farm agency.

Congressman Currie was a visitor
in the city Tuesday. Mr. Currie is a
candidate for re-election, and while
standing on some of the matters coming
before the recent session of congress
did not meet with the favor of a por-
tion of his constituents, it is believed
that his chances for renomination are
good. Mr. Currie stands for out and
out Americanism and takes a firm
stand against anything that smacks of
socialism or the soviet radicalism that
is so rampant in some parts of the
world today.

have a host of friends here who wish
them all success and happiness.

The Herald mentioned last week
the fact that John Johnson partici-
pated in a national sports meet at
Pittsburgh. We are informed by his
father, Nelson Johnson, that at this
meet John won first prize in the 220
yard dash, second in the 150 yard
and third in the hurdle race. He also
won a silver cup in a contest at Flint
recently.

The monthly crop bulletin issued by
the Michigan Cooperative Crop Re-
porting service, a combination of state
and government agencies, shows a
probable great increase in production
in this state over that of last year.
Fruit, especially, is reported as giving
promise of nearly double the crop of
1919, which should make it fairly
plentiful and reasonable in price this
year.

BAPTIST CHURCH

"He got by."

This bit of present day slang is
typical of present day conditions.

It signifies carrying a thing off when
the performer does not deserve to
carry it off.

It means fooling folks into thinking
you are more than you are, wiser,
and brighter and stronger.

"Getting by" is triumphant hypoc-
risy. It is acting a part successfully.
It is making a little go a long way,
about twice as far as it ought to go.

"Getting by" is a popular process.
We have no time to be thorough, or
think we have not. We do not see why
we should take pains to sell honest
goods, as long as people are so willing-
ly cheated.

All this is because we forget that
there is one who can never be cheated,
and He is the only one that counts. His
purchase alone buys His verdict alone
cleans. His vote alone elects.

If our acts and words and thoughts
"get by" His judgment, then only do
they arrive at success.

The church will not help you to "get
by." It will do more. It will improve
your acts and thoughts. Attend its
services regularly.

Morning service, 10:00. Subject:
"Words and Worship."

Sunday school, 11:15.
Evening service, 8:00. Subject:
"God's Appeal to Reason."

Midweek service discontinued during
July. Homer W. Grimes, Pastor.

A FAIR PROPOSITION

S. L. Marshall, editor of the Ingham
County News, has hit upon a buffer
for the subscriber who dare to insin-
uate that he may be profiteering. In
his announcement of a raise in sub-
scription rates, he closes with the fol-
lowing: "Should there be anyone who
thinks we are profiteering, we will ac-
cept his subscription at the old rate in
effect forty years ago, viz: a cord of
wood, two bushels of wheat, or four to
six bushels of potatoes for a year's
subscription."

Yes, and the same principle might
be applied to advertising rates.

BUCHHOLZ-DETMER

A pretty wedding was solemnized
at the home of Mr. and Mrs. Julius
Buchholz of this city last Sunday,
July 18, when their daughter, Miss
Freda, was united in marriage to Mr.
Arthur Detmer of Saginaw.

The parlor was decorated for the
occasion with pink and white crepe
and ferns. The young couple took their
place to the strains of a wedding
march played by Miss Elizabeth Grise,
and the ceremony was performed by
Rev. August Kehrberg, the ring cere-
mony being used.

The bride was attired in a beauti-
ful gown of ivory satin and carried a
bouquet of white roses. She was at-
tended by Miss Gertrude Friebe of Bay
City as bridesmaid and Mrs. Harold
Friebe of Bay City as matron of honor.
The former was attired in a dress
of pink georgette and wore a corsage
bouquet. The matron of honor wore a
dress of white georgette and also
carried a bouquet. The groom was at-
tended by Emil Buchholz of West
Branch, brother of the bride as best
man.

Dinner was served to about twenty
guests, all of whom were near rela-
tives of the contracting parties.

Guests from out of the city who
were present at the wedding were Mr.
and Mrs. Martin J. Smith and son,
Vernon, of Alma; Mr. and Mrs. Harold
Friebe and Miss Gertrude Friebe of
Bay City; and Emil Buchholz of West
Branch.

The happy couple left on the even-
ing train for a honeymoon trip, after
which they will be at home to their
friends at 1404 Genessee Ave., Sag-
inaw, Mich.

The many friends of the young
couple extend hearty congratulations
and best wishes for a long and happy
wedded life.

