Miss Grace Braddock, who is teach-  
ing music and drawing in the schools  
at Sebawaing, came up with the bas-  
ket ball team last Friday and remain-  
ed for a week's visit with her parents,  
Mr. and Mrs. L. H. Braddock.

Edith M. Thomas of the University  
of Michigan extension department will  
address the Twentieth Century club  
on Saturday, April 1, at 2:30 p. m. on  
the subject "Building a Program." This  
lecture is free to the public.

prizes in the Red Wing flour selling  
contest put on by the Wilson Grain  
Co. recently, receiving \$50 for his  
efforts. Walter Schlechte won both  
second prizes and Charles Rouiller  
both third prizes, Walter receiving  
\$30 and Charles \$20.

Upon invitation of Mrs. C. T. Pres-  
cott a number of ladies gathered at  
her home last Saturday evening, the  
occasion being a kitchen shower for  
Mrs. J. F. McCrum. The evening was  
spent with cards and music and at a  
late hour an appetizing lunch was  
served. All present enjoyed a very  
pleasant evening.

A number of the little friends of  
Ila McCormick gathered at the home  
of her grandmother, Mrs. Alec Mc-  
Cormick, last Saturday afternoon to  
assist Ila in celebrating her birthday.  
The little folks enjoyed themselves  
playing games and a delicious lunch

membrances of the occasion.

Dr. C. F. Klump of East Tawas  
has rented the rooms over the C. H.  
Prescott & Sons offices and will open  
an office for the practice of his pro-  
fession of dentistry at an early date.  
Dr. Klump is a skillful man in his pro-  
fession and Tawas City is fortunate in  
having him establish an office here.  
Dr. Klump expects to be established  
and ready for business by April 15.

Louis Roe, residing near South  
Branch, was convicted in Justice  
Davidson's court last week of violat-  
ing the truancy law by not sending his  
children to school. He was sen-  
tenced to ten days in the county jail  
and he is now serving his sentence.  
Many people forget that the truancy  
law has teeth and that they are liable  
to fine or imprisonment for its viola-  
tion. The conviction of Mr. Roe may  
act as a lesson to others who think  
they can violate the law with impun-  
ity. If the parents themselves do not  
wish to do justice to their children by  
assuring their regular attendance at  
school, then the law steps in and says  
"Must" and they obey or take the con-  
sequences.

sented.

The volunteer fire department was  
called out last Sunday morning to  
put out a blaze at the W. A. Evans  
Furniture Co. store in this city. The  
fire had evidently been started by  
some person throwing a lighted match  
or a cigarette into the dry grass  
alongside the building, which caught  
fire and the blaze crept under the  
side of the building. It was extinguish-  
ed without any damage other than the  
tearing of a few boards off the side of  
the building.

At the fire last Sunday the firemen  
were greatly hindered in getting their  
apparatus into position by the fact  
that a number of automobiles got in  
the way of the fire engine. This is  
the second time that the fire ladders  
have been hindered in this way dur-  
ing the last year and warning is given  
that hereafter any automobiles get-  
ting in the path of the fire engine will  
do so at their own risk of damage.  
The fire department has the right of  
way and every effort should be made  
to assist instead of hindering them.  
The engine is heavy enough to do con-  
siderable damage if it hits an auto-  
mobile and hereafter the driver will  
not hesitate to go ahead regardless  
of obstructing cars.

## All Indications Point to Normal

### GIRLS' N. E. MICHIGAN CHAM- PIONSHIP

Saturday evening, April 1, will be  
a big night in Tawas City, for upon  
that evening Onaway high school  
basket ball girls will play Tawas City  
high school girls. These teams have  
each defeated the other once, and the  
outcome of the game Saturday night  
will be the "proof of the pudding."  
Onaway is the only team which has  
given our girls defeat, and as each  
team is confident of success the game  
is sure to cause some excitement.

The Onaway and Tawas girls are  
mutual in their admiration for each  
other, the girls of each team having  
stated that nowhere on their trips  
were they treated better than at the  
respective towns of Tawas and Ona-  
way.

The Tawas City girls' team has the  
best claim to the state championship  
of any team in the state, the only  
other team of importance in central  
Michigan being Saginaw Eastern, but  
as regards them, C. C. McGeath, Y.  
M. C. A. secretary of Lapeer, who has  
referred for both Saginaw Eastern  
and Tawas City, stated that in case  
the former should accept the chal-  
lenge of Tawas City, which has been  
open since November, Saginaw could  
be easily eliminated from the race.  
Tawas City girls have won fifteen  
games, the following teams having  
met defeat at the hands of the Tawas  
City lassies: Saginaw Arthur Hill,  
Oscoda, Alpena, Rogers City, Onaway,  
Standish, Sterling, Grayling and Se-  
bawaing. The total scores for Tawas  
City girls is 539 against 197 for their  
opponents.

