Fire insurance. H. E. Hanson adv Potatoes, call McCaskey, phone 61. A Miss Anna Sands of Detroit is visiting at her home here this week.

Mr. and Mrs. Geo. W. McCardell are the parents of a baby boy, born Sept. 28.

P. O. Colby was a business visitor at Oscoda and Harrisville a few days this week.

Miss Florence Kulazewski left Saturday for Leslie, where she has been engaged to teach school the coming year.

Miss Mabel McCaskey left last Saturday for Mt. Pleasant, where she will attend the state normal college the coming year.

Mesdames Peter Anderson, W. H. Kennedy and James Baguley attended the M. E. conference at Bay City a few days last week.

Mrs. O. J. McMurray and infant son left Tuesday for her home in Detroit after a three months visit at the home of her mother, Mrs. Martha Murray.

Born to Mr. and Mrs. R. W. Elliott, jr., a son, on Wednesday, Sept. 22. Mrs. Elliott is at the home of her parents, Mr. and Mrs. J. Sands, in this city.

The county Grange convention for the purpose of electing delegates to attend the state Grange will be held at Alabaster on October 5. All Grangers are requested to be present.

The first meeting of the Twentieth Century club will be held at the home of Mrs. Joshua Roberts next Saturday, Oct. 2. The response to roll call will be your favorite quotation.

Mrs. F. C. Hamer left Tuesday morning for Detroit, where she will visit relatives for a few days enroute to her home in Lincoln, Neb., after a months visit with her father, Benj. Sawyer, in this city.

Mr. and Mrs. Fred Marsh, Mrs. Frank Middleton and son, Russell, and Miss Lucile Dangle, all of Glennie, visited Sunday with their mother, Mrs. Edith Marsh. Fred has recently purchased a farm at Glennie.

Look at the date on the label of your Herald this week, and if your subscription is due please remit at once. Otherwise your paper will be discontinued. Under present conditions we cannot extend credit for subscriptions.

During the races at the fair last Thursday A. E. Bigelow was thrown to the ground by the stumbling of the horse he was driving and suffered some severe contusions to his face and a general shaking up. He was not seriously injured however.

A representative of the state Farm Bureau was in the city Tuesday obtaining information looking to the formation of a county farm bureau in Iosco county. This county is one of eight in the lower peninsula of Michigan which are not yet organized.

The representatives of the state tax commission have about finished their assessment of the property in Iosco county and will hold public hearings next week at which the rolls will be reviewed and interested parties heard in regard to their assessments. The hearings will be held on the dates and at the points specified in the order published in the Herald last week.

A new time card was put into effect on the D. & M. Ry. last Sunday. The north bound train which was due at Tawas City at 9:07 now arrives at 9:04; the afternoon train north now arrives at 2:57 instead of 3:07; and the morning train north arrives at 9:23 instead of 9:33. Changes have also been made on the branch lines, the Prescott train running into Omer and Augres as formerly and the Rose City train running through to AuSable and back to Rose City.

W. G. MacEdward, formerly general passenger agent of the D. & M. Ry., has been elected secretary of the Bay City board of commerce to succeed J. C. McCabe, resigned. Mr. MacEdward is well fitted for the position, having a wide acquaintance and being thoroughly versed in traffic questions, which will stand him in good stead as traffic questions are one of the important problems which come before boards of commerce. Mr. McC. is also a charter member of the North-eastern Michigan Development bureau and has been actively identified with the work of that organization since its inception.

Potatoes, call McCaskey, phone 61. I now have Ajax tires on hand. Ray Smith, adv

See adv of threshing outfit in want and for sale column. adv

Mr. and Mrs. Wm. Hatton attended the fair at Saginaw a day or two this week.

Otto Kasischke of Cincinnati, Ohio, has been the guest of relatives in the city the past week.

Call and get prices on poultry. I am paying the highest market prices. Thos. Galbraith, Tawas City. adv

Miss Grace Braddock left last Friday for Ypsilanti to resume her course at the state normal college.

Miss Amelia Anderson returned to Detroit last Saturday after a couple of months visit with her parents, Mr. and Mrs. Peter Anderson, in this city.

