ADDED ATTRACTIONS AT THE IOSCO COUNTY FAIR

During the past week the officers of the Iosco county fair have been busy with plans for the exhibit, which will open on Thursday of next week.

The grounds are being wired for electric lights and there will be evening sessions on the second and third days of the fair, with entertainment for old and young. This is an innovation here but has been successful at many other fairs and is expected to add much to the attractiveness of the fair.

Another big attraction has been booked in the shape of the Alpena band of thirty pieces, which will play on the second and third days of the fair. This is one of the best bands in northern Michigan and the music they furnish will be strictly first class.

Reduced rates of fare and one-half for the round trip have been granted by the D. & M. Ry. for the fair.

MEETING OF ALPENA BAPTIST ASSOCIATION
A meeting of the Alpena Baptist association was held at the Hemlock Baptist church on Tuesday and Wednesday of this week. About fifty delegates were present from outside and a very successful meeting was had.

Prominent speakers who appeared on the program were Grant M. Hudson of Lansing, Dr. Frank B. Bachelor of Kalamazoo and B. C. Case of Burma, India. Mr. Case is agricultural missionary in Burma and gave a very interesting talk on the agriculture and the methods used in Burma, which was greatly enjoyed by his audience.

LOVE YOUR COUNTRY, YOUR TOWN, YOUR NEIGHBOR
Any man who truly likes his own town will be interested in its progress and advancement. To love a town or a country it is necessary to know all about it, to be interested not only in your own success but in that of your neighbor. The man who is too selfish to interest himself in his neighbor's welfare may acquire a fortune for himself, but there will be a big sigh of satisfaction when he tumbles over the great divide and his place is taken by someone who has more of the milk of human kindness in him.

To be a benefit to any town a man must care something about it, find pleasure in it, understand its advantages and get interested in its welfare. Any town can be made a good town, but it all depends upon the men who are in it. If a town is no good the fault is always at home somewhere.

TEACHING DAUGHTER
It is a mistaken kindness for any mother to do the work that a daughter should do. Every girl should have certain duties about the home, and as she grows older those duties should increase and the work of the mother should decrease.

It is a big mistake to let your daughter fritter her time away trying to make you think she is not strong enough to take serious responsibility. You may not wish her to take big responsibilities, but you should fill her time with useful and interesting employment. No matter who the girl, there comes a time when she is going to find it essential to know something about housekeeping, and experience and information about household duties are valuable assets to any woman no matter how much money she may have.

McIVOR MITES
W. H. Pringle is loading out his excelsior wood.

Mr. and Mrs. Elias Smith motored to Turner Saturday.

Another car of nice stock was loaded from here last Saturday.

Ernest Smith was working at the Tawas City depot last week.

Harry Burlew is back on the old job at the elevator—every day.

G. A. Pringle of Tawas City was a caller in town one day last week.

Jess Driskell just unloaded a car of cinders on the sugar company's driveway.

Livingston Jamieson left Wednesday evening for Grayling, where he will be employed in a garage.

Mr. and Mrs. John Bryning and family and W. H. Pringle and family motored to Lincoln, Harrisville and Greenbush last Sunday.

D. & M. BASEBALL LEAGUE

Omer, pennant winners in the D. & M. league, went to Standish last Sunday and lost to Pinconning, pennant winners in the Northeastern league. However, it was a ten-inning affair with the score 6 to 5, so the class of the two leagues would seem to be on a par. Below we give the box score:

Omer	AB R H O A E
Mead, 2b	3 1 0 2 2 0
Warren, ss	4 2 1 1 3 2
Briggs, c	4 0 0 11 1 0
Hayes, cf	3 1 1 0 0 0
Matuzak, 1b	4 0 0 9 1 0
Boyer, 3b	5 0 0 2 0 0
Munroe, lf	4 0 1 1 0 0
A. Clayton, rf	2 1 0 0 0 0
E. Clayton, p	4 0 2 2 2 0
Totals	33 5 5 28*11 2

Pinconning	AB R H O A E
E. Miller, rf	6 1 4 3 0 0
C. Peters, ss	4 0 1 2 2 1
Heppner, 3b	5 1 0 5 1 0
Bush, 2b	5 0 0 2 1 1
R. Peters, cf	4 1 2 2 0 0
Klumpff, 1b	3 1 0 5 0 1
W. Miller, lf	5 0 1 1 1 0
Sandusky, c	5 2 3 9 0 0
Kruger, p	4 0 0 1 2 0
Totals	41 6 11 30 7 4

*One out when winning run was scored.

Innings 1 2 3 4 5 6 7 8 9 10 Tot
Omer 2 1 1 0 0 0 1 0 0 0 — 5
Pinny 1 2 0 0 0 0 2 0 0 1 — 6

Two base hits, E. Miller, Heppner. Home run, Hayes. Stolen bases, Warren 2, Matuzak. Sacrifice hit, Hayes. First on balls, off Clayton 3; off Kruger 5. Struck out, by Clayton 9; by Kruger 6. Left on bases, Omer 9; Pinny 10. Double play, C. Peters to Bush to Klumpff. Hit by pitcher, by Clayton, Kruger.

