SPORTSMEN'S BANQUET WINS UNSTINTED PRAISE

It was a jolly crowd that gathered at the Auditorium in Oscoda last Friday evening to partake of the excellent repast and enjoy the program provided for the first annual banquet of the Tri-County Sportsmen's club. About three hundred men sat down to the tables and all parts of the district were well represented. A special train was run from the Tawas and carried about forty from Tawas City and about one hundred from East Tawas. There was also a generous representation from Hale, two or three auto loads driving across the plains to be present.

The Auditorium was appropriately decorated for the occasion with evergreen and various sporting paraphernalia such as guns, fishing rods, deer heads, snow shoes, etc.

The people of Oscoda are royal entertainers and the banquet and program equalled if not surpassed anything that has been given in this part of the state this winter. James McGillivray as toastmaster, moving picture machine operator and all around master of ceremonies deserves great credit, as the program was full of zest and snap that left not one dull moment during the evening.

During the banquet a number of musical and vocal numbers were given, some of the latter having a local application to Iosco county sportsmen and causing much merriment.

Following the banquet a short business session was held, at which the temporary officers chosen at the organization of the club were confirmed, and one or two resolutions adopted.

The place for holding the next annual banquet was also selected, East Tawas securing that honor. Our sister city certainly deserved the honor, for it is doubtful whether any other section of the district was better prepared.

Remington Portable

THE Remington Portable is a capable, companionable, individual typewriter, built for the use of the man in his business or profession, the woman in her home, the child attending school—in fact for every man, woman and child who writes.

It is the most compact of all writing machines. Fits in a case only four inches high. Like every Remington, it is strong, speedy, durable and turns out beautiful work.

—and mark this: It has the Standard Writing Key-board with which you are familiar—no shifting for figures. Small as it is, the operation of a Remington Portable is exactly like writing on a Standard machine. Just as easy, just as swift, just as simple.

U. S. FOREST SERVICE NOTES

With the opening of spring weather the officials of the Michigan National Forest are starting their operations. Ranger Ralph H. Johnson is already established at the Silver Creek ranger station on the Tawas district and is organizing his crews for the summer work. The first thing on the program for Mr. Johnson will be the opening of the various roads that extend through his district. The sleet storms during February and March raised havoc with the trees on the Forest and naturally all roads are blocked considerably with fallen branches.

Forest Guard Roy A. Wood resumed his work with the Forest service on April 10 and will be established on the Tawas district under Ranger Johnson. Ranger Bennett S. Azer, who has been employed on the Superior national forest in Minnesota on reconnaissance work during the past winter returned to the Forest on April 1. Ranger Azer is at present in the supervisor's office preparing to leave for Mio in the near future to take up his duties as district ranger in charge of the Mio district. Forest Guard Victor W. Johnson will be assistant to Ranger Azer during the coming summer.

Fred A. Wolchen, who has been employed as ranger on the Superior national forest in Minnesota, will take charge of the Marquette district on the Michigan National Forest in the upper peninsula on the 17th of this month. Mr. Wolchen has had considerable experience in both the United States and state forest service of Minnesota and comes very well recommended.

George A. Lake is again in charge of the Beal nursery and has already started operations toward planting Norway pine seed, transplanting seedling stock and cleaning up the nursery preparatory to a very heavy season.

All the rangers on the Forest are busy at this time inspecting and overhauling lookout towers, telephone lines and fire fighting tools to be ready for any emergency that might arise. During the summer of 1921 the driest season for the past fifty years was experienced. Naturally many severe fires occurred. It is hoped that all people traveling over the Forest and all camping and fishing parties will use the utmost care in seeing that their camp fires are extinguished before leaving and that the utmost care is used with matches and smoking material.

R. G. Schreck, Supervisor.

SIXTY-FIVE YEARS IN GOVERNMENT SERVICE

With a break of two weeks the remarkable total of 65 consecutive years in the government service was ended by death recently of Henry J. Wylie, retired civilian employee of the quartermaster department of the Marine corps. Mr. Wylie enlisted in the 49th Massachusetts infantry in 1861 from his native residence, Pittsfield, Mass. He left the Union army in 1863 with the rank of regimental sergeant-major. In the two assaults on Fort Hudson, La., his regiment lost 1300 men.

