ANNUAL SCHOOL MEETING

The annual school meeting of District No. 7, Tawas City and Tawas township, was held at the high school building Monday evening. Little interest was shown by the people at large, only thirteen people being present.

John A. Mark, whose term as member of the board of education ran out this year, was unanimously re-elected to succeed himself.

It was voted to raise the sum of \$8,500, same to be spread upon the tax rolls for the ensuing year. This is about \$900 more than was raised last year, the increase being made necessary by increased salaries of teachers and increased prices of supplies used by the school.

The proposition of building a house for the use of the superintendent was informally discussed, but as no legal action could be taken until after the law passed by the last legislature takes effect on August 19, the meeting was adjourned to August 22, when the matter will be taken up and definite action taken.

There is no question as to the necessity of building such a house, as at the present time there is not a house to be rented in Tawas City and very few that could be purchased, and in order to keep a superintendent for our schools it will be necessary to furnish a house for him to live in.

The house where Mr. Ousterhout lived last year was sold this spring and he was forced to vacate. Not being able to secure another house, he and his family are now occupying a portion of the school house, which is an unsatisfactory arrangement at best, and would of course be impossible when school opens again in September.

The board has used its utmost efforts to cope with the situation, but there appears to be no other course but to construct a house to be owned by the district. Rent will be charged for the house and the income will no doubt take care of the interest on the investment, and the fact of having such a house owned by the district will make it easier to secure a superintendent.

The people of the district should give this matter careful consideration and be prepared to take intelligent action on August 22.

TEACHERS' EXAMINATION

Teachers' examination will be held August 11, 12 and 13 at Tawas City. Some questions will be based on Reading Circle books, also Bulletins No. 4, No. 10 and No. 30.

PLANS UNDER WAY FOR CHAUTAUQUA WEEK

Local plans for our coming Community Chautauqua are nearing completion and the ticket and advertising committees are getting into action.

The Chautauqua opens August 8, and closes five days later. All indications point to a successful week, as "variety" is a dominating note in the 1921 program and every holder of a season ticket will get his money's worth and more too.

On the season ticket plan each day's program may be heard for a few cents and the price is so low that no one need feel excluded. Season tickets admit to all regular entertainments during the week.

The fine production "Polly of the Circus" will be the big feature of the program this year. Other new and decidedly interesting features are the Knox Concert party; C. W. Wassam, noted educator; Omar Wilson Singers; Louis Williams, electrical entertainer; Denton C. Crowl, the "Sam Jones Man"; Cammarata's Mediterranean Musicians; Louise L. McIntyre, health expert; "Bob" Seeds, farmer-lecturer, and the Philippine Quartet.

The Junior Chautauqua will furnish barrels of fun for the kiddies. "The Cruise of the Jollity" and the adventures of the Jolly Juniors will make every boy and girl glad there is a Chautauqua time in our town. All play and instruction of the children will be under the careful supervision of a play-expert sent here from the Community Chautauqua offices.

Make the Chautauqua a part of your summer vacation. Hear the best entertainment and still be near your home with all its comforts. A season ticket for you and other members of your family will mean a saving and sensible economy and you'll be repaid many times over for the few hours you spend at our community's tented college.

We Win a Slugfest
After losing two games to Alabaster due primarily to the fact that M. Benson was a great deal too much for them, our boys dug in last Sunday and won a hard hitting game from the White City boys. Also they had the supreme satisfaction of driving Moxie off the mound.

Don't for a minute think that Alabaster didn't hit the ball, because they did, but the fourth inning was the only time they connected their hard hits enough to put across the runs. They earned their three that inning on a single, a walk and two clean triples. Their other three were scored by help of errors.

It looked good to see our hitters come across when hits meant runs. Mart Musolf was the big boy Sunday, getting two doubles out of five times up and in so doing he drove five of the runs across the plate. Main Mark brought Bolo Moeller across the fourth station three times and Walt bingled brother Charlie over for the other.

Merle Nelem was behind the plate and Art Zink on third and they both played in first class shape. Babe Zink's arm looks good whipping the ball across the diamond.

Jack Johnson pulled off probably the best catch of the game when he ran in to short and caught the last man out in the game. There were a number of good catches made during the game. That boy, Curtis, looked good Sunday with his eleven accepted chances without a slip.

Our boys seemed to have the pep last Sunday. They kept working hard every minute and deserved to win. Walt Moeller was practically all in in the eighth but he mustered up enough strength to hold Alabaster scoreless in the ninth.

Hemlock comes in Sunday and for a wonder they can't even tie us in the standing. Now we will have to pull out of the rut and get up nearer the top of the heap. Come out and see the boys win a game. 2:30 o'clock.