The games this year have shown the appalling weakness of nearly all the teams on the left side of the diamond. Good shortstops and third basemen are very scarce.

We may be getting into trouble, but as it is the custom after the season to open up the "stove league" we are going to name a phantom league team that looks pretty good to us. It is only a guess, but after hearing the remarks around the circuit and seeing the boys in action we pick the following: For catchers, A. Mark and Herb Boldt; pitchers, B. Mark, E. Clayton and O. Johnson; 1st base, Matuzak; 2nd base, Mead; short stop, Warren; 3rd base, White; left field, Bolen; center field, Jack Johnson of Hale; right field, Graham. The league has a number of good pitchers. Perhaps with a good fielding team behind him McArdle would look for the best. Jack sure flings a wicked ball. McCrum, Sieloff and Rahl are also good pitchers. LeClair is a good outfielder, but we think the three named fit in place better.

The distance from home plate to the right field fence at Tawas Beach has been measured by Dr. Klumpff and found to be 237 feet, 6 inches. So in the future no doubt a ball hit over the fence will be lost, as it will be a home run without question.

"Toot" Swartz is getting to look more like his brother, Fred, at shortstop every day. His bat has been doing good work too. With W. Moeller and "Babe" Zink for boxmen and Nelem catching we look for a good battery next season. There are a few players on the team that need some strengthening but we believe that next spring we can put out a team that will be able to hold their opponents well enough so that a few runs will win a game. Four of our games this year were lost by one run.

Manager Wilson is endeavoring to get a game here Sunday and if he is successful hand bills will make the announcement.

NOT MANY FEEBLE-MINDED

Authority Shows That Only Two Per Cent of the Population Can Be So Classified.

The idea that we are menaced as a nation by illiterates and feeble-minded is all wrong. We have illiterates and feeble-minded in our midst, but they are a relatively negligible force numerically. The reverse idea, or idea in the reverse, that we are short on genius, also is wrong, according to Dr. George G. Chambers, director of admissions at the University of Pennsylvania, and the educators who co-operate with him. Doctor Chambers says genius as a national crop is statistically as strong as the more discussed feeble-minded and that each represents a mere 2 per cent of the population.

But genius, says Dr. Chambers, is not the mere possession of a talent swollen to phenomenal degree, perhaps so hypertrophied that it is useless. He denies genius to the man, however great his talents, who cannot and does not exercise them. Genius in his definition is high intelligence followed by actual use of that intelligence in life. And intelligence is the ability to adapt one's self to new circumstances, to one's surroundings—in a word, to be able to know something and make use of one's knowledge. Under this definition it is surprising that the adaptable Yankee should not hold a higher record for genius than 2 per cent.—Pittsburgh Dispatch.

BROUGHT ALL HE COULD FIND

Evidently Georgie Had Had Quite a Serious Spill From Bicycle. He Had Rented.

Bill Spokes, a second-hand bicycle man, was a just man and usually slept the sleep of the just, but one night his saintly slumbers were disturbed by a voice hailing him below his window.

"What's wrong?" he called out, drowsily.

"D'you remember lending Georgie Smith a machine this afternoon?" piped the voice.

"That's right," said the bicycle man; "but I ain't going to take it in at this time of night. Georgie will have to keep the machine till mornin', and pay by the hour."

"Yes, of course," agreed the voice from below; "that's fair. But Georgie had a bit of a spill through running into a motorcar, and he don't want to pay for the hire of more'n he can help. I've brought round all we can find of the machine so far."

At that the second-hand bicycle man jumped from his bed and rushed angrily to the window.

"And what have you found?" he shouted.

"It's coming up!" piped the voice, and an oil can sailed into the room.—Boston Globe.

Temptation Windows.

In a small Indiana town the Methodist church has stained glass windows on the bottom panels of which are printed verses of Scripture. One that six-year-old Willie has been able to decipher, and from the effort remembers well, goes: "And lead us not into temptation."

Not long after, his mother took him to visit an old friend who had built an expensive new home. Now, in the hall there were two high windows and both of them were made of orange-colored glass. When they entered that room Willie stared and stared but said nothing. But that night when he told his father all about the orange windows and said: "And oh, dad, they're awfully religious. They've got those windows that keep out temptation."

Back to Medicine of Mayas.

Prof. William Gates, president of the Maya society, states that in Central America there have recently been discovered the evidences of an ancient race of people, with a civilization as old and as cultured as that of the ancient Egyptians. They were of a lofty mental attitude and of high metaphysical qualities.

Among the most important discoveries expected to be made there are the unearthing of native medical works, some of which are already in the hands of the Maya society, that will add valuable specific pharmacopoeia and medicinal knowledge to that science in this country.

Plenty of Hair.

After stumbling in a dark theater for a few minutes I fell into an aisle seat behind a young woman, writes a correspondent, I could not see the screen well, as the girl in front hid most of it from my vision. I could see only the outline of her head against the screen and I thought she had her hat on, so I politely asked her to remove it.

