FOREST FIRE DAMAGE SETTLED

The United States Forest Service has secured a settlement of its trespass case against George Dempsey of Grant township for the fire which he carelessly allowed to spread from his land in Section 15. This fire spread north to Sand Lake, threatening the cottages there, and also threatened to burn through to the other lakes in that vicinity. The Forest Service and others incurred a heavy expense in fighting this fire. Settlement was made on the basis of costs of suppression.

Two other fire trespass cases caused by fires started by locomotives on the A. S. & N. W. Railway have also been settled on the basis of damages to timber and reproduction and costs of suppression.

The Forest Service is vigorously enforcing the laws against the careless setting of fires and asks the cooperation of all citizens in holding the damages from forest fires to the lowest possible figure.

BAPTIST CHURCH

Man is fortunate that the God who governs this universe is a God of love. If He were not, life would be miserable. Because He is a God of love He overlooks many of our imperfections and sends His Son to give us a way to eternal hope.

While God is a God of love He is not a foolish God. He knows when men need love and when divine justice demands His wrath. There are some among us foolish enough to believe that they can reject God through their life, then play on His love at death.

We know whom we can trust by the honest deeds they leave behind them. What has God done to give anyone excuse for rejecting full trust in Him? He made and keeps a great universe in more regular fashion than we care for our watches. An untrustworthy God could not do that. He speaks through the voice of all created things. He shows His power in men whose lives He has touched. These are the great facts of God. God's love turns to wrath upon those who though recognizing His supreme qualities continue to reject His trust. No one plays the fool like the one who tries to substitute trust in himself for trust in God.

The scholar who does not learn is generally the scholar who will not learn. God has endowed every living soul with powers to learn of Him. If one does not it is only because the will is steered against Him. The scholar who learns gets a better conception of life. Why not learn the lovable side of God now and not wait to be visited by His wrath. If you will admit His claim on you He will give you a better conception of life and turns its currents into channels of usefulness.

MICHIGAN WAR RECORD OF SERVICE TO BE USED IN PAYING BONUS

Simultaneously with the signing of the armistice, the Michigan War Preparedness board began gathering historical, biographical and military data concerning all men who had represented the state during the world war.

All who were in the training camps and overseas, both officers and enlisted men are included in the record and all Michigan men who served in the Canadian or other allied armies.

The intention of the state was to pay a tribute to the service of each individual soldier and sailor and to build up such a record as would prove of great benefit as a reference work in the years to come. The state library will eventually house the 400 volumes that tell the story of Michigan's sons in the war. A card index will make the record available for quick and easy reference.

The work has been done by counties and to date all but seventeen have turned in the state file. These will be ready in a few days. The card indexing is being rushed to completion in order to have the record in the hands of the adjutant general before he begins the process of verifying the bonus applications.

The various county directors have exhausted every means to obtain the records of their men. Thousands of blanks and postcards have been mailed and some have received no attention or have been returned unclaimed because of faulty addresses.

Any Iosco county veteran who has not filled out a record blank or is not sure he has done so, should immediately make application to Miss Gertrude Luce, county director of war records, East Tawas, Mich.

LAWS PASSED BY LEGISLATURE

On another page of this issue will be found a complete synopsis of laws as passed by the legislature during the session just closed. Most of the new laws carry the enrollment number and if interested in any of them the act in full may be secured from the Secretary of State at Lansing by asking for the laws by the number shown.

We feel sure our readers will appreciate the enterprise shown in furnishing them with this information so soon after the adjournment of the legislature.

ZION LUTHERAN CHURCH

Last Sunday, May 1, Rev. F. A. Sievert was installed as the new pastor of Zion Lutheran church. The installation service was conducted by Rev. F. W. Heumann of Alpena, who has had charge of the local congregation since last January when the former pastor, Rev. H. J. Reithmeier, accepted a call to Pontiac.

The new pastor, Rev. Sievert, was born and raised in Bay City and came here from Wolseley, Sask., Canada, where he has spent two years serving mission posts.

Sunday evening the ladies of the congregation served supper in the school hall and a sociable time was enjoyed by all, giving the pastor and congregation a good opportunity to get acquainted with each other. Rev. Heumann spoke a few words of welcome to Rev. Sievert in behalf of the congregation, to which the new pastor responded by saying that he was very much pleased with his new surroundings and with the cordial spirit of the members of the congregation, and that he hoped to stay a long time in their midst.

MRS. FRANK F. TAYLOR CALLED BY DEATH

Mrs. Frank F. Taylor passed away at her home in this city on Thursday evening, April 28, 1921, after an illness of over a year. Her death came as a shock to the community in which she had spent her whole life and where she numbered as her friends all those who knew her.

Lulu Murphy was born in Tawas City February 28, 1888. She graduated from the Tawas City high school with the class of 1905 and was one of the first graduates of the Iosco County Normal school. She was a teacher in the schools of the county for twelve years, the last seven of which she taught in the ward school in Tawas City.

