## The End of a Perfect Day

### TAWAS CITY SCHOOLS

One of the cleanest and speediest basket ball games of the season was played on the Arthur Hill floor in Saginaw last Friday evening, when the Tawas City girls defeated the Arthur Hill girls 44 to 37. At the request of the Saginaw girls the game was played in quarters.

About one minute after the opening whistle the first basket was thrown by Burgeson. This seemed to be an incentive to Arthur Hill to get busy, and get busy they did with the result that at the end of the first half the score stood 25-15 in favor of Arthur Hill. By this time our girls had become accustomed to the floor and in the second half they showed the speed that the "hay shakers" (according to Arthur Hill) could develop. Their skill at passing and guarding kept the ball in our lines most of the time and L. Burgeson basketed it "at leisure." R. King's foul throws were a feature of the game, securing six out of seven throws.

One noticeable feature of the crowd was that when the yell leader said "yell," everybody in the crowd "yelled" whether they were in school or out of school.

When the victorious team returned they were met by a large crowd and a brass band—in the form of cowbells—showing that the town is back of them in all their efforts.

We have two dates open and will take on any team in the state. Tawas girls have won 9 straight games and scored 290 points to 118 for their opponents.

### FINAL NOTICE

As usual at this season of the year, we would request that all those owing us accounts call and settle, either by cash or bankable paper. It is very important that this be done in order that we may not be compelled to place the accounts for collection. Please attend to same at once.

### UNSPORTSMANLIKE

It is greatly to be regretted that a high school team ostensibly organized for clean sport should use the indefensible tactics used by the West Branch high school basket ball teams which played here on Jan. 20, and it is still more regrettable that they should publish such a garbled report of the games as appeared in the West Branch Herald-Times last week. That those who witnessed these games may judge for themselves as to the truth thereof, we reprint that part of the account referring to the girls' game, the game over which the dispute arose:

The Tawas City boys and girls had evidently decided to forget past differences and if the games could have passed off smoothly, most of the ill feeling between the teams would have disappeared. The Tawas City coach asked the West Branch coach to referee both games and allow Tawas City to pay an outside referee selected by West Branch to handle the games here February 24. It looked queer but we accepted. Girls' game began. West Branch scored. Burgeson scored on an overhead shot. Toffree after being knocked flat by a charging guard passed to Shepley, who scored. Foul on Toffree, running. Burgeson protested a corner decision. Rhea King, Tawas City forward, bumped her nose. Time out for fifteen minutes. Tawas girls demanded an apology from Margaret Miller. Margaret apologized, but admitted she didn't know what for. Apology not accepted.

Substitute found and the game resumed. Foul on Hutchinson, over-guarding. Several other things happened at once. Time out for Tawas City center. Burgeson protested against West Branch style of play. Crowd protested that West Branch is rough. Everybody protested something. The crowd was wonderful. One man even offered to fight any member of the girls' team single handed. Game resumed. Burgeson with the ball above her head gazed long and earnestly at the referee, throw the ball on the floor and walked away. The Tawas City coach took the floor and announced that the game was forfeited to West Branch. Score 2-0.

After the game Supt. Ousterhout protested the girls game on the ground that Elsie Cromer is not eligible under the rules. He threatened to take the matter up with the Department of Public Instruction, the M. I. A. A. and various other places. Then he offered to withdraw all objections if we would declare the game forfeited to Tawas City. If there are any further developments they will be reported in these columns.

It is reported that Prof. Swen barely escaped with his scalp from the onslaught of the frantic Tawas fans.

There are several mis-statements in this account. We are reliably informed that in the matter of a referee West Branch was expected to furnish an outside referee, but Mr. Swen stated that the games were not of sufficient importance to warrant the expense, and he therefore refereed the game himself.

In regard to the statement that Rhea King bumped her nose, those who saw the game state that the "bump" was a straight arm jab from one of the West Branch girls and certainly called for an apology. There were plenty of grounds for protest, not only on this point, but also on many other incidents of the game, which West Branch evidenced a determination to win by fair means or foul.

If one man offered to fight any member of the girls' team single handed it must have been a West Branch man who wished to demonstrate his prowess, as our boys have too much of the gentleman about them to make any such offer. It is true that one Tawas City boy threatened Coach Swen, and those who were present will concur that he richly deserved a trouncing for the rotten decisions he gave in many instances—always in favor of his own team. We do not know whether it was shame, anger or fear that caused him to absent himself from the dancing party that was given after the game. It is certain that he did not increase the respect of Tawas City people for him by his unfair methods.

