A SERMON IN FILM—"THE OLD NEST"
Probably it is the extreme simplicity that grips you, for it is the story of an ordinary American family, it is your own life story. You owe it to yourself to see "THE OLD NEST," to be shown one night—TUESDAY, OCT. 24th, at the Auditorium. There is no slapstick comedy to make you laugh, but you will laugh occasionally and if no lump comes in your throat and no tears to your eyes—well, you aren't the right sort of a citizen. Don't miss seeing this. Admission 15c and 30c. adv

ANIMAL AGES VARY
The ages our insects and animals attain before passing out of this sphere of existence present an interesting study. It has been determined that those of a short period of existence generally are more active in habits and in living than those that attain the ripe old age of 100 years.

Eminent scientists have established the period of life of the following creatures: butterfly, 2 months; flea, 2 months (the average dog will brand this as a falsehood); fly, 3 or 4 months; the mosquito, 6 months; ant 1 year; grasshopper, 1 year; bee, 1 year; hare, 6 years; rabbit, 8 years; dog, 12 years; wolf, 15 years; cat, 15 years; frog, 15 years; buffalo, 15 years; canary, 20 years; toad, 20 years; gold finch, 18 years; horse, 30 years; eagle, 30 years; stag, 40 years; swan, 40 years; camel, 40 years; orange-outang, 40 years; blue-heron, 50 years; raven, 80 years; pike, 100 years; carp, 100 years; elephant, 100 years; and turtle, 125 years. Of course how long animals, birds and insects may survive is rather an interesting and curious question and the best facts and figures are only approximated.

It is recorded that man's prescribed life is 70 years but according to our most recent statistics this is placed at 33 years, in face of the fact that good old Methuselah lived to the ripe old age of 969 years and even wise old Solomon in all of his judgment and 4000 wives lived the prescribed cycle of centuries.

The story is told of Methuselah that after passing his 500th birthday, an angel appeared before him with the request that he build himself a new home and after asking him how long he had to live and being assured that it would be more than 500 years, replied, "It is hardly worth while."

ANTIQUITIES IN WHITE HOUSE

Attractions Well Worth Inspection Are Known to Comparatively Few Visitors in Washington.

Least advertised of the attractions of the White House is a collection of antiquities relating to the historic mansion, which is on view in a basement room adjoining the oval room directly beneath the blue room.

This oval room, by the way, was used for receiving guests in the old days, when the main door of entrance to the White House was in the middle of the south side and not on the north front, as at present. It is slightly above the ground level, and the old-time entrance still remains, opening directly upon the spacious lawn. Formerly a road led past it, which in wet weather was so muddy that arriving guests had trouble to keep their feet dry.

Thus it was in Dolly Madison's day, and one of the most interesting curios in the little museum is her book of cooking recipes, blank pages of which are inscribed with culinary ideas in her own handwriting. There is also a blue-and-gold china bowl, two feet high, upheld by three graceful female figures, which, imported from France, was in use during her reign.

Abigail Adams, the first mistress of the White House, is represented by a silhouette of herself, cut out of black paper by some unknown hand. Two saltcellars of hers are also in the collection, as well as a huge silver-mounted goblet of full-quart capacity which her husband used when he was President.

There are pieces of china representing every set used at the White House from the earliest days until now—the latest, white and gold, being the Wilson set for the state dining room. A remarkable piece from the Harrison set is a turkey platter bearing a beautiful painting of a gobbler. Other pieces of that set are adorned with various pictures of animals, while the vegetable dishes are ornamented with paintings of different vegetables. It was designed for a descriptive table service, so to speak.

Rubber Factory Contractors in Race Against the Weather

(From Bay City Times-Tribune Friday, October 13, 1922)

The Bay City Stone Co. is in a race against the weather to get the Wildman Rubber Co.'s factory under cover by December 1 next, according to agreement. The whole building is up beyond the second story and part of it is up beyond the third. This leaves one more story for the contractors to finish before the roof is put on.

Visitors to the plant are greatly impressed with its enormous size and the solidity of its construction. The main building is 365 feet (65 feet longer than a city block) 100 feet wide and when completed will be four stories high. The total floor space will be almost 250,000 square feet. Built of re-inforced concrete with brick facing, the plant will be absolutely fire proof. This will be one of the most modern tire factories in the United States, having a daily capacity of 2,500 tires

WOMEN TO BACK NEW CHILD LAW

TOWNSEND RESOLUTION AIMS TO AID CHILD WORKERS THROUGHOUT U. S.

When the United States supreme court last summer declared unconstitutional the Child Labor law as adopted by congress, Senator Charles E. Townsend, of Michigan, immediately introduced in the senate a joint resolution proposing a constitutional amendment to be submitted to the states, as follows:

ARTICLE

The Congress shall have power to regulate the employment and the hours of labor and conditions of employment of persons under eighteen years of age.

This amendment, when adopted, will enable congress to regulate child labor in a way that will stand the test of the courts. It will need a strong campaign in favor of this change in the constitution to obtain the approval of at least 36 states, and the effort is to be made largely by women's organizations who are keenly alive to the interests of the little ones of the nation.

It will be a splendidly constructive work for women to press to completion. It will not be an easy campaign, but it is the most effective way in which to obtain permanent reform.

