### BAPTIST CHURCH

Where will your children be next Sunday morning?

Did you ever stop to think what a mighty force the church is in character building? The very atmosphere of the Sunday school and church service will put ideas and ideals into the child's life that home influence cannot put there. First of all, give your child the right to Christian influence in the home, then bring them into the life of the church.

What will your children be ten or fifteen years from now? That depends upon what you teach them now. Do not think of sending them out into the world without giving them a lasting impression of true Christian character. Men and women need more than a trained mind. They need moral strength.

The church will inculcate these high principles into your children. Will you deny yourself or your children the right to know more about Christ and His life-giving principles? Come to the services of the church. Bring your children. It will serve to make your home happier and your life worth while.

Morning service, 10:00.

Some people rise by getting in on the ground floor of everything that comes along.

### TELEGRAPH COMPANIES TO PAY FOR MISTAKES

"There is no reason why the telegraph companies should longer be permitted to avoid responsibility or to limit their liability to a nominal amount," says examiner Patterson of the interstate commerce commission.

After listening to testimony by the operative shippers and business men of the country, Patterson has recommended that telegraph companies should be liable for damages to the extent of \$500 for losses occasioned by the senders through mistakes on un-repeated valued messages and on repeated valued messages the liability should not exceed \$5000.

Serious losses to shippers have occurred through mistakes in price quotations in telegraph messages for many years but the senders of these messages had only nominal recourse. The attempt to make the telegraph companies responsible in this matter was begun last summer.

### HALE AND VICINITY

Benj. Frost, jr. is driving a new Ford sedan.

Albert Buck was home from Flint for over Sunday.

E. L. Lindsay of Mio was a Hale visitor Monday.

Carl Cowie of Flint is visiting Hale friends this week.

E. O. Putnam is in Tawas City this week in attendance at the meetings of the board of supervisors.

Mr. and Mrs. George Moore have moved to Mio. Our best wishes go with them to their new home.

R. J. McLean and daughter, Anna-bell, visited during the past week with friends at Turner and Santiago.

Miss Ina Bradley and Mesdames Robinson, Taylor and Baguley, of Tawas City were Hale callers Thursday.

Miss Helen Montgomery, who is a student in the Flint Business College, was called home Saturday by the death of her grandfather, Seth McKean.

A letter from Miss Oran Putnam tells of her safe arrival in Craig, Colorado. She has a good position and is delighted with the climate and the people.

Mr. and Mrs. Fisher of West Toledo and Rev. Joseph Dibley of Clio were guests last week at the home of Mr. and Mrs. Ira VanWormer. Mr. Fisher and Mrs. VanWormer are brother and sister.

Seth Augustus McKean was born in Sherbrooke, Maine, Dec. 29, 1847, and died Oct. 8, 1920, aged seventy-two years, nine months and 18 days.

One by one the old settlers are passing on, the death of Seth McKean last Friday adding another to the list of pioneers who have fought a good fight and gone on to their reward.

Mr. McKean came to Plainfield township in its lumbering days and lived to enjoy many years and watch its development from wilderness into pleasant farm homes; the AuSable river with its rollways and floating logs harnessed to supply electricity over our southern Michigan cities. Early last spring he was taken sick with Bright's disease and in spite of all that loving care and medical science could do passed away early last Friday morning.

Funeral services were held in the Baptist church Sunday afternoon and tribute paid to his many sterling qualities. A large procession followed the body to its last resting place in Evergreen cemetery.

He leaves two daughters, Mrs. Cora Johnson and Mrs. Grace Hammond, one son, James McKean, two brothers, one sister, six grandchildren, several nieces and nephews and a host of friends to mourn his demise.

**MOTOR TRUCKS ON THE FARM**

The agricultural department has been obtaining the views of farmers in the corn belt, and 831 of them who have motor trucks are almost unanimous in the opinion that they will prove eventually a profitable investment. However results show that the motor truck has not reduced farm expenses to any degree up to the present time, and were it not for the fact that the farmers agree that it "saves time," it is doubtful whether the new acquisition to rural activities would be in the popular class. It has been determined that the average truck used on a farm travels 2,777 miles a year, and the cost of operation is almost seventeen cents a mile, making the total cost of one of these "pesky critters" about \$470 a year.

### A Y. M. C. A. APPEAL

October 11, 1920.

To the Public of Iosco, Alcona and Oscoda Counties:

The work of the Young Men's Christian Association has been carried on in our counties for two and one-half years. During the past year and a half under the able and efficient leadership of Mr. A. R. Gold.