FRIESE-GROFF

A very pretty wedding ceremony was solemnized by Rev. Edward Cantwell, C. W. R., at Holy Redeemer church, Detroit, on Monday, June 11, at 9:00 o'clock a. m., when Miss Florence Friese, daughter of Mr. and Mrs. Chas. Friese of Detroit, was united in the bonds of matrimony to Mr. Paul P. Groff, son of Mr. and Mrs. August Groff of Tawas City.

The bride was charming in a gown of shell pink chiffon and cream silk shadow lace and a large picture hat of soft pink chiffon. She carried a shower bouquet of pink tea roses.

The matron of honor, Mrs. E. J. Duggan, cousin of the bride, was attired in a gown of light tan canton crepe trimmed with blue iridescent beads and a picture hat of the same material and carried a bouquet of pink roses.

Miss Rena Young of Newberry, Mich., was bridesmaid and was charmingly attired in a gown of Nile green French organdy and a beautiful hat of the same material and carried a bouquet of Aaron Rhodes roses.

Hugo Groff of Tawas City, brother of the groom, acted as best man.

The flower girl, little Margaret Stepanski of Tawas City, niece of the groom, was dainty in a dress of white organdy, with a wreath of orange blossoms around her head, and carried a basket of pink and white roses.

The Mendelssohn wedding march was played as the bridal party advanced along the aisles of the church, and at the altar the impressive ring service and nuptial mass was performed and was witnessed by a number of relatives and friends.

The wedding breakfast was served at the home of the bride's parents at 3721 Seyburn avenue, at which about fifty guests were present. The dining room and tables were tastefully decorated with pink and white crepe and cut flowers. In the party were a number of relatives and friends from out of town. They were: Mr. and Mrs. Jos. Stepanski and daughter, Margaret, Mrs. Collie Johnson, Mrs. Henry Kane, Mrs. John Kelly and daughter, Muriel, of Tawas City, Mr. and Mrs. C. S. Hupert, of Howell and Mrs. Henry Detgen of Port Hope.

The bridal couple left at 5:30 on a ten day boat trip and will be at home to their friends about August 1st at 660 Meadowbrook Ave., Detroit.

The young couple have many friends in Tawas City who extend congratulations and best wishes.

The experiment stations are the
sources of accurate, reliable agricul-
tural information. The progress being
made in agriculture in each state cen-
ters around the experiment station of
the state. The growth of agricultural
colleges and the work of the extension
departments means that the experi-
ment station must, with redoubled en-
ergy, continue investigational work.
This of course means that ample
funds must be provided by the state
for the support of the experiment sta-
tions.

It is said that American manufac-
turers are now in the position of be-
ing able to supply the toy demand of
the country. This is a large and im-
portant industry; in fact, there are
millions in it, and these millions
formerly went to Germany which had
the practical control of the toy mar-
ket. That the business of supplying
the children of the nation with neces-
sary amusement is now in the na-
tion's own hands is a fact gratifying
at once to national feelings and na-
tional pockets.

It is said persistent efforts are be-
ing made to smuggle Bolshevist
propaganda into the United States,
and that they are at work in other
countries. How their missionary work
can accomplish anything in the face of
the miserable failure of their doc-
trines in Russia itself, it is hard to
see. Common sense would suggest
that Bolshevism is its own worst
demonstrator.

Apropos of hazing, it is an odd fea-
ture of human nature that the aver-
age student would rather be a bully
than a gentleman, arguing the old def-
inition of a gentleman as a man of
kind heart, considerate ways and a
just mind.

Rather than further reduce prices,
speculative holders of hides are said
to be selling them to be made into
glue. The public has suspected that
most of them were being transformed
into paper for use as soles.

If the report that three Americans
have been brutally killed by Bolshe-
vists is true, Americans thrown into
contact with Bolshevists hereafter
will probably take pains to conceal
their nationality.

Home bread-making is urged to
drive the price of the loaf down. A
good many husbands, however, rather
than face that extremity, would pre-
fer prices to remain as they are.

Nobody cares greatly to read the
story of the breaking off of a marriage
engagement in high society. The story
of the divorce later would be so much
more spicy.

A two-pound white perch is a big one, says the American Forestry Magazine, and as a rule, they do run more than half that weight to the catch. They are easy to capture, for they largely take the right sort of bait, and few kinds make a better breakfast for the hungry woodsman.

Everything for QUALITY —nothing for show

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.

Harmful Inquisitiveness.

In Asia and Africa the inquisitiveness of balloons enables the natives to capture them by placing some jars of sweetened water out where they can reach it. The liquid contains a certain variety of dopey herbs. At first the curious creatures advance rather cautiously toward the jars and taste the water; then finding the taste agreeable, they proceed to drink the jars empty. As a result, they soon become quite drowsy and offer no resistance when the natives approach to take them.

Don't Be Discouraged.

"No one has yet been successful in filming an actual murder," states a picture goos' journal. It certainly does seem a pity that our murderers are so terribly self-conscious in the presence of a camera man.—London Punch.
