A reduction in food prices through the importation of Danish cabbage and potatoes would be welcome, but there will be some waste in eating Danish potatoes and sending American potatoes to Austria.

There is one thing that hasn't been thought of by opponents of aerial exploration, and that is that whatever happens, the explorer is sure to get back to earth again.

The smoke screening material left over from the war might be used to build up a barrage against raiding Mexican bandits.

For a fatalist the Turk shows an Journal extraordinary disposition to battle against destiny.

The man who isn't afraid of his wife is a single man.

"THE MAN WORTH WHILE

R. A. Nichols Lectures at Chautauqua First Night.

ROLAND A. NICHOLS

Roland A. Nichols is one of the few "Thought-provoking" lecturers in the country today. After hearing his strong, virile lecture, "The Man Worth While," you will realize fully what the term "thought-provoking" means. Here is a man with a running fire of eloquence and wit which is sure to please and make you think. What is the biggest problem of modern civilization? Do you know how heredity affects you and yours? Mr. Nichols questions in a manner which delights young men and women, while it brings sober thinking to every parent.

One hundred per cent. American, fearless, sincere—a sane, clear thinker -this sums up the attributes which have made Roland A. Nichols one of the foremost personalities on the platform. As the opening night attraction, this big man with his brilliant, inspiring story-lecture cannot be equalled.

Odors of Plants. The odors of plants reside in differ ent parts of them-sometimes in th roots, as in the iris and vitivert; the leaves in mint and thyme, the stem of wood in cedar and sandal, the flower in the roses and violets, the seeds in the tonquin bean and caraway, th bark in cinnamon. etc.-Brookly, Eagle.

about stands a slim chance of ever tallest oak was once an acorn.

Look in the Sewing Bag.

Inasmuch as nobody has ever answered the old question, "What becomes of all the pins?" we submit one that may be easier: What becomes of all the safety razor blades?-Albany

Lines to Be Remembered. A man who does not know how to earn from his mistakes turns one of the best schoolmasters out of his life. -Henry Ward Beecher.

ALL HAVE THEIR UMBRELLAS

Rainy Days by No Means Times of Terror for the Dwellers in Old Nippon.

A rainy day in Japan! Mountains half disappearing in wraiths of mist like the landscapes in old kakemono scrolls; gray tiled roofs transformed to glossy black by slanting sheets of rain; coolies in bristling straw raincoats, and everywhere great oiled paper umbrellas. Little Japanese women trip along daintily on their wooden clogs, oblivious to the muddy rivers under foot, totally eclipsed under their red, blue, green, yellow or black umbrellas. Shop apprentices and errand boys hurry along with umbrellas decorated with great black characters indicating the name of the firm or their trade. Out in Asakusa, Tokyo's popular quarter, huge red umbrellas protect the old women who sell beans to feed the doves that dwell in the eaves of the Temple of the Morning Grasses. At the entrance to every house a whole row of open umbrellas are dryin Japan, perhaps because they are all different layers of colored papers. The district. umbrella, writes Elsie F. Weil in Asia Magazine, is as necessary to the Japanese actor or dancer as his fan. In the old prints the umbrella appears constantly as a harmonious part of the design. The geisha have umbrellas appropriate for wistaria season and cherry viewing, for winter and summer. An umbrella may even be the theme of poetry, as it was for the Japanese poet who sang: "In the spring rain an umbrella passes by on which petals are softly falling, falling." Yet the Japanese have been able to find something picturesque in our wireframed umbrellas of uniform black; they call them "bat wings."

NOT TROUBLED BY JEALOUSY

Social and Domestic Customs Among the Eskimos Are Simple and Easily Arranged.

An American missionary is the authority for the following description of social and domestic customs that prevail in a certain part of the arctic regions: If a woman is childless, she For the Republican Nomination For often asks her husband to select another wife, so that the home may be blessed with children. jealousy toward her rival, for her husband generally treats both with equal having any big things to look after. lewed a second husband, provided she Big things grow from little things. The has the approval of her first husband, and her love for some unmarried man does not necessarily lessen her regard for her husband, who may be old or weak, and hence a poor provider. A younger man may prove a real asset to the family. Even if it is a case of simple infatuation, no deception is practiced. The Eskimo woman reveals this rival for a certain length of time. If the man happens to have a wife of his own, the abandoned husband will often propose to his wife that she arrange matters with the wife of her lover, so there will be a mutual exchange of spouses for a time.

Peculiar Nile Fish.

Near the African continent sea fisheries are mainly under direct or indirect European influence, the natives attaching more importance to the rivers elected I will perform the duties of and lakes. In the Nile, fishing is carried on almost as it was in the days of the Pharaohs, by lines and dipnets, the latter worked from the bank, and shaped something like a long-handled shrimp push net, or by groping in the mud as the waters recede after the

about 18 inches long, and is covered with hard, bony scales. In the same manner the Arabs of the upper Nile catch what they call the "thunder fish," which averages a foot in length, and, like that of the Calabar, is endowed with a considerable power of develop- favors. ing electricity. A large kind of barbel named the binny, also found in the mud, is greatly prized by the Nile

slays. One marten is likely to kill hundreds of harmless creatures in a

If a multitude of birds and small beasts of the forests and the fields could have their will they would unquestionably urge the trappers to greater exertions. They would wish the present demand for furs stimulated to even more imperative eagerness to wear the skins of ferocious little killers. And big ones, too, for leopards and civet cats have their place in the für trade.-Exchange.