The child labor amendment is but one of many progressive and constructive measures fought for in Washington by Senator Townsend. Perhaps his best known campaign is that for the St. Lawrence waterways project, to give the Great Lakes ports a direct outlet to the sea. This enormous work will revolutionize transportation methods and bring huge savings to farmers and industrial workers not only in the states adjacent to the Great Lakes, but to the entire Middle West and the great northwest.

Nearly a score of states have definitely recorded themselves as in favor of the St. Lawrence project. In every one of them Senator Townsend of Michigan is regarded as the national leader of this movement. All friends of this project want to see him remain in the U. S. Senate until this work is permanently arranged for.

Prof. Ferris talked much in favor of the League of Nations two years ago before Michigan voters went on record a half million against it. Now he says he is a Wilson Democrat and was for the League with the Lodge reservations. Seems like it was the Lodge reservations that "cut the heart out of the League", according to Prof. Wilson.

After getting one political black eye from "Jim" Reed in Missouri and another one from the loud-mouthed Vardaman in Mississippi, it doubtless is cheering to Prof. Woodrow Wilson to hear of Prof. Ferris in Michigan proclaiming himself as a "Wilson Democrat" still.

"Our country is one of the few in the world which is now paying its way as it goes, and I must regard with disfavor any tendency to interfere with this condition or to increase taxes,"—President Harding, in address to executive officials of the government.

HALE AND VICINITY

Mrs. Ross Bernard is ill at this writing.

Mr. and Mrs. G. N. Shattuck were Bay City visitors Wednesday.

Miss Bertha Kocher was home from Birmingham, where she is attending high school, for the week end.

Little Woodrow West, who has been very ill with typhoid fever at the Samaritan hospital in Bay City, is improving slowly.

Mr. and Mrs. H. L. Freeman of Flint, with a party of friends, are spending a few weeks at their cottage near Loon Lake.

Henry Kaufman has been visiting Hale friends during the past week. Mr. and Mrs. Kaufman are now nicely located at Lorain, Ohio.

Mrs. R. D. Brown returned Monday from Detroit, where she attended the Grand Chapter O. E. S. last week, visiting in Saginaw a few days en route home.

Clyde Staley and his mother motored up from Saginaw to spend the week end with Hale relatives. Clyde is now a "traffic cop" in Saginaw, where the family is located.

Mr. and Mrs. Carl Keyes have as their guests for a week Mrs. Keyes' father, Mr. Thayer of Union City, Mr. and Mrs. Van Dressler and Mrs. and Mrs. Depp of Detroit. Mrs. Van Dressler is a sister of Mrs. Keyes.

R. J. McLean and Miss Annabel left Thursday to spend two weeks in Whittemore. Miss Annabel will do postoffice work to relieve Mrs. Curtis for one week and work at the drug store during the second week while Dr. and Mrs. R. J. Smith are away on a vacation.

Death of Mrs. Ira VanWormer

Last Friday evening Mrs. Ira VanWormer was stricken with paralysis while performing her household duties. When Mr. VanWormer came in from his outdoor work he found her lying unconscious. Medical aid was summoned, but no hope of recovery was given from the first. Her children were called home and all were with her when the end came late Tuesday night.

Mrs. VanWormer has lived in this community many years and exemplified in her life all the noblest principles of womanhood. A devoted Christian, a faithful wife and loving mother, she was the bedrock of the sick or busy with daily duties, her sweet, gentle ways and kindly smile endeared her to all with whom she came in contact.

Funeral services will be held on Friday afternoon at the M. E. church. Burial next week.

We go this way but once, O heart of mine;
So why not make the journey well worth while,
Giving to those who travel with us
A helping hand, a word of cheer, a smile?
We go this way but once, Ah, never more
Can we go back along the self-same way
To get more out of life, undo the wrongs,
Or speak love's words we knew and did not say.
We go this way but once. Then let us make
The road we travel blossomy and sweet
With helpful, kindly deeds and tender words;
Smoothing the path of bruised and stumbling feet.

Methodist Church Notes

Sunday morning services as usual. Preaching, 10:00 standard; Sunday school 11:15. The children's choir has a special chorus number for the church service. Morris Streeter is leader of the Junior League.

Sunday evening the Epworth League invites you to spend a musical hour at the church, beginning promptly at 6:30. The program includes choruses, duets and solos. Ida Putnam is leader.

Rev. Hughes will give one of his popular dramatic book sermons Sunday evening, his subject being "The Sky Pilot" by Ralph Connor.

Many in this community will remember Rev. Albert Butler, who served this church as pastor a number of years ago. For a long time he has suffered from a diseased jaw. The radium treatment which killed the disease left the lower part of his face and his tongue honeycombed so that both had to be entirely removed. He will always have to be fed through a tube and will never speak again. He has had four operations. With five operations still ahead it seems that some of the Lord's money from outside the family is needed to help this brother through. Next Sunday evening our church will take an offering for Rev. Butler. Let us be generous.

Harold Legacy, an eight year old boy saxophonist, who plays with the Flint Journal band, will furnish music for the powerful picture drama "The Power Within." Admission 15c and 25c. Saturday evening, Oct. 21. A group of the Epworth League girls will serve lunch after the pictures Friday evening.

Baptist Church Notes

Again and always, Wednesday evening prayer meeting. Time 7:00.

Rally day last Sunday was observed in rather a novel way. Each class was requested to decorate their own particular corner and also to render at least two numbers. The plan worked fine, each class doing their bit. To the True Blue class we extend congratulations for their beautifully decorated corner in crepe paper and autumn leaves.
