COUNTY AGENT COLUMN C. P. Milham

The county agent is sorry that he was unable to arrive at the meeting in Hale Tuesday. The only thing which prevented him from being there on time was the fact that the condition of the Hale road near the saw mill was such that he was delayed two and half hours in a section of newly. formed clay road which was very soft and wet, and nearly impassible. The subject he intended taking up in Hale was Cooperative marketing associations affiliated with the Michigan Potato Growers Exchange. The county agent will explain in detail the workings of the organization, and tell what it has accomplished for Michigan Farmers in the Grange meeting to be held at Hale November 13th. Everyone who is interested should be present, because it is a subject everyone is going to be interested in during the next year. The Michigan Potato Growers Exchange is a federation of local cooperative associations which causes associations to work together for the benefit of all instead of staying out, and competing against other associations. The purpose of the exchange is to provide facilities and equipment necessary to develop an efficient and economical system of selling and distributing the products of members, to collect and disseminate information of crop conditions in Michigan and competing territory, to protect the interests of the consumer ing of one principal and two or more against profiteering among speculative teachers who are engaged in teaching Tuesday for a short visit. and other adverse interests, to get for at least nine months during the better rail facilities and protection of shipments, to coordinate the efforts state will annually pay \$600, and \$ 200 of the various associations tow ork for each vehicle used in transporting together, to assist in solving problems, the pupils. to establish a quality product for Class (b) are rural agricultural occupying the home which they reand to cultivate the cooperative and two or more teachers for ten Mrs. Milo Eastman and Miss Lillian are at present eighty four associations the pupils.

Washington. (Special.)-Through a complete report of the work of the American Red C: ss in the war Chairman Henry P. Davison, on behalf of the war council, the organization on the eve of its annual enrollment of members during the Third Red Cross Roll Call, November 2 to 11, has rendered an accounting of the many millions given it by the American people to help our fighting men and our allies. The statement is, in part, as follows:

"The war council of the American Red Cross is now prepared to make a complete accounting to the American people of money contributed and expended, as well as the work done by the American Red Cross during the period in which the war council was in control of its affairs. The war council was appointed May 19, 1919, and went out of existence February

THRIFT CHAIRMEN APPOINTED BY ILLINOIS CLUB WOMEN

Mrs. Frederick A. Dow Hears Favorably From All but Eight Districts in the State.

Mrs. Frederick A. Dow. who recently undertook the task of lining up the 60,000 women of the Illinois Federated Clubs for the Government savings campaign, has received favorable reports from most of the club districts on the progress of the organization

Mrs. Dow asked the presidents of the twenty-five club districts in Illinois to appoint thrift chairmen. She has heard from all but-eight districts.

The chairmen appointed are: First, Mrs. C. D. Stone; Second, Mrs. How- For Sale-Small roadster in good ard Ames; Third, Mrs. H. H. Day; condition. Will sell cheap. Inquire Sixth, Mrs. W. J. Some women have an idea that this campaign is only a man's affair. They are mistaken. There is no better channel to make thrift a permanent habit than the home, and it is through the women the home can be reached. The job of making this campaign a success is just as much a woman's as a man's."

NEW SAVINGS CERTIFICATES CALLED MARVEL OF FINANCE

U. S. "Baby Bonds" of \$100 and \$1,000 Denominations Are Becoming Popular Investment.

Reports from all parts of the Seventh district show the increasing popularity of the new \$100 and \$1,000 Treasury Savings certificates. They are virtually "baby bonds" and their investment value is readily seen. Both banks and individuals are investing in this new form of government security. Secretary of the Treasury Glass has characterized these certificates as "the marvel of finance," and Albert Boswell, manager of sales for the Seventh District War Savings organization, has pointed out six reasons why this term of the secretary of the treasury

fits them. The reasons are: 1. They carry valuable tax-exemption privileges.

