Monday.

The American literature class have been writing compositions on topics selected from Emerson's Essays.

Bessie Stickley, Lillian Allison, and Margaret Sheldon led the discussions in the Ancient, American and Modern history classes this week. This is an innovation and is very interesting and instructive to the students, and is a stepping stone to a student-governed high school, which we hope to see in East Tawas in the near future.

An interesting entertainment was given by Mr. Gold on Tuesday afternoon in the high school, the subject being "Weeds the Waste" and this was featured by slides furnished by the International Harvester Co. shown on the screen. We expect to have many near future, and the public is cordially

The extension class with Supt. Callan as the instructor began their work on Saturday at the high school building. The courses taken up are the Industrial history of the U.S. in the forenoon and the World War in the afternoon meeting at one. Anyone interested in the work are cordially nvited to attend.

### W. R. C. INSTALLATION

The W. R. C. ladies held their annual installation of officers Tuesday evening, the following being installed: Pres.—Ethel Martindale. S. R.—Mrs. Bryant.

Record Keeper-Effie Woizeschke. Treasurer-Mrs. Westfall. Con.-Mrs. Flintoff. Asst. Con.-Mrs. St. Clair. Guard—Amelia Cater. Asst. Guard-Mrs. Whitman.

J. R .- Dora Colburn.

Organist-Effie Woizeschke. Color Bearers-Anna Nash, Laura Franks, Lulu Griffith, and Margaret

Woizeschke. Relief Com.—Amelia Cater. Installing Officer-Mrs. Bryant.

Con.—Edna Otis. After the close of the meeting a banquet was served to a large crowd. Regular meetings are held on the month at 2:00 p. m.

### Don't Depend on Spring Deliveries

Spring deliveries of Ford cars have never been certain, and they should not be depended upon. Demand has always been greater for Ford cars than the supply or production. So, if you would be sure of having a Ford car, buy it now while deliveries are possible. Don't wait-even next month is an uncertainty.

Only a limited, specified number of cars has been allotted to this territory. That allotment cannot be increased, because the demand all over the country is greater than the production. Get your order in now, and you will be one of those who is sure of a Ford out of our allotment.

It's first come-first served. All orders filled in rotation. So, if you would be beforehand, if you would be certain of having a Ford when you want itthen you will buy a Ford car now. A signed order with us is your protection. It is the result of the wisdom of looking ahead.

If you buy a Ford car now, don't think you have to "store" it. The Ford is a car made to serve its owner for business or pleasure throughout the entire year. Ford owners have long since come to recognize this fact. It is no longer popular to lay-up your carduring the winter. Buy a Ford car now, and use it now.

## JAS. DAVIS, Proprietor

D. F. COOK, Auctioneer

Out of accumulated capital have arisen all the successes of industry and applied science, all the comforts and ameliorations of the common lot. Upon it the world must depend for the process of reconstruction in which all have to share.

# The Successful Farmer Raises Bigger Crops

and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads-the modern beasts of burden that haul the crops to the world's markets.

The railroads-like the farms-increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

This advertisement is published by the Association of Railway Executives.

Those desiring information concerning the railroad situation may obtain literature by writing to The Association of Railway Executives, 61 Broadway, New York.

We have conferred with members of initely. the American Legion, as suggested, and find that the concensus of opinion appears to be that a memorial building would be the most suitable monument. A fund for such a building has already been started, and a site donated, and we believe that the best method for this board would be to assist the movement by the appropriation of a sum of money toward such building, with the provision that title to such building be vested in Iosco 9county and the control of same be vested in a person or committee appointed by this board.

We therefore recommend that this board appropriate the sum of \$1,000 toward said building, providing the sources and the title vested in the county as before mentioned. Said \$1,000 to be placed in the hands of the Probate Judge and County Treastory to be disbursed when conditions.

### The Romance of Banking

It is always interesting to watch a small account grow gradually in volume, registering the progress of its owner.

