SOME MERIT IN SUGGESTION

World Would Certainly Be More Colorful if Woman Would Dress as This Article Desires.

"If some women are so anxious to dress like men why don't they imitate and age than the present one?" asked an elderly artist the other day.

the existent garb for man and then he the while to what he is really doing. recalled the silken dandies of Shakespeare's day.

lars that the women flaunt set me crazy, let alone the cuffs and tortoise to greatness. shell glasses, and now I even hear they're thinking of wearing bloomers they would find opportunity waiting and trousers.

"Well, let them revive the fashions of old when a tailor knew how to dress and prosperity. a man. Let them wear the silken kneeand fringed with lacy cuffs. And then napkin and ignored or forgotten. -ah! the accompanying white silk stockings would be rather delightful. in a burst of passion unlocks the door thing into their communities rather was found, says Science, that close in-And that would solve the short-skirt to enmity, instead of friendship, to controversy."

Calls Paderewski a Glant,

No one can ever realize how hard Paderewski worked for his results. Sometimes one hears of the great heroism of the planist who practices six or seven hours a day. Time and again I have known Paderewski to keep on working until three and four in the morning, often working fourteen to sixteen hours a day.

Of course, only a physical giant could have accomplished this, and indeed such was Paderewski. His endurance and strength were enormous. When I was playing with him at Erard's he insisted upon having a chair that was especially heavy.

This very physical power gave Paderewski an enormous range of tone color possibilities. Indeed, if it had not been for his enormous endurance he could never have accomplished the work which gave him a seat at the peace conference as the foremost citizen of Poland.—Harold Bauer in Etude.

Petroleum Statistics.

The American Petroleum institute's analysis of official petroleum statistics for December, 1921, shows an excess of domestic production and imports over indicated total consumption, including exports amounting to 14,087,-539 barrels for the month, or at the annual rate of 165,869,505 barrels. In December, 1920, there was an excess of production over consumption of 7,-113,051 barrels. In November, 1921, there was an excess of production over consumption amounting to 9,801,-968 barrels.

Exports totaled 5,791,007 barrels in December, 1921; 5,657,466 barrels in November, and 7,922,603 barrels in December, 1920.

New Cape Breton Sait Bed. The first rock sait deposit ever found in Cape Breton has been made near Whycocomagh, Victoria county, where a thin upper vein of a salt bed has been pierced at a depth of 120 feet below the ground's surface. A number of natural springs rich in salt have also been discovered and a company of Cape Breton has been incorporated for the purpose of developing the salt production industry in the dis-

GOOD THINGS FOR THE FAMILY

VERYBODY in the household likes cinnamon rolls or cinnamon buns. The following is a reliable recipe:

Take one cupful each of milk, water and sugar, two eggs, three-fourths of a cupful of shortening, one yeast cake and a teaspoonful of salt. Scald the milk and while it is still hot pour it over the shortening and add the sugar and hot water; when cool add the yeast cake which has been softened in one-half cupful of water, add the salt and enough flour to make a batter which drops from the spoon. Beat it thoroughly and let tand in a warm place over night. In the morning add the well beaten eggs and flour to make a dough which can be kneeded; knead lightly and well, put back into a well buttered bowl and let rise until double its bulk. Separate into two parts and roll out into a sheet. Spread this with soft butter, brown sugar, cinnamon and well washed and dried currants. Roll in a long roll and cut the buns in inch slices. Place them in a pan and set in a warm place to become light. Bake in a moderate oven with a grate under them if there is danger of burning.

If the family likes sticky buns put one tablespoonful of butter, one-half cupful of brown sugar, one-half cupful of sirup, and one-half cupful of water in a sauce pan and boil until Creek buns are baked turn them upside down the sides and bottom of the buns.

Pimento Cheese Rolls,

Roll out a raised dough like the above cinnamon bun mixture, spread with a layer of softened butter, then with pimento cheese. Roll up and cut in slices one inch thick, place cut sides up in a greased pan, let rise until light and bake in a moderate oven. | the papers gratis.

A good finish for a plain raisin cake is to spread it while hot very generously with butter, then sprinkle with a mixture of cinnamon and powdered sugar, using a teaspoonful of cinnamon to one-half cupful of sugar-more if

OLD SUN MAN SCOLDS

in the early spring, once upon a time, but instead of building their nests and working as they should have done, two chattering young Robins and three Sparrows were quarreling as hard as ever you heard in a big tree in the orchard.