HARRISVILLE WINS

Tawas City baseball team lost to
Harrisville last Sunday by a score of
7 to 8, a close game. The boys were
forced to play in bad weather, a cold,
raw wind blowing all during the game,
making it difficult for either side to
play their best. However, the attend-
ance was very good despite the inclem-
ency of the weather.

Harrisville has a good fast bunch
of ball players, and they put up a fine
game. Tawas City had a couple of bad
innings and made a total of six errors
to the visitors' one.

The Harrisville team feels pretty
good over the game, as this is the first
time they have been able to win from
Tawas City in four years. This makes
a game apiece this year and the tie
will undoubtedly be played off in the
near future.

Following is the box score:

Next Sunday Tawas City will play
the fast Hemlock team. This team has
won from Tawas City and East Tawas
and a good game is looked for. Mc-
Ardle and Allen, the Hemlock battery,
is one of the best batteries in the
county, and Sherman, a newcomer, will
strengthen their team, so Tawas City
will have their hands full. Come out
and boost for the home team. It is half
the battle, and the boys will appreciate
it. Expenses are heavy and the boys
are trying their best to give Tawas
City a good ball team.

On August 1st the local team will
play Oscoda at Oscoda, and August
8th the same team at Tawas City.

WILL ADOPT NEOSHO PLAN

Local Merchants Join in Up-to-Date
Plan to Promote Fellowship
and Increase Trade

During the past week the merchants
and business men of Tawas City have
been discussing the adoption of the
"Neosho Plan," which has recently
been tried out and found successful
in other towns, and they have come
to the decision to try out the plan in
this city.

The "Neosho Plan" originated in
Neosho, Missouri, several years ago.
It is simply a plan whereby the mer-
chants give up carping criticism of
each other, get together in a friendly
spirit and work together for the good
of all. One of the principal features
of the plan is a "Golden Rule Sale," to
be put on once a month, in which each
merchant offers special prices for the
sale day, and pledges himself to send
customers to the store where they can
buy the cheapest on that day. For in-
stance, if Smith is selling shoes cheap-
er than Jones, the latter is pledged to
send any inquirers for shoes to Smith's
store, while Smith will send customers
to Jones for the specials he is making
for the day. West Branch had the first
of these Golden Rule sales on July 13,
and reports are that it was very suc-
cessful.

Another feature of the plan is an
auction sale, where the farmers may
bring in anything they have to sell and
by the payment of a small fee have it
sold at the auction. This gives an op-
portunity to the man who has a few
articles to dispose of, but not enough
to warrant a sale of his own.

There are other details of the plan
which will be worked out and which
will tend to promote a better feeling
between the business men and be-
tween them and the people of the sur-
rounding country whose natural trad-
ing center is Tawas City.

It is planned to put on the first
Golden Rule sale early in August. Fur-
ther particulars will be given later.

COMMUNITY CHAUTAUQUA TO BE BIG EVENT

Our Community Chautauqua is but
a short time away. Tickets will soon
be on sale and will go rapidly, due
to the splendid efforts of the local com-
mittee and the generous cooperation
of our citizens, who realize what the
Chautauqua means to our county. Be-
cause of the splendid program of lec-
tures and entertainment, many are
planning to spend their vacation here
where they may have all the comforts
of home and at the same time be en-
tertained by the best talent at a rea-
sonable price.

The Community Chautauqua pro-
gram opens with a lecture on the
first evening by the inspirational
speaker, Roland A. Nichols, who will
present his famous lecture, "A Man
Worth While." He will be pre-
ceded by the Clifford Foote Trio, a com-
pany of artists who present a program
of music, song and story, interspersed
with clever water-color sketching.

Lovers of good music are to be given
a treat on the second day of the Com-
munity Chautauqua program when
Ambrose Wyrick, famous tenor soloist,
will present two musical preludes. He
is ably assisted by Albert Heilman,
the talented pianist.

One of the great events of the week
comes on the second day when the
magical Floyds, those masters of
tricks and illusions, present their en-
tertaining program of mystery, mind-
reading, melody and mimicry. To attend
this entertainment would almost con-
vince you of the supernatural although
the Floyds assure you that their wiz-
ardry is nothing but a trick. No en-
ertainment could be more appro-
priate as a vacation offering than that
given by these unique puzzle-people.