And if it is inspiring to watch one individual to steadily mark milestones in his career, the barking business; man is to romance when it is remembered that it shares in the progress of hundreds of citizens.

With the increase in our depositors, though, there is no decrease in that personal touch which we always maintain.

# DeLaval and lowa Separators

When buying a cream separator, the points you consider are:

Does it get all of the butter fat from the milk? Has it a long life? Is the cost of its up-keep small?

Is it trouble proof? Does it run easily?

The DeLaval and Iowa Separators have answered these questions satisfactorily to many thousands of owners.

cally ill with the same malady. A miscellaneous shower was given with many beautiful and useful gifts. The evening was very pleasantly spent with music and games. The bride-elect served dainty refreshments and received the best wishes from all present for the future, and that her life might be filled with happiness and

Hurford-McCrum.

The home of Mr. and Mrs. D. R. Hurford of Whittemore was the scene of a quiet wedding Sunday evening, Jan. 11th, at 5:30 o'clock, when their Ladic only daughter, Vera Lutetia, was united in marriage to Harry Edwin McCrum, formerly of Huntington, Ind.

The bride was charming in a simple gown of Copenhagen taffeta. The marriage was solemnized by Rev. Clifton W. Scott, pastor of the M. b. church, the ring service being used. Only the immediate family were pres-

The bride was born and grew to young womanhood here, and her personality won her many friends among both the young and old. For the past year she was an efficient assistant in

the Danin & McLean store. The groom for the past four years of Iosco county, having with his brother, James, of Tawas City, open March 27, 1917. Fo this union four ated the Anderson ranch and also children were born, one daughter and other farm lands in Reno township a young man of sterling worth and war. He moved with his family to

The young couple were the recipients of many beautiful and useful gifts, including linens, china and silverware, which bespeaks the esteem of friends here.

The happy couple left Monday morning amid a shower of congratulations and best wishes for a happy and prosperous future from a host of friends, for an extended trip to Huntington, Ind., and other points in the south, but expect to return, when the groom will again engage in agriculture in Iosco county.

### POTATO CONTRACTS.

Farmers, plan to swell your bank account by planting from 5 to 20 acres of potatoes. Select choice seed, free from blight or scab, plant early on well drained, good, rich soil. If possible plant Irish Cobbler and Petoskey, and make this the banner year financially of your life. I will contract to take all U. S. grade No. 1 white pota- around this week. toes grown in Iosco county, delivered Wm. Oates and C. C. ## The Problem

Draw a continuous chain of circles across the face of the chart to the extreme right hand column of figures.

Begin at any number or figure in the extreme left hand column that you wish. Starting in this column you may go either up or down or to the right, but not to the left, until you reach the extreme right hand column.

The problem consists of encircling the figures the sum total of which will be the highest.

Each section of the chain must consist of either three, four or five circles before it follows another direction. By section is meant invalidate your chart.

The accompanying chart is shown to illustrate how the chain of circles may

be drawn across the face of the puzzle

chart. Starting in the upper left hand

corner the first section contains four

circles, the second section three, the

third section three, the fourth section

three, the fifth section five and so on.

The sum total of the figures in the

circles is 1638. You may start off by having either three, four or five circles

in the first column and end by having

either three, four or five in the last.

three, four or five circles in a straight liue. In determining the number of circles in a section count the last circle in any one section as also the first in the next section. For instance, in in the small chart, the fourth circle in the first section is also the first circle in the second section, and so on.

The prizes will be awarded to those whose sum totals of the figures in the circles are greatest. By sum total is meant the figures added together.

When you have completed your solution, fill out the blank and send it attached to your chart to the contest manager. Cut the chart and blank out neatly around the margin, and do not send the rest of the reading matter.

Any error in stating the total you obtain will

### Return This Blank With Chart Attached

To THE TAWAS HERALD:

I herewith submit my solution of the second puzzle as follows:

The sum total of the figures in the circles in my chart is \_\_\_\_\_
