Another Record

Jack McCardle was in form Sunday and held our gang to five hits and forced twenty determined batters to drop the stick after looking over three.

When Jack is good he is a peach. But at that Bolz Moeller didn't allow any liberties with his delivery. He also pitched shut out ball, Hemlock's four runs coming on errors. Our three runs were put across the same way. It was a tight battle all the way and the winning run was not put across until the eleventh inning with two down, and then on the scratchiest kind of a hit.

Hemlock comes here Sunday and with Moeller and McCardle opposing in the box the fans can be assured of good twirling. Sunday's game with Hemlock and the game with Hale on Sept. 11th are the last of the season on the home grounds, so you'd better come out.

EAST TAWAS LOSES TO HALE IN SUNDAY'S GAME

Before the largest crowd of the season the Hale baseball team stepped out and won from our team by a score of 5 to 4. It was the best game played on the D. & M. diamond this season.

In the second inning Arthur Dillon after getting on first stole second, third and home. It was a great exhibition of base stealing. Hale came back with a score in the third and added to their margin in the middle of the game with three runs. Two were due to Pearsall's home run to left field with McCrum on second base.

We took another run ourselves but were then held back until the ninth inning. Pearsall went all the way around again in the ninth inning on a bad throw on his hit to left field. With the score 5 to 2 in the 9th against them our team took hope when Whitman opened with a single followed by a double by Klenow. The next two batters could not advance them, but Herb Boldt sent them both across with a nice hit to left field, and on the throw home took second base. Jack Johnson then hit what looked good for a base but Morrison picked it off and the game was over.

Johnson pitched a good game and with steady support would have come through a winner. McCrum for Hale worked hard all the way. This is the first time this season that East Tawas has been below first place. Hale and Omer are tied for first. Next Sunday our team goes to Omer and the pennant will probably depend on the outcome of this game.

MISS CECIL L. BONNEY

Last week only a short item was given of the death of Miss Cecil Bonney, not being able to secure information regarding the funeral, etc. Further particulars are therefore given this week.

Miss Bonney had been ill about two weeks. She attended the M. E. Sunday school picnic and the next day was taken ill, complaining of headache and shortly after becoming delirious and suffering from paralysis of the throat, accompanied with fever conditions. The illness later developed into a form of pneumonia, and her death occurred on Wednesday, August 17.

Cecil Leota Bonney was born Nov. 16, 1890 and was nearly thirty-one years of age. She was born in Tawas City, where the family resided until she was about six years of age, her life since then having been spent in East Tawas. She graduated from the East Tawas high school, later finishing in music at Albion Conservatory. She has since been a teacher of music in this vicinity and for several years she has served as organist in the M. E. church and was prominent in Epworth League, Sunday school and church work.

Funeral services were held from the family residence last Saturday afternoon at two o'clock, Rev. A. Mitchell officiating. Appropriate vocal selections were given by Miss Thelma Stealy, accompanied by Miss Grace Richards. The O. E. S. chapter of this city, of which the deceased was a member, attended in a body. Interment was made in the Tawas City cemetery.

Relatives from out of the city who were in attendance at the funeral were Mrs. Chloe Lewis of Climax, Frank Bonney and daughter, Chloe, of Big Rapids, Mrs. Leander Gardner and son, Charles, of Hale. Friends from out of the city were Mrs. Mary Travis of Battle Creek, Mrs. John Klein and daughter, Etta, of Saginaw and Mrs. Fred Wilkins of Alpena.

Besides the bereaved parents deceased leaves one brother, C. A. Bonney of this city to mourn her loss.

Miss Mary Gardner, who has been visiting with her brother in Port Huron, returned home the forepart of the week.

The Swedish Luther League will meet for a social and business meeting at the home of Mr. and Mrs. J. W. Applin next Monday evening.

Thomas Duvall and daughter, Ada, returned Thursday to their home in Buffalo, N. Y. after a week's visit with Mr. Duvall's sister, Mrs. John Goodall.

Miss Tillie Lonsberry returned Wednesday morning to Mercy hospital, Bay City, after a two weeks vacation spent in East Tawas. Miss Lonsberry is a student nurse at Mercy hospital.

Mrs. Ira Cass left Wednesday evening for Kerwood, Canada, where she will visit with her mother, Mrs. E. Brandreth, for a season. She will also visit her brother, Dr. O. E. Brandreth, at Strathroy, Ontario, Canada.

Mr. and Mrs. Herbert Gordon and son, Caius, and Mrs. Jessie Gordon autoed from Curtisville last Monday for a visit at the home of Mrs. Janet Grant. Mrs. Jessie Gordon expects to remain in East Tawas indefinitely.

Mrs. George Brinks, who has been visiting her daughter, Mrs. Geo. Lake, for a season, returned last Saturday to her home in Bay City. Miss Lillian Lake, her granddaughter, accompanied her and will visit in Bay City for a week or more.