When the Sebawaing girls, cham-  
pions of the Thumb, went down to de-  
feat in a score of 59 to 11 last Friday  
night on the local floor, the game was  
witnessed by about 400 people.

### A CORRECTION REGARDING THE D. & M. BASEBALL LEAGUE

In one of the last issues of the East  
Tawas Gazette there was an article  
stating that there had been a meeting  
of the board of directors of the D. &  
M. League for the purpose of reor-  
ganizing for the season of 1922.

I wish to correct this statement, as  
only a part of the directors were no-  
tified, which, according to the by-laws  
and constitution of the league, makes  
the meeting illegal.

I also wish to correct the statement  
that the Hemlock and Hale teams  
had decided to withdraw from the  
league on account of not being able  
to finance their teams. The Hemlock  
team paid all their expenses last year  
and had a balance in the treasury.

In my opinion the Hale team gave  
a little too much competition for  
some of them, and also that East  
Tawas would like to secure the ser-  
vices of one of the star pitchers of  
the league who I am proud to say  
belongs to the Hemlock team.

I don't care about getting into an  
argument about this matter, but I  
would like to see the plain facts of the  
case printed.  
Signed,  
Waldo I. Curry.

### TAWAS CITY SCHOOLS

There will be a game next Satur-  
day evening between the Tawas City  
girls' basket ball team and the Ona-  
way girls' team in order to determine  
the champions of Northeastern Mich-  
igan. This will be the last game of  
the season for the girls, unless some  
other state championship contender  
wishes to sign up a game in order to  
clear the ownership of the state title.

The Tawas City boys' team defeat-  
ed East Tawas boys' team in basket  
ball last Friday. If the Tawas City  
boys defeat the East Tawas boys next  
Friday they will be the owners of the  
county championship title.

The Tawas City girls' basket ball  
team defeated Sebawaing, champions  
of the Thumb district, by a score of  
57 to 11 last Friday evening. This is  
the 14th game our girls have won  
this season.

(The following theme written by one  
of our students, although addressed  
particularly to the school board, is  
surely of interest to all.)

### To Our School Board

Consolidation of schools has long  
been a question of financial, educa-  
tional and social advantages. Is it  
more convenient to have a consoli-  
dated school?

The financial point of consolidation  
can soon be solved. The building,  
transportation and general equip-  
ment would be the great expense. It  
would not pay to put up a building  
without a gymnasium or playground.  
While you are at it put up something  
worth your efforts. The teachers come  
under this part, and they are most  
essential for better school conditions.  
You would not need as many teachers  
as are ordinarily employed in one  
county. The consolidated school de-  
creases the cost of teachers for one  
county, and still every pupil have the  
same advantage for higher education.

Transportation can be solved, be-  
cause the state helps in securing buses  
for the conveyance of pupils to the  
school. A schedule could be arranged  
for the buses, and it could be regu-  
lated so that every pupil would be  
accommodated.

The community life would be bet-  
tered by the presence of a consoli-  
dated school. If the building had an  
auditorium nearly every meeting  
could be held there, be it club, or  
entertainment, or community meeting.  
The citizens would appreciate the  
idea if they found it could be used  
for the get-together-and-talk-things-  
over affairs. It would give the com-  
munity a broader idea on what it  
means to co-operate, and co-operation

### TEACHERS' EXAMINATION

Teachers' examination will be held  
at Tawas City April 27, 28, 29. The  
questions for reading will be based  
on bulletin No. 4 and "The Vision of  
Sir Launfal" by Lowell. Some ques-  
tions in other subjects will be based  
on the Reading Circle books and on  
bulletins No. 10 and No. 30.

Commissioner.

### MRS. REBECCA JOHNSON

Mrs. Rebecca Johnson, wife of Rev.  
H. J. Johnson of Morrice, Mich., died  
at the Methodist parsonage there  
after a ten days illness of pneumonia.  
Rev. and Mrs. Johnson were residents  
of East Tawas twenty-five years ago,  
when Mr. Johnson was pastor of the  
Methodist church, and the older resi-  
dents of the Tawasites will remember  
and sympathize with the family in  
their bereavement.