She turned half way around and said: "You flatter me."

As I got a better look at her I realized that she had her hair bobbed and fluffed out so far it made it appear that she wore a hat.

New Fuel Gas.

A Swiss engineer has produced a rich new gas, suitable for use in internal-combustion engines, by first packing sheet-metal drums with alternate layers of common calcium carbide and sawdust, saturated by crude oil, then adding water. The carbide in combining with the water liberates acetylene gas and also generates a high degree of heat which cracks and volatilizes the crude oil, liberating its gases. The two gases then combine to form the new one.—Popular Mechanics Magazine.

HINT FOR OWNERS OF PETS

Mystery of How Spitz Was Kept White Is Solved—Secret Learned From Washwoman.

Another secret process was unwittingly betrayed at a street discussion between two women recently. The women, elaborately dressed and seemingly of the "sheltered life" type stood, pets in leash, as they gossiped. The one with the Japanese spaniel spoke first:

"I have an awful time with Togo; he is such a little aristocrat," and she jerked at the chain as her substitute for a child showed a desire to greet a passing mongrel. "He detests castile soap and I always use facial for his bath, but he just adores lilac-scented talcum powder afterward and I have a spray with lilac water that the both of us use. How's little Snowball now?" (referring to the other woman's Spitz). "We heard he was ill. You must have been worried sick. I often wonder how you keep him so white."

The other woman's turn, as pampered pets milled about: "It was terrible; Snowy had colic; ate too much squab—we have to get them especially for him, the little darling—but we got the best doctor we could find and he was all right in two days. Oh, yes, how do I keep him so white? Bluing. Always after his bath I put him through bluing; learned it from watching a washwoman once. She put her fine white clothes into bluing and it works just as well with Snowy."—Portland Oregonian.

DISPUTE ACCURACY OF CLOCK

Heirs of Danish Nobleman Stand to Win or Lose Large Amount of Money by Decision.

What time was it when the castle clock struck twelve?

Ten thousand pounds, normally about \$50,000, hangs on the answer to this question, explains the London Express correspondent in Denmark, which has been the subject of lively argument in the eastern civil court, Copenhagen.

The clock in question is in the tower of Lystrup castle, the seat of one of Denmark's greatest landlords, the late Count Moltke, a life member of the ancient house of lords.

Count Moltke died on the night of December 19-20, 1918, a few seconds after the castle clock struck twelve. The Danish parliament recently approved a new and increased scale of death duties, applicable to the estate of all persons who died after midnight on December 19-20.

It is contended by the count's heirs that the castle clock was fast and struck a minute too soon. The count, they say, died on December 19, and therefore his estate is exempt from the increase in the death duties.

Weavers.

A typical Scots crofter weaving with the old-fashioned hand weaving loom side by side with the very latest power-loom, giving an idea of the great gain in output and quality achieved in mechanical invention will be an interesting item at the efficiency exhibition in London, where the use of invention and effort will be shown to be of greater value than mere personal application. Not only will the productions be seen to be more quickly executed, but the worker will find the process less mechanical, strange as this may appear. What will doubtless strike all visitors is the enormous increase in efficiency in the weaving industry brought about by labor-saving machinery. It seems strange, too that more workers are required to keep up with the efficient power-loom.—Christian Science Monitor.

ONE BRAND-ONE QUALITY-One Size Package

All our skill, facilities, and lifelong knowledge of the finest tobaccos are concentrated on this one cigarette—CAMEL.

Into this ONE BRAND, we put the utmost quality. Nothing is too good for Camels. They are as good as it's possible to make a cigarette.

Camel QUALITY is always maintained at the same high, exclusive standard. You can always depend on the same mellow-mild refreshing smoothness—the taste and rich flavor of choicest tobaccos—and entire freedom from cigaretty aftertaste.

And remember this! Camels come in one size package only—20 cigarettes—just the right size to make the greatest saving in production and packing. This saving goes straight into Camel Quality. That's one reason why you can get Camel Quality at so moderate a price.

Here's another. We put no useless frills on the Camel package. No "extra wrappers!" Nothing just for show!

Such things do not improve the smoke any more than premiums or coupons. And their added cost must go onto the price or come out of the quality.

One thing, and only one, is responsible for Camels great and growing popularity—that is CAMEL QUALITY.

GIFT-GRAIN PLEA LAUNCHED FROM HISTORIC FARM

EMERGENCY BOARD ORGANIZES AT HOME OF WHITNEY WATKINS IN JACKSON COUNTY; ISSUES NEAR EAST APPEAL.

100,000 BUSHELLS REQUIRED TO RESCUE DYING CHILDREN

For the first time in the annals of an American relief organization, a farm—one of the oldest and finest in Michigan—served as the meeting place recently of a State-wide group assembled to appeal to their fellow farmers as a class to contribute of their grain against want in a foreign land.

