### BAPTIST CHURCH

Are you affiliated with a righteous cause? I know that you mean to be a good citizen, but you have never stopped to think that Righteousness is the very heart of good citizenship. Now think it out for yourself—Can you think of any forward cause that was borne for the betterment of our nation that did not get its life from that precious seed called Righteousness? Righteous thoughts, righteous ideals, righteous men—these have given to America her greatness and her security.

And when you think of Righteousness you must think of the Church. These are the symptoms. The church stands for and preaches Righteousness. The righteous men who have given our country its righteous ideals have been Christian men—men affiliated with the church.

Do you desire to be an asset to your community and your country? I believe you do. Then why not "connect up" with the organization that can help you most in the realization of your desire? The church will make you a strong advocate for Righteousness and make your life useful and happy. Give it a trial. Come to our services regularly. Get into the church going habit.

Morning service, 10:00. Subject: "Prayer and Power."  
Sunday school 11:15.  
Evening service 7:30. Subject "Persuasion."

September 5 begins week of prayer. Homer W. Grimes, Pastor.

It is no wonder a man loses his power of speech when talking to a girl who is "too sweet for words."

### COLLEGE EXHIBIT TO FEATURE PRODUCTION

Economy of labor and general expense in production, rather than merely increased output, is the feature which is being emphasized throughout all branches of the big exhibit the Michigan Agricultural College is getting ready this week for the state fair at Detroit. The college exhibit is to share space with the United States Department of Agriculture in the agricultural building on the fair grounds. The place of fertilizers, lime and drainage in producing crops at a greater profit with less labor is to be shown in the booths prepared by the soils department. Labor saving devices will be exhibited by the farm mechanics department, while crops, animal husbandry, poultry, dairy, botany and many other departments at the college are each preparing displays of special and timely value to Michigan farmers—all of which in some way bear upon the general demand for economical production.

Winners of sectional championships in the state-wide Boys and Girls Club work are to compete for state championships at the state fair again this year. Later on some of the successful competitors in the state fair events will be sent to represent Michigan in national competition among club champions.

### SCHOOL BEGINS NEXT MONDAY

### OWING MONEY TO THE BANK

In June, 1914, the loans and discounts of all national banks aggregated \$6,430,069,000. Today more than \$12,000,000,000 represents the bank loans, which have grown over \$4,000,000,000 in the past year. Thus it appears that there has been a perfect riot of money filling people's pockets and a large part of it has represented "borrowings." Liberty bonds have furnished the necessary security for a great deal of this.

"Expansion" and "inflation" are thus traced to the banks and their operations, and since this way of getting easy money has necessarily about run its course, there are tens of thousands of people who must get back to work. The sooner this period gets under full swing just that much quicker will the country begin making up for all its lost construction of war time. Gradually it appears to be dawning upon the entire population that shorter hours and longer spending is not the true road to industrial and economic prosperity and progress. An old truism worked over might be made to read: "A part of the people can fool themselves a part of the time, but all the people can't fool themselves all of the time." And for that reason the population will have to return to the old-time custom of working for their daily bread.

### THE METHODS OF PROFITEERS

Raising the prices of goods on account of "the increased freight rates" is a process that won't hold water. According to the statement of one of the big railroad companies, flour shipped in carload lots from Minneapolis to Philadelphia on which the forty per cent increase is paid, will amount to 33 cents a barrel of 200 pounds. On a 24 pound sack of flour this will be just a little more than four cents. The increased freight on a pair of shoes shipped from Boston to Philadelphia would amount to six mills; on a crate of thirty dozen eggs from Chicago to Philadelphia, twenty cents, or three-fourths of a cent per dozen; on a bushel of potatoes from Exmore, Va., to Philadelphia, 5.5 cents. These representative instances indicate that the dealers who attempt to raise prices "on account of the increased freight" are pretty apt to be found doing an artistic piece of profiteering.

### THE ELECTION

The largest vote ever recorded at a primary election in Iosco county was that cast at the election last Tuesday. This was of course due to the fact that the women now have the vote and a large number of them exercised their new prerogative.

In the gubernatorial contest Campbell had a majority in Iosco county, but latest returns from the state indicate the nomination of Grosbeck by a large majority. For lieutenant governor Thomas Read has a big lead over Scully.

For congress Roy O. Woodruff won over Gilbert A. Currie by an apparent majority of about 2,000. In the race for state senator Duncan McRae carried this county by a vote half again as large as that of all his opponents put together. Full returns from the district are not yet available, so it is impossible to tell which of the five candidates is the nominee.

