN 1918

Tin is one of the few highly useful metals that are practically not produced in the United States proper. The output of tin from domestic ore in 1918 was only 68 tons, nearly all of it obtained from placers in Alaska. The tin imported in 1918, as metal and in concentrates, amounted to 82,854 short tons, the largest quantity yet brought into the country in any one year. Deposits of tin ore are found in California, Virginia, North Carolina, South Carolina, South Dakota, Washington, Nevada, and New Mexico, but the ore at some of them contain so little tin that it can not be mined with profit. Tin concentrate from Bolivia was handled at four tin-smelting plants in this country, which produced from it over 10,000 tons of metal tin. A report on tin in 1918, by Adolph Knopf, has just been published by the United States Geological Survey, Department of the Interior, as a chapter of Mineral Resources for 1918 and can be obtained free of charge on application to the Director of the Survey at Washington.