Two weeks after leaving the army he was appointed to a clerkship in the Washington navy yard and in an unbroken stretch of 63 years on active duty served a total of 45 years in the quartermaster department of the Marine corps, acting as chief clerk for 13 years. In this capacity he administered the oath of office to five commandants of the Marine corps: Generals Heywood, Elliott, Bidde, Barnett and Lejonne. On the occasion of his funeral many distinguished officers of the service attended, headed by the present commandant of the Marine corps, Major General John A. Lejonne.

PRICES FOR LABOR ON ROADS GRADUALLY DECREASING

Labor prices for road work still continue gradually to decline, according to figures collected by bureau of public roads of the United States Department of Agriculture from road jobs all over the country. Prices paid for common labor in February decreased slightly more than one cent per hour below those paid in January, the average prices for the whole country being 29 and 23 cents an hour, respectively, in the two months. Prices paid for skilled labor also showed a general decline.

In February the price of common labor ranged from 13 to 20 cents an hour in the southern states, 23 to 30 cents an hour in the middle western states, and around 45 cents an hour in the Pacific states. The prices of teams without drivers ranged from 24 to 42 cents an hour.

TEACHERS' EXAMINATION

Teachers' examination will be held at Tawas City April 27, 28, 29. The questions for reading will be based on bulletin No. 4 and "The Vision of Sir Lammfal," by Lowell. Some questions in other subjects will be based on the Reading Circle books and on bulletins No. 10 and No. 30.

SPORTSMEN'S BANQUET
(Continued from page 1)

sented, and the East Tawas contingent was conspicuous by the pep they evidenced with their Kanotin club yells and songs.

The toastmaster then introduced the president, C. W. Luce, who in a few well chosen words thanked the club for the honor conferred upon him and pledged his best efforts toward the ends to which the club is working.

T. F. Marston of Bay City, secretary of the Northeastern Michigan Development bureau and a member of the state conservation commission, paid tribute to the spirit of sportsmanship and the cooperation shown by the people of this section of the state, and stated that the commission is ready to work with any organization having for its object the preservation of our forests and streams as playgrounds and means of recreation for the people of the state and the thousands of tourists who annually visit this region.

A number of other speakers voiced the spirit of true sportsmanship, among whom were Herman Lundeen of Gaylord, R. G. Shreck of East Tawas, supervisor of the Michigan National Forest, Mr. Hunt, president of the Chase Benjamin club of Alpena, Wm. H. Leroy and R. H. Raeburn, also of Alpena.

One of the pleasing features of the program was the duet by the Two McLeans, cornetists, father and son, the latter a tot of about four years, who played second to his father's lead in a most creditable manner and elicited uproarious applause.

The concluding features of the program were a number of moving pictures of outdoor life and sport scenes shown and explained by Mr. McGillivray. The first was "Bill King, the Big King," which showed Mr. King's cabin home near one of our northern Michigan lakes and the manner in which he has tamed the wild grouse to know him as their friend and even to eat from his hand. In this picture Mr. McGillivray figured as the guest to whom Mr. King was showing his feathered pets. Other reels shown were "From Roe to Creel," a visualization of the process by which trout are produced in the fish hatcheries of this state and the sport of catching them from the streams; "Prizma Deer Hunt" was a picture of a deer hunt in the wilds of New York state, showing the hunters stalking the game and the final successful shot. Other pictures showed game animals both in their wild state and tamed by man to be household pets, and all taught by implication the lesson of true sportsmanship.

Beneficial to Your Rugs

The Hartford Carpet Corporation say: "We believe that the cleaning of a Hartford-Saxony rug with your cleaner is really beneficial. It seems to liven up the fabric and clean it of the grit and dirt, thus taking out the element that tends to cut the threads and wear out the carpet if allowed to remain in the goods."

The American Rug and Carpet Company of Chicago write "As dealers in fine imported Chenille, Oriental and Domestic Rugs we realize the value of thorough cleaning and a thorough cleaning of them adds to their life and beauty, and in our search for a practical cleaning device which will thoroughly clean and at the same time not injure the fabric, we have selected the Hoover Suction Sweeper."