On July 1, 1918, she was united in marriage to Frank F. Taylor of this city, who with her aged mother, four sisters and one brother, remain to mourn her loss.

Fifteen months ago Mrs. Taylor suffered an attack of influenza from which she never entirely recovered and has been in poor health since that time. She was a patient sufferer and retained her cheerful disposition to the last.

Mrs. Taylor was one who made friends of everyone whom she met and during her girlhood and young womanhood was one of the most popular young ladies in the city. She was a member and active worker in the Methodist Episcopal church and Sunday school, and for years was the leader in the musical programs of the church. She will be sadly missed in this work as well as among her numerous acquaintances outside the church.

The funeral services were held at the home on Monday afternoon, Rev. Ben Slaters officiating, assisted by Rev. Mitchell of East Tawas. The masses of flowers which covered and surrounded the casket were silent tokens of the high esteem in which deceased was held. The remains were interred beside those of her father and brother in the Tawas City cemetery.

Relatives from out of town who attended the funeral were: Mr. and Mrs. E. D. Schermhorn of Pontiac; Mr. and Mrs. Ira Horton of Detroit; Mr. and Mrs. Will Pratt and son, of Ypsilanti; Mr. and Mrs. Fred Harding and daughter, of Detroit; Fred Murphy of Flint; Mrs. A. Rogers of Detroit; Mrs. Jas. Robinson of Elkhart, Ind.; Carl H. Taylor of Detroit. One sister, Mrs. James S. Smith of Whitehall, N. Y. was unable to attend on account of illness.

The bereaved family have the sincere sympathy of numberless friends in their sad affliction.

Mothers' Day

It is of interest to note that throughout the Bible the father and the mother are honored together. "Honor thy father and thy mother." "Hear the instruction of thy father and forsake not the law of thy mother." "My son, keep thy father's commandments and forsake not the law of thy mother. Bind them continually upon thy heart; tie them about thy neck; where thou goest it shall lead thee; when thou sleepest it shall keep thee; and when thou wakest it shall talk with thee. For the commandment is a lamp and the law is light and the fruits of instruction are the ways of light." (Proverbs 6:20-23). "A foolish man despiseth his mother. Folly is joy to him that is destitute of wisdom; but a man of understanding walketh uprightly."

Many such passages can be found, but one of the most beautiful is in the last of Isaiah, "As one whom his mother comforteth, so will I comfort you and ye shall be comforted in Jerusalem."

SAD DEATH SHOCKS EAST TAWAS

The people of East Tawas were terribly shocked last Sunday morning to hear of the death of Mrs. F. G. Nale, formerly Miss Myrtle McAuliffe of this city, youngest daughter of Mr. Lyman McAuliffe. About two weeks ago Mrs. Nale was taken ill with an attack of appendicitis. She had been troubled with chronic appendicitis and had some previous light attacks. Last week Wednesday evening she was taken to the Samaritan hospital in Bay City and it was thought the operation she would undergo would not be dangerous.

Mrs. Nale was operated upon on Thursday morning and it was found that gangrene had set in and her condition was so serious that no hope could be given. Relatives were sent for and were with her until Saturday evening, when she passed away at eight o'clock.

The remains were brought to this city Sunday morning, relatives arriving at the same time.

Myrtle Ivy McAuliffe was born in East Tawas August 30, 1889, and was 31 years of age. She was educated in our city schools and graduated with the class of 1906 when only sixteen years of age. She was one of the brightest students in her class and very popular among all the young people. After graduation Myrtle attended the Bay City Business College and later was employed as stenographer in the main office of the Ford establishment in Detroit.

While in Detroit she met Mr. G. Franklin Nale of Chrono, New Jersey, and was united in marriage to him in New York city on June 20, 1914.

Mr. and Mrs. Nale made their home in Chrono, New Jersey, for the space of four years, later moving to Michigan. A short time ago they resided in the F. F. French

INFLUENCE OF MATERIALISM.

The introduction of so much ma-
terialism in our public education will
make the future unrest and strife
worse than it is now. The trouble
with the situation is that profession-
alism and big salaries are content with
it as it is. They love materialism.
With many it is the larger life. They
regard spirituality as a rosy senti-
ment, too vague for practical life.
They don't understand it and look
upon it as a mere limit to the domina-
tion of pleasure. And there is the
rub, says Ohio State Journal. They
don't know what pleasure is, never
think it is mostly sensual, never
make any difference between that and
happiness, which is the most fatal
ignorance in the whole educational
outfit. But the one fact which pro-
trudes through human experience ev-
erywhere is that the rejection of the
spiritual life makes all prospect dark.
That is the trouble with us now—the
trouble with religion, education, trade
and politics. The world will grow
better with spirituality, but worse
with materialism. But how much ma-
terialism embraces, the popular idea
does not understand.