F. B. DeWitt for representative in the state legislature had no opposition.

Most of the interest in this county centered in the nomination of county candidates. For sheriff W. J. Robinson won in a three cornered race with Colie Johnson and Chas. Dixon by a majority of about 140. For prosecuting attorney John A. Stewart defeated C. H. W. Snyder by about 100. R. C. Arn defeated Barney Long for the nomination for drain commissioner and G. A. Pringle won handily from Mrs. Rose Watts for register of deeds.

David Davison for probate judge, Frank E. Dease for county clerk, W. H. Price for treasurer, N. C. Harting for circuit court commissioner, John W. Applin for surveyor and H. W. Case and L. N. Gagnier for coroners had no opposition.

Only one nomination was made on the democratic ticket, Wm. Vaughn winning the nomination for sheriff over Thos. H. Hill.

All of the above returns were computed with one township, Burleigh, missing from the count.

### NO IDLE FARMS IN NORTHEASTERN MICHIGAN

While many parts of the country, including portions of Michigan, have been complaining the present season about "idle farms" and lack of food production, the counties of Northeastern Michigan give promise of a far greater output of farm products than ever before in their history.

Investigations conducted in every county in the district fail to disclose an idle farm or any disposition to let farms stand idle. Many improved farms have changed hands in the last year but the new owners have been tillers of the soil and are digging in for all they are worth to make their land produce, and there has never been a year when crops of grain, corn, potatoes, and sugar beets gave greater promise in these counties than this year. The potato and beet crops are especially good and the acreage planted is greater than ever before.

"I haven't found a single idle farm," said James R. Snody, president of the Northeastern Michigan Development Bureau, "and I have visited every county in the district and tried to find such places. The nearest approach to an 'idle farm' is in the cases of men who have bought wild land, cleared 10 or 12 acres which they have, as a rule, put into hay, and who have then gone to work in some factory in order to earn more money with which to develop their land. These are not 'idle farms,' for they have never been developed farms, and it will be but a few years before they are cleared and producing crops, for their owners are planning to stick to them and few are offered for sale."

Wanted—Cattle, sheep, hogs and veal calves. Expect to ship next week. Phone 96-W if you have anything to sell. C. H. Prescott & Sons. 25-14

**POWER OF SYMPATHY.**

In this country of ours we have been passing through a season of discontent, of discord, of envy and jealousy, disregard of law and order, from which the country has been reaping a harvest of loss, of death, of destruction—who has gained anything from it? Some few agitators, actuated by selfish motives, may have made something out of it; but where one of these has put an additional dollar, in his pocket, thousands of others have lost hundreds, some of them thousands of dollars. What is the sure cure for all such exhibitions? It is sympathy, mutual sympathy. When men learn to shape their conduct toward one another as they would have others shape their conduct toward them, there will be less strife, discord and lawlessness, says Knoxville Journal and Tribune. As said already, above, the cause of the trouble that concerns all of us so closely is the entertainment of envy and of jealousy. There can be no such thing as absolute absence of sympathy. In one of the celebrated Julius letters is found the sentence: "It is an eternal truth in the political as well as in the mythical body, that where one member suffers all the others suffer with it." It is true in our country that if one class suffers all the other members of the body politic will suffer in some measure.

**Traveling.**

To any person who has all his senses about him, a quiet walk along not more than ten or twelve miles of road a day is the most amusing of all traveling; and all traveling becomes dull in exact proportion to its rapidity. Going by rail and I do not consider as traveling at all; it is merely "being sent" to a place, and very little different from becoming a parcel.—Ruskin.

**Lawsuit That Lasted 400 Years.**

The longest lawsuit on record lasted over 400 years. It was a dispute about some land in Poland, the people interested being the Sobieskis of Orlowo and the Sobieskis of Podlowa. It began in the year 1490, and a settlement was arrived at in 1890, the land being then divide, among the then representatives of the original litigants.

**REPUBLICAN COUNTY CONVENTION**

The republican county convention for the election of five delegates to the state convention at Saginaw will be held at the court house, Tawas City, on Tuesday, September 7th, 1920 at 10:00 o'clock a. m., central standard time. Each township, ward or precinct shall be entitled to such number of delegates to county convention as are shown on the ballot at the primary election where delegates are elected. Dated Tawas City, Aug. 26, 1920.  
H. N. Butler, Frank F. Taylor,  
Secretary. Chairman.

**REALLY A CHAMELEON CITY**

Barcelona Presents an Odd Mixture of the Past and Present—Once Center of Commerce.

Barcelona is the chameleon city of Spain. In some quarters of the city the streets are narrower and more crooked than those of old London, while in others are avenues, boulevards, shops and cafes which vie with those of Paris. The city has an aristocracy which lives so far in the past that its selons still deplore the discovery of America, according to a bulletin of the National Geographic society.