Over 8,000 Rexall drug stores in the United States are engaged in taking a straw vote on the sentiment of the people as regards the presidential candidates. The vote is telegraphed each day to the United Drug Co. in Boston, who in turn issue a bulletin showing the total daily returns. The J. E. Dillon drug store in East Tawas is a Rexall store and furnishes a part of this vote. Mr. Dillon informs the Herald that up to Sept. 27 there had been cast in these stores throughout the country a total of 227,450 votes, of which 116,684 were for Harding and 55,746 for Cox. The vote in Michigan up to Sept. 29 stood 581 for Harding and 287 for Cox. The taking of this vote will continue until election in November, so if you wish to register your choice you can do so at Mr. Dillon's store at any time.

SOME POTATOES AND SOME PUMPKINS

Spurred by an item which recently appeared in the Herald, telling of a man in Kalamazoo county who claimed to have the record bushel of potatoes for that county with a bushel composed of sixty-three potatoes, W. R. McClintock of Sherman township, Iosco county, brought to the Herald office last Monday twelve potatoes which made just half a bushel or 30 pounds. Mr. McClintock states that he selected 52 potatoes from a field which he recently dug and the 52 potatoes weighed 118 pounds. These potatoes were not raised from the seed of some giant variety but are the old reliable Petoskey potatoes.

Another interesting display which may be seen in the window of the Herald office is that of two large pumpkins which were grown by J. G. Phelps right here in Tawas City. The pumpkins are each 23 inches in length and the larger measures 4 3/4 inches in circumference the small way and 61 inches the larger way around. The other pumpkin is not much smaller and is the one that took first prize at the Iosco county fair last week.

GREEN-GOLENBERKE

A quiet but pretty wedding took place Wednesday morning, Sept. 29, at seven o'clock, when Miss Helen Greene, daughter of Mr. and Mrs. John Greene of Detroit, became the bride of Joseph Golenberke at St. Leo's church, Rev. Meakle officiating.

The bride was charming in a fall suit of blue duvetyne and a hat to match. She wore a corsage bouquet of bridal rose sand lilies of the valley. She was attended by her sister, Miss Cecelia, while Harry Golenberke acted as groomsmen.

After the services a wedding breakfast was served for the relatives at the home of the bride's parents, 552 Maybury Grand, after which the young couple left for an extended trip east.

Upon their return they will make their home in Detroit.

The bride has many friends in Tawas City, who will offer congratulations and best wishes for a long and happy married life.

M. E. APPOINTMENTS

Among the appointments made at the annual conference of the M. E. church, which closed at Bay City on Monday of this week, were the following which will be of interest to the people of Iosco county.

East Tawas, A. Aaron Mitchell; Hale and Long Lake, J. R. Stevens; Whittemore and Prescott, E. F. McMichael; Pontiac, First, H. G. Pearce; Tecumseh, W. A. Gregory; Owosso, Corunna Ave., J. W. Koyie; Shafterburg, E. C. Scott; Brown City, E. Stevens.

Tawas City was left to be supplied. There will be no preaching service here next Sunday, as Rev. McMichael will immediately take up the work in his new field. He informs the Herald that the charges at Wilber and Townline will hereafter be supplied by the East Tawas pastor.

WARNS AGAINST USE OF CANNING COMPOUNDS

The United States department of agriculture warns housewives against the use of any preservative powder or canning compound in home canning. Their use encourages careless and uncleanly work, and in large amounts they may have serious effects upon digestion and health. It is entirely practicable to put up fruits and vegetables so that they will keep by processing the products with heat. There is no reason for risk by the use of canning powders.

Boric or salicylic acid is the basis of most canning compounds on the market today. The directions on the packages usually call for one teaspoon of the compound for each quart of fruit or vegetables. The use of boric and salicylic acid, since they may be harmful to health, is regarded by the department of agriculture as a violation of the Federal food and drug act. The laws of many states also prohibit the sale of foods containing boric or salicylic acid.

BAPTIST CHURCH

Can you give an honest, intelligent reason for not being a follower of Jesus Christ? I dare say you cannot. You may offer an abundance of excuses. But excuses are not always reasonable.

I think you allow your imagination to suppress your reason. One thing is certain: You will never be a follower of Him until you allow your reasoning powers to overrule your imaginative powers.

Your imagination will make you believe that Jesus is a far-away Being, disinterested in your immediate needs; that acceptance of Him merely means escape from the eternal fires of hell. Thus would your imagination trick you into unbelief. But allow your reasoning powers to do their work and you will have a different conception of Christ and Christian discipleship.