Mr. and Mrs. L. Whitney Watkins, of Watkins Farms, in Jackson County, were luncheon hosts to the Emergency Grain Board of the Michigan Committee of Near East Relief, and immediately after luncheon the board formally organized itself and named an executive committee to launch and manage a campaign among the farmers of the State for 100,000 bushels of grain, or its equivalent, to be sent as Michigan's share of America's gift of 5,000,000 bushels, now being collected, to Armenia, Syria, Assyria and adjacent lands of Asia Minor. Resultant of starvation and exposure there, cholera and typhus have broken out, and thousands of orphaned children and destitute adults are dying in the streets and by the roadsides.

Governor Phones Board.
Kept by official business from attending the meeting as honorary chairman of the Near East Committee, Governor Groesbeck telephoned his regret from Lansing to Watkins Farms, and sent to James J. Spillane, State Director, a letter backing the campaign.

Former Lieutenant Governor Luren D. Dickinson, chairman of the State organization, presided as temporary chairman, and these officers were elected for the board: Chairman, Herman H. Halladay of Lansing, Commissioner of Agriculture; vice-chairman, Professor David Friday, president-elect of Michigan Agricultural College; secretary, L. Whitney Watkins of Manchester; executive committee—Mr. Halladay, Professor Friday and Mr. Watkins. Others members of the Emergency Grain Board are: James Nicol of South Haven, president of the Michigan Farm Bureau; Grant Slocum of Detroit, president of The Gleaners; A. B. Cook of Owosso, master of the State Grange; I. R. Waterbury of Detroit; manager of the Michigan Farmer; Forrest Lord of Mt. Clemens, editor of the Michigan Business Farmer; Frank B. Drees of Lansing, secretary of the Michigan Bean Jobbers Association; former State Senator Charles B. Scully of Almont, A. Edward Illenden of Adrian, farmer, and Alfred Allen, president of the Michigan Association of Farmers Clubs.

Under Historic Roof.
In welcoming his guests Mr. Watkins spoke feelingly of the pride he as a farmer took in having the first meeting of such an organization as the Emergency Grain Board on the farm which his grandfather, coming here from New Hampshire in 1832, had selected, and under the roof which for 64 continuous years had sheltered his parents—the home to which the fourth generation, three sons, will return as farmers when they have finished their college terms. "I have the utmost faith," Mr. Watkins concluded, "in the response the farmers of Michigan will make to this humane appeal for food for a starving Christian people across the seas who are tillers of the soil too, for I know the homely, kindly, sympathetic spirit to help which is to be found everywhere in the farmhouses of this State."

Mr. Dickinson spoke briefly of his complete confidence that the farmers as a class will ensure the success of the campaign for grain.

Divine blessing on the appeal was invoked by the Rev. E. H. Huelster of Cleveland, a Near East field worker recently returned from Asia Minor.

Halladay: "Up to Us."
Chairman Halladay expressed vigorously the sentiment: "This undertaking of mercy, here dedicated in this historic farmhouse where sympathy for suffering has abode through the generations, we must push forward, and show that Michigan farms are prepared to do their full share in the national undertaking."

Director Spillane outlined briefly the immediate need for 5,000,000 bushels of grain from America—100,000 bushels from Michigan.

Former Senator Scully likened America in this undertaking to the "white ship of mercy"—the hospital-ship—which follows the fighting fleet. He reminded the farmers of the State that the charge often is heard against them in the cities that they in their organizations "never have put anything big across because they never hang together," and he said this was an unequalled opportunity for them to disprove that charge by "joining hands across the farms" and co-operating with the Farm Bureau, the State Grange, The Gleaners, the farm clubs

and other agricultural organizations or the immediate success of the grain campaign.

Farm Bureau Stands By.

Mr. Nicol, speaking as president of the Farm Bureau, read an adopted resolution of the bureau's executive committee pledging its moral support and the use of its organization channels for collection of the grain or its equivalent in money.

In a discussion developed by Professor Friday the board agreed that one dollar per \$10,000 of farm value was a fair proportional figure upon which to base the various county quotas throughout the State; and on this basis the board, operating through the farm organizations, will go to the farmers for Michigan's share in the grain gift.

Mr. Waterbury and Mr. Lord gave assurance that the farm journals of the State will heartily endorse and support the grain appeal, and both were of opinion that the full amount required for the State's quota will be forthcoming.

Letter to Farmers.

At a meeting of the executive committee held immediately after adjournment of the board the following letter was made public:

"To the Farmers of Michigan:
"From the Emergency Grain Board, in meeting assembled on Watkins Farms, Manchester:

"With children dying in their mothers' arms of starvation; with cholera and typhus spreading; with the population perishing in such numbers that in the larger cities wagons twice daily remove the corpses from the streets; with knowledge that food must be procured, transported and carried into the interior before these dread conditions can be overcome, the Executive Officers of Near East Relief recognize the absolute need for an immediate campaign for grain for the lands of the Near East.

"These men, who at their own expense had gone into this region of misery and death to verify the reports of their field workers and to procure facts upon which to base the next year's relief program, realized that not half the story had been told. Unhesitatingly they issued the order for a Nation-wide grain appeal.

