Christmas at the Hardware Store

HE average hardware store offers gifts of beauty and utility not to be excelled by any other selling agency.

TYou will find such articles as Roasters, Coffee Percolators, Coffee and Tea Pots, Tea Kettles, and sundry pieces of cooking utensils that make excellent gifts for the lady that rules the house.

Tor her helper---father---gifts of tools, such as a good Hammer, Saw or Plane, a pocket knife or good set of Carvers are always acceptable.

I For the boy the hardware store is a gold mine. If you doubt it just spend a few hours watching the boys as they come and go from school. See them flatten themselves against the windows opposite the gun rack where the little twenty-twos are shown along with the air rifles and more pretentious single barrel shot guns. Then you should watch them finger the skates, and get the "feel" of the coaster sled, or take a look into the cases where the pocket knives are shown and the flash lights allure. Oh say, it's a funny boy that can't find his in a hardware store.

I And there's sister---she can always use a pair of fine embroidery scissors, or skates with leather heel protectors, and if she isn't too far advanced toward young ladyhood, she will appreciate a sled as much as her brother.

I Just take a walk around the hardware store---it may help you to solve your Christmas Gift Problem.