Unreasonable.

"Was the operation successful?" "It was brilliantly so in the facts It demonstrated. Only one person did not seem to be pleased with the results."

"Who was that?" "The patient's widow." POLITICAL ADVERTISEMENT

Valuable Horse Saved

Expected Horse Would Die- Now Sleek and Healthy

In reporting his experience, Mr. J. C. Huste, of Rock Bridge Baths, Va., stated: My horse is the best advertisement you would want for Dr. LeGear's Stock Powders. He was in a run down fix and poor and I thought he would die soon. I got some of Dr. LeGear's Stock Powders -and today he is as fine a looking horse as you can see in this section. I only used a few boxes of Dr. Le-Gear's Stock Powders.

Mr. Huste benefited by the advice of Dr. LeGear. By following the Doctor's advice you can also keep your stock sleek and healthy. Get Dr. LeGear's Stock Powders from your dealer; feed it to your horses, milk cows, steers, hogs and sheep as per directions. Satisfaction or money back.—Dr. L. D. LeGear Med. Co., St. Louis, Mo.

While the 12th of July celebration is almost a thing of the past, we are glad the spirit still remains The brought back to us the pep of days gone by.

Mrs. McMaken and three children of St. Johns came up and spent the Fourth with her brother, B. V. Dyke. She returned home the first of the week, leaving the children in care of her brother for a time.

Another Pioneer Laid to Rest

In the passing away of A. E. Latter, who died in the University hospital at Ann Arbor last Thursday morning, Reno lost a good citizen and one who has watched the development of the community for the past 43 years.

Mr. Latter was born in Hilland, England, November 5, 1837, and was called to his reward July 8th, 1920, being at the time of his death 82 years. eight months and two days old.

At the age of 22 he was united in marriage to Miss Lucy King. To this union 12 children were born, three died in infancy, one daughter, Mrs. Williams, and one son, Daniel, died in later life.

He, with his wife and four children, came to Canada in '72 and in November of '76 came to Reno then a wilderness where he prospered and aided in the development of Reno township.

Thirty-nine years ago the deceased was baptised into the fellowship of the Tawas Baptist church. As soon as the Reno Baptist church was established end was a consistent member. He was a tireless worker for the cause, never missing an opportunity to point out the straight and narrow way to all he came in contact with.

Mr. Latter, accompanied by his son, William, went to Ann Arbor hospital June 29 for medical treatment. He underwent an operation and not withstanding every effort made to stay the decease, his weakness from long suffering and advanced years rendered

it useless. His son, William, and grand-daugh-

ter, Florence, were at the bedside to witness the end.

The funeral was held Sunday afternoon and was the largest ever held in

this place. Rev. McGerr, pastor of the church, officiated and the singing was rendered by the Hemlock choir. The crowd that filled the church to the entrance and a goodly number outside. bespoke the esteem for the deceased.

Besides the bereaved wife, there are left to mourn his loss, four sons and three daughters. William and Harry of this place, Ed of Alberta, Canada, Arthur of Curtisville, Mrs. Irving Beardslee of Whittemore, Mrs. Cauchy of Mio, Mrs. Mason of this place, besides 32 grandchildren, 10 great-grandchildren, and many friends.

FARM HELP THAT WON'T QUIT

A Litscher Lite Plant Gives Power and Light - and Comes to Stay Where is the farmer who

is not facing serious help shortage, decreased production, a general desire on the part of his family to go to the city? There are two big items ahead of the farmer. He Must Have farm help and he Should Have modern conveniences.

A Litscher Lite plant will give both-at the same time. It will supply electric current for incandescent lights from the garret to the cellar. Press a button and the barn is flooded with brilliant light. It will provide the current for the operation of modern luxurious necessities such as vacuum cleaners, fans, irons, washing machines, toasters, percolators, bed warming pads, etc. These are some of the things the

Belt power for farm machinery, motors to operate milking machines. fanning mills, cream separators, pumps, etc., mechanical aid in these days of scarcity of human help - these are the days he Must Have if he is going to keep abreast of the swirling times.

Low Upkeep Cost

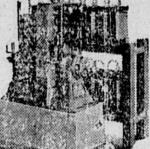

The Litscher Lite plant offers the farmer stationary engine power and stores electric current at the same time. It operates on kerosene fuel and requires only as much as is consumed in the old-fashioned lamps.

The original cost for the Litscher Lite is comparatively small. The upkeep is low. It requires practically no attention to give perfect service. It occupies a small amount of floor space and is quickly in-

ISCHER

farmer Should Have.

Your help problem will be solved when you see them in operation because your better judgment will counsel you to buy.

Abig-scale road test on 3,200 tubes

How Firestone puts the miles in — and then proves it not at YOUR expense.

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxi cabs. The service of these tubes is checked constantly -improvements and developments are arrived at.

By close watching of a large number of tubes in service not confined to isolated instances, the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in werkmanship into tubes by organizing the creck manufacturing organization of the industry on a profit-sharing basis,

And then subjects the finished product to this big-scale road test-in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tukes cost no more than the ordinary kind.