The third day will bring the four
Chautauqua favorites, the Boston
String Quartette, with their beautiful,
inspiring music. These musicians with
their violin, cello and piano music ra-
diate the spirit of the Chautauqua and
never fail to leave a lasting, pleasing
impression with their audience.

On the third day, Hon. W. I. Nolan
will launch his famous hard-hitting,
truthful message entitled, "We, the
People." Mr. Nolan is a master orator
and his lecture is full of that ringing
sincerity and clean humor which so
characterizes true Americanism.

Those unique players—Rudolph's
Swiss Entertainers—are the feature of
the fourth day, appearing in their
quaint Alpine costumes and bringing
to you the spirit, songs and music of
their mountainous homes in Switzer-
land.

Dr. Joseph Clare will lecture on
"Russia's Red Riddle" on the fourth
day. Here is a story that will thrill
you from start to finish. Dr. Clare
will be one of the most popular at-
tractions of this year.

The well known and ever popular
comic opera, "Chimes of Normandy"
will be given the last day. This tal-
ented cast with beautiful costumes
and special scenery offers Chautauqua
patrons the highest type of
musical entertainment and brings to
a climax one of the finest Chautauqua
programs ever presented in our town.

IT'S A GOOD BILL

Farmers from all over the country
will voice a concerted demand for pas-
sage of the "truth and fabric" bill now
before congress when this body recon-
venes in December, according to ad-
vices to the Michigan State Farm
bureau.

This will be one of the principal sub-
jects discussed by representatives of 12
states of the middle western farm bur-
eaus when they gather in Lansing
July 27 and 28.

This bill provides that manufactur-
ers label woolen goods with the exact
amount of virgin wool and shoddy con-
tained. If passed, it is contended that
it is bound to be of benefit not only
to wool growers over the country, but
to city people who, statistics show,
have been buying largely shoddy-
composed clothing since the earlier
days of the war.

Naturally, if the labeling of the
quality of goods is compulsory, con-
sumers will be protected against de-
ception. According to the Farm Bur-
eau, the amount of virgin wool used by
manufacturers in the United States
in 1919 could produce only about 240,
000,000 yards of cloth. Government
figures show that about 620,000,000
yards were manufactured, plainly in-
dicating that 380,000,000 yards had to
be made from shoddy or some other
wool substitute.

Farmers of the country and es-
pecially of Michigan, which has the
largest wool pool in the United States
are especially interested in the passage
of this bill, as it is certain to create
greater demand for the product. More
than 10,000 farmers in Michigan have
pooled their wool with the Farm Bur-
eau for handling on a cost basis. The
pool contains more than 3,000,000
pounds, and is expected to contain a
total of 400,000,000 pounds or about
one-half of all the wool produced in
Michigan.

OUR CREED

We believe in our Community.
We believe in its Past—in the men and women who have lived before us, whose toil made the land productive, whose foresight founded our schools, whose devotion builded our churches.
We believe in its Present—in the men and women and children about us. We believe that there is nothing for the good of our town which working together we cannot accomplish.
We believe in its Future—in the men and women who will come after us. We believe that out of our hopes and labors now will grow a Community, democratic, prosperous and strong, an honor to our State and to our Nation.

The editor of the German paper which declares that the trial of the former kaiser was abandoned because of fear of offending the pro-Germans in the United States must himself be afflicted with pro-German propensities.

Next in order will be a federal bonus for the tired consumer who patiently stayed home, bought the Liberty bonds, financed the war and served as the goat to bear the profiteers' burdens.

Great Britain is said to have a tremendous over-production of men's clothing, and American manufacturers foresee in trepidation the end of their fabulous profits. Meanwhile, the consumer will strive to grin and bear it.

SOMETHING DIFFERENT

For Chautauqua—Swiss Entertainers Coming Fourth Day.

RUDOLPH'S SWISS ENTERTAINERS

Switzerland—the land of the Alps—has sent us this novelty company, Rudolph's Swiss Entertainers. They come from that picturesque country, dressed in their quaint costumes, rendering in English the beautiful rolling and warbling songs. In addition, they will sing popular songs which have been added to their repertoire since touring this country and Europe. Their program is replete with variety and novelty, vocally and instrumentally, and will be decidedly interesting and educational. It will not be amiss to mention the fact that good wholesome humor is woven into their entertainment.

On the fourth afternoon of our Chautauqua Rudolph's Swiss Entertainers will appear in a full concert; in the evening they will prelude the big lecture by Dr. Joseph Clare.

