## THE IOSCO COUNTY FAIR

The Iosco county fair to be held Sept. 29-30 and Oct. 1, promises to be the best in an agricultural way that has been held in the county for some years. The premium list has been revised and a substantial increase made in the premiums paid on live stock and agricultural products, and the increased premiums will undoubtedly attract a larger and more complete display from the farmers of the county.

The entertainment features have not been neglected, and will furnish plenty of good amusement for those who attend the fair. The race program includes three good races on each of the second and third days of the fair and as our dates do not conflict with any neighboring fair there is a prospect of some fast horses in every race. Then there will be Fred D. Darling with his trick mule, for which he offers \$100 a second for anyone who will ride him. Mr. Darling will also have a dog and pony show under canvas. The grounds will be filled with concessions and there will be plenty of excitement all the time.

There will also be some good baseball games and lovers of that sport will be able to enjoy themselves to the utmost. If you haven't already received one of the premium lists get one from the secretary of the fair, A. W. Colby, or at the Herald office and plan on bringing something to the fair to help make it successful. It is your fair and you should be as interested as the officers and directors in making it fairly representative of the agricultural interests of the county.

## A Win Ends the Season

Before about 800 spectators and after seven and one-half innings of hard fought baseball Tawas City took advantage of McCrum's weakening and laid on him for two singles, a double and a triple, which, aided by two bases on balls and a fielder's choice that went wrong, netted them six runs. St. Johns then went in and pitched the seventh and last over the plate. It was plenty.

Jack Johnson and LeClair popped to Musolf to start. Pavelock popped to first base, Tawas City—Sielloff out. McCrum to Pearsall. Swartz doubled to right center and went to third on a passed ball. Musolf and A. Mark fled to LeClair. They were both star catches.

2nd inning. Morrison safe on Swartz' error and took second on Rahl's out to Musolf to W. Moeller. He scored when McCrum's single got through E. Moeller. Pearsall out, third to first. Marks struck out. Tawas City—W. Moeller safe on Marks' error. M. Mark safe when McCrum threw wild to second to catch Moeller. Moeller scored. Lanski fled to Johnson. E. Moeller fanned. B. Mark singled M. Mark home. Sielloff and Mark were both safe when Rahl erred on an attempted force. Pavelock forced a laugh from the crowd when he lost the ball between his protector and body while both runners advanced. McCrum had to find it for him. Swartz struck out.

3rd inning: Healy out hit by ball from his own bat. Johnson out on a fast play Swartz to W. Moeller. LeClair out to first unassisted. Tawas City—Musolf out catcher to first when Pavelock dropped his third strike. A. Mark gave Johnny LeClair a chance to pull off another good catch. W. Moeller singled and died stealing.

4th inning: Pavelock out Musolf to first. Morrison singled. Rahl hit to the box but on an attempt to force Morrison the ball got away from Mart. Musolf and both runners advanced. McCrum's drive got through Musolf. Lanski retrieved the ball and threw to the backstop, both runners scoring and McCrum taking third. Pearsall popped to third and Marks fled B. Mark to first.

5th inning: Healy singled and took third on E. Moeller's error. Johnson fanned. LeClair singled Healy home but was caught napping off first. Pavelock out pitcher to first. Tawas City—B. Mark fled to Johnson. Sielloff singled and stole. Swartz singled him home. Musolf out catcher to first. A. Mark singled but Swartz was out at the plate.

6th inning: Morrison safe on Swartz' error. Rahl singled. McCrum drove to Sielloff who doubled Rahl off first. Pearsall singled Morrison home. He stole third. Marks fanned. Tawas City—W. Moeller out pitcher to first. M. Mark and Lanski fanned.

7th inning: Healy out pitcher to first. Johnson fanned. LeClair fled to right. Libka playing in left. Tawas City—Libka fled to LeClair. B. Mark singled past third. Sielloff popped to third. Swartz fanned.

8th inning: Pavelock and Rahl out pitcher to first. Morrison out third to first. Tawas City—Musolf singled and stole. A. Mark fled to LeClair for the third time. Musolf stole third. W. Moeller walked and stole. M. Mark safe when an attempt was made to get Moeller off second. Zink batted for Lanski and drove a pretty single into right field, scoring Moeller. Zink stole second. Libka doubled to right scoring M. Mark and Zink. B. Mark walked. Sielloff tripled, scoring Libka and B. Mark. St. Johns now pitching. McCrum in right. Swartz struck out. Sielloff scored on a wild pitch. Musolf singled and took second on A. Mark's single and stole third. A. Mark stole second. W. Moeller out St. Johns to Pearsall.

9th inning: W. Moeller in center and Nelem on first. McCrum singled but was caught off first. Pearsall and Marks fanned.

Johnny LeClair's work in center was a fine sight. Jack Johnson did some good work too, but we are used to seeing Jack pull down the hard ones. Sielloff's work on third was a refreshing sight. His bat is always handy.