Mr. Gold has made friends for himself wherever he has gone, and has filled a large place in our community life. The committee feel justly proud of him and of the work he has done. They are conscious that all has not been accomplished that the Committee and the Secretary might have desired, but splendid results have been attained. The Committee can, however, assure the supporters of the movement that the work as organized for the fall and winter months, promises to be still more successful, and they feel that it must be sustained at all costs.

This is an opportunity for those who have been loud in the praise of Mr. Gold to show their appreciation in a practical way.

About a thousand dollars more is necessary to complete the budget for the current year, and the Committee would urge the public to subscribe to the funds to the limit of their ability, so that the beneficent work of the Young Men's Christian Association may be continued in our community.

The following local men are members of the committee and are back of the movement, and many others are giving their moral aid and financial support:

James E. Dillon, Chairman

Frank F. Taylor, Secretary

N. C. Harting, Treasurer

Jas. E. Ballard

L. H. Braddock

### THE RETAILER AND PRICES

While the consumer is rejoicing over the many signs of a general recession in prices it will be well for him to remember that in nearly all lines retail dealers are now in a ticklish position.

It is an easy matter for Henry Ford who controls both raw material and finished product to send a telegram to all agencies handling his output to reduce prices offhand, but the retail merchant is in a very different situation. He has to constantly maintain a stock of goods to meet the day by day wants of his customers and so his shelves are filled with articles necessarily purchased when all costs were at their peak. In many cases orders had to be placed months in advance. He cannot drop prices to abruptly to coincide with manufacturing cuts without dropping into bankruptcy.

The automobile owner who discovers that the resale of his car has been reduced a quarter or a third between noon and night can comfort himself with the thought that his bus is just as valuable to him for service as ever but the retail merchant has no such consolation. He must sell and at a margin that will enable him to continue in business as well as buy new stock at lowering prices.

There seems no doubt that the general readjustment process is now under way. But the way to help it is not to stop buying. The public can best help the movement by buying sanely and intelligently for its needs because it is not until present stocks can be disposed of without serious loss that there can be a general and permanent reduction in prices. If that thought is carried in mind there will be a gradual and steady easing of costs without violent dislocation or business wrecking. By helping the dealer dispose of his goods bought earlier we shall, in reality, be helping ourselves.

Of course we need not expect really prewar prices for a long time, if ever. The sweat shops have been abolished. All workers are now receiving a fairer compensation than ever before. We want to maintain that condition and that fact in itself is bound to leave the price recession at a higher level than in the old days with their lower standard of living. So do not ask the retailer to bear the burden unassisted nor look for a price millenium overnight.

### AVOID HORSEHAIR SHAVING BRUSHES

For that morning shave—if you would avoid anthrax—it will pay you to work in the lather with the fingers rather than to use a cheap horsehair shaving brush, according to a warning Dr. R. M. Olin, state health commissioner issued to the shaving public.

"Though the United States public health service has made every possible effort under the existing laws and regulations," stated Dr. Olin, "to prevent the occurrence of anthrax due to infected shaving brushes, yet in spite of its efforts the number of anthrax cases is increasing; and cases will continue to occur wherever men buy and use horsehair brushes for shaving."

Until within the past few years, anthrax has been almost exclusively a disease of veterinarians, brush makers, leather workers and tanners. With the importation of infected hides and wool from Russia, Australia and South America, the disease has spread to those whose occupations exposed them to these sources of anthrax, a disease which claims the lives of as high as 50 per cent of its victims. Within the past two or three years has come the more general spread of the disease, traceable to infected shaving brushes. Buyers of shaving brushes, for this reason, should be on their guard against coarse brushes. Oftimes the horsehair brushes are sold as 'badger hair.' The cheap brushes are either imported or made in this country from horse hair imported from Russia.

"Due to the fact that the anthrax organism goes into a spore stage, to rest for years at a time, it is almost impossible to kill. Measures which will kill the spores will ruin the brushes. Congress at its next session, will be asked to prohibit the use of horsehair in the manufacture of shaving brushes. Infection from the brushes is introduced through the little cuts or abrasions most men contract while shaving. Besides this, the bristles in the horsehair brushes are stiff enough to make lesions themselves."

"As preventive measures, the shaving public should ban the cheap, horsehair shaving brush, either continuing to use its old brushes, or when purchasing new ones, make sure that they are of good quality and the bristles other than horsehair."

