**The Wonders of America**

By T. T. MAXEY

THE MOST POWERFUL LOCOMOTIVES.

At the time of their completion, the locomotives used for hauling the long, heavy coal and other trains over the steep railroad grades in the mountains of Virginia were the most powerful in the world.

The enormous size, weight and power of these leviathans of the rail are positively astounding. Each engine (and tender) weighs almost 600,000 pounds, is considerably more than 100 feet in length, has 20 driving wheels, is fired by machinery, exerts a straightaway pull of 175,000 pounds and, "tis said, will haul any load that the coupling pin will hold.

The boilers of these giants on wheels are about 9 1/2 feet in diameter. Each boiler contains 381 two and a quarter-inch tubes, which, placed end to end, would reach almost two miles; also seventy 5 1/2-inch flues, having a total length of more than a quarter of a mile. The fire boxes are 15 feet long and 9 feet wide.

The shipment of these large locomotives from the point of construction to the point of service presented an unusually peculiar and difficult problem requiring great care and attention, for the reason that the tracks and bridges of the various railroads over which they had to move were not, in all cases, built to withstand such tremendous weights. They were shipped in a partially knocked-down condition and approximately two weeks were required to move them from Schenectady, N. Y., to Princeton, W. Va. Three cars were necessary to carry the loose and detached parts belonging to each locomotive.

**The Hindus and the Lotus.**  
The Hindus compare India to the lotus, the petals representing Central India and the surrounding leaves the divisions of the country. The design is much used in eastern temples and architecture generally, and the plant is cultivated in public gardens. A pond in the Taj gardens at Agra holds pure lotus blossoms.

**City Girl's Gold Tipped Cigarette Has "Snuff Stick" Rival in South**

This Young Mountain Matron Is Enjoying Her Afternoon Chew While Her Husband Smokes His Favorite Pipe.

Here is an unusual picture of marital felicity. It was snapped by a worker for the Interchurch World Movement during a survey of living conditions in the Tennessee Mountain district. The young woman in the picture, a bride of a few weeks, is using the mountain substitute for the cigarette, a "snuff stick"—a stick coated with snuff and industriously chewed. The habit has two advantages over the gold-tipped cigarette of the city girl. It is more economical

and it lasts longer—a well made "snuff stick" having only one rival for longevity—the "all day sucker" of school days. The Interchurch World Movement finds distressful ignorance and poverty among these mountain folks and suggests a new religious program—to couple the Bible with practical instruction in agriculture, carry it out on model farms, with schools, good roads and other community needs as the ultimate goal.

**New Kind.**  
Little Frederick, five, was visiting their neighbor across the way and noticed Mrs. Smith with a new pair of eye-glasses. "Oh, mamma," he exclaimed on arriving home, "I went over to see Mrs. Smith and she wears looking glasses on her eyes."

**Effect of the Circus.**  
After all, civilization is sometimes a bore. The circus carries us back to the freedom of the great beginning. Wherefore, even psychologists forget their trades in such days and become for the moment grown-up children like the rest of us, responsive to the wild blood of their remote progenitors.—Baltimore Sun.

**If Vermont Was Flat.**  
I met a Vermont Yankee lately, and the main thing he bragged about was the amount of maple sugar shipped from his town every spring. But he did not say that Vermont rolled out flat would be as big as Ohio.—E. W. Howe's Monthly.

**HAD THE LAUGH ON COOTIES**

Soldier's Humorous Explanation of Why He Was Wearing Such "Giddy Lingerie."

Life on the front had its whimsicalities at times in spite of rolling barages, the hail of bullets, the jungle of caissons and the whining of truck-motors. Lieut. Harry B. Henderson tells of a beautiful red rose on his camp table, in a letter to the Wyoming State Tribune, beside an Austrian shell with a bit of scenery painted on it, which served as a paper-weight. Then there are incidents that excite the "risibles" and afford needed diversion to the mind. For instance:

"The other day they were keeping us a bit busy and I had my ear on top of my head all the time deciding on each 'whiz' as it approached. Just in the hottest part of it, one of my gunners came tearing down a rutty road, clad in a Prince Isaac coat he'd found in a raid and wearing a Boche cap. He was pushing a baby-buggy full of potatoes and dynamite which he thought I could use. We had the eatables for lunch and then blasted a new dugout with the explosive. You can't imagine how you laugh when you've been a bit under a strain for several days of firing, and then see something funny. But for my sense of the propitities I'd describe the giddy lingerie the young man was using for underwear. He explained to me that cooties get so tired of wandering through lace!"—Literary Digest.