"The wail of the starving people of Armenia and its neighboring lands has been heard throughout America—An organization—in Michigan the Emergency Grain Board—has been created to bring the appeal for these people, of whom eight-five per cent are farmers, to the farmers of our own State.

In Death's Shadow.

"This year, today, you yourselves suffer the effects of short crops. But over there! The only harvest those unhappy people have had in more than five years has been the daily harvest of the dead; picked up in the streets; by the chill waysides of the wild Georgian Mountains; in the desolated farm valleys of Armenia; on the scorched floor of a desert whose only shadow of refuge for them has been the shadow of the wing of Death.

"We have been chosen to present to you their plight, and being of you, we do not hesitate. We know that you will sacrifice, that they may live.

"The need which America is called upon to meet is for 5,000,000 bushels of corn and wheat. Michigan's allotted share is 100,000 bushels. "The records in the Michigan office of Near East Relief disclose many individual contributions by farmers. But this is the first time in Michigan the call has been sent forth to farmers as a producing class.

"We recognize that you may not be in a position where you can contribute either corn or wheat. You may prefer to make a contribution of money; or you may desire to contribute barley or rye or beans. The choice of your gift rests with you. Our thought is simply this:

"Every farmer in the State should contribute to the success of this appeal in behalf of these starving people—our allies in the World War, the oldest race of Christians.

One Dollar in \$10,000.

"The distribution of Michigan's county quotas is fair. It represents a contribution equal to one dollar in every \$10,000 of farm value.

"This appeal, to be of any benefit in the present crisis, must be met before November 1, 1921, in order that the grain may be milled, transported across the seas, and delivered into the interior before the snows of early winter block the roads in Armenia and the Near East. This is an opportunity for life-saving service which may present itself but once.

"BUT ONCE—I shall pass through this world but once. Any good therefore that I can do, or any kindness that I can show to any human being, let me do it now. Let me not defer or neglect it—I shall not pass this way again."

MORTGAGE SALE

Default has been made in the payment of the moneys secured by mortgage dated September 17, 1919, executed by Jesse B. Warner and Harriet Warner, his wife, of Tawas City, Michigan, to Gustave T. Wojahn and Louise Wojahn of Tawas City, Michigan; said mortgage was recorded in the office of the Register of Deeds of Iosco County in Liber 22 of mortgages on page 243, on the 17th day of September, 1919. The amount claimed to be due on said mortgage at the date of this notice is the sum of one thousand one hundred dollars, principal, and one cent (that being the place where the Circuit Court for the County of Iosco is held) on the fifth day of October, hundred eighteen dollars and ninety-eight cents, interest, and an attorney fee of thirty-five dollars, making the whole amount claimed to be due and unpaid the sum of one thousand, two hundred fifty-three dollars and ninety-eight cents. No suit or proceedings have been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, wherefore the power of sale contained in said mortgage has become operative. Notice is hereby given that by virtue of said power of sale and in pursuance of the statute in such case made and provided, said mortgage will be foreclosed by sale of the premises therein described at public auction to the highest bidder, at the front door of the court house in the city of Tawas City, County of Iosco, State of Michigan, at 10 o'clock in the forenoon of that day.

The premises to be sold are described in said mortgage as follows, to wit: The E 1/2 of the SE 1/4 of Section 18, Town 22 North, Range 7 East, all in the Township of Tawas, County of Iosco, of the State of Michigan.

As Bad as the Shower.
While visiting a friend who lived quite a distance from my home, a shower threatened, and I remarked: "I guess I'll go before I get wet." While passing a few more remarks I walked backward toward the door, but not noticing where I was going, I landed in a tub of water on the floor. The shower couldn't have gotten me any wetter!—Chicago Journal.

Notebook.
If you have the habit of putting things away so well that you cannot find them, get a small notebook and when you put something away note the place.
Betty—Auntie, Mr. Perkins must be awful clever! I just heard him tell us he could explain everything.—Passing Show, London.

SEEMED FUNNY TO PERUVIAN

South American Unable to Understand Why Republicans Did Not Seize the White House.

One day a Peruvian friend came to me in great excitement, waving a newspaper.
"Senior," he cried, "there is a revolution in the United States."
"What do you mean?"
He showed me the paper. It contained a brief account of the Republican convention in Chicago, in which Senator Lodge said several uncomplimentary things about President Wilson.

"You see," explained the Peruvian, "the President's enemies openly attack him. Is the army disloyal? Why do they not suppress the demonstration?"

I explained to him that in the United States it is any citizen's privilege to abuse the Chief Executive to his heart's content, that no effort is made either by the army or by the President himself to check such demonstrations, and that the Republican party would wait patiently until March 4 instead of descending in a body upon the White House and forcibly ejecting Mr. Wilson.

He smiled in polite incredulity.

"What funny people!" he laughed. His own President had gained office by the more simple expedient of first winning the good-will of the army, then walking into the official palace to hand the former incumbent a ticket on the first steamer out of town.—Leslie's.

AIR GLIDERS IN COMPETITION

Remarkable Speed Attained at Recent Meeting in the Rhone District of Germany.