Besides the husband, three children  
are left: Rev. Ernest Johnson of New  
York, Thomas E. Johnson, state su-  
perintendent of public instruction, Lan-  
sing, and Mrs. Goll of Clinton, Mich.

Funeral services were held Satur-  
day morning, Rev. Dimond of Flint  
in charge. Interment was made in the  
Morrice cemetery.

Mr. Johnson has held some import-  
ant charges in the ministry and be-  
cause of failing health wished to re-  
tire from active service last year. He  
was prevailed upon, however, to ac-  
cept the charge at Morrice, where his  
work would be comparatively light  
and he would be near his son at Lan-  
sing.

### NOTICE

### To Patrons of Tawas City School and Schools in the Immediate Vicinity

Much has been said in regard to  
consolidated schools and rural agricul-  
tural schools, in fact the legisla-  
ture has proposed laws for the en-  
forcement of same. However, it is  
true that we have laws that provide  
for the consolidation of three or more  
schools in order that work may be  
done more efficiently, economically,  
and at the same time to give a great-  
er variety in subjects to be chosen  
by the pupils involved.

In order that the patrons of Tawas  
City and schools that might be inter-  
ested in consolidation, how to secure  
state aid and some of the more com-  
plex questions involved in this line of  
higher education, Mr. Rinehart from  
the office of superintendent of public  
instruction will meet with the inter-  
ested patrons on Wednesday, April 5,  
1922. It cannot be emphasized too  
strongly that everyone should be present.  
Meeting will be called for 8:00 p. m.  
at the Tawas City high school  
building. Travers Ousterhout.

Advance fees for live stock grazing

culture has waived this provision,  
and payments may be made in two  
equal installments: One half will be

Nationally Known Lecturer to Be Star Number of Local Lyceum Series

WIRT LOWTHER.

When you think of Wirt Lowther, you think of "The Man Who Delivers the Goods"—always—for this noted lecturer and his equally famous lecture are both exceedingly well known. The lecture, "The Art of Seeing Things," is a classic of the platform. The speaker is one of the most popular lecturers now in lyceum work.

Dr. Lowther is a brilliant thinker, beautiful word painter, eloquent and inspiring in the highest degree. No one on the lecture platform is more often recalled to the same town again and again, as his record shows. As a means of uplift, inspiration, entertainment and pure delight, his lectures leave nothing to be desired.

It is felt that Dr. Lowther's visit here will be an outstanding feature of this year's lyceum course.

**WHEN SELF-LOVE IS WOUNDED**

Then is Called Into Play the Ugliest of All Human Passions, That of Jealousy.

Jealousy is the ugliest of all human passions—and the one which makes the greatest misery in the world. It is the outcome of egotism, the twin sister of vanity, and its brood are all the sorrows of the human race.

But what is jealousy when analyzed?

It is the bitterness which arises either when someone else possesses that which we desire and cannot obtain, or the fear that what we possess may be taken from us by another. The very fact of our feeling fear shows that we know this other possesses a power stronger than our own—and this is a reflection upon our personal merit, and therefore a wound to our self-love, says Ellen Glyn in the London Times.

Men and women are jealous when another approaches one they love—their natural egotism is wounded by the inference that this other has not realized their own worth, and dares to dispute their sway—jealousy being roused to fury should the one they love respond to alien glances, because the wound to self-love is deeper still in that case, and the poison sinks into the very being.

But jealousy between the sexes is a more pardonable fault than any other form of the virus, because it goes back to the instinct of self-preservation and, in the broader sense, race-preservation, and although its indulgence produces misery and crime, its origin is not altogether base or wholly egotistical.

**"ANGEL" WANTED THE MONEY**

Evidently Backer of Show Was Tired of Its Making Nothing but Good Impressions.

The manager of a burlesque show told the following incident of his theatrical career:

"Fifteen years ago a certain Chicago 'angel' staked me to a small repertory show, instructing me to make one-night stands in Kansas. Our show was terrible, indeed, but finally we left Chicago.

"Our first stop was Topeka. After the night's performance I sent a telegram to my 'angel,' saying: 'Topeka receipts \$92.50. Made a good impression here.'

"The next night we played in Hutchinson. After the show I wired: 'Hutchinson receipts \$82.50. Made a splendid impression here.'

"The next night found our troupe in Chanute. My telegram that night read: 'Chanute receipts \$21. Made a wonderful impression here.'

"Several hours later I was at the Chanute depot with my troupers when the telegraph operator handed me a telegram. It was from my 'angel.' The message said: 'Make one more impression—then come home.'

