WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

tained in the New Light-Six by the ingenious arrangement of the intake manifold and Internal Hot-Spot-an exclusive Studebaker invention-conceived by Studebaker engineers.

By this new and exclusive construction all gasoline is completely vaporized and used. The mechanical results obtained are a greater volume of vaporized gasoline in each cylinder at the time of the explosion and a uniform and complete combustion-these mean economy and great power. The practical results ob-

Light-Six motor are a noticeable increase of power, added economy, absence of carbon deposits and freedom from trouble due to seepage of raw gasoline into lubricating oil in the crank case.

You can have the advantage of this motor's wonderful gasoline economy and the satisfaction of its smoothness of operation only by owning a Studebaker Light-Six.

We are ready to give you a demonstration and make delivery