Mrs. Irene Pierson, who has been visiting with her daughter, Mrs. Algot Johnson, for several weeks, returned Monday to her home in Bay City. Mrs. Johnson accompanied her mother and will also visit relatives in Detroit before returning home.

Fred Applin of the Ritz orchestra, Detroit, and a friend, Florence Cameron, of the Varsity Trio, Oriental cafe orchestra, Detroit, arrived Wednesday afternoon from Cedar Point, Ohio, for a visit with Mr. Applin's parents, Mr. and Mrs. John Applin.

Quite a large sum was realized from the street carnival held in East Tawas on the pavement on Newman street on Wednesday and Thursday of last week. The proceeds were to be used for the community building. Speeches on community life and work were given by Supt. of Schools J. K. Osgerby and Judge Day of Cleveland, Ohio. Music was furnished on Thursday by the Tawas Beach orchestra and an orchestra of West Branch and East Tawas talent with A. Lorenzo as pianist. The Chevrolet car which was raffled off Thursday evening was won by Louis C. Pringle of Flint.

Members of the state commission who were here last Saturday inspecting the state park, were entertained at the Tawas beach club house at dinner by the board of commerce, after which a meeting was held and matters of interest discussed. Among those present were John Baird of Saginaw, director of the Michigan conservation board, Secretary John L. Lusk of Lansing, Commissioners Melton, of Ann Arbor, Marston of Bay City, Lawrence of Iron River and Prof. Roth of Ann Arbor. The commission was very much pleased with the condition of the state park and community building as far as the work has progressed.

Joseph Askney of this city was quite seriously injured last week Thursday morning at about nine o'clock near Au Gres while working on the Au Gres river. The ditcher somehow began to slip from the car and in trying to save himself, Askney was injured so suddenly that he did not know how the accident happened. When he was picked up it was found that he had both limbs broken and Michael Ignalls, who was working with him, jumped into the river to save himself and struck a stone and wrenched his ankle. Both were taken to the Samaritan hospital, Bay City, and on examination Ask

Excels Greece.
A young Greek, whose home is in Athens, was a visitor to the capitol, and after making the rounds of the different apartments and viewing the beauties of the nave he said he had seen all the finest buildings in his native country, but none of them could compare with Kentucky's capitol for beauty and elegance of construction.—Frankfort State Journal.

An Englishman claims to have made photographs of fairies which are not visible to the eye, but which the photographer says may be recorded on the photographic plate. There are many persons who have examined the prints and plates, but are not yet convinced.

MORTGAGE SALE
By reason of default in the payment of \$150 interest upon a mortgage made by Ainsley E. Nunn and Gertrude N., his wife, to Margaret Strong, mortgagee, dated March 22nd, 1920, and recorded March 31st, 1920, in Register's office for Iosco County in Liber 21 at page 323 of mortgages, and which has remained due and unpaid for more than ten days, the said mortgagee, under the power in said mortgage given has elected to consider the principal debt of \$1532.00 due, making the whole amount claimed due at this time Sixteen hundred eighty two dollars, principal and interest, and an attorney fee of \$25.00; and no suit or proceeding at law having been started to recover the same:

Notice is hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises to the highest bidder therefor at the front door of the Court House in Tawas City (that being the place for holding the Circuit Court for said county) on Saturday, the 19th day of November, 1921 at 10 o'clock in the forenoon of that day.
The mortgaged premises to be sold is the northwest quarter of southwest quarter of section Fifteen, Town twenty-three north, of Range Five east, Iosco County, Michigan.

DIG FOR IT.

Great material wealth has come from digging. Down through the centuries the remote parts of the earth have been searched and burrowed for gold and silver and precious stones, wealth in its most concentrated form. It is necessary, too, to dig that there may be harvests. Everywhere the fullness of the earth awaits the sons of men, but they must dig for it. And though the toll be great, the rewards are great. But man's profitable digging is not confined to the work of his hands, says Three Partners. Equally liberal rewards come from digging for ideas. This also is hard work—but it pays. The production of worth-while ideas seems to be confined to the few, while the many pass their days content with the ideas of yesterday. This is an inconsistency, when you think of it, Every head has a brain and his mind was given to man to be used, to be a means for his betterment. And even the poorest heads have some ideas worth developing, if they are dug for. The trouble is most folks won't dig, at least not as often as they might.

More than 175,000 children were brought before courts in this country during the last year, as offenders. What American youngsters need is the bringing up their fathers and mothers had—regular duties at home, steady attendance at school, Sunday school once a week, very little spending money, time and opportunity for wholesome play but none for loafing, some real work to do every day, reasonable wishes gratified if the family purse permits, knowledge of the value of money and of the not infrequent necessity of self-denial. Many homes nowadays are not rearing children to be sturdy, self-dependent men and women, but social butterflies, says Capper's Weekly. And the more they are indulged, the more they want. Few of them are taught enough about real life to stand alone when the time comes that they must.