**Japanese Activity in Siberia.**  
Canadian papers are commenting on the activity of the Japanese throughout the maritime province of Siberia. Agents of Japanese syndicates are reported to be negotiating for the purchase of a large number of mines, flour mills, brickworks, sawmills and other industrial undertakings, while commercially they are making every effort to extend their influence. The Japanese firms, which for the most part have only recently been established at Vladivostok, are enlarging their operations and endeavoring to obtain as large a share as possible of the trade of the territory. The scouts of these firms are reported to be scouring the country for scrap iron, hides, wool, bristles, beans and other Siberian and Manchurian products required in Japan.

**Monument to Stand on Prairie.**  
Solitary on a Texas prairie there will be seen next spring a heroic bronze statue of a man and horse. It is a memorial to young Charles Noyes, of a ranch near Melvin, who was killed in a range accident three years ago, and is the work of Pompeo Coppini. The Texas lad was six feet four inches in height and the sculptor has modeled him as he was in life, while the horse stands 16 hands high. The pose is striking. Mr. Coppini is now at work on Chicago's monument to her heroes.

**Fine for Company.**  
I had given a friend a recipe for a pudding. One day I was at her house with several others and at dinner the pudding was served. The woman next to me remarked how nice it was and I said, "Yes, and it is so cheap." Every one at the table smiled.—Exchange.

**Ring Recovered From Gull.**  
Gulls are attracted by any small shining object, which accounts for a valuable engagement ring, which was accidentally dropped overboard in mid-Atlantic, being found in the gizzard of one of these birds, shot months afterward off the coast of Maine.

**Indian Gamblers.** India do not operate on the cash market, they have adopted a unique form of gambling for which the cotton market reports are responsible. Every day five quotations are entered from New York announcing the cotton market. The natives looked upon this as a high invitation to the game, but with a sample but none the less, the game of gambling. The natives look at it simply in guessing, but the big ones will amount to hundreds of dollars nearest to the spot market takes the stakes.

**REGISTRATION NOTICE**

To the qualified electors of the City of Tawas City, State of Michigan: Notice is hereby given that in conformity with Act 126, Public Acts of 1917, I the undersigned City Clerk, will, upon any day except Sunday and a legal holiday, or the day of any regular or special election or official primary election, receive for registration the name of any legal voter in said city not already registered who may apply to me personally for such registration, except that I can receive no names for registration during the time intervening between the second Saturday before any general or special election or official primary election and the day of such election. March 27, 1920, Last Day for General Registration for Spring Election, April 5, 1920.

All electors not already registered and intending to vote at said election, should make personal application to me on or before the 27th day of March A. D. 1920.

Notice is further hereby given that I will be at Tawas Butter Co. on March 13 and March 20, 1920 from 8 o'clock a. m. until 8 o'clock p. m. on each said day for the purpose of reviewing the registration and registering such of the qualified electors in said city as shall appear and apply therefor.

The name of no person but an actual resident of the precinct at the time of registration, and entitled under the constitution, if remaining such resident, to vote at the next election shall be entered in the registration book.

**Registration of Absentee by Oath.** If any person whose name is not registered shall offer and claim the right to vote at any election, and shall, under oath, state that he or she is a resident of such precinct and has resided in the city Twenty Days next preceding such election, designating particularly the place of his or her residence and that he or she possesses the other qualifications of an elector under the constitution; and that, owing to the sickness or bodily infirmity of himself or herself, or some member of his or her family or owing to his or her absence from the city on public business or on his or her own business and without intent to avoid or delay his or her registration, he or she was unable to make application for registration on the last day provided by law for the registering of electors preceding such election, then the name of such person shall be registered and he or she shall then be permitted to vote at such election. If such applicant shall in said matter, wilfully make any false statement, he or she shall be deemed guilty of perjury, and upon conviction, be subject to the pains and penalties thereof.

**Provision in Case of Removal to Another Precinct.** Any registered and qualified voter who has removed from one election precinct of a ward to another election precinct of the same ward, shall have the right, on any day previous to election day, on application to the City Clerk, to have his or her name transferred from the registration book of the precinct from which he or she has removed to the registration book of the precinct in which he or she then resides. Such elector shall have the right to have such transfer made on election day by obtaining from the board of inspectors of election of the precinct from which he or she has removed a certificate of transfer and presenting the said certificate to the board of election inspectors of the precinct in which he or she then resides.