A German gliding and soaring competition was recently held in the Rhone district by the League of German Model Aircraft and Gliding Clubs. The meeting was marred by an unfortunate accident, resulting in the death of the well-known pilot, Von Loessel. This was due to breaking in the air at the elevator of his glider. A number of monoplane and biplane were entered, reports the Scientific American, some of very novel design. Many of the entries had comfortable seats and landing gear as distinguished from the old-time gliders in which the operator's legs swung from below the planes, ready to take up the strain of hard landing, often at the price of serious injuries. The longest distance covered by the gliders was 1,830 meters, with a duration of 142.5 seconds. That record was made by Klemperer, with a height of 330 meters. The apparent gliding angle of Klemperer's flight was one in thirty-one.

More Than Two Years En Route.

In June, 1918, some Canadian soldiers, crossing the Atlantic to join the forces in Europe, threw overboard in mid-ocean a sealed bottle with a note inside to the effect that they were on their way to the war and asking the finder of the bottle to forward the note to the Toronto Sunday World. The bottle has just been washed ashore at St. Ives in Cornwall and the request being carried out. What would be interesting to know would be where the bottle has been during the last two years and a half, and what is the drift that brings so much flotsam and jetsam into the harbor of the little fishing town on the Atlantic. There are many theories, one of which credits the Gulf stream with a memory for the old smuggling days and an intention, in the case of the Canadians' bottle, to show awareness of these good new days which find fresh uses for things of unlovely repute.

Ideal Lighting.

According to an illuminating engineer, what is wanted today in home illumination is the sort of good lighting that is found on the shady side of a tree on a sunny afternoon. Substitute for the sun a new 100-watt lamp, for the sky the creamy ceiling of a living room and for the tree an opalescent disk or bowl from the ceiling you now get a soft radiance which floods the entire room as though it were opened to the sky; from the diffusing disk you get a generous addition of light directly beneath having the quality of filtered sunlight. You have approximated the charming effect of mellow radiance that was apparent under the tree.

Tree's Peculiar Growth.

Trees that grow with a spiral twist, concealing a ropelike fiber under a straight bark, are not unknown, but are generally regarded as arboreal curiosities. A recent instance in which a pine tree of this curious formation, discovered through the agency of a lightning stroke, is reported by W. M. Kern, of New York city. The bolt, in its downward course, circled the trunk seven times, leaving a spiral channel in which a man's arm could be laid, and disclosing the fact that the grain of the wood followed the same helical lines, though the bark and limbs appeared normal.—Popular Mechanics Magazine.

Ripe.

First-Class Scout—I found a little green snake this morning.
Tenderfoot—Better leave it alone. It might be as dangerous as a ripe one.—Boys' Life.

How'd He Get Them?

Redd—I see a man down on Long Island has a collection of 15,000 fleas.
Greene—That seems queer. The average man can't catch one.

MORTGAGE SALE

By reason of default in the payment of \$150 interest upon a mortgage made by Ainsley E. Nunn and Gertrude N., his wife, to Margaret Strong, mortgagee, dated March 22nd, 1920, and recorded March 31st, 1920, in Register's office for Iosco County in L ber 21 at page 323 of mortgages, and which has remained due and unpaid for more than ten days, the said mortgagee, under the power in said mortgage given has elected to consider the principal debt of \$150.00 due, making the whole amount claimed due at this time Sixteen hundred eighty two dollars, principal and interest, and an attorney fee of \$25.00; and no suit or proceeding at law having been started to recover the same:

Notice is hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises to the highest bidder therefor at the front door of the Court House in Tawas City (that being the place for holding the Circuit Court for said county) on Saturday, the 19th day of November, 1921 at 10 o'clock in the forenoon of that day.

The mortgaged premises to be sold is the northwest quarter of southwest quarter of section Fifteen, Town twenty-three north, of Range Five east, Iosco County, Michigan.

NOTICE OF SALE OF ABANDONED TAX LANDS

Department of Conservation
For the
State of Michigan
Lansing, August 20, 1921.

Notice is hereby given. That the following described abandoned tax lands, situate in the county of Iosco, recently deeded to the State by the Auditor General, have been withdrawn from homestead entry under the provisions of Act 141, Public Acts of 1901, examined and appraised and will be placed in market by offering them for sale at a public auction to be held at the Court House in the City of Tawas City, on Thursday, the fourth day of October, 1921 at ten o'clock in the forenoon, at which time and place they will become subject to purchase in the manner prescribed by law.

Deeds issued upon the sale of any of these lands will contain a clause reserving to the State of Michigan all rights in any mineral, coal, oil and gas found lying on, within or under the said lands; and, also reserving to the People of the State of Michigan the rights of ingress and egress over and across any of said lands lying along any watercourse or stream.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. ALABASTER DUST

The farmers have been busy filling silos. Some are threshing yet. Jacob Mielock had the misfortune to lose three head of cattle last week. Rev. E. B. Jermin of Bay City held services here Monday evening at the movie hall.

Swedish services were held Monday evening at the Union church by Rev. Hanson, president of the district.

Miss Grace and Isabel Anderson, who are attending school at East Tawas, spent the week end with their parents here.

