### BAPTIST CHURCH

The Baptist church begins the new year encouraged and hopeful. The unbroken interest of the townspeople in our work encourages us and the steady increase in attendance makes us hopeful. Much of our hope for success is due to the co-operation on the part of our immediate members and Christian friends. We would not neglect to mention Mr. Ballard who has allowed us the free use of the columns of the Tawas Herald to give our services publicity.

The earnest efforts of the past are beginning to show their fruitage in the awakening of every department of our church work. For instance, the Sunday school has doubled its attendance, partly due to the newly organized adult Bible class, which adds about thirty to its enrollment. For the new year we have one great aim. If we miss in its accomplishment we shall feel we have lost much. We would add to our growing numbers a deeper spirit for the Eternal things. We would impress those who commune with us their need of Christ as Savior, Guide and Friend.

Be assured that you will always be welcome at our services. If you have not attended before, start now and grow with us.

### SCHOOL SURVEY NEARLY FINISHED

The first of next week will see the health survey of school children in Iosco county completed. All schools along the Hemlock road were finished Wednesday. The students average well physically.

Several schools on or near the Hemlock have cases of impetigo, which is contagious. The state law says that all children who have this rash should remain at home till the skin is healed and smooth, and that responsible persons who know of the condition should report it to the Michigan Department of Health at Lansing, like any of the more serious contagions. This includes parents, health officers, doctors and school teachers. The trouble spreads rapidly, but is not difficult to cure.

If you have any complaint or criticism of the way the survey is run, or if you think any mistake has been made in regard to your children, the survey party will be glad to know it. We can do better work if we can learn where the weak spots are. Write frankly and soon to the School Commissioner, court house, Tawas City.

An increase in weight of from 5 to 25 pounds is needed by many of the students examined. If you are in this class, or your child, the story on underweight children and how to make them heavier will interest you. Copies may be obtained without charge by writing the Commissioner, as above. They are being sent out to all parents whose children we examine.

It is not possible to examine for tuberculosis in the short time given to each child, but we know surely that not a few of those now in school will die of this pest between the ages of 18 and 30. It is so certain, and so needless, that a special story on how to prevent your children from breaking down with "T. B." should be written. Watch for it in an early issue of this paper.

It's getting to be the style to have repairs made to folks as well as to machines. Reports come constantly of teeth fixed up, adenoids and tonsils out, and glasses fitted. Are your folks old-fashioned and crippled or up-to-date and sound?

### REAL NORTHEASTERN MICHIGAN DINNER AT BUREAU MEETING

Plans for the annual meeting and dinner of the Northeastern Michigan Development bureau are nearly completed. The dinner is to be a real "Northeastern Michigan" affair, from soup to dessert.

For instance, the material for the soup will be furnished by the Pyle Co., of Harrisville, dealers in seed peas, and a specially prepared brand of split peas; the celery will be Bay county grown, and the pickles from the Beet plant at Bay City.

Northeastern Michigan is famous for its fishing, both hook and line and commercial, and the fish will be planked pike from Houghton lake; the roast beef will be from one of the finest steers that Hammond Standish & Co. can find in Northeastern Michigan. From Gaylord, the center of the potato growing industry in the middle west, will come the potatoes, furnished by the Gaylord Board of Commerce, and the cranberries will come from Reynold's big cranberry marsh near Alpena. Every guest will be supplied with a loaf of bread from the Berdan bakery at Bay City, the butter will come from Seidel Bros.' creamery and "peanuts will be St. Laurent Bros.' special brand. Northeastern Michigan doesn't produce coffee, but the greatest coffee substitute in the world—chicory—is produced in Northeastern Michigan in quantities to supply the entire demand in the United States, and the cream, of course, will be supplied from some of the splendid dairy herds which abound throughout the district.

The die of this pest between the ages of 18 and 30. It is so certain, and so needless, that a special story on how to prevent your children from breaking down with "T. B." should be written. Watch for it in an early issue of this paper.

It's getting to be the style to have repairs made to folks as well as to machines. Reports come constantly of teeth fixed up, adenoids and tonsils out, and glasses fitted. Are your folks old-fashioned and crippled or up-to-date and sound?

### FALLING PRICES

The actual significance of the great decline in prices of commodities has brought about a retrenchment all along the line, and many industrial interests have been badly hit. The best available official and unofficial information indicates a decline in wholesale prices of at least 25 per cent from the high point of last year; and Bradstreet's says that the decline between the average of February and that of November, 1920, was the greatest of which it has any previous record for so brief a period.