Until 1492 Barcelona was the New York of the Mediterranean. Columbus' voyage was considered a bit of impertinence on the part of the Castilian government to upset the balance of trade in favor of cities in western and southern Spain. As a result a movement swept the Catalan provinces, of which Barcelona is the center, for annexation to France, the revolt against Phillip IV in 1640 resulting in the district giving itself over to French protection.

Catalonia's old allegiance, however, was renewed in 1652, four centuries later the resentment ameliorating enough to permit the placing of a statue of Christopher Columbus in the Rambla, Fifth avenue of Barcelona. After the Spanish-American war mobs of Barcelona citizens stoned and egged the explorer's statue "as punishment for having ventured to find so troublesome a new world for Spain."

**BELONG TO HOLIDAY SEASON**

Christmas Festivities Would Not Be Complete Without the Holly and the Mistletoe.

Several thousand tons of holly as well as hundreds of tons of mistletoe are shipped over the railroads each year before the opening of the holiday season. The mistletoe is placed in small packages because it is easy to break off the tiny white bells, and the plant is more rare and costly.

Holly abounds all over the world, over 100 species having been determined, but only 14 varieties are to be found in the United States. The finest American species of holly is the Ilex Opaca, but the mountain holly is also a choice variety. The English holly has a sturdier leaf, and a more vivid and lustrous green. The wood of the holly is very hard and smooth in the grain, and is almost equal to box-wood for engraving purposes, while its leaves are the emblem of forethought because of the protection given to the buds by the defensive thorns.

The holly, however, is not so highly prized for the Christmas season as the mistletoe, which is rare, delicate and beautiful and the source of many ancient Druidic legends. In the United States mistletoe is chiefly found in the southern states, while that used in England is chiefly produced in the orchards of Normandy. It is also the state flower of Oklahoma.

**Costly Rainy Day.**

It has been calculated that the cost of a rainy day in New York city is something like \$100,000.

# Make These Sockets Earn You Money

IF THEY *earn* as they *burn*, you can get your lights free. Just a small investment will accomplish this. If you want to invest a little more, every time you look out over the lights of Tawas City, you can say to yourself, "Each one of those thousands of sockets is helping produce a good income for *me*."

## Dividends from the Preferred Stock of Consumers Power Company Yield You 7.37% interest on Your Investment

Think of it! Nearly 7½% per cent, tax free in Michigan, on the security of a Preferred Stock in a Public Utility corporation of known standing and efficient management. *And in your own home town*—where you can find out all about the company—learn all about the service it gives and the way it is managed. That certainly means a wonderful investment opportunity at the present time.

## Investment In a Staple Product Means Security

Consumers Power Company manufactures gas and electricity, which are necessities—staples. You know yourself that you could not get along without them in your home, or in your office. And the money invested in the manufacture of such necessities is therefore *assurely* secure.

The Company has been financed from outside sources for years, and has had no difficulty in selling its securities in the principal investment centers of the country.

But why should the money you pay for lights not remain at home? Why not have this money returned to you as part owner? That is what investment in this Preferred Stock means to you.

Consumers Power Company wishes actual users of its facilities to share in its profits.

### TERMS OF OFFERING

**Plan No. 1** (Cash Payment) Under this plan we offer the 7% Cumulative Preferred Stock of Consumers Power Company at \$95 per share and accrued dividend to date of payment for stock.

interest at the rate of 7% per annum on the monthly installments paid to us, this interest to be credited to the purchaser on the books of the Company. Dividends from the last dividend date prior to the final payment will be charged to the purchaser and an adjustment made. No more than 25 shares may be purchased by any person under this time offering.

— OR —

**Plan No. 2** (Time Payment) Under this plan we offer the 7% Cumulative Preferred Stock of Consumers Power Company at \$95 per share on a time payment plan; \$10 per share payable at the time of purchase; \$10 per share each month for seven months and \$15 for the final payment. We agree to pay

*Purchasers under this plan have the option of withdrawing all partial payments at any time prior to the date of final payment for the stock, on 10 days' notice, and in the event of such withdrawal the Company agrees to pay 3% interest on the amounts paid in up to date of notice of withdrawal.*

### Dividends Are Paid Quarterly

Four dividend checks a year, one every three months, will reach you promptly through the mail. Whether your salary stops or continues, the dividend checks keep coming. Remember, also, that these dividends are on Preferred Stock, which adds to the security of your investment, for Preferred dividends must be paid before any dividends may be paid on the common stock.

### You Need Pay Only \$10 Per Share Down and the Balance Monthly

While you draw interest at 7 per cent on money you pay until you own the stock.

Ask any of our employees to tell you about this Preferred Stock issue of Consumers Power Company. They will give you details.

Local Representative—Mr. Oscar Whitman

*Money back if you want it, at any time before payments on your stock are completed, upon 10 days' notice, with interest at 3% per annum up to date of withdrawal notice.*