Read your Bible, attend the church, think, meditate and reason. Such a course has led many through the mists of doubt to a clear conception of His supremacy. Such a course will lead YOU to HIM!

Sunday morning, Communion service, 10:00; subject, "Truth, the Key to Freedom."

Sunday school, 11:15.

Evening service, 7:30; subject, "Throwing Stones."

Prayer meeting, Wednesday, 7:30. Homer W. Grimes, Pastor.

METHODIST EPISCOPAL CHURCH

Sunday school at 11:15 as usual.

This is an important meeting as it is the Sunday for the annual election of officers, and it is especially requested that all officers and teachers be present.

THE IOSCO COUNTY FAIR

The 1920 fair of the Iosco County Agricultural Society, which was held on Wednesday, Thursday and Friday of last week, was one of the most successful ever held by the society. The exhibits of agricultural products, while not large, made up in quality what they lacked in quantity, and elicited many expressions of admiration from those who saw them. The exhibits from the schools were of especial excellence. Much of the credit for these exhibits is due to A. R. Gail, who, as superintendent of the youths department, devoted a great deal of time and care to securing and placing the school exhibits.

Some splendid horse races were run on the second and last days and lovers of this sport proclaimed themselves as well satisfied with this part of the entertainment. There were also two good baseball games, the game on the second day between Hale and Herrlock being won by the former, and the game on the last day between Tawas City and East Tawas resulting in a victory for East Tawas.

The big attraction at the fair this year was the aeroplane which on the afternoon of the second and last days gave exhibitions of stunt flying over the grounds. The spectacular feats of looping the loop, the tail spin, the Immelman turn, and other feats, brought exclamations of surprise and admiration from the large crowds who witnessed them, many of whom had never before seen an aeroplane.

Unfortunately the field on the fair grounds was not large enough to allow the flyer to land safely and a field some distance from the fair grounds had to be selected, the large field belonging to R. A. Hamilton, on the Meadow road, being chosen.

A number of local people enjoyed the novel and exhilarating experience of a flight in the air. However, on Friday the aeroplane had a valve burned out and no passengers could be carried that day. The flyers remained here over Sunday and after the machine had been repaired did considerable passenger business.

The Herald editor was one of the fortunate ones to make a flight and considers the experience one of the most pleasing he has ever encountered. To ascend above the earth from 1500 to 2000 feet and see the land spread out below one, with roads, lakes, streams and cities outlined as on a relief map, is an inspiring sight and one long to be remembered.

Financially the fair was also a success, the receipts being sufficient to take care of expenses and leaving the income from other sources to be used for necessary repairs and improvements to the grounds and buildings.

TAWAS CITY SCHOOLS

High Room

Rudolph Anderson entered high school this week.

The money cleared at the high school stand amounted to \$118.08. This will be used as means of buying basket ball equipment and also to help pay for the trips they are planning.

A meeting of the athletic association was held Monday night at the school house for the purpose of electing officers and delegates to the convention at Pinconning October 9th. The following were elected for the ensuing year: President, Mr. Larabee; manager, Mr. Ousterhout; chairman, Mr. Larabee; permanent timekeeper, Mr. Larabee; permanent score-keeper Lester Lossing; delegates, Waldy Buchholz, Dorothy Mark.

The English I class has begun the study of "The Tale of Two Cities" in addition to rhetoric.

The English literature class has translated the first twenty lines of "Canterbury Tales" very successfully into modern English poetry.

The English II class has started the study of the classic, "Silas Marner." Don't forget the sale conducted by the high school Friday, Oct. 1. If you want fresh baked goods, home made candy and popcorn you can get them here for a small price. The money is to be used for playground equipment for the grades.

Mr. Fahselt is back to work again after a short illness.

The science class has received its books and has started an interesting class under the instruction of Mr. Larabee.

The standards are being erected for the boys' and girls' basket ball teams. They will begin practice at once.

IOSCO COUNTY ONE OF EIGHT

Only eight counties of the 88 in the lower peninsula have not as yet lined up with the farm bureau movement which in the last year has built up 60 organized county farm bureaus in the 83 counties of the state and has a total membership of 84,000.