Ted Squirrel ran over from the big tree at the edge of the woods, and when he heard what it was all about he began to wonder if he did not want that very tree, too, for that was what they were quarreling about, you see. It happened that one young Robin came to the tree just as the other had decided he would build there, and such a chattering and fluttering as

Then along came three Sparrows, and when they found that some one wanted the tree very much they all decided that they wanted it, too, though they were comfortably located

behind the attic blinds of the farm-

All day they quarreled, and when night came the two young Robins had to sleep in the branches without a nest. They had wasted the time in disputing and no work was done. But the first thing the next morning, when the sun came up, they all began and make the earth cold and wet.

quarreling again.

LADIES' RAINBOW SAXOPHONE BAND

LADIES' BAND WILL PRESENT PROGRAMS OF DISTINCTIVE MERIT

DISTINCTIVELY different kind of a musical organization is the Ladies' Rainbow Saxophone Band. This group A of talented and attractive young ladies under the direction of Sue Ernest Hewling, will delight our Chautauqua audience with a splendid program on the afternoon of the second day and a spectacular double concert on the expansion increasing as the temperaevening of that day. Miss Hewling is unquestionably supreme as a lady drummer, her drum solos being unique, unusual and at the same time of real musical merit. In addition to her splendid ability as a drummer, Miss Hewling is a remarkable whistler and cornetist, trombonist and saxophonist. Like her, each member of her organization, in addition to her solo instrument, plays well one or more other instruments, thus making possible an almost unlimited variety of instrumentations. Their programs are enhanced by splendid costumes and stage settings, with special rainbow lighting effects. With such an organization the second day should prove one of the most popular of grees, or .0000259 of the volume for the entire Assembly.

The Successful

Pair

By JUSTIN WENTWOOD

There was always Elise. That was what Handley had been thinking as he made his way downtown toward her studio. They had been such good and they were very ragged friends in the out days before success came to her, real comrades, with al-Teddy Squirrel, too, should have ways the understanding that some

Handley's three years in the West had been unprofitable ones. All his dreams of success had vanished. He of his hole in the tree at the edge of had been a fool to give up his opsibark on that wild chase after a mythical fortune. If only Elise and stood still. . . . But, when, in depair of losing her, he had written her of the fortune that he was making she had written back telling him of her own success with her pictures. Elise was famous, and he was all but penni-

> And the next day he was to go back igan, R. R. 1 palf his old salary.

spoiled her. It was quite like old ed stairs and rang the bell. And Elsie -why, she had not changed in the least, except that she looked still more have cost what would have been two months of his new salary.

She gave him her cool hand. "It is so nice to see you, Alfred, after all quite-prosperous!" She laughed a little, and suddenly he realized that success had changed her after all. His expensive suit of clothes had imhave let her know that he was all but penniless.

He had written her that he was on a flying visit to New York; he meant until fortune had smiled on him-if ever it did. But that could not be for years, and he had no hope Elise would wait for him.

He looked at her critically as she cowbird's egg is discovered in her Yes, Elise had changed. Success had nest, another nest is built on top of made her more worldly. She made the first, enclosing the cowbird's egg him tea, and listened to his stories with whatever eggs of her own have of success. She was so glad to hear of it! All the white his heart was As many as three partitions have bursting with grief for the old, un-

"My success. Well, you know how these things come about. And then, I'm not really successful-not what the world calls successful. It was Reichendorf who took me up, and A lady advertised for a servant to then, of course, the mob followed him.

He became reminiscent. "Do you they?" So the authorities were stricter now! He had often thought of

Elise grew hard. Yes, of course

It was at this juncture that Handley determined never to see her again, He rose up at last.

"Well, I must be going, Elise. It's

nice to have seen you." "You'll come again soon." She looked at him anxiously. Something in his heart broke then.

"No, I shall never come again," he answered. "I'll tell you the truth now. I lied to you all the time 1 wrote to you about my success. I've lost everything-been a rotten failure. I broke into my last hundred dollars to buy this suit. I'm starting in again with the o'd firm, at the bottom, That's why I shall not come again." Elsie stared at him, then put her

ands on his shorters. "I'm so glad," she said softly. "I can tell you about myself now. I'm just where I've always been-making my twenty-five a week on the average. Those were all lies I wrote and said to you. You see. I wanted so much to succeed-perhaps I shall, some day; we've both been in too much of a

hurry. Will you forgive me?" He drew her into his arms, and she lay there contented, her head upon his shoulder. He saw now how much better, than success this was. Success would have estranged them-before they knew.

Presently she looked up. "What about a little supper at Francendi's?" she asked, laughing

"Blue-Hot." The term blue-hot is in correct usage, and means blue with heat, just as red-hot means red with heat. The term "blue-hot" is applied to a body when at so high a temperature that the more refrangible rays, that is, the blue and violet, preponderate in its total radiation, so that the light it emits appears blue.