Women were called in to aid the National Council of England, the predecessor of the House of Lords, as long ago as 670.

**PRIZE FOR BRITISH MUSEUM**

Institute Presented by Sir Rider Haggard With Ring Taken From Peruvian Mummy.

A ring with a romantic history has recently been presented to the British museum by Sir Rider Haggard. He first saw it 57 years ago, attached to the watch chain of the headmaster of his preparatory school, who had received it from a friend who had traveled much in America. The friend's story was that while traveling in Peru he had opened a gravestone in which he found a stone table with 13 mummified figures seated round it. On the finger of the principal figure was this ring, which the discoverer withdrew; and the bodies, according to his story, crumbled into dust.

It was the legend attached to this ring which, according to Sir Rider Haggard, first turned his imagination toward the invention of stories of adventure; and readers of "King Solomon's Mines" will recognize in it the origin of a striking episode in that book. Fifty-five years after he first saw the ring it still remained vividly in Sir Rider Haggard's memory, and he described its appearance in a story which is now on the eve of publication. Shortly after he had done so, he chanced to renew acquaintance with his former schoolmaster's family, and made inquiries about the ring, of which he eventually became the possessor, and he has now given it to the British museum.

**FISH THAT SWALLOW STONES**

Antarctic Seals and a Certain Species of Whale Need Them to Aid in Digestion.

Stones are commonly found in the stomach of the crab-eating seal of the Antarctic seas; and it is believed they, with a certain amount of grit, are scooped up with the crustacea from the bottom of the sea. The emperor penguin, on the other hand, shows an instinctive craving for stones for gizzard-grinding purposes, and these stones must be assiduously sought, since these birds never rest upon dry land, but only upon ice.

Another unexpected name in this list of stone-swallowers is that of the Lesser Rorqual. This is a "baleen" whale, feeding upon minute crustacea, and fish. From the peculiar method of feeding which is, so to speak, forced upon this animal, it is unlikely that any portion of its food is scooped up from the sea-floor; hence the pebbles found in its stomach must be deliberately swallowed, and it is supposed, for the purpose of digestion, or, rather, of trituration. They are hardly likely to be derived from the fish which are engulfed, for these are mostly herring.

In the Pilgrim's Road. We may fall a thousand times; but as long as we are ashamed of our failure, as long as we do not helplessly acquiesce, as long as we do not try to comfort ourselves for it by a careful parade of our other virtues, we are in the pilgrim's road.—Arthur Christopher Benson.

**STATE POLICE ARE SELF SUPPORTING REPORT SHOWS**

**TOTAL OF FINES, FEES AND COVERED GOODS GREATER THAN FORCE'S EXPENSE.**

**REPORT FOR SEVEN MONTHS**

During the seven months from July 1, 1921 to January 31, 1922, the Department of Public Safety, which includes the Michigan State Police, brought into the treasury of the State of Michigan a very large revenue, this money thus raised through the activities of the department equalling a very large proportion of the salaries and expenses paid to its officials and employees.

If the recoveries of stolen automobiles and stolen goods be added, the Department of Public Safety more than returned the expenditures of the state for its maintenance.

The total appropriation for the Department for the year is \$350,000. In seven months the department turned in to the treasury \$75,367.90 from oil inspection fees, \$7,140 from other inspection fees and \$547 from permit fees. In addition there was turned in from the sales of materials and confiscated liquors the sum of \$6,115.74. This makes a total of \$89,170.64 in cash turned into the state treasury.

In addition the department recovered and returned to owners automobiles valued at \$57,000 and other stolen goods valued at \$47,000—a total of \$104,000. Fines in criminal cases resulting from the work of the state police amounted to \$15,705.70 and costs in these cases were \$3,536.91.

Add all of these items together brings a total of \$212,413.25, which more than offsets the appropriation for the seven months.

During this time the state police made 1,673 investigations, gave assistance to local officers in 983 cases, gave assistance to the public in 872 cases, gave assistance in 347 automobile accidents, extinguished 34 fires, gave first aid in 11 cases, seized 102 pieces of gambling apparatus and 23,962 gallons of liquor and mash and performed services in behalf of practically all state institutions.

During February the Department of Public Safety turned over \$6,734 in inspection fees. Fines in connection with the 131 arrests made by the state police amounted to \$4,905 and costs to \$473. Liquor totalling 4,348 gallons was confiscated. There were 932 cases of assistance rendered to officials and to the public.