A serious professor of Manchester, England, has been putting in a plea for the fairies, or at any rate for those of Welsh nationality, y Tylwyth Teg, as they are called. So much that is contained in Welsh fairy or folk tales is borne out by archeological or geological research that they merit serious consideration as a traditional record of history. They were, he thinks, stories told by men of the iron age about what happened to men of the bronze age in their conflict with men of the neolithic age. The little people, apparently, have only become incredibly small and acquired their other characteristics with the years.

No matter how shrewd a man may be nor how fully developed his instincts for acquiring wealth, he will never be successful unless an element of thrift is woven into all his activities. The so-called plunger—the meteoric financier—may at times seem able to defy prudent practices and the principles of thrift. However, such success is seldom permanent, says Thrift Magazine. Wealth gained by a sort of legerdemain rather than through the working out of sound business practices nearly always proves transitory.

A general spirit of confidence is manifest regarding the year 1921. America has abandoned no principles and sacrificed no ideals as a result of the years of world trial, and is ready to take up progress in her appointed lines without loss of enthusiasm.

We are not excited about the prediction of the statistician who declares the United States will have 197,000,000 population in 2100, remarks Houston Post, since probably there will be enough people to work on the farms to feed that number.

Over \$13,000,000 worth of diamonds were washed up by the sea in Southwest Africa in 1918. This field of industry outclasses the famous enterprise of extracting gold from the ocean.

One Quality-One Price

Firestone
Again Reduces Price
Extra Size 30x3 1/2 \$16.65
Now \$13.95

Firestone first made the low price of \$13.95 on the Standard Non-Skid, May 2. Unusual purchasing power through big volume of business, and the great efficiency of its \$7,000,000 Plant No. 2, manufacturing exclusively 30x3 1/2 size, made this possible. Now, the production of the Extra-Size 30x3 1/2 tire has been transferred to Plant No. 2. This permits the price reduction on this tire from \$16.65 to \$13.95. No such value has ever before been offered tire users. If your dealer hasn't the Extra-Size in stock ask for our Standard Non-Skid type at the same price. You will still be getting an unusual tire value.

Cords That Don't Blow Out
You feel secure on Firestone Cords. Because Firestone Cords don't blow out. Your repair man will tell you he hasn't seen a blowout this past year—10,000, 15,000 and 20,000 miles, and the tires still going strong. See your Firestone dealer today. Name below.

Firestone Cord Tires are being sold at lowest prices in cord tire history: 30x3 1/2—\$24.50 32x4—\$46.30 34x4 1/2—\$54.90

English Needle Industry.

English needles were first made at Long Crendon, Oxfordshire, and afterward at Redditch, while their manufacture was still in the main a home industry, different stages being completed in the cottages of the workers who were generally women. Then came machinery; fortunes were made—sometimes lost—in the needle trade as in every other industry.

The Single Track.

The profiteer was being shown over an English museum one day by one of the directors. They came to the room where the stuffed birds were exhibited. "Now, these stuffed birds," said the director, "are among the finest specimens in the country. They're worth thousands and thousands of pounds." "You don't say so!" said the profiteer, studying the cases; "what are they stuffed with, then?"

MORTGAGE SALE

Default has been made in the payment of the moneys secured by mortgage dated September 17, 1919, executed by Jesse B. Warner and Harriet Warner, his wife, of Tawas City, Michigan, to Gustave T. Wojahn and Louise Wojahn of Tawas City, Michigan; said mortgage was recorded in the office of the Register of Deeds of Iosco County in Liber 22 of mortgages on page 243, on the 17th day of September, 1919.

The amount claimed to be due on said mortgage at the date of this notice is the sum of one thousand one hundred dollars, principal, and one cent (that being the place where the Circuit Court for the County of Iosco is held) on the fifth day of October, hundred eighteen dollars and ninety-eight cents, interest, and an attorney fee of thirty-five dollars, making the whole amount claimed to be due and unpaid the sum of one thousand, two hundred fifty-three dollars and ninety-eight cents. No suit or proceedings have been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, wherefore the power of sale contained in said mortgage has become operative. Notice is hereby given that by virtue of said power of sale and in pursuance of the statute in such case made and provided, said mortgage will be foreclosed by sale of the premises therein described at public auction to the highest bidder, at the front door of the court house in the city of Tawas City, County of Iosco, State of Michigan, at 10 o'clock in the forenoon of that day.

The premises to be sold are described in said mortgage as follows, to wit: The E½ of the SE¼ of Section 18, Town 22 North, Range 7 East, all in the Township of Tawas, County of Iosco, of the State of Michigan.