By Mark was there as usual with his steady game, errors helping all Hale's runs across. The only attempted steal by Hale, Pearsall's in the sixth, should have been a put out as At. Mark had him caught by ten feet. But a pretty slide got him safely to third.

By the request of the Hale boys Dr. Klump officiated at the plate and Bill Hutton on the bases, and in spite of the many close plays the crowd saw what we consider a very creditable performance by the two best umpires in the league. Hale is to be commended for their stand on the question of umpires last Sunday.

#### Skidding is Overcome.

Attention is called in a circular report from Sydney, Australia, to a new invention of a front-drive vehicle which entirely prevents skidding. A test over 10,000 miles of rough road has been made, it is claimed, with no signs of wear. The front wheels are pivoted in the center, which enables the steering of the car with much greater ease than in the rear-wheel-driven machine. The device is now attached to an old worn British car which, prior to the attachment of the device, weighed 32 cwt., with a speed of thirty-eight miles an hour traveling fifteen miles on one gallon of gasoline. After alteration and application of the front drive device, the car weighs 35 cwt., has a speed of forty-five miles an hour and will go seventeen and one-half miles on a single gallon of gasoline.

#### Tuberculosis in France.

That of 368 antituberculosis dispensaries in France only ten per cent are situated in Paris was hailed as a "happy omen" at the second international conference. Only a few organizations were actively engaged in antituberculosis work in France before the war. Today, largely through the activity of the Rockefeller Foundation, in addition to the dispensaries mentioned, there are 10,000 sanitarium beds for tuberculous patients; many hospitals have provided isolation wards; the boarding out of anaemic children in rural homes has been organized on a large scale, and there is national co-operation of all the agencies concerned.

#### British Soldiers and New Roads.

Some seven and a half million dollars' worth of new road construction has been taken in hand by various British cities to provide work for the unemployed. According to a report of the British information service of the Bankers' Trust company, the ministry of transportation contributes one-half of the cost—probably out of funds accumulated for that purpose for many years by the development commission—and lends to the municipalities the other half for five years, repayable in annual installments. Ex-service men, after due registration at a labor exchange, receive preference among applicants.

#### Unquestioning Admirer.

"Are you an admirer of Jeffersonian simplicity?"  
"I am," replied Senator Sorghum.  
"I don't know exactly what it is, but I admire anything that can command so much public approval and political influence."

#### Calumny in the Calendar.

"Do you regard Friday as an unlucky day?"  
"Most assuredly any day with such a bad reputation is unlucky, whether it deserves it or not."

### SMALL GIRL STAYED PANIC

Her Insistence That Pet Parrot Should Be Saved Gave Fellow Passengers Time to Reason.

Kitty Barrett, eight years old, shared heroic honors with a pet parrot in a tale of fire at sea told by passengers landing from the steamship Cartago at Havana, Cuba.

The little golden-haired girl, who is a daughter of Edward Ware Barrett, a newspaper publisher of Birmingham, Ala., refused to enter a lifeboat until she had brought her parrot from her stateroom, and her insistent demand that the bird be rescued calmed something approaching a panic among the passengers and gave the ship's crew a chance to extinguish the flames and save the steamer.

While steaming along the coast of Panama one night, the Cartago was set on fire by an overheated motor. The blaze seemed to threaten the safety of those on board, and an alarm was sounded. The passengers gathered on deck and were ready to enter the boats, when Miss Kitty discovered she had left her parrot behind in her stateroom.

She refused to enter the boat until Capt. George A. McBride sent for the bird. Frightened men and women paused to laugh at the calmness of the child and her concern over the safety of her pet, and when the steward brought the parrot to the deck, he also announced the fire had been brought under control by the chief engineer.

### CAMERA SHOWS UP DEFECTS

Why It Is Generally Necessary That Photographs of the Human Face Be Retouched.

Why does a photographer have to retouch his negatives before his customer is satisfied with the picture? The eye of the camera sees things differently from the human eye, although there are some lenses that so diffuse the image that the harsh detail is eliminated. These are the so-called "soft-focus" lenses, and photographs made with them generally need no extensive retouching.

It is the difference in "seeing color" between the lens and the eye that is largely responsible for retouching. The ruddy complexion, so suggestive of good health, under the relentless eye of the camera may turn into dark splotches, for red photographs dark.

The penetrating blue-violet rays are those chiefly used in photography, and these rays furnish the delicate "modeling" of form. The surface of the skin reflects these rays into the camera, and all the irregularities of the skin, such as wrinkles, become more noticeable than when looked at with the human eye, which sees mostly by the red and orange, instead of the blue-violet rays caught by the eye of the camera.—Popular Science Monthly.