The laggard counties in the lower peninsula are Oscoda, Missaukee, Roscommon, Lake, Gratiot, Bay, Iosco, and Arenac, but the farmers of these counties will not be trailing those of the others much longer, according to the Michigan State Farm Bureau, which has had numerous applications from individuals in those counties to start the membership campaign. However, it is not the plan of the farm bureau to enter any county except after definite invitation from a representative group of the farmers in that county.

By the first of the year it is expected that practically every county in the state will have been canvassed and that membership of the state organization will be in excess of 100,000.

TAWAS CITY LOSES TWO

On the last day of the fair Tawas City and East Tawas staged a very poorly played game of baseball, Tawas City going down to the tune of 11 to 2. Thirteen errors were credited to Tawas City players, which in itself tells the story of the game.

Following is the score by innings:
1 2 3 4 5 6 7 8 9 R H E
E. Tawas 0 3 2 3 0 0 0 0 3 11 4 1
T. City 0 0 0 0 0 1 0 1 0 2 7 13

Not being satisfied with the result of Friday's game, another game was scheduled at the Tawas Beach diamond for Sunday. This turned out to be a hotly contested game. Sieloff, a south-paw, threw for Tawas City and played his part in fine style, getting eleven strike outs. He was steady in all pinches and had good control. In the ninth with men on third and second and no one down, he struck out two and retired the third on an easy pop.

A decision in the seventh gave East Tawas the game with an apology from the umpire to the losers.

Lanski and Zink were hitting at a good clip, each getting three hits.

Following is the box score:

Tawas City	AB	R	H	O	A

WHAT SHOULD CAPITAL EARN?

The problem of a fair return on capital daily comes up in the lives of people who place their money in the savings banks, buy mortgages and bonds, or invest in stocks. A financier relates that "a high grade electrical utility sold its five per cent bonds in November, 1916, to yield the investor 4.90 per cent, while in May, 1920, it sold a similar six per cent bond to yield the investor 7.03 per cent.

The supreme court of the United States in a decision last year, observed that "it is a matter of common knowledge that, owing principally to the World War, the costs of labor and supplies of every kind have greatly advanced * * * and it is equally well known that annual returns upon capital and enterprise the world over have materially increased, so that what would have been a proper rate of return for capital invested a few years ago furnishes no safe criterion for the present or the future.

Wanted—Cattle, sheep, hogs and veal calves. Expect to ship next week. Phone 96-W if you have anything to sell. C. H. Prescott & Sons. 25-1f

JUST A REMINDER

How would you like to journey to the nearest city for a pound of sugar, or a yard of muslin, or a spool of thread, or a smoke? And how would you like to make the trip when you need a prescription filled in a hurry, with death running you a race? You would make some noise if forced to such an extremity—and then so noise. You would say—and justly so—that a town in which you cannot buy a pound of sugar or a yard of muslin, or a spool of thread, or a smoke, or even get a prescription filled, is a mighty poor excuse for a town and not worth living in. Yet our merchants can only afford to keep as long as you buy other things from them. It is not doing this town any good to buy the little things here and then chase off to the city or send to a catalog house when you want something on which the merchant has no make a dollar.

Neither is it doing you any good, for the prosperity of every citizen is dependent to a large extent upon the prosperity of the community as a whole. We are not telling you something you do not know. We are simply refreshing your memory in hopes the time will come when our people will conclude that a town that is worth living in is worth trading in. That's all.—Ex.

He Knew Its Use.

An Indianapolis family a few years ago took a boy from an orphanage. Now, of course, everything at the new home was different from the place he had just left. Still he tried to make himself at home and help all he could.

One day the woman of the house told her grown daughter to go upstairs after a box. The orphanage youngster offered to go instead. "But you don't know where to find it," protested the woman.

"Oh, yes, I do," the little boy insisted. He had gone to her closet before after things and had seen the boxes. "They are in the little pantry that you keep your clothes in."

Alloy Stronger Than Steel.

An Italian engineer has discovered a new alloy of zinc and copper which is stronger than steel and less corrosive than copper, says the Scientific American. The most important characteristics of the new alloy, which has been named "Black Metal," are the highest known breaking point, the highest limit of elasticity, perfect homogeneity and higher resistance to both heating and chemical action. It has been stated that it can successfully be cast, machined, rolled, forged, drawn and stamped. It is expected that it will prove an acceptable substitute for steel, brass and aluminum.