**Women Electors.** All women who possess the qualifications of male electors will be entitled to registration provided they make proper application to the Clerk within the time limit above designated. All registration of women prior to Dec. 5, 1918, is Null and Void. Dated March 10, 1920.

H. ALLEN, City Clerk.

**ADVANCE NOT GENERAL ONE**

Religious Publication Points Out Strong and Deplorable Contrasts Existing in Alaska.

The native Alaskan of today is becoming in some sections, an intelligent and progressive factor in the life of the territory. Recently a daughter of the Hydah tribe made application for United States citizenship, and after examination was pronounced qualified to exercise intelligently the duties of an elector—the first native woman of Alaska to receive citizenship. Her father is a staunch elder of the Hydahuburg Presbyterian church. All through southeastern Alaska, natives are taking up homesteads, organizing villages upon sound civic principles, reading the daily papers, putting telephones and electric lights into their homes—in a word, are proving the value of Christian citizenship.

But there is another side to the picture and the contrast between the unchurched and the Christian Alaskans is distressing. Scores of villages in the Bristol bay region live where no Protestant missionary has ever been, and the one Greek priest who had ministered to the needs of 1,700 people is now dead. The revolution in Russia has cut off the support of Russian missions in Alaska, leaving the spiritual destitution and physical wretchedness of large numbers of these people wholly unrelieved.—The Home Mission Monthly.

**Coal Preserved by Water.**

The advantage of storing coal under water, where deterioration is much less than in the air, has been amply proved. It is recognized that the gases concealed in the pores of the coal—oxygen in particular—are responsible for both heating and deterioration, and their escape should be prevented as far as possible.

**Bonaparte's Short Career.**

In 1802, on August 2, Napoleon Bonaparte was declared consul of France for life. Thirteen years to the day the convention between the representatives of Great Britain, Prussia, Austria and Russia declared Bonaparte, then emperor of the French, to be a prisoner of the allies and intrusted Great Britain with his custody.

**Ford**  
THE UNIVERSAL CAR  
**Only a Limited Number of Ford Cars**  
There are mighty good reasons why you should buy your Ford car now. But the biggest one is that there are only so many Ford cars—just a specified limited number—alotted to this territory. Those who buy their cars now will be wise.  
Don't put it off. Get your name on an order. We must have signed bona-fide orders before our monthly allotment is shipped us. So the only way for you to be sure of getting a Ford car, is to order it now. It is your protection.  
Again we tell you, the allotment for this territory is limited and you must buy now while deliveries are possible. As ever, the demand for Ford cars is away in advance of production. So it's first come, first served. Spring, summer, autumn and winter are all the same to Ford car. It is a valuable servant every day of the year. Rain or shine, it is ready for your demands. Buy now and get prompt delivery. Buy now while the buying is possible.

THIS IS LEONARD WOOD [Portrait of Leonard Wood] The Man Who Won the Unqualified Endorsement of Theodore Roosevelt, Greatest American of His Time. —and the man who should get your vote in the Primaries, April 5th A vote for Leonard Wood is a vote for Roosevelt's principles, for the very same things that Roosevelt would be advocating if he were alive today. A vote for Wood is a vote for a candidate whose backers have pledged themselves to see that the voice of the people of Michigan is heard in the state and national conventions. Wood is fighting for the nomination, not merely to gather up delegates to be transferred to some other candidate when the party leaders decide that the psychological moment has arrived. General Wood, in his public utterances, has shown a thorough understanding of the farmer's problems and a warm sympathy for the farmer. He says: "Our stability rests largely in the agricultural population. The red flag never flies over the house of a farmer who owns his farm. If the American farmers had not played the game as they did, we would have lost the war, because we would not have been able to feed our Allies in the field as well as ourselves. If the American farmers had struck, the Germans would have won the war. The farmers sent their sons to war, and in spite of the shortage of labor they, by tremendously increasing their efforts, gave the world the biggest crop in history. Agriculture is not only the principal source of our wealth, it is the groundwork of our most stable citizenship. "We must have a department of agriculture conducted for the farmer by men who really know farming from the furrow to the crop. It should be the intention of the national government at Washington to make farming conditions such that there would be fewer tenant farms and more owned farms." Theodore Roosevelt said of Leonard Wood: "He has made all good Americans his debtors by what he has done."