**Wars of the United States.**  
A stray paragraph on "Wars of the United States" enumerates nineteen wars. Ten of these were conflicts with Indian tribes, of which the most important were probably the Black Hawk war and the Seminole war. If these are called wars, an eleventh might be added—the Modoc war of 1873. The important wars on the list are the War of the Revolution, the War of 1812, the Mexican war, the Civil war, the Spanish war, the war with Germany. The minor conflicts included in the list are: the war with France, 1793; the war with Tripoli, 1801; the Philippine war, 1899.

**Swordfish No Mean Foe.**  
In the British museum may be seen the heavy oak plank, once a part of the bottom of a stout vessel, which had been pierced by the sword of a swordfish. The weapon remains fast fixed in the timber. Along the Atlantic coast of the United States swordfish are hunted both for their flesh, which is palatable, and also in order to protect the schools of bluefish and mackerel which they ravage.

**Finally Roused Him.**  
"Fare!" The passenger gave a heed. "Fare, please!" Still the passenger was oblivious. "By the ejaculatory term 'Fare!'" said the conductor, "I imply no reference to the state of the weather, the complexion of the admirable blonde you observe in the contiguous seat, nor even to the quality of the service vouchsafed by this philanthropic corporation. I merely allude, in a manner perhaps lacking in delicacy, but not in conciseness, to the monetary obligation set up by your presence in this car, and suggest that you liquidate." At this point the passenger emerged from his trance.—San Francisco Argonaut.

**Lady-Slipper**  
Three of the well-known varieties of the beautiful orchid found in the temperate zone are called the pink lady-slipper, the yellow macrantha flower, and the showy lady-slipper which is white with purplish pink or crimson stripes. These names have been given the flowers as they bear a curious resemblance to a slipper.

**NOTICE TO THE ELECTORS OF IOSCO COUNTY**  
Notice is hereby given that at the general election to be held in the various voting precincts of the county of Iosco, state of Michigan, on Tuesday, the second day of November, A. D. 1920, the question of bonding the county for the sum of Ten Thousand Dollars (\$10,000.00) to be used in building a county infirmary, will be submitted to the qualified electors of said county as required by law. The question will be submitted to the electors in the following form:  
"Shall the Board of Supervisors be authorized to borrow Ten Thousand Dollars to build a county infirmary?"

Tawas City Michigan

**REGISTRATION NOTICE**  
To the qualified electors of the City of Tawas City, Michigan:

Notice is hereby given to all men and women electors of said city, that in conformity with the statutes of the State of Michigan relating to registration, I, the undersigned Clerk of said city, will, upon any day except Sunday and a legal holiday, or the day of any election, receive for registration the name of any legal voter in said city not already registered, who may apply to me personally for such registration, or who may make such application by mail or messenger under the provisions of Act No. 7, Public Acts of 1919, except that I can receive no names for registration during the time intervening between the second Saturday before any general or special election or official primary election and the day of such election.

October 23, 1920, Last Day for General Registration for Election Nov. 2

All electors not already registered and intending to vote at said election should make application to me on or before the 23rd day of October, A. D. 1920.

Notice is further hereby given that I will be at Tawas Butter Co. Office on Oct. 9 and Oct. 16, 1920 from 8 o'clock a. m. until 8 o'clock p. m. on each said day for the purpose of reviewing the registration and registering such of the qualified electors in said city as shall appear and apply an actual resident of the precinct at the time of registration and entitled

therefor. The name of no person but under the constitution, if remaining such resident, to vote at the next election shall be entered in the registration book.

**Registration of Absentee by Oath**  
If any person whose name is not registered shall offer and claim the right to vote at any election, and shall, under oath, state that he or she is a resident of such precinct and has resided in the ward Twenty Days next preceding such election, designating particularly the place of his or her residence and that he or she possesses the other qualifications of an elector under the constitution; and that owing to the sickness or bodily infirmity of himself or herself, or some member of his or her family or owing to his or her absence from the city on public business or his or her own business, and without intent to avoid or delay his or her registration, he or she was unable to make application for registration on the last day provided by law for the registering of electors preceding such election, then the name of such person shall be registered, and he or she shall then be permitted to vote at such election. If such applicant shall in said matter wilfully make any false statement, he or she shall be deemed guilty of perjury and, upon conviction, be subject to the pains and penalties thereof.

**Registration by Mail or Messenger**  
Under Act No. 7, Public Acts of 1919, the privilege of Absent Voters is extended to include registration.

Upon compliance with this act registration can be secured by mail without personal appearance. An affidavit must be made similar to the following:  
State of Michigan }  
County of Iosco } ss  
..... being duly sworn, deposes and says that he is a duly qualified elector of the ..... ward of the City of ..... in the County of ..... and State of Michigan; that he is not now registered as an elector therein, and that he makes this affidavit for the purpose of procuring his registration as an elector in accordance with the statute.