Presidential Fevers.

The president of the United States is by Article II, Section II of the Constitution, commander-in-chief of the army and navy and of the militia of the several states when called into the actual service of the United States. Under his general power as commander-in-chief he can order the army and navy anywhere he will, when necessary, to protect the rights of American citizens and their property, or to see that the laws are executed faithfully.

Found Out What Ailed Him.

Billy's mother had bought some apple tarts for company, and when Billy spied them he said to his mother: "I have such a funny feeling in my stomach. I don't know whether I am thirsty or hungry." His mother said, "Take a drink of water," after which he said, "No that isn't it. I still feel that way." Whereupon his mother gave him one of the tarts, and after eating it he said, "That was it, mother. I was hungry."

POLICE MESSAGES HAVE RIGHT OF WAY

TELEPHONE COMPANY RECOGNIZES EMERGENCY NATURE OF CALLS FOR STATE TROOPERS.

An arrangement has been made by the State Police with the Michigan State Telephone Company whereby messages to or from the State Police stations are given right of way over other traffic. This is necessary because it is important that the State Police receive notification promptly of robberies and other crimes so that they may start in pursuit of the law breakers without delay. In other cases, a call in sent in where some disorder or act of lawlessness is feared and there have been scores of cases where such a call resulted in bringing the State Police to the scene in time to avert trouble.

Major Roy C. Vandercook, who recently retired from the command of the state troopers, perfected a system for use on the regular patrol routes of the State Police whereby farmers and storekeepers may notify either the nearest State Police station or the trooper on the patrol of the presence of suspicious characters or of other facts which are essential that the troopers know.

The fact that many instances have occurred of criminals using motor cars in committing their depredations in the agricultural districts has made the telephone an important adjunct in helping the state troopers to take preventive measures and to head off escaping law-breakers.

ROTARIANS GIVE PRAISE TO STATE'S CONSTABULARY

YPSILANTI EDITOR TELLS WHY MICHIGAN NEEDS A TRAINED FORCE TO PRESERVE LAW.

In Ypsilanti the Rotarians get out a little paper called "The Rotary Truthsayer." The other day the Michigan State Police came in for its share of comment in the editorial columns of this snappy publication. The general tone of the editorial is so refreshing that it is reprinted here in full. It is only a typical example of the opinion which thinking business men of Michigan have of the State Police. The editorial is as follows:

"The best argument for a State Police is that some people don't want 'em."

"The radical labor-unionist who expects to start the customary rough house this summer is disturbed at the thought of having a husky fellow with the big stick and the business-like manner standing around in his way. He prefers arson, thuggery and murder. He doesn't believe in the State Police, the National Guard, law, decency, or God."

"What he wants is a comfortable brand of politician-sheriffs and tin-star deputies sitting around the courthouse swapping stories."

"The honest citizen who is opposed to the State Police idea because he is afraid it may cost something finds himself with strange bed-fellows."
"The farmer who thinks he is not getting any protection from the State Police needs to yell for more of them instead of holding a prayer-meeting with the thugs, bootleggers and I. W. W.'s."

PROMPTNESS STOPS FIRE WHICH THREATENED WOODS

Captain C. E. Wakeman received a call from District Forest and Game Warden Crow the other day and Troopers Cooney and Cole were sent to his assistance. They found a fire raging which had been caused by a passing train, and before it could be extinguished it had burned over twelve acres in East Bay township, Grand Traverse county. This fire would have proven a most expensive one had it not been subdued immediately, owing to the fact that there was a strong wind from the southwest which headed the flames directly towards a nice stand of second-growth pine covering more than thirty-five acres. The flames had reached the very edge of this timber when the fire was placed under control. From now on much of the attention of the State Police will be directed to fighting such fires which break out every year.

PRESENCE OF TROOPERS CHECKS TIDE OF CRIME

During the past few months the large white frame house at Hudson, which is used for the headquarters of the State Police detachment located there, has been the scene of much activity. The constabulary was appealed to after a bandit band operating out of Toledo had terrorized the vicinity for some time. Several towns had been raided by these outlaws, and after a series of farm robberies at Deerfield, Holloway, Addison and Rockford, Corp. Doty and three troopers were sent to Hudson. They took up their quarters in this roomy white frame house and since that time there has not been a single robbery. Further to safeguard the community 23 citizens of Hudson were recently sworn in as special deputies.