As they established our nation our
forefathers practiced thrift, both in
the conduct of their personal and gov-
ernmental affairs. Prosperity has
lessened the need for frugality as
practiced by them, and the develop-
ment of a larger and fuller life, with
all its refining influences warrants a
larger expenditure for the happiness
and development of the home life.
Yet we have passed from liberality to
extravagance and even to wanton
wastefulness in the conduct of private
and public affairs. With what effect
upon our youth? Many of them look
upon thrift and frugality as stinginess
and are not being prepared for the
effort that will be required to estab-
lish themselves in the future. It is
a mistake parents, teachers and lead-
ers are making, that is all but a crime
to encourage present habits of many,
says Thrift Magazine. Let's get back
to our forefathers' ideas.

The last five or six years have
wrought a noteworthy change in the
types of immigrants coming to Amer-
ica. One of the most significant things
about the present inflow is the virtu-
al absence of those large groups of big
blond men and women from Sweden
who for generations before the war
were much in evidence at the landing
places. Norway and Denmark, likewise,
are sending comparatively few immi-
grants. Denmark, Norway and Sweden,
says the Interracial council, are bet-
ter able to provide for their own needs
than a decade or so before the war.
Through the cultivation of farms and
new industrial enterprises, they are
rapidly providing all hands in their
respective countries with full-time em-
ployment.

Records of weight of school children
in relation to age and height have been
made in six high schools and eighteen
elementary schools of Baltimore coun-
ty, Maryland. Of 851 girls in the
high schools 171, or about 20 per cent,
were underweight, and of 1,161 high
school boys 197, or about 16 per cent,
were underweight. Almost the same
condition was found in the elementary
schools. Of 1,086 girls 218, or about
20 per cent, were underweight, and of
1,274 boys 182, or about 14 per cent,
were underweight. In all 1,937 girls
and 2,485 boys were examined.

Japan has a new form of exercise
called "Judo," that is reported to be
an improvement on Jiu-jitsu because
it provides mental as well as physical
development. Japan will have the
baldheads of this country doing rows
of somersaults yet for a hair restorer.

Spanish women are starting a cru-
sade to abolish laws which they de-
clare are entirely unjust to women.
The only question, "Are women peo-
ple?" is going to be decided with em-
phasis.

Melting the guns back into plow-
shares cannot be classed as one of the
rapid and enthusiastic processes, and
will never be, long as there are so
many men who would rather fight
than work.

The Alabaster boys' baseball team
met defeat when they played with the
East Tawas high school team Friday
afternoon, the East Tawas boys win-
ning by a score of 18 to 4. The East
Tawas boys had the advantage of our
boys in size and age, but for all that
the game was pretty good. The Ala-
baster boys will play the Oscoda boys
at Oscoda Friday.

The Alabaster girls' baseball team
played their first game with the East
Tawas girls, winning by a score of 18
to 1 at the end of the first half of
the ninth inning. Both teams played
very well, the score being kept quite
equal during the greater part of the
game. On the Alabaster team Doris
Musolf was exceptionally good as a
pitcher, while Violet Bean, catcher,
and Dorothy Anderson, shortstop,
both deserve a lot of credit for quick
plays. The East Tawas pitcher was on
the job every minute and did fine
work. There was a crowd of specta-
tors and all considered the game well
worth watching. The teams will play
again Friday afternoon at East Tawas.

Salvation Army Appeals for Funds

The Salvation Army will conduct a campaign during the week of May 9 to 17 for funds with which to carry on their work in Michigan. The sum asked from the entire state is \$255,000, which makes the quota from each county small as compared with last year. Iosco county's quota is \$1,000 and we should raise this amount without any trouble. The quotas are as follows:

East Tawas . . .	\$250	Plainfield township	\$50
Tawas City . . .	250	Reno township . . .	50
Whittemore . . .	60	Sherman township	30
Oscoda-AuSable	100	Tawas township . .	50
Alabaster township	75	Wilber township . .	25
Burleigh township	50	Baldwin township . . .	25
Grant township	50		

The work of the Salvation Army is too well known to need any special emphasis and we are satisfied that the people of this county will respond liberally to their appeal and help the county "go over the top" in its quota.

We Are Now Ready to Give You a Demonstration in This New Light-Six

Perfect and efficient combustion is attained in the New Light-Six by the ingenious arrangement of the intake manifold and Internal Hot-Spot—an exclusive Studebaker invention—conceived by Studebaker engineers.

By this new and exclusive construction all gasoline is completely vaporized and used. The mechanical results obtained are a greater volume of vaporized gasoline in each cylinder at the time of the explosion and a uniform and complete combustion—these mean economy and great power. The practical results obtained from the New Light-Six motor are a noticeable increase of power, added economy, absence of carbon deposits and freedom from trouble due to seepage of raw gasoline into lubricating oil in the crank case.

The First Sauce

Who made the first sauce? Were the Chinese the pioneers in this as in so many other things? At one of the many Celestial restaurants now springing up in London I was given a card with my dinner in which the brown and mysterious but not unpalatable condiment—served in such profusion—was described as "the first sauce in the world." Is it in truth the ancestor of Worcester, York-shire and all those other liquid inseparables of the beef-steaks and chops of old England?—Correspondence of a London Chronicle.

Excusable.