It is noticeable that nothing was mentioned in the West Branch account of the game regarding the royal manner in which the teams were entertained while here. Oscoda was given due credit for such entertainment, but the fact was not stated that at Tawas City the teams were met at the train by a delegation from the high school, entertained during the day, and after the games, regardless of the ill-feeling engendered, a hall was rented and a dancing party given for the entertainment of the visitors.

### WIDE INTEREST IN DEVELOPMENT BUREAU MEETING

The Northeastern Michigan Development bureau annual meeting and "get-together dinner" to be held in Bay City on Feb. 7, promises to be by far the best attended and most interesting of the many similar gatherings which have been held in Bay City. The number of acceptances to the dinner which are being received show that the members of the organization are alive to the attractions of the program and also to the fact that the bureau is doing a great work for the development of the district.

One of the big features of the day's program, so far as not only North-eastern Michigan but also the Thumb territory is concerned, will be the conference at 4:30 in the afternoon of the East Michigan Tourist association recently organized and the tourist department of the development bureau. The two organizations will cooperate this year in advertising the many attractions of the Huron shore and the lakes, rivers and forests of the north, and they expect that their efforts will bring a steady stream of tourists into east and central Michigan territory during the coming year.

The announcement that rates for ferrying automobiles across the straits at Mackinac have been cut to a little over one-fourth of what has been charged in the past was made last week and is expected to be a material aid in bringing tourists into northern Michigan who also want to make the upper peninsula and who formerly planned their trip by some other route because of the excessive charge for crossing the straits. This change, it is expected, will greatly popularize the Dixie Highway route which follows the Lake Huron shore as well as the route through central Michigan.

**An Extraordinary Story.**  
Two native girl students in an African mission school, awakened by the squawks of excited fowls, found a 15-foot python with its head in the hen-roost. They chopped him in two with an ax. Pa-jama-clad Methodist preachers arrived and investigated the snake's interior to find seven frying-size chickens, a setting hen, and her nine eggs. The eggs, unbroken, were put under another hen, who triumphantly hatched them. Rev. E. H. Richards tells the story and refers to the bishop of Africa as a corroborating witness.

The number who are using our banking-by-mail service is constantly increasing.

Of course, some make use of this to a greater extent than others. It has proved especially helpful to those who find it inconvenient to visit us during the business day.

We have developed this special service to a point where both deposits and withdrawals can be made with equal facility.

Come in and ask, or write us, about our banking-by-mail service.

**Why**  
**Edison Artists are GREATEST**  
OTHER artists may rival Edison artists in concert hall and opera. But never in the home. Their performances lose too much in the reproduction. Edison artists sound on the New Edison, exactly as they sound in actual life. Tests of direct comparison have proved that there is no difference between living performance and RE-CREATED performance. Come in! Compare!

**INCOME TAX FACTS**

In making out his income tax return for 1921 the average taxpayer will find a considerable saving in comparison with the amount of tax paid on the same income for 1920.

The exemptions provided by the revenue act of 1921 are \$1,000 for single persons (the term including widows, widowers, divorcees, and persons separated from husband and wife by mutual agreement), \$2,500 for married persons whose net income was \$5,000 or less, and \$2,000 for married persons whose net income was \$5,000 or more. Under the revenue act of 1918 the personal exemption allowed a married person was \$2,000, regardless of the amount of net income. The personal exemption allowed a married person applies also to the head of a family, man or woman, who supports in one household one or more relatives by blood, marriage or adoption.

The exemption for dependents—a person who receives his chief support from the taxpayer and who is under 18 years of age or incapable of self-support because mentally or physically defective—is increased from \$200 to \$400.

The act requires that a return be filed by every single person whose net income for 1921 was \$1,000 or more, every married person whose net income was \$2,000 or more, and by every person—single or married—whose gross income was \$5,000 or more.

The requirement to file a return of gross income of \$5,000 or more regardless of net income is a new provision. Net income is gross income less certain specified deductions for business expenses, losses, bad debts, etc., which are explained on the forms.

Returns must be filed by married couples whose combined net income for 1921, including that of dependent minor children, equaled or exceeded \$2,000, or if the combined gross income equaled or exceeded \$5,000.

The period for filing returns is from January 1 to March 15, 1922. Heavy penalties are provided for failure or "wilful refusal" to file a return on time. Forms may be secured from the offices of collectors of internal revenue and branch offices.