TO THE VOTERS OF THE 28th SENATORIAL DISTRICT

I have served my township on the Board of Supervisors for six years, Chairman of the Board one year, and represented the Osceola district in the Legislature in the 1913, 1915 and 1917 sessions, where I served on some of the most important committees in the House and visited quite a number of the state institutions, especially on the Ways and Means Committee in the 1917 session. I believe that a great improvement could be made for the welfare of the State and its institutions and saving the State many thousands of dollars in taxes by dispensing with many of the so-called Institutional Boards who make their visits at regular intervals and have but little knowledge of the management in their absence. These should be grouped in a few boards as possible who would visit the Institutions at random and learn the real conditions as well as make improvements. Should I be nominated and elected a Senator I should put forth my best efforts to bring about this change. I will appreciate any support that may be given me at the Primaries on the Republican ticket August 31, 1920.

Horse Badly Cut by Fall

Specialist's Prescription Prevents Complication

In telling of the accident to his horse, Mr. Luther Carmen of Valley Park, Mo., stated: "My horse fell down and cut his knees all up. I dressed them with Dr. LeGear's Antiseptic Healing Powder and they are healing fine. It is a wonderful remedy for healing sores on horses."

Mr. Carmen is simply voicing the sentiments of hundreds of others who feel that having Dr. LeGear's personal prescriptions on hand at all times is nearly as good as having Dr. LeGear where they could reach him in a few minutes.

Wounds and sores must be taken care of immediately. Get a can of Dr. LeGear's Antiseptic Healing Powder from your dealer. Dust on enough of it to cover the wound or sore. It forms a protection against insects and infection and promotes healthy healing.—Dr. L. D. LeGear Med. Co., St. Louis, Mo. adv

The Alban Calendar.
In the ancient Alban calendar, which a year was represented as consisting of ten months of irregular length, April stood first with 30 days to its credit. In the calendar of Romulus it had 30 days, while Numa's twelve-month calendar assigned it to fourth place, with 29 days; and so it remained until the celebration of the calendar by Julius Caesar when it recovered its former 30 days, which it has since retained.

Defectives in the Orient.
There are 1,000,000 blind and at least 400,000 deaf in China. India has 600,000 blind. Nearly 5 per cent of the population of Ceylon is said to be physically defective, usually blind or deaf. The natives of the African jungle, instead of being the lusty savages of imagination, are for the most part physically below par. The majority of them are malnourished and diseased and marked physical defects are common.

Inslat on Recognition.
The best ideas in the world will not work themselves. Usually the best things have to be impressed upon folks. There's something in human nature that seems willing to fall for the nonsense of life much more readily than it takes on life's responsibilities. Call it what you will. The name you give it won't alter the facts. So the only thing left is to get under the load and carry it to success. You must not get tired. Let others grow weary and quit. As the leader and reformer you must trudge on and by your dogged and unflinching recognition for yourself and what you stand for.—Grit.

Hemlock Loses to Alabaster

The Hemlock ball team motored to Alabaster last Sunday for a return game. It was a fast game all the way through, but the Hemlock boys were out of luck. Sherman was put in the box to start the game. He pitched good ball, but in the second inning Alabaster got three runs.

McArdle stepped in the box in the third inning and showed his good work, as ever, by only giving Alabaster two more runs in seven innings. This left the score 5 to 0 in favor of Alabaster.

Next Sunday Hemlock battles with Tawas City at the fair grounds. Come and see a good game.

No Worry About Farm Labor with a

A Litscher Lite plant will practically solve your help problem by working for you 24 hours a day with almost no attention and at very small cost. It will operate your milking machine, cream separator, fanning mill, pump, and other necessary farm equipment, and supply your home, barn and adjoining buildings with electric light at the same time. Furthermore, electric current means that all modern electrical appliances, making your wife's work a pleasure, can be used in your home.

A Litscher Lite plant is a compact lighting plant that offers you stationary engine power, and stores electric current at the same time. It operates without attention on a small amount of kerosene fuel and is guaranteed to give absolute satisfaction. It's a waste of money to buy an engine that develops belt drive power only. Belt drive power plus light and electric current for sewing machines, vacuum cleaners, washing machines, irons, fans, percolators, etc., is secured by the Litscher Lite plant.

A 24-Hour Farm Helper that won't quit work, and bedims the lure of the city by bringing city comforts to the farm.