Mrs. Herman Johnson and daughter, Lucile, returned home Saturday after visiting relatives and attending the state fair at Detroit.

Miss Mary Mielock, who is teaching at Mclvor, and Miss Clara Mielock, who is teaching at Point Lookout, spent the week end, at their homes here.

Last Sunday being the 86th birthday of Mrs. Andrew Benson, a surprise party was given in her honor at the home of her son, Julius Benson. After spending a pleasant afternoon a dainty lunch was served by the hostess.

Last Friday afternoon the East Tawas high school ball team came to Alabaster and gave the Alabaster team a shut-out, the score being 12 to 0 in favor of East Tawas. Tippy Swales pitched for East Tawas and did good work, having 7 strike-outs to his credit in 9 innings. Willie Baker and Carl Erickson were in the box for Alabaster and both did good work. It was a good game all the way through.

MEADOW ROAD

James Hews has sold his farm.

Mr. and Mrs. Elmer Colby and son visited relatives at Alabaster Sunday.

Mr. and Mrs. Richard Look and children visited Sunday with Mr. and Mrs. Carl Look.

Miss Luanna Green of Detroit spent a couple of days the past week with Miss Meta Look.

Mr. and Mrs. Chas. Groff and family of Tawas City visited Sunday with Mr. and Mrs. Gus Graff.

Quite a number from here attended the Baptist Association meeting on the Hemlock Tuesday and Wednesday.

Chas. Pierson and Sam Johnson of Bay City were Sunday visitors at the home of Mr. and Mrs. Elmer Pierson.

Mr. and Mrs. Burt Papple, accompanied by Mr. and Mrs. Fred Boudler of Reno, spent Sunday at VanEtan Lake.

Misses Lydia Groff and Meta Look returned home Thursday after being employed at Tawas Beach during the summer.

Mr. and Mrs. Victor Underwood and family of Bay City spent a few days the past week with Mr. and Mrs. Elmer Pierson.

Mr. and Mrs. Albert Krumm, Mr. and Mrs. Fred Neumann, Mr. and Mrs. A. Steinhurst and Mr. and Mrs. John Wier of Tawas City visited Sunday with Mr. and Mrs. August August Krumm.

MILLS STATION AND LOCALITY

S. DeLong, who spent the summer at Mt. Pleasant, has returned to his home here.

Mr. and Mrs. S. F. Snyder of Saginaw came Saturday for a visit with Peter Sawyer.

Mr. and Mrs. W. H. Price of East Tawas spent Sunday with Mr. and Mrs. S. A. Ross.

Mr. and Mrs. Harry Webster were in East Tawas Saturday having some dental work done.

James Wereley and Miss Mabel Partlo spent Saturday evening with Mr. and Mrs. G. A. Partlo.

Mr. and Mrs. Wm. Uptegrove and Frank Webster and A. J. Webster were in East Tawas on business Saturday.

Chas. Fenton came from Spruce last Saturday and spent Sunday at his home here. He is working on a road job at Spruce.

A. J. Webster of Sheridan and Mrs. Ora Jenks of Greenville came Friday for a visit with their brother, Frank Webster. Mr. Webster returned home Monday, but Mrs. Jenks remained for a longer visit.

Peter Minuit, Colonial Governor.
Peter Minuit was appointed governor and director general of New Netherlands in 1625 by the Dutch West India company. The following year he purchased Manhattan island from the Indians for \$24 in merchandise. He later built Fort Amsterdam. In 1631 he was recalled, but soon returned to America and built Fort Christiana, near the present site of Wilmington, Del., under the auspices of the Swedish West India company.

Yaquis of Sonora.
The Yaqui Indians, in Sonora, the trouble makers of northwestern Mexico for generations, belong to the same family as the Apaches, some writers say, while others assert they are really more Aztec than Indian.

PREFERRED TO GO UNTAUGHT

Rather Than Learn Hated Language of the Magyars, the Slovaks Remained Illiterate.

Slovak stupidity was as deliberate as the sturdy determination of the Czech. Forced by the Magyars to learn a hated tongue or go untaught, the Slovak chose the latter course; hence he is largely illiterate today, his ignorance a tribute to his sense of freedom. One of their number explained it to me in the cafe of a mountain village. He saw me sitting alone and his first sentence explained why he came over to speak to me.

"You are lonely, I think," he said. And as we sat there, in the small cafe, he told me how, rather than submit to Magyarization under the Hapsburg regime, he refused to study till the day when his fond dream came true and he set out for America.

After his arrival in the United States he went to night school, and, judging from the quality of his English, he profited well from the privilege.

"Nobody forced me to learn English," he explained; "I did it because I wanted to. English is a very 'practische' language, and I wanted to be an American through and through, so I worked hard at night to learn. I got my first papers all right, and then I came back for a visit. Then came the war, and I had to stay."

His number is legion and he is remarking the mental atmosphere of Slovakia.—National Geographic Magazine.

BELONGED TO MEDICI FAMILY

Well-Known Pawnbrokers' Sign Once the Heraldic Device of House Famous in History.