### STATE FARM CONGRESS SET FOR MID-WINTER

Farmers' week at the Michigan Agricultural college, an annual event which has grown to be the greatest congress of agricultural people held in the state, will be held this year from January 31 to February 4, according to definite announcement made recently from the college.

More than a dozen of the largest agricultural associations in the state will hold their annual meetings at East Lansing during the week. The State Farm Bureau, the Michigan crop improvement association, the Potato Growers association and the State Horticultural society are among the long list of organizations convening at the college during farmers' week.

Speakers of international reputation are included in the list of headlineers lined up for the general meetings. S. S. McClure, famous journalist and publisher; A. F. Lever, member of the Farm Loan Board and father of the country's most notable agricultural legislation; Gov. W. L. Harding, of Iowa; and President Burton of the U. of M. are a few of the better known men who are signed up already.

The Michigan State Crops exhibit which proved such a sensation at the recent International Hay and Grain show will feature the exhibits, which are planned to cover every phase of agriculture. Detailed information regarding Farmers' week may be had by writing to A. M. Berridge, chairman Farmers' Week Committee, M. A. C., East Lansing.

#### Royal Souvenirs

A custom in the Eastern countries is still kept up. On the departure of the royal or other distinguished guests souvenir gifts are left for the hosts and hostesses as a mark of royal favor. More frequently to ladies the gifts take the form of rings studded with precious stones. Some of the most valuable rings that circle the fingers of the great in every country may be traced back to royal favors. A story is told of the visit of a potentate who on his departure left a promise that a gift should be sent to a very beautiful young lady, a daughter of the host and hostess. After some length of time a royal messenger arrived with a wood box of rough exterior. On being taken to the lady she looked it over and dashed it to the floor, saying "Is this the gift of a king?" On the box being examined, it was found to contain smaller boxes, each box more precious than the outer one, until in a miniature box was found a valuable ring studded with the most precious gems. When the lady put on the ring it was a perfect fit and of dazzling beauty.

The royal ring of betrothal into the family of God transcends all the rings of gold or pearl, cornelian or diamond. It is fixed with 10,000 gems of precious promises. It carries with it a royal name, a noble heritage and glorious privilege of service. This ring of adoption is round without end. It is a sacred seal of an eternal covenant and Heavenly rest.

Hosea 2:19-20. "And I will betroth thee unto me forever; yea I will betroth thee unto me in righteousness and in judgment and in lovingkindness, and in mercies I will even betroth thee unto me in faithfulness; and thou shalt know the Lord."

On Wednesday evening a meeting of the official board and members of the church extended a unanimous invitation to the Lomas family to conduct revival services of music, song and preaching. "There shall be showers of blessing." Come with us and share with the best things of God.

"When silvery bells at evening ring, and cheer us on the way; So may these words from Christ, our King: 'Love, bless, do good and pray.'" Look for dates.

Preaching at 10 a. m. and 7 p. m. Sunday school at 11:15 a. m. Morning subject, "Joys." Evening, "Where are the nine?"

Prayer meeting Thursday 7:30. On Wednesday, Jan. 19, at 7:30 p. m. the first quarterly meeting will be held in the church. Rev. John Dystant, district superintendent, will preside.

John Bayner Lomas, Pastor.

### DOLLARS AND CENTS IN SKUNKS

Skunks yielded \$1,000,000 worth of hides to New York state farmers and trappers in one year. The United States department of agriculture, in a new circular on the fur industry, gives suggestions for making the supposed pest into a profitable friend of the farmer.

### WHAT DID YOU MAKE IN 1920

Work has begun on the collection of the income tax for the year 1920. Uncle Sam, through the bureau of internal revenue, is addressing to every person in the United States the question, "What was your net income for 1920?" The answer permits of no guesswork. Every single person whose net income was \$2,000 or more and every married person whose net income was \$2,000 or more is required to file a return under oath with the collector of internal revenue for the district in which he lives, on or before March 15, 1921.

The penalty for failure is a fine of not more than \$1,000 and an additional assessment of 25 per cent of the amount of tax due. For wilful refusal to make a return the penalty is a fine of not more than \$10,000 or not exceeding one year's imprisonment, or both together with the costs of prosecution. A similar penalty is provided for making a false or fraudulent return, together with an additional assessment of 50 per cent of the amount of tax evaded.