Cord Tires Standard Equipment on all Models
See Us for Specifications and Delivery Dates

The new Four-Cylinder Buick, here announced, is a thoroughbred—a pedigreed car well worthy of its name.

Down to the very last detail, this new model possesses every quality of enduring serviceability, complete comfort, and distinctive appearance that have always characterized Buick automobiles.

The advent of this new Four makes the Buick 1922 line complete. It offers to purchasers of a car of this size all the quality and service that go to make up the name "Buick."

The engine, of course, is of the time-tested Buick Valve-in-Head type. The year-after-year concentration of Buick's engineering skill and experience in building Valve-in-Head motors assures the highest standard of performance obtainable today.

Every other unit is of a quality equal to the power plant. The whole assembly constitutes a perfectly balanced chassis which is of typical Buick construction. The equipment of Cord Tires is merely evidence of the quality which characterizes the entire car.

Two open and two closed body types mounted on the Buick built chassis comprise the new series.

Even the most casual inspection of the details of design and workmanship will reveal that full measure of quality which motorists have learned to associate with Buick.

Obviously a high grade automobile—a genuine Buick production—the prices listed below make this great Four even greater. A value such as this is possible only because of the combination of Buick engineering skill devoted to the one ideal of quality, Buick production facilities developed over nearly a quarter of a century, and Buick's nation-wide distribution and service organization.

The Buick Motor Company is proud of the Buick Four. It has the faith of long experience in this newest addition to its line. It places upon it unreservedly the Buick guarantee carried by every Buick automobile produced. That its confidence is well placed is manifested not only by the keen interest with which motorists have awaited this announcement, but also the advance orders placed by distributors, dealers, and the general public.

Addition to Commandments.

Four-year-old Bessie had been to Sunday school, where the Ten Commandments were being studied. She had an older brother who was noted for being sick or crippled if there was work to be done. One day their mother asked the boy to fill the woodbox. Immediately he developed a sore foot and limped slowly toward the wood pile. Bessie looked at him reproachfully and said: "Thou shalt not hypocrite."—Chicago American

Egg Dance Once Popular in Europe.

The egg dance, now confined chiefly to Spain among the people of Valencia, was a once popular diversion in England, Scotland, Holland and other parts of Europe. A number of eggs were arranged in a prescribed form upon the dancing floor, and among them a blind-folded dancer moved as best he might, to music, the object being to execute an intricate dance without breaking the eggs. The music, like the arrangement of the eggs, also was prescribed.

War of Science on Diseases.

Of the diseases of men and animals known to be infectious, Dr. Walter E. King counts up 38 having organisms not yet discovered that are believed to be so small as to pass through the customary filters. These include chicken-pox, rabies, dengue fever, small-pox, trachoma, measles, poliomyelitis, scarlet fever, typhus and mumps, and yellow fever was in the list until Doctor Noguchi's recent discovery of the organism. As in the case of tuberculosis, knowledge of the organism does not always bring a direct remedy. On the other hand, steps toward eradicating yellow fever, through the destruction of the germ-carrying mosquito, were made possible while the disease organism was still unknown.

Wireless Waves Fire Oil Wells.

In recent years there have been a number of oil well fires the origin of which has never been explained. The fires started at such times when the sites were deserted and could not have been done through any human agency, and in this connection R. M. McLain of Desdemona, Tex., has come to the fore with a remarkable theory that the firing is done by wireless waves gathered by the metal entering into the construction of the derricks. This gentleman has observed a number of oil well fires which could be explained in no other way.

From the Laboratory of Thomas A. Edison

Orange, N.J. May 31st, 1921.

Sergei Rachmaninoff, Esq.,
22 East 95th Street,
New York City.

My dear Mr. Rachmaninoff:

Under a contract between yourself and Thomas A. Edison, Inc., dated the 24th of April, 1919, it is provided, in effect, that the royalties payable to you on various selections, which you have recorded for us, shall continue, only so long as you do not make phonographic recordings of such selections for anyone else.

I shall be very glad to give you permission to record these selections for others, without the loss of royalties under the aforesaid agreement. This will give you the opportunity to record your "Prelude in C Sharp Minor" and other important works, which you have already recorded for us.

Yours very truly,
Thomas A. Edison

Facsimile of letter written by Mr. Edison to Rachmaninoff, the noted Russian composer-pianist.

This letter gives talking-machines the right to record Rachmaninoff in his famous "Prelude in C Sharp Minor," and other compositions which he has recorded for Edison.

Will any of them exercise that right? We fear not—the parallel would be too deadly.

But Rachmaninoff has recorded other selections for the talking-machines. Hear how they sound. Then come in, hear Rachmaninoff on the New Edison, and see what an astounding difference the comparison reveals.