Taken, subscribed and sworn before me this ..... day of ..... A. D. 1920.  
Signed .....  
Notary or Justice.

The time limit for registration by mail or messenger is the same as where personal application is made. Therefore, the affidavit of an elector desiring to register by mail or messenger must be received by the City Clerk not later than the second Saturday preceding the election.

**Provision in case of removal to Another Precinct**

Any registered and qualified voter who has removed from one election precinct of a city to another election precinct of the same city shall have the right, on any day previous to election day, on application to the City Clerk, to have his or her name transferred from the registration book of the precinct from which he or she has removed to the registration book of the precinct in which he or she then resides. Such elector shall have the right to have such transfer made on election day by obtaining from the board of inspectors of election of the precinct from which he or she has removed a certificate of transfer and presenting the said certificate to the board of election inspectors of the precinct in which he or she then resides.  
Dated Sept. 22, 1920.  
H. Allen, City Clerk.

**TO THE VOTERS OF IOSCO COUNTY**

Tawas City, Mich., Sept. 30, 1920  
Whereas stories have been circulated to the effect that I was negligent in the discharge of my duties in connection with the enforcement of the prohibition laws of the state in the detection of persons violating the law, I desire to say that it is impossible for me or any officer of the county to do anything in regard to the arrest and conviction of a violator of the law, unless complaint is made to him in a regular and legal way. That an officer has no right to go into the houses and premises of persons who may be suspected of violating the law, unless he has some legal paper or complaint upon which to base his search and entry upon another man's premises.

If any citizen of the county will come to me and make complaint, or go before a Justice, it will be promptly and energetically attended to at once and everything done which can possibly be done to bring the guilty parties to trial. It is the duty of the state constabulary, or officers of the Pure Food Department to make searches and arrests upon information or complaints made to them; and they have a right to call upon the county officers to assist in making arrests or perform any other duty which may be necessary to bring guilty parties to trial or arrest; but such duty does not attach to county officers and they have no right to do these things unless proper legal steps are taken to give them the right.  
adv-45 Collie Johnson, Sheriff.

**TO THE PEOPLE OF IOSCO COUNTY**

Whereas a number of circulars were spread about the county at the primary election held last month attacking me upon certain religious grounds and the same were absolutely false and untrue in fact, and I was injured thereby unjustly; I now wish to be set right, before the voters of this county and hereby state openly and candidly that my father and mother were Swedish Lutherans, and what religious instruction I have had was in that church, and I have never in any manner altered or changed therefrom. I have never felt that I had any right to interfere with any other person in that regard, and that it is wrong and a great injustice if I should be accused and blamed for something with which I had nothing to do, and feel that such attack upon me was very unfair and unjust.

A number of lies and untrue stories were also circulated about my joining certain lodges and societies. The fact is that I never belonged to any lodge or society except the Maccabees at one time, now out of date, and the Knights of Pythias, and am one now, and that is all.  
adv-45 Collie Johnson.

**A SQUARE DEAL**

To the Voters of Iosco County:  
After due consideration, and at the request of people from all over the county, I have consented to become a candidate for the office of Sheriff at the election Nov. 2nd, next.

It has come to my knowledge that certain scandalous, false and libelous circulars were distributed throughout Iosco County for the avowed purpose of defeating me at the primary, and all kinds of falsehoods were used for that purpose.

You who have known me know that I do not resort to such methods in politics; and feeling that many voted against me on account of said falsehoods and circulars being so used against me, I now ask for a square deal at your hands.

You will find my slips in the booths at all the polling places, and if you are in favor of clean, honest and upright politics, and believe in a square deal I would respectfully ask you to use one of my slips on election day.  
Yours very truly,  
adv-45 Collie Johnson.

**The Price of a Suit Without Working for It**

WHAT a grand and glorious feeling—to get something you want very much without working for it. Take your spring suit, for example. You can buy a smart-looking, well-tailored suit for \$60.00, and if you set \$950.00 to work for you now, you can have this suit each year—without turning a hand.

**Dividends from Preferred Stock of the Consumers Power Company Yield 7.37% Interest on Your Investment**

You need only invest \$95.00 to draw the income on \$100.00—nearly 7 3/4 percent on your money, and the income free from personal tax in Michigan—and on a preferred stock in a public utility corporation of known standing and modern management.

This offer is made to customers of Consumers Power Company because the Company wants those who actually use its product to share in the profits.

There is no reason why part of the money you pay for lights should not be returned to you in dividends.