The income tax applies to women as well as men. Husband and wife must consider the income of both plus that of minor dependent children, and if the total equals or exceeds \$2,000 a return must be filed. A minor who has a net income in his own right of \$1,000 or more must file a separate return. To be allowed the \$2,000 exemption a married person must be living with husband or wife on the last day of the taxable year, Dec. 31, 1920. Divorcees, persons separated by mutual agreement, widows and widowers, unless they are the sole support of others living in the same household, in which case they are allowed the \$2,000 exemption granted the head of a family, are entitled only to \$1,000 exemption.

The normal tax rate for 1920 is the same as for 1919—4 per cent on the first \$4,000 of net income above the exemption and 8 per cent on the remaining net income. This applies to every citizen and resident of the United States. In addition to the normal tax a surtax is imposed upon net incomes in excess of \$5,000.

Full instructions for making out returns are contained on the forms, copies of which may be obtained from collectors of internal revenue. Revenue officers will visit every county in the United States to assist taxpayers in making out their returns. The date of their arrival and the location of their offices will be announced by the press or may be ascertained upon inquiry at the offices of collectors. This advisory service is without cost to taxpayers.

### TELEPHONE GROWTH AMAZING

The growth of the telephone since its invention only 40 years ago, has been amazing. Today there are approximately 12,500,000 telephones in use in the United States and the messages carried total over twenty-two billion per year, or approximately 211 for each man, woman and child in the nation.

There are nearly 30,000,000 miles of wire and this equipment cost the staggering total of two billions of dollars, about 700,000 individuals being owners of the securities.

A reward of Twenty-Five Dollars will be paid to any one who will furnish information which will lead to the conviction of the person or persons who broke into the cottage of Miles Main at Island Lake and stole the bedding, mattresses, cooking utensils, dishes and other articles. Any information given to me will be treated as confidential. Dated Dec. 30, 1920. John A. Stewart, Prosecuting Attorney of Iosco County.

### NEW FARM ACCOUNTING BOOK READY AT M. A. C.

A revised and enlarged farm account book, which offers increased facilities for keeping a business record of all operations on the farm, is ready for distribution at the Michigan Agricultural college. The book, which is a revision of what is known as Farmers' Account Book No. 1, has been edited by H. M. Eliot, farm management demonstrator at M. A. C.

Earlier announcements were made to the effect that the account books would not be ready for distribution until late in January, but delivery from the printer began last week—nearly a month ahead of schedule.

Farmers can get the books at cost, forty-five cents each, by writing to H. M. Eliot, M. A. C., East Lansing, and requesting revised account book No. 1. A request that payment for the books be made by money order or check, rather than by stamps, has been made by the college authorities, who have found themselves buried under an avalanche of surplus postage on similar occasions in the past.

### STRANDED IN EUROPE

The state department has been notified regarding many cases of travelers being stranded in Europe, and a warning has been issued telling the globe trotters to be sure and provide their own methods of financing themselves abroad. ## LAW-MAKERS TO DISCUSS STATE CONSTABULARY

MICHIGAN, ILLINOIS AND OHIO  
WILL CONSIDER ENTIRE  
QUESTION.

Other States Likely To Increase Pay  
of Their State Police Forces.

The State Police system will be a live legislative topic in at least three states at the present legislative session. These are Michigan, Illinois and Ohio. In other states the constabulary will be considered also but in a different way.

Michigan, which has had a State Police since the need for such a force became imperative during the war, has before it the question of increasing the numbers of the troopers and giving them broader duties. There has been a strong and growing sentiment in favor of such a measure as a means towards better and more economical administration of state affairs.

This program of more centralized administration has been discussed in the State Journal, of Lansing, and in other newspapers of the state. Undoubtedly this plan will find form in a bill to be presented to the Legislature whereby duties and powers now scattered among a number of commissions and bureaus will be centered under the control of the State Police. It is argued that this plan will save the state a very large sum of money annually and also give more efficiency.

Inasmuch as this plan would abolish a large number of appointive positions in the state government, it is to be expected that there will be strenuous opposition but most of the legislators are going to Lansing with the idea of economy strongly in their minds. It has been demonstrated by the citizens who have given study to the taxation problems of the state that the abolition of the State Police and the continuance of the other organizations would cost the state more money and give less in the way of results.

Sentiment is Favorable.

During the past two months there has been a widespread expression of sentiment throughout the state with regard to the State Police. Four of the more important agricultural associations, the Michigan State Grange, Association of Farmers' Clubs, Michigan State Horticultural Society and the directors of the State Farm Bureau, have passed resolutions favoring the continuance of the State Police and the widening of their duties. In each case there was full discussion before these resolutions were passed.

