**TO VOTE ON PROPOSITION FOR NEW CITY HALL**  
At the meeting of the city council held last Friday evening a petition was presented signed by a goodly percentage of the tax-payers of the city, asking that the council submit a proposition to bond the city for a sum not to exceed \$7,000 for the purpose of erecting a new city hall and fire engine house in connection with the Community Memorial building.  
Acting favorably upon the petition the council has fixed May 28th as the date for holding a special election for the purpose of voting upon the proposition.  
The fact that a new city hall and place to house the fire apparatus is badly needed goes without question. The ancient barracks that has served as a city hall for so many years is an unsightly building and badly situated for the purpose for which it is used. By combining the new city hall with the Memorial Community building the city will have a handsome building and the cost will be less than it would if the city hall and fire house were to be built separately.  
The proposition has been favorably commented upon by many of our citizens and if there is any opposition to the project it has failed to make itself heard. It is anticipated that the proposition will carry by a good majority.

**AS OTHERS SEE US**  
Editor Herald:—  
A short time ago I sent for a copy of your paper, hoping to learn something of your county; but I learned very little from it. What's the matter? Got any merchants in the place? What do they sell, and at what price. Why, there was not even a market report in the paper. Have you got a doctor, or a minister, or a church in the place?  
And those little villages around you. Do they have merchants and sell anything? Any land for sale there. Why, here in Lansing merchants tell us what they have to sell and at what price, dry goods, groceries, meat markets, the man who has a farm to sell, a horse or cow, or pig, yes even a rabbit, they all advertise. We get market reports from most of the surrounding villages.  
I commonly judge a place by its paper. Let people advertise. Editors must live as well as others. If you want a paper, support it. And what builds up a paper is advertising, not subscriptions, though of course they are needed too.  
If any one came there to look for land is there any for sale? Could a fellow get his dinner there, or a bed for the night? Can you buy a house there. Or a cow, or hog, or hen? Have you any factories, or any market for milk, cream, butter, eggs, sugar beets, pickles, or in fact anything else?  
What does a man do for a living there anyway?  
Very truly yours,  
T. C. Hendrick,  
516 W. Saginaw St., Lansing, Mich.

**TO VOTE ON PROPOSITION FOR NEW CITY HALL**  
The boys' and girls' baseball teams will play in Alabaster Friday afternoon.  
Be sure and patronize the baked goods sale at Ferguson's store given by the high school for the benefit of the athletic association.  
The English 10 class have finished the study of Hamlet and will study poetry for two weeks.

We are especially interested in our pupils attending school every day and ask the cooperation of every parent.  
Tawas City made its entry into the debating field Friday evening at Alpena. The debate was a very interesting one and hinged upon the question whether compulsory arbitration of labor disputes should be made a part of the administration of justice. Our team took the negative side and though defeated, felt that the benefits gained from the trip well paid them for the expense incurred. This is our beginning and next year we expect to train a team to contest for place.

**WHAT THE SCHOOL SURVEY HAS ACCOMPLISHED**  
During the recent school survey of Iosco county, out of 1114 pupils which we have heard from 69 are brushing their teeth daily, 63 have increased in weight, 127 have had dental work done, 45 have had their eyes taken care of, 15 have had tonsils removed, and three have had adenoids out. 12 pupils have stopped biting their nails. Several are sleeping with fresh air in the sleeping rooms.  
We have already had two tonsil parties and another one is scheduled for June. There is promise of 8 who will have teeth taken care of as soon as school closes. 6 who expect to have tonsils and adenoids taken care of during vacation, and one to have eyes examined. So we feel that the survey has not been in vain. We regret to say that 8 schools have had none of the recommendations carried out at all, showing the necessity of follow up work to find out the why and wherefore.

The following figures show Michigan's rating in communicable diseases in comparison with twenty-nine other states:  
30th in diphtheria.  
26th in scarlet fever.  
19th in smallpox.  
17th in typhoid fever.  
16th in whooping cough.  
14th in measles.  
21st in all above diseases.  
9th in tuberculosis.  
11th in all, including tuberculosis.  
When it is remembered that many of these diseases may be avoided by ordinary care and attention, this record does not speak well for the state. Let's get busy and make Iosco head the list of counties in the state in freedom from these dangerous diseases.

## More Power, Less Weight—Economy!

HERE is the most economical tractor—the one that furnishes the greatest traction power with the lightest tractor weight and smallest fuel consumption. It pulls three 14" plows, turns an acre an hour, and is light enough to work on plowed ground without packing it down.

It uses little more fuel than many two plow tractors—does half more work in the same time and saves labor cost; does half more work every mile it travels and saves maintenance, repairs and depreciation.

Just as the three-horse team is the right animal unit for heavy work on farms of all sizes, the Huber Light Four is the right power unit.

It plows, harrows, pulls the binder, hay loader and manure spreader economically and will run the small thresher, silo filler, hay baler, etc. So simple that a woman or boy can operate.

Makes better crops possible by getting work done at the right time. Often pays for itself in a single season.

Let us show you the Huber and tell you what it will do for you.

**Church Bells.**

The Angelus bell, always rung thrice a day, takes its name from the first words of the prayer. In Tuscany a bell is rung an hour before the evening Angelus, or Ave bell, and is intended to remind its hearers to say the creed. The De Profundi bell sounds one hour after the Ave. In Italy on Friday afternoon at 3 o'clock thirty-three strokes are sounded in many churches and convents in memory of Christ's death at the age of 33. The custom probably is followed elsewhere.

**Remarkable Diary.**

Pepys's diary is a unique work by Samuel Pepys (1632-1703), giving a curious and faithful account of the times in England from 1660 to 1689. It includes almost every phase of public and social life, from the gayeties of the court to the pestilential detail of week-day existence. The book is written in shorthand, and was not discovered until a century after the author's death. It was deciphered and published (although in a mutilated form) by Lord Braybrooke in 1825.

Perfect and efficient combustion is attained in the New Light-Six by the ingenious arrangement of the intake manifold and Internal Hot-Spot—an exclusive Studebaker invention—conceived by Studebaker engineers.

By this new and exclusive construction all gasoline is completely vaporized and used. The mechanical results obtained are a greater volume of vaporized gasoline in each cylinder at the time of the explosion and a uniform and complete combustion—these mean economy and great power. The practical results obtained from the New Light-Six motor are a noticeable increase of power, added economy, absence of carbon deposits and freedom from trouble due to seepage of raw gasoline into lubricating oil in the crank case.

You can have the advantage of this motor's wonderful gasoline economy and the satisfaction of its smoothness of operation only by owning a Studebaker Light-Six.