Ground Ice.

A professional paper of the United States geological survey on the Canning river region, in northern Alaska, describes the occurrence of ground ice in that region and reviews the literature of ground ice in considerable detail. The author concludes that the two varieties of ground ice most common in northern Alaska are formed by the burial of river ice by sediments and by the growth in place of vertical ice wedges.

Speed May Overcome Weight.

Professor Edward V. Huntington of Harvard university, showed by an elaborate mass of figures printed in Science that a man on a train moving along the equator westward at 18,700 miles an hour or eastward at 16,730 miles an hour would weigh nothing, as measured by an observer on the train.

Straight talk on Cream Separators by C. H. Prescott & Sons

Tawas City, Mich.

We will gladly take a new De Laval Separator out to your place, set it up, and show you how simple it is to operate and care for.

It will prove by its performance that it skims clean even under unfavorable conditions; that it is easy to turn and easy to clean.

It will also demonstrate that it pays for itself in less than a year because of the cream it saves—to say nothing of the labor and time it saves.

If this demonstration is desired, stop in next time you are in town or send us a letter or call us up on the telephone

GAVE NEW IDEA TO WORLD

Architect Admits He Owes to Lucky Dream Structural Scheme Which Makes Him Famous.

When the new three-story Bahai temple, which is to cost several million dollars, is erected in Chicago, a dream that Louis Bourgeois of New York city struggled with for 12 years to put into plans and designs will have materialized.

More than 25 years ago Bourgeois sat on the sea shore one night tracing out lines he found in the study of the movement of the stars. A wave rushed in over his markings on the sands, and they were lost. Just 12 years ago he heard of the competition for the Bahai temple. He mortgaged his home, and bought a small confectionery store which his wife, an artist, ran while he worked. Baha 'O 'Iah, founder of Bahalism, had adopted nine as the symbolic number of his religious movement, and said his temples should have nine sides, with as many equal gates for the nine great world religions he wished to unite in one temple.

Bourgeois sketched the idea; but he had to put it in plaster, as he did not know how to carve. So one Sunday a friend taught him. And then he carved the three stories one by one, designing the second only after the first was completed, and the third only when details of the second were final. His model took first prize. And it is probable that Abul Bahai, present pontiff of Bahalism, will come to Chicago to live.

BEST FORM OF WIND MOTOR

Machine That Will Work in Perfect Calm Is Recent Invention of a Swedish Manufacturer.

For decades attempts at constructing a wind motor that works so steadily as to be used profitably for generating electricity failed because wind motor and generator were directly connected by a rod, and the quantity of electric current was in direct proportion to the power developed by the motor.

A Stockholm (Sweden) manufacturer succeeded recently in constructing a satisfactory wind motor. While the wind is strong only part of the motor's power is utilized to drive the generator, while the surplus power lifts a heavy weight attached to an endless chain. When the wind is not strong enough to furnish sufficient motor power, or ceases wholly, the generator is kept in motion by the force of the slowly falling weight.

The famous Swedish engineer, Jansson, figures that the generator is kept working at full capacity even if absolute calm prevail for three days.

Improved Aluminum.

A curious new form of aluminum has been attracting attention in France. When the pure metal is heated in a vacuum, 97 per cent of it is slowly volatilized in 73 hours at about 1,100 degrees Centigrade; and the whole is volatilized in 30 hours at 1,200 degrees centigrade. A small portion always proves less volatile than the rest. Quite often a kind of fractional distillation yields an aluminum residue that has increased affinity for oxygen, and within a month this is completely changed into a bulky grayish-white mixture of alumina and aluminum. One suggestion is that impurities of iron or silicon impart this peculiarity. But analysis shows only four per cent of iron and five per cent of silicon, and the form of metal so readily oxidized proves, therefore, to be purer than the aluminum used for kitchen utensils and various other purposes with no tendency to become oxidized. It is concluded that the easily oxidized metal is an allotropic form of aluminum.

Prepared for Tourists.

Tourists flocking to the war zone are finding novel hotel arrangements and conditions more comfortable than expected in view of the fact that hardly a hotel was left habitable when the Germans retreated eighteen months ago. The latest innovation of French tourist agencies is a hotel opened in Arras, where a series of ordinary railroad coaches are arranged in a square with a tent roof over the center, forming reception and dining rooms. The Arras train hotels have eighty rooms, each coach providing four compartments large enough to accommodate the most fastidious customers. Bungalow hotels are being erected, especially in the Argonne, where the shell-torn trees are being razed to provide timber for Canadian style cottages.