### Big Irrigation Project.

In the state of Washington there is under way a gigantic irrigation project which is unprecedented. It is designed to serve 1,753,000 acres with 20,000 second-feet of water at an outlay of \$30,000,000. That is what has been done by the Columbia basin survey commission with a state appropriation of \$100,000. In fact, the project is unprecedented as a whole as also are some of its elements compared with irrigation works heretofore executed, while in point of cost and general magnitude it is second to but few public work projects either carried out or planned. The daily capacity of the main canal and other trunk-line conduits is 1,728,000,000 cubic feet, or 12,275,000,000 gallons, which is twenty-five times the carrying capacity of the Catskill aqueduct.

### Woman Has Done Good Work.

Miss Gertrude Bell, the compiler of the Inner history of Mesopotamia, which has been issued by the British government in the form of a white paper, is regarded as one of the greatest authorities on the East. She has an unusual knowledge of the people, customs, language and political history of Syria, Asia Minor and Arabia, and during the war was attached to the British secret service. At times she vanished for months into the desert, and became known as the "Mystery Woman of the War."

### Gloves From Interior of Whales.

Soft, pliable "kid," that is as strong and durable as its genuine prototype, from the intestines of the whale; thick sole leather of excellent quality from the lining of the whale's mouth; five or more huge split sides of tough leather from the skin of the beluga, the common dolphin of the north Pacific—these are only a few of the many revolutionary products obtained from aquatic leather, the manufacture of which has become one of the new important industries of the Pacific Northwest, says Popular Mechanics.

### Nursing a Grievance.

"None was supposed to be present, but the head waiter was a bit offish, having done something in the way of verse and had it rejected."—Birmingham Age-Herald.

**Obituary—George Charters**

Last Friday afternoon a large concourse of sorrowing friends gathered at the Baptist church to pay their last respects to George Charters. The services were conducted by Rev. Hughes, pastor of the M. E. church, assisted by Rev. Grabil. The remains were laid to rest in the Reno cemetery.

George Halden Charters was born in Reno township Feb. 14, 1887, and grew to manhood and lived his entire life here. On Nov. 20, 1907 he was united in marriage to Ida Hoshbach. Seven children were born to this union, five sons and two daughters, William, Mary and Percy having preceded him in death, the latter by scarcely two weeks. James, Roy, Rupert and Gola, together with the bereaved wife, survive him.

George was very ambitious, that being partly the cause of his death as he had never fully recovered from two operations which he underwent a little over a year ago. He knew the end was near and had his business matters arranged, made his peace with God and fell asleep at his home Sept. 5, 1921, at the age of 34 years, six months and 22 days.

Besides the wife and four small children there are left to mourn his demise his father, mother, six sisters, one brother and a host of other relatives and friends. Relatives from a distance who attended the funeral were: Mrs. Kincaid, Mrs. Shellenbarger, Mr. and Mrs. John Hoshbach and family, Mr. and Mrs. Chris Hoshbach, Mrs. Henry Hoshbach, Mr. and Mrs. Koepke and son, George, Mr. and Mrs. Chas. Groff, Mr. and Mrs. Henry Hilderberg, and Mr. and Mrs. J. M. Johnstone.

The bereaved wife and family have the sympathy of the entire community in their great loss.

**Death of Little Cecil Scarlett**

Cecil Harry, little son of Mr. and Mrs. Thomas Scarlett of Grant township, died Wednesday morning, Sept. 7, at 5.40 o'clock. The cause of death was cholera infantum.

The funeral was held from the home of the parents at 2:00 o'clock Thursday afternoon, the services being conducted by Rev. Homer W. Grimes of the Baptist church, who spoke feelingly from the words found in the gospel of Matthew 19:14: "Suffer little children to come unto me and forbid them not, for of such is the kingdom of Heaven."

Little Cecil was a bright and loving little fellow whom everybody loved who knew him. At the time of his death he was three years, five months and 17 days old, and his death was a shock to the whole community. The flowers at the funeral were plentiful and beautiful, and spoke volumes for the esteem in which the parents are held.

The sympathy of the entire community goes out to the bereaved parents.

**"The Little Chap at Home."**

To feel his little hand in mine  
So clinging and so warm;  
To know he thinks me strong enough  
To keep him safe from harm;  
To see his dimpled face in all that I  
can say or do—  
It sort o' shames a fellow,  
But it makes him better too.  
And I'm trying hard to be the man he  
fancies me to be,  
Because I have this chap at home  
Who thinks the world of me.

I wouldn't disappoint his trust  
For anything on earth;  
Nor let him know how little  
I just naturally am worth.  
But after all it's easier that brighter  
road to climb  
With the little hand behind me  
To push me all the time;  
And I reckon I'm a better man than  
what I used to be,  
Because I have this chap at home  
Who thinks the world of me.

The movement in Rome to protest because the United States talks of excluding Italian emigration makes one wonder why Italy is so anxious to get rid of the people faced this way.

The report that Russia is to abolish money will be studied with interest by the financiers of that country who were looking about for methods of devising loans.

The soviet government has annulled the American loan to Armenia which is bad enough but the prospect that they will steal the proceeds is worse.

If you throw more enthusiasm into what you do and less anxiety into the getting part, you will do better and get more.