Bear in mind that this is a preferred stock. All dividends on it must be paid in full before dividends may be paid on the common stock.

You can buy in easy installments. \$10 per share at the time of purchase, and the balance monthly, and you draw 7% on your money thus paid in until you own the stock, when you receive an income of 7.37%.

Four interest days a year—January 1st, April 1st, July 1st, and October 1st—will bring you dividend checks by mail. Whether your salary stops or not these checks will keep coming in.

**Terms of Offering**  
**Plan No. 1** (Cash payment) Under this plan we offer the 7% Cumulative Preferred Stock of Consumers Power Company at \$95 per share and accrued dividends to date of payment for stock.

—OR—  
**Plan No. 2** (Time payment) Under this plan we offer the 7% Cumulative Preferred Stock of Consumers Power Company at \$95 per share on a time payment plan; \$10 per share payable at the time of purchase; \$10 per share each month for seven months and \$15 for the final payment. We agree to pay interest at the rate of 7% per annum on the monthly installments paid to us, this interest to be credited to the purchaser on the books of the Company. Dividends from the last dividend date prior to the final payment will be charged to the purchaser and an adjustment made. No more than 25 shares may be purchased by any person under this time offering.

Purchasers under this plan have the option of withdrawing all partial payments at any time prior to the date of final payment for the stock, on 10 days' notice, and in the event of such withdrawal the Company agrees to pay 3% interest on the amounts paid in up to date of notice of withdrawal.

For further information get in touch with our local representative, Mr. Oscar Whitman—ask any of our employees—or fill in coupon.

## Wonder

By GEORGE MATTHEW ADAMS

WONDER is able to make big men and women of us all, for when we most sincerely feel that we are small and unimportant, that moment we are in reality biggest and greatest. Look into the Heavens at night. Wonder at its magnificence. Take note of the worlds in Stars as they wink and blink among themselves millions of miles away. Wonder at them and how heedless they seem of you—so small, so tiny—so infinitesimal!

Wonder—but as you Wonder, THINK.

Look about you—no matter where you may be. There are always things to Wonder at. Every spot of Nature is a Wonder Garden. Every Seed and Tree and Rock and Breathing Life in Nature transformed through the Mind and Effort of Man, is but the further arranging of chances for Wonderment.

Wonder—but as you Wonder, THINK.

As you go to your Bed tonight, before closing your eyes in Sleep, Wonder at it all—Sleep, that for the time obliterates conscious Life and takes you away from activity and turmoil, but to return you again in safety recharged with Strength and Will. Wonder at the miracle of Sleep.

Wonder—but as you Wonder, THINK.

Let the power of Wonder that is so free to you correct your distorted viewpoints. Let it lift and brace you. Let it abolish the false Conceit within you. Let it convince you of your humanness and lead you through your work in this world, contented with your lot—an Uncomplainer.

## Just Folks

By EDGAR A. GUEST

### THE TRUTH ABOUT ENVY.

I like to see the flowers grow,  
To see the pansies in a row,  
I think a well-kept garden's fine,  
And wish that such a one were mine,  
But one can't have a stock of flowers  
Unless he digs and digs for hours.

My ground is always bleak and bare,  
The roses do not flourish there,  
And where I once sowed poppy seeds  
Is now a tangled mass of weeds,  
I'm fond of flowers, but I admit,  
For digging I don't care a bit.

I envy men whose yards are gay,  
But never work as hard as they;  
I also envy men who own  
More wealth than I have ever known,  
I'm like a lot of men who yearn  
For joys that they refuse to earn.

You cannot have the joys of work  
And take the comfort of a shirk,  
I find the man I envy most  
Is he, who's longest at his post,  
I could have gold and roses, too,  
If I would work, like those who do.

(Copyright by Edgar A. Guest.)

### Regulating the Concrete Mixer.

The hour glass principle has been employed in an almost automatic concrete mixer in which the ingredients fall through three cone-shaped hoppers in succession and are kneaded together.

### Sugar and Crime.

The observation has been made in the English courts that 90 per cent of the children brought up for trial were accused of stealing sweets. This corroborates the assertion of Judge Henry Nell that whenever there is an increase in juvenile crime it is due to a scarcity of sugar. The children must have sugar and they will steal it if they must.

### Tobacco Not Wasted Now.

In former times all tobacco confiscated by the English customs authorities was destroyed by burning in a furnace called the king's pipe. Now days all such tobacco as well as that which is returned as unusable for smoking, is sold to manufacturing chemists, who turn it into sheep dip insecticides for the use of gardeners, and the like.