Forgotten Distances.

Americans who have forgotten the geography lessons of their school days will be surprised by statements made in an article on Chinese trade published in Shipping. Manila, it says, which is an American insular possession, is closer to China than is Tokio, the capital of Japan. The Alaskan coast is within 50 miles of Siberia. Therefore, the article concludes, it would seem that America should be more interested in Asiatic than in European trade.—From the Outlook.

New Idea for Garage.

The newest public garage has a feature saving the automobile owner a lot of annoyance which he invariably experiences in getting his car into a space assigned to him at a public garage. The new idea is to run it on a transfer truck which carries the car to the desired place and the automobile is run off the track into its place. This arrangement also conserves floor

A Quartet of Shares Will Pay Your Meat Bill

YOU eat the meat but the meat bill eats into your income. Why not set aside a certain appropriation to take care of this bill? Four shares of Consumers Power Company Preferred Stock, costing \$380.00, will start working for you immediately and earn in a year enough income to pay the average meat bill for a month.

Consumers Power Company Preferred Stock Yields 7.37% Interest on Your Investment

Buy this stock now! Remember it is stock in a Public Utility Company, which ranks with the safest, soundest investment you can find for your money. It is preferred stock, too. That means that your income from it will be safe because dividends on preferred stock must be paid before any dividends can be paid on the common stock.

Here Are Some of the Advantages of Buying This Stock Now

1. You pay \$95.00 a share—but will draw interest on \$100.00.
2. It is the stock of a company in your own home town, supplying staple products. You know its record to be of the highest standard—if you don't know this, the company invites your investigation.
3. Easy payment plan whereby you can pay as you earn, only \$10.00 down per share, and the balance monthly, and you draw 7% interest on the amount you pay in until you own the stock.
4. The stock is free from personal tax in Michigan.

Explaining the Hermit.

A good many of the unknown "relatives" who always appear soon after the death of a rich hermit probably are genuine, and help explain why the hermit became a hermit.—Kansas City Star.

THE HUMAN HANKER.

We may believe (or claim to) that we like to be alone—
To "think"! How can we do it with our bonnets packed with bone? But give a man his preference with neither lure nor string—
And he'll have folks around him for the comfort that they bring.

He'll leave the grandest scenery an artist ever viewed,
And hunt up human beings, though they be debased and crude.
He wants to hear folks talk and laugh, or fight, or swear or sing—
He's got to have folks 'round him, for the comfort that they bring.

Merit Rewarded.

The man who resists evil tendencies had had a horrible night in the sleeper, owing to the heat and the disturbances.

The porter woke him for the wrong town, just as he had started in on his first sound sleep of the night.

He left his toilet set in the wash-room and somebody swiped it.

He rushed into the lunchroom at the breakfast station, and asked for some provender, including buttered toast.

When it came in, it was not buttered. The waiter apologized, and the good man assured him it was all right.

The waiter then spilled the coffee all over the counter, so that the man was saturated with it.

But the patron only smiled politely, though yearning to kill the stupid chump.

As he was standing at the cashier's desk patiently explaining to her that she had short-changed him, he heard the blundering waiter say to his side-partner:

"That guy's a nut."

The Passion Play.

Accounts vary as to the date that marks the beginning of the Oberammergau "Passion Play." Some have it that the custom was instituted centuries before the thirty years' war, with a cessation during that period. Reliable chroniclers maintain that it cannot be traced farther back than 1634. Those Bavarian peasants made a vow that if the plague would cease, they would give the play every decade, a vow they faithfully kept until the sequence was broken because of the war.

Hamlet's Advantage.
"The play's the thing!" exclaimed Hamlet. Then he added aside: "Fortunately the cinema has not been invented, so the king cannot forsake my show to go to the movies."

Living Ex-Presidents.
At the time of the first inauguration of President Lincoln there were five former presidents living—more than at any other period in the history of the nation.

Jud Tunkins says there isn't much chance of promotion for a man whose only idea of a boss is a person who sticks his feet on the desk and smokes large cigars.