In a great many cities of the state similar resolutions have been passed by chambers of commerce and other commercial and civic bodies. Such resolutions have been approved in Lansing, Grand Rapids, Jackson, Flint, Pontiac, Kalamazoo, Battle Creek, Benton Harbor, Ionia, Saginaw, Bay City, Manistee and other cities. While these resolutions have varied in character, they have been of the same nature, all recognizing the need of a State Police.

Among the state-wide organizations which have expressed themselves in a similar manner are the Anti-Saloon League, the Association of mutual automobile insurance companies and the bankers of the southwestern part of the state.

Opposition to the State Police, which seemed for a time to be very well-organized and strong, has been less apparent recently. In three counties where resolutions adverse to the State Police were adopted by the boards of supervisors, these resolutions have since been rescinded.

In Other States.

In Illinois and Ohio, where there is no State Police force at present, the Legislatures will be asked to provide for such a force. In Illinois the chambers of commerce of the state, with three exceptions, have asked for such action and the bankers also have passed resolutions asking for a State Police. In Ohio the movement for the force is state-wide and depends largely upon the agricultural interests which have found that good roads opened highways for criminals as well as for law-abiding citizens.

In Pennsylvania, where the constabulary has been a success for many years, an increase of pay is asked for the officers and men of the force. In New York it is probable that similar action will be asked. California and Massachusetts, which have adopted the State Police system in part, will consider expanding their forces.

## WYANDOTTE RAID UNCOVERS ARSENAL

A regular arsenal was discovered recently by Lieut. McGuire and a detachment of State Police when a house in Wyandotte was raided and five Italians were arrested. Four sawed-off shotguns, seven other automatic guns, a number of revolvers all loaded and ready for action were seized, as well as three hundred rounds of ammunition. A Cadillac car was found in the garage underneath the house and a shotgun was also found in it. The Italians who were arrested on suspicion ranged in age from 20 to 28 years. It was thought that they may have been implicated with the gang that robbed a bank at Monroe recently.

## "A NATION SAVED BY AMERICA," SAYS CLEVELAND H. DODGE

New York Business Man De-  
scribes Vast Armenian Work  
of Near East Relief.

Cleveland H. Dodge, New York banker and business man, director of the National City Bank, and treasurer of The Russell Sage Foundation and of the Near East Relief, declares that "a nation has been saved by American philanthropy, and the generosity of the American people through the Near East Relief, in its work for the Armenians."

"The lowest official estimate indicates that one million persons are living today who would not be alive had it not been for this relief," Mr. Dodge continued. "I have an autograph letter from Dr. H. Ohannjanian, president of the Armenian Republic, in which he writes: 'America literally saved us from starvation.'"

"Wholly aside from adults who have been saved from starvation, we today

CLEVELAND H. DODGE.

have in orphanages and elsewhere under our care 110,000 homeless, fatherless or motherless children who are absolutely dependent upon us. This is exclusive of 63 hospitals with 6,532 beds, 123 clinics, rescue homes for girls and 'unnumbered thousands of refugees who are being helped through our industrial relief and in other ways.

"The Near East Relief has during the last four or five years commissioned and sent to the Near East more than 1,000 American relief workers, of whom 500 are still in the field, all of them working at great financial sacrifice—the standard of salary being \$50 per month and maintenance—and many of them facing great personal danger and hardship in the performance of their life-saving service. A score of them have died from typhus or other diseases more or less related to their faithfulness in the performance of relief service.

"Nor is that all. We have raised and disbursed during war times and in a war-torn area, in large measure under enemy control, more than \$41,000,000 in cash, and including flour, Red Cross and other supplies administered by our agents, a total of cash and supplies in excess of \$50,000,000. The official reports show that on June 30, 1920, we had in orphanages 54,000 children, and that we are partially supporting outside of the orphanages 56,039 children, making a total of 110,000 boys and girls now under the care of the Near East Relief."

Mr. Dodge considers the work of the Near East Relief one of the most stupendous undertakings of disinterested philanthropy the world has ever seen.

"In countries whose population totals more than 30,000,000 souls, American idealism exemplified by the work of the Near East Relief constitutes today a torch of enlightenment and an influence for peace throughout the whole Near East," he maintains. "Our American ideal of liberty, industry and helpfulness has brought us as a people happiness, prosperity and fulfillment. Out of the fullness of this heritage we are furnishing a faithful and undaunted Christian people the brotherly aid which will enable them to reach the same fulfillment that God has given us."

"It is an achievement of which every American may well be proud."
