Asked why, Chairman Payne said that the United States, with prohibition, could not operate passenger ships in competition with carriers with booze aboard. Oh, shades of the Titanic, the drunken orgy that sank you, has failed to convey its lesson.

Among other fortunes of war, the United States came into possession of Mr. and Mrs. O. H. Carpenter of great fleets of ships suitable for freight carriers. The wail has been answered, and a merchant marine, our flag in every port, and American ships for American goods and passengers are in our keeping. But if half one hears from Washington is half true the Shipping Board is making a mess of things in operating our new found ships and the failure is even worse than those recorded in the public operation of the railroads and wire

Attention Farmers

Those of you who waited until the last moment to get your timothy and clover seed last year will remember that you had a lot of trouble to find it. It's going to be the same this year. You can avoid all that trouble by getting your seed now and probably save money at the same time. Seed is high now, but it looks like higher prices still.

We have the famous PINE TREE Timothy Seed, 99.5 per cent pure. You can't beat it. It pays to buy the best seed. Don't buy the cheap grades. You get enough weed seed without buying it.

Also have a full line of Feeds, Winter Wheat Bran and Middlings. When in need of Building Material get our prices on Lumber, Lath, Shingles, Sash and Doors, Mouldings, Etc.

THE STATUE OF LIBERTY.

THE colossal statue of Liberty en- 10 lightening the world, the gift of the people of France to the people of the United States, in commemoration 1 of the centennial of their national independence, stands on Bedloe's or Lib- 1 erty Island in New York harbor and 12 was dedicated October 28, 1886. It 12 has welcomed millions of people to our shores, and it bade farewell to our brave soldier boys when they sailed away to save the land from whence

This statue is of bronze, 151 feet high and rests upon a stone pedestal, approximately 100 feet high, making 13 the total height of the entire structure over 300 feet above the waters of New York bay. Its estimated weight is 225 tons and the cost, including erection, was about \$600,000.

The index finger of this gigantic figure is 8 feet long and 71/2 feet in circumference at the second joint; the head is ten feet thick; the nose 41/2 feet long and the mouth 31/2 feet wide. Forty persons can stand in the head and the torch will accommodate 12 more. There are 154 steps in the statue from the pedestal to the head, and the ladder in the raised right arm contains 54 rounds. The light in the torch is maintained by the United States lighthouse service and is visible for many miles at sea.

The view that greets the eye from the top is one of the most marvelous in all the world.

\$100 DeLaval Separator Free

Beginning March 1 and running until September 1, the Tawas Butter Company will conduct a contest among the farmers of this section of the country, the prize for which will be a \$100 DeLaval Cream Separator.

This prize will be awarded to the farmer bringing in the largest amount of butter fat per cow during this period. It is a condition of the contest that not less than three cows shall be owned by the contestant.

This is a prize worth trying for and both prize and increase in production which will result from the contest will be profitable to the farmers

HAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers-and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

8 out of every 10 ministers receive less than \$20 a week-about half the pay of a mechanic.

We Pay Him Half the Wages of a Mechanic

And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this-a living wage for every minister of Jesus Christ; an efficient plant, and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community-and for your children—that you can ever make.

Minard Mills and wife, accompanied by Mr. Ross, left last week on a hunt-Mrs. Frank Peters has returned

from Saginaw, where she has been undergoing an operation. Mrs. Cal Billings and Mrs. Henry 178

Ducap went to Bay City to visit Mrs. 179 Cataline, who is seriously ill at the Mercy hospital.

Mrs. Geo. Sase returned Wednesday from Detroit, where she and her daughter, Helen, have been visiting

for a few days. Little Margaret, the only daughter of Mr. and Mrs. A. H. Crawford, died very suddenly Saturday, April 3. She had fully recovered from the severe sickness of a few weeks ago and was playing all evening. Her mother had carried her into the room and was just ready to put her to bed. She laid her down and stepped into the store for a bottle of Castoria. She left the baby playing with her little shoe, and when she returned in about five minutes death had claimed her. It is hard to understand the dealings of Providence. We dare not question it. but must bow in submission to His perfect will, The little Easter lily which came but a year ago to brighten their home now blooms in the garden of Heaven. How uncertain is life and

now certain death. Love stole into my heart And left a rosebud there; No matter if the years since then Have brought me pain and care; 'Twas mine for such a little while, But I would not complain; Love dropped a flower at my door And came for it again.

TIERE is the II first tire that ever was given a whole factory to itself! Firestone Plant

No. 2, with a capacity of 16,000 tires per day, is devoted solely to the production of the 31/2 inch size.

It was a problem made to order for Firestone - big volume production of a high grade article.

Firestone met it with a typical Firestone answer -a separate \$7,000,000 factory.