BACKERS ARE KEPT GUESSING

About One of the Most Uncertain Sporting Events Imaginable is a Cockroach Race.

Russian refugees in Constantinople turn their hands to all sorts of moneymaking devices. The latest and most successful are cockroach races. These are held in rooms which the Russians hire along the Grand Rue de Pera. The story as told by Kenneth L. Roberts in the Saturday Evening Post, is that in the center of each room is a large table with a miniature race track built on it. The owner places a box at one end of the track and waits until his patrons have made their bets on five contestants. Then he opens the box and discloses five enormous cockroaches attached to diminutive sulkies. As the box is opened four of Mrs. Angel and daughter, Myrtle, the contestants may start briskly around the track, while the fifth may turn abruptly and canter in the wrong Mr. and Mrs. Charlie Smith are vis- The many friends of Mrs. G. C. direction amid heart-breaking groans from those who are backing his colors. are headed in the right direction may tigate the cause of the delay. While the conference is in progress the cockroach that started the wrong way may ing past the four idlers with his eyes police rendered assistance after 38 flashing and his tall up. Then the four such accidents in May. idlers may recover from their momentary ennul, start briskly up the track again and pass the fifth contestant, who has probably fallen into a brown study and leaned up against the race-track wall with crossed legs and weakly waving feelers. And so it goes, until one of the cockroaches finally pulls himself together and scuttles

NO CASH BAIL FOR SPEEDERS

Col. R. C. Vandercook, commission er of the Michigan Department of Public Safety, has announced that the members of the state police who are patrolling the principal highways to check violations of the highway ebration at Oscoda the Fourth. laws will not take cash bail from any citizens of Michigan who may be guilty of violations of the motor vehicles law.

In all such cases the offenders will be required to identify themselves, the numbers of their drivers' and automobile licenses will be taken and they will be notified where to report for trial. In case they do not appear for trial, warrants will be taken out for them, of course.

The aim of the state police, Col. Vandercook states, is not to bring a great number of complaints or to col. home of Frederick Davey. Then the leader of the four racers who costs but to prevail upon the persons family were visitors at Foote Site Mr. and Mrs. Fred Swartz and Mr. who use the highways to drive safely and Cooke Site on Sunday. stop short and twiddle his feelers pen- and with proper care for the rights of sively, and the other three may also others. TAKES NAVY TO REPEL THE BOOTLEGGERS

STATE POLICE HAVE FAST BOAT IN BOUNDARY WATERS TO CATCH SMUGGLERS.

For temporary patrol work, until the federal government shall institute "Some millions of years from now a patrol of fast motor launches in the has already put fear into the hearts

of the rum-runners. For the sum of \$4,000 the state purchased a launch capable of making 35 miles an hour. That this was a good price is evidenced by the fact that an offer of \$4,500 has been made for the boat as soon as the Department of Public Safety finds that it can turn this preventive work over to federal

Ever since war time prohibition ended in Canada, the smuggling of whisky and other intoxicating beverages across the narrow boundary waters has been a lucrative business for gangs of runners. With more than sink back to the general level of the sible to intercept any large number of Therefore the plan to use a swift boat on the river was adopted.

Detroit Has Boat.

The city of Detroit has maintained a patrol boat for some time but this craft has a speed of only 18 miles per hour and the fast boats of the smugglers could run away from her. Therefore the state police purchased a much faster vessel, one which could overhaul any smuggling launch on the

District Inspector Charles P. Campau, stationed at Detroit, is in charge of Michigan's prohibition navy. With him as crew are Lieut. Wm. Boettheer, Inspector B. C. Post and Sergt. L. M. Chidester. They are armed with rifles and tear-gas bombs.

In purchasing the vessel it was decided to use it from Port Huron to below Detroit, and especially in the narevery scrap of film was returned to row channels of the St. Clair Flats and in the lower part of the Detroit entirely successful; and by the time River. The very fact that the smugwas finished and ready for delivery. or day, they will find themselves confronted by this fast craft is deterrent to their venturing on their operations.

The state anti-whisky-smuggling "I reckon you had a right lively vessel is purely a speed-boat and is

which requires good schooling an ment to the Department of Public Safety must study several branches of learning before they are accepted and assigned to troops.

First of all it is necessary that the troopers understand criminal law, including the preparation of cases for trial, as well as such practical police methods as have to do with methods of identification, habits of various classes of criminals and means of securing evidence and following up cases. The students are also trained in politeness in following out the course of duty.

Special training includes care of counts and making out of reports.