**STATE POLICE GUARD UNCLE SAM'S MONEY**

Owing to the great amount of money coming into the internal revenue office in Detroit during the middle of March, Collector Fred L. Woodworth asked Colonel Roy C. Vandercook, commissioner of the Department of Public Safety, for an armed guard to protect the office. His request was granted and men from the Michigan State Police safeguarded the receipts during the rush days. Many millions of dollars a day come into the internal revenue office at this time and while most of this is the form of checks, a fortune in currency also is taken in. This made the precaution advisable.

Before asking for the state police guard, Collector Woodworth had asked the war department to furnish a squad of soldiers from Fort Wayne but the army officials did not think this good policy.

State police have guarded the Detroit federal building at other times, notably during the trials of German spies and during roundups of foreign radicals.

**ARSONIST ARRESTED IN CASE TWO YEARS OLD**

Francis J. Miller, dealer in second-hand automobiles at Jackson, was recently arrested by state police on a charge of being implicated in the burning of the race track grandstand at Jackson two years ago. Automobiles belonging to Miller were stored in the building. Patient following up of the case by the state police resulted in accumulating evidence sufficient to bring the case to court.

Several other mysterious arson cases have recently been solved in like manner by state police effort and patience. During the slump in trade there was a temptation to realize on goods through fire insurance rather than merchandising. Ultimately the cost of such crimes fell on the people of the whole state through increased cost of fire insurance premiums.

**TROOPER ON HANDCAR CAPTURES FUGITIVE**

Convict J. Gentry, an inmate of Marquette prison but employed on work outside the walls of the institution, took advantage of the trust placed in him to escape. Immediately the force of state police which has been stationed at the prison set out in pursuit. Trooper Bowen used a handcar on the railroad as a means of following Gentry and captured the escaped convict before the latter had gotten ten miles away.

**TO OUR SCHOOL BOARD**

(Continued from page 1)

is essential in every community which strives to better itself.

Have you ever thought of bettering the moral condition of the boys or girls who come to school? A high school education is always encouraged, but where a pupil has to be sent away to school so he can secure this education, it tends to weaken the moral. Just at the stage of development the boy and girl need the parents' constant care. This will be attained if he, or she, can attend a consolidated school. The student can come to his home every evening and secure the encouragement and sympathy from his parents, who understand best his needs. This student is not going on the downward path, but rather strengthens his ideals in every way.

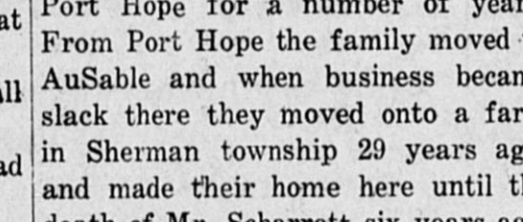

The State Normal Bulletin gives eight good, reasonable, educational advantages of a consolidated school. 1. A consolidated school will be much better graded and organized. 2. The social stimulus necessary for the best instruction is provided. 3. Better teachers can be employed. 4. This is practically the only way, at present, for a high school education in the country. 5. The vocational element could be provided for. 6. It is much easier to secure expert supervision where the schools are consolidated. 7. In such a school it is possible to have a complete modern equipment. 8. It may be said to have advantages and privileges of the best city school.

We think that this consolidated system would show itself to the best advantage in Tawas City.

**Green Cloud Over Coral Island.**

It would be difficult for sailors to locate the low-lying coral islands, or atolls, of the Pacific but for the fact that over each of them there generally hangs a cloud of a characteristic green hue. After one of these green "atoll clouds" has been seen, the phenomenon is always easily recognized. The cloud is due to moisture evaporated from the warm water of the shallow lagoon. The smooth surface of the lagoon acts as a mirror and throws a greenish reflection on the cloud.

**LAND CONTRACTS TO BE TAXED**

When in 1911 the legislature passed the law placing all mortgages and land contracts under a specific tax to be paid when recorded, it was thought that the small tax, 1/4 of one per cent would induce all holders of such securities to pay the tax without attempt at evasion.

With mortgages this has been true, but holders of land contracts seldom record same and they have therefore evaded the tax. Now the state tax commission has instructed all assessing officers to place land contracts on which the specific tax has not been paid, on the general assessment roll of their district, whereby they will pay the same rate of taxation as all other property. The state tax commission also has its own men looking up these unrecorded papers and the expectation is that a large amount will be added to the taxable property of the state in this manner.

It is incumbent upon all those who hold land contracts to pay the specific tax at once if they wish to escape having their contracts put upon the general tax roll, when they would pay a much higher tax.