During the Middle ages the Lombards made a practice of lending money at interest. The Medici family was the first to turn the practice into a profession.

Many years before, Averardo de Medici, a commander who served with distinction under Charlemagne the Great, killed the giant Mugello, whose club had three iron balls attached to it in order that it might be a more effective weapon. For this reason the family of the Medici adopted the three balls, gilded, as the heraldic device on their coat-of-arms, and the appearance of this insignia soon came to be recognized as a symbol for money-lending.

Incidentally, the name of the Medici family has been further perpetuated through the word "medicine" a tribute to the skill of the members of this house in the art of healing.

Prodigies of the Past.

Long before the war it was stated that a man was too old at forty. But now it looks likely that soon the cry will be "too old at fifteen!"

A small boy of eight summers recently tackled twenty or thirty of the best chess players in the world, setting them all problems they could not tackle; another child appears on the scene, who, at the age of seven or eight, pens a diary, which the greatest literary lights describe as wonderful; while we'll soon have quite a small library of juvenile novels.

It was regarded as a phenomenon when Chatterton wrote immortal poems at twelve, when Mozart composed in his fifth year a concerto so difficult that only the most practical artists could play it, when the infant son of Evelyn, the diarist, could read Latin and Greek at three and one-half, when Macaulay had written a poem as long as "The Lady of the Lake" at eight and when Millais carried off a gold medal for painting at nine! But now it's becoming quite the usual thing.

Freight by Air.

England is credited with being the foremost nation in aviation. In 15 months, the record shows, 82,000 passengers and 200,000 pounds of freight traveled 1,000,000 miles in 48,000 flights. The transoceanic passenger schedule, which was so confidently predicted as almost ready several years ago, is still remote, but it is a fact that a round trip from London to Paris (574 miles) can be made in six hours instead of twenty-four, at a cost of about \$90 for plane, against \$40 by rail. The aero company which is operating a passenger service between Key West and Havana, charges \$150 for one passenger one way from New York to Boston (260 miles).

Rabbit Leather.

Samples of rabbit leather recently sent to this country from Australia have been examined and tested by the United States bureau of standards, with a view to determining the utility of such skins for shoe uppers or other purposes.

The leather was found to have only about one-fourth the strength of calf-skin and to tear rather easily. It has a great advantage in point of cheapness and might perhaps serve for uppers of fancy shoes that are not expected to stand much wear. The experts are of the opinion that it could be used to advantage for linings and novelties.

Preparing Soil for Tobacco.

For the purpose of tobacco growing the soil must be thoroughly cleared of weeds, seeds and insect larva before the plants are set out. Old practice was to build fires over the surface, but the operation is now accomplished by means of a canvas cover under which live steam from a road roller is projected. A high temperature is maintained for two hours.

Baron a True Diplomat.

From London comes a story of Baron Hayashi, which, if not true, deserves to be true. And if it is true, he is a diplomat to his finger tips. At dinner recently he sat next to a lady who talked to him for an hour. When the coffee hove in sight, said the lady, "You must think I am very fond of the sound of my own voice." Said the baron: "I knew you liked music."—Japan Advertiser.

Carpet Cleaning.

If the carpet must be cleaned at home, first beat it thoroughly, and if you have a vacuum cleaner go over it with that. Then make a wad of cotton about the size of an apple. Cover it with linen and go over the carpet with this dipped in a 5 per cent benzine soap solution. If the colors are dulled, sponge it in a weak acetic acid solution.

Wall Paper.

If your wall paper has cracked you can mend it successfully by cutting the pattern from that which was left over and fitting it over the crack and pasting it firmly.

The Growler.

Nobody loves a rag chewer. A tooth hasn't a friend in the world.—Littell's Magazine.

The Better Condition.

He is happy whose circumstances suit his temper; but he is more excellent who can suit his temper to any circumstances.—Hare.

Close Race Indicated.

A scientist predicts that the end of the earth will be glacial. In other words, the coal trust will outlive the ice trust.—Greenville (S. C.) Piedmont.

1922 DeLaval Price Reductions

Effective September 1, 1921

To stimulate the production of milk and butter-fat, which promises to be exceptionally profitable during the fall and winter months, The De Laval Company will give all buyers of its milkers and separators the benefit of 1622 reduced prices from September 1, 1921.

Allowing for increased capacity and other improvements made meanwhile, De Laval cream separator prices are now reduced practically to the pre-war level, notwithstanding labor and material costs are still 50 per cent higher.

The De Laval Separator is better than ever. It skims closer, turns easier, and lasts longer. In pounds of butter-fat it costs less than ever before. Enough butter-fat is being wasted yearly by inefficient skimming devices to pay for the entire output of the De Laval factory. You may be paying for a De Laval separator but not getting it by continuing to use a "cream robber."

With the continued relatively high prices for dairy products, abundant and cheap supplies of feed, the market value of crops may be doubled by feeding them to good dairy cows.

The surest way to a continuing cash income and certain profits is through the dairy cow and the use of De Laval milkers and separators.