The \$100 certificates may be purchased at post offices of the first and second class and at banks; \$1,000 certificates may be obtained through banks or trust companies and certificates of either denomination may be ordered direct from the War Savings district headquarters, 105 West Monroe street, Chicago, Ill.

The new certificates are issued only in registered form with the name of the owner written in at the time of the purchase. The registration records are kept in Washington and this feature is a protection to the investor.

War Savings certificates filled with twenty War Savings stamps, series of 1919, may be exchanged for Treasury Savings certificates in denominations of \$100, and ten such War Savings certificates may be exchanged for a \$1,000 Treasury Savings certificate. The price of the \$100 certificate in November is \$84.40. The increase in cost is 20 cents each month. The \$1,000 certificate in November costs \$244. The price of this denomination increases

\$700,000,000 IN FOOD WASTED.

The National Association of Waste Material Dealers estimates that Americans throw away \$700,000,000 worth of food each year. If only one ounce of food is wasted or spoiled in each of the 20,000,000 homes in America, the total loss is 1,300,000 pounds a day. As much coal is wasted, annually as all the mines of the country could produce in two weeks.

To the Hon. Board of Supervisors: provision of the statute in such case made and provided, I have the honor to submit my annual report as county drain commissioner of the said county of Iosco covering the period from Oct. 1918 to the first day of Oct. 1919. The following named drains were unfinished at the date of my last annual

1. The Denstedt drain which is still unfinished because the contract for constructing said drain was let to several foremen and they for various reasons were exceedingly slow in doing the work and as some sections have been relet and the time extended the job at last looks as though it might be finished in the near future. The Shaffer drain is not completed. The following named drains have been begun, constructed and completed by me during the

In brief the answer is as follows: lay down its responsibilities to the American soldiers, sailors or marines until everyone of them has been released from service, recovered from illness or wounds or receiving proper care, or back in the place in the world from which the war snatched them.

is planning to launch a comprehensive program for peace times, designed to prevent the needless waste of human lives through preventable diseases and accidents in America; continue and broaden its home service work and public nursing, first aid, home hygiene and Junior Red Cross activities.

Because: By a recent act of Congress medical, surgical and dietary food supplies valued at \$35,000,000 the government, the supplies having 1923. been purchased for use with the American forces. These supplies are scattered throughout Europe, many of them far from the places where they are most needed. The prompt and efficient distribution and handling of these supplies means the maintenance of a force of trained workers where the supplies are and where they are most needed.

Because: Pestilence and starvation have gripped many European countries because of the war. These countries are unable to cope with their own difficulties, and the only force organ-ized with facilities capable of stepping STATE OF MICHIGAN, The probate difficulties, and the only force organinto the breach and bringing order from chaos is the Red Cross. Typhus is sapping the man strength of many the Probate Office in the City of countries, and the American Red Cross is using every available power to

Because: The Red Cross must be prepared to meet emergencies arising from disasters at home and abroad.

The Red Cross membership must be maintained at its present high standard. Every enrollment is a vote of confidence in the past performances of the American Red Cross and a reaffirmation of the belief in the principles for which it has stood in the past and its plans for the future.

The Red Cross, having committed itself to a definite and comprehensive program, cannot turn back, and to go forward it must have as general a membership as possible and ample funds to provide for any contingency.

Criticism and Citizenship

It is the plain, public duty of every citizen to criticize proposed government measures believed to be harmful.

Swift & Company is in a better position perhaps, than others, to understand the meat packing business in all its relations to public and private interests, even though the others may have been giving the subject a great deal of

sincere attention. Swift & Company is convinced that interference with its legitimate business function by governmental agencies, however well intentioned, would be an injury to every man, woman and child who wants meat to eat, as well as to the men who raise the meat and

to those who dress and distribute it.

ship to prevent such interference. These advertisements are intended to help you, and to help Congress decide what is best to be done. Mistakes are costly and apt to be harmful in these trying times.

Therefore Swift & Company is

taking every legitimate step of citizen-
