ERED VICIOUS

In a letter sent out by the New York section of the Society of American Foresters the tax paying put. lic is called upon to help in killing one of the most serious attacks which has yet been made on the conservation movement in this country." The attack referred to is the plan to take the forest service out of the Department of Agriculture and put it in the Department of the Interior. Coupled with this is the move to get control of the vast natural resources of Alaska and the whole United

The fight to kill the plan for board control comes just as it is announced that President Harding in company with Secretary Fall will visit the territory next summer. At the offices of the Society of American Foresters word has been received that the American Forestry Association with members in every state has joined the fight to keep the forest service in the Doher school duties, after visiting over partment of Agriculture. Part of the statement sent out in the name of R. C Bryant, of the Yale Forestry School and president of the Society of Amercan Foresters says:

"I am enclosing momorandum relating to the attempt now being made in Congress to put the forest service

in he Department of Interior. "This is one of the most serious at tacks which has yet been made on the conservation movement in this country, and if we are not to lose out, immediae steps must be taken to arouse

"As president of the Society of American Foresters, I am writing each section chairman and also some others asking their help in thwarting the proposed plan.

"I realize that some of the section chieft, because of their conection find it impossible to take any active part in enjoying Christmas vacation at their opposing the proposed legislation. I do feel, however, that it may be practicable for such men to call the attention of friends of the forest service to the vicious legislation which is now before Congress and to suggest to them lines of activity in which they

### PRINCE OF MAGIC, WITH INEXPLICABLE ILLUSIONS TO BEWILDER LOCAL WISE ONES

Irwin, the Magician, to Appear Here Soon-Versatile Entertainment and Baffling Tricks Galore

IRWIN THE MAGICIAN.

to this community in connection with the local lyceum series. His program of illusions is built not only to mystify but to entertain as well. He excels in Irwin, the wizard, the man who mystifies, is bringing his fine entertainment sleight-of-hand work and marvelous tricks of prestidigitation. He keeps his tubes and other rubber goods, are in audiences guessing from the moment he steps on the platform and his illusions a position of realizing that with the follow one another so cleverly that the audience gasps in bewilderment.

Everybody knows it's nearly impossible to beat an entertainment of this produce a higher quality of product kind for genuine all-round enjoyment. It's like going to the circus—the elder folks say they care nothing about it—but when the time comes you'll find them there (they had to bring the children), close up to the front.

Besides the magic, Irwin's program includes impersonations, sketches, pantomime, acting and comedy. His program is divided into two parts-one magic and the other impersonations. He is equally proficient in each.

Will appear at the Auditorium, Tawas City, Monday, necessary to other companies, and Jan. 9th. Admission, adults 50c children 20c. Season tickets for balance of course \$1.25.

That will Train you for a high grade office position in the shortest possible time. Graduates of last year's class already earning \$2000 a year. Best Employment-Department of its kind in Michigan. The number who are using our banking-by-mail service is constantly increasing,

Of course, some make use of this to a greater extent than others. It has proved especially helpful to those who find it inconvenient to visit us during the business day.

We have developed this special service to a point where both deposits and withdrawals can be made with equal facility. Come in and ask, or write us, about our banking-by-mail

Alpena County Savings Bank Alpena, Mich.

MEMBER FEDERAL RESERVE SYSTEM;

BIG FINANCIAL DEAL

H. B. Dewstow & Co., Investr ent Bankers, New York and Det oit, Underwrite \$5,000,000 Wildman Rubber Company Stock.

The Wildman Rubber Company of Bay City announce the underwrit-ing of the balance of its stock of rive million dollars by the wellknown firm, H. B. Dewstow & Co.., investment bankers, of New York and Detroit.

Mr. Dewstow, with several members of his organization, has spent some time in Bay City going over the company's property, and after a careful survey of conditions, management and prospects, and considering the advantages this company will enjoy over other cities in the manufacture of tires, tubes and rubber goods, expressed himself as being decidedly confident that every condition exists for a successful and profitable future

for the Wildman interests.

At Bay City, the Wildman Rubber Company has the advantage of an unlimited supply of free water for the minimum expense of pumping; it has very low cost of electric power, with ideal labor conditions and unexcolled production facilities, together with a location near the very heart of the world's greatest automobile center and still far enough away to be unaffected by the crowded labor conditions of that section. With all these conditions ideally fit for the production of high grade goods, the Wildman Rubber Company will, in his opinion, be able to compete successfully with the older companies in this line of production.

more modern machinery they can costly machinery now used-though almost obsolete-for the more modern and efficient machinery, is a step which they hesitate to take. The Wildman Rubber Company will enjoy this saving and can assure better quality production without assuming the loss therefore will get away to a flying start which will undoubtedly distance many competitors.

Coupled with the foregoing conditions, is the fact that the Wildman been the dream of the tire industry from its beginning. A tube that will contain air, after being pierced many hundreds of times by nails and other sharp instruments of tire torture. A tube that has the resiliency of any other tube on the market, and yet retains the air despite the puncture, and reduces blow-outs to the minimum.

"The first though in my mind," said Mr. Dewstow, upon viewing this tube and its wonderful possibilities, "was: when can I get these tubes as equipment on my own cars. That thought occuring to me was an argument that could not be gainsaid, because I realized that if I was sold on this tube upon first seeing it, the same would be the case with a tremendous percentage of the automobile owners of the country, which means one of the fundamentals of successful business,

namely: DEMAND." The underwriting of the Wildman Company's stock means the early completion of its plant in Bay City; it also means that the company will have ample working capital to operate the plant at full capacity.

The officers of the Wildman Rubber Company are: President, W. W. Wild-

man, formerly president and general manager of the Portage Rubber Co., Akron, Ohio; vice-president, C. A. Akron, Ohio; vice-president, C. A. Brownell, formerly advertising and publicity director of the Ford Motor Co., Detroit, Mich.; secretary, Jas. C. McCabe, formerly business manager of the Bay City Tribune and secretary of the Bay City Board of Commerce; treasurer, C. R. Twynham, formerly associated with the B. F. Goodrich Co., the Goodyear Tire & Rubber Co., and the Portage Rubber Co., all of Akron, Ohio; attorney, H. P. Orr, attorney for the Michigan Finance Corporation, director of the Michigan

poration, director of the Michigan Employers' Casualty Company.

C. A. Brownell, vice-president of the Wildman Rubber Company, who for ten years was advertising and publicity director of the Ford Motor Co., said: "Now that the financing of our company is assured the officers are going to devote their time to estab-lishing agencies for our tires and tubes. We have already secured hundreds of the leading dealers of the United States to handle our products exclusively and the list is growing very rapidly. I have every reason to believe that when our plant begins operations we shall have sold our entire output and will be obliged to tire output and will be obliged to make plans for enlargement. There is no limit to this business and I shall be very much disappointed if ours is not one of the five largest tire plants in the world within five years. The first year I was associated with the Ford Motor Co., (the eighth year of its existence) the sales amounted to about \$15,000.000. I saw the business grow to \$750,000,000 per annum in ten years. It is my belief that the sales years. It is my belief that the sales of the Wildman Rubber Company in its second year will be at least \$15,-000,000 or as much as the Ford Motor Co. could show after eight years. We have the management, the product, the sales organization and the finances which are necessary to every successful industry.

Water and Electricity.

The bureau of standards says if a stream of water from a hose is thrown upon high tension wires at close range there is confiderable hazard from the possible conduction of electricity by the stream of water back to the men holding the nozzle. If, however, the stream of water be thrown from a distance such that the water breaks up into drops before coming in contact with the electrical conductors, there is little danger, as such a stream of water is nonconducting.

No Dividend. Fear pays no dividends.-Forbes

Tawas City, Mich.

# ANNOUNCEMENT!

We take pleasure in announcing that the balance of our stock of five million dollars has been underwritten by H. B. Dewstow & Co., investment bankers, of New York and Detroit.

This guarantees the early completion of our large and modern plant in Bay City---it also means that we will have ample working capital to operate the factory to full capacity.

We will now direct all energies to the perfecting of the organization which will handle the output of our big factory---2500 motor car tires and 5000 inner tubes daily (including the Wildman Self-Sealing Tube.) Leading dealers everywhere are contracting to handle our product, and we confidently expect that The Wildman Rubber Company will be a "going concern," making money for its stockholders, from the moment the factory opens for work,

THE WILDMAN RUBBER CO.
