L. W. Oviatt of Bay City was a business visitor in the city Tuesday.

Born, on Friday, March 9, to Mr. and Mrs. A. A. Bigelow, a baby boy.

Special display of millinery Saturday, March 17. Mrs. L. L. Johnson, ad.

John Bay left Thursday morning on a few days business trip to Buffalo, N. Y.

Miss Lulu Frank left Monday morning for Port Huron, where she will be employed.

Regular meeting of Tawas City Chapter No. 303, O. E. S. next Wednesday evening, March 20.

Mrs. Clark McCormick left Monday morning for a couple of weeks visit with her mother in Midland.

Mrs. Mann of Sterling has been visiting at the home of her daughter, Mrs. A. A. Bigelow, the past week.

Oscar Fahselt went to Bay City last Saturday and spent a few days in that city receiving medical treatment.

Mrs. Mark Robinson of Reno township is a guest this week at the home of her daughter, Mrs. C. L. Beardslee.

Mr. and Mrs. Jacob Mielock of Alabaster left Tuesday morning for Detroit, where they will spend two weeks with their daughter, Mrs. J. E. Lubawy.

Miss Minnie Kaltz returned on Wednesday to her home at Windsor, Ont. after several weeks visit at the home of her aunt and uncle, Mr. and Mrs. Henry Kane.

Mrs. John Preston has been confined to her home by illness during the past week. She is somewhat improved at present and is able to be around the house again.

The public is invited to attend a social evening given by the M. E. Ladies' Aid on Wednesday, March 21, at the home of Mrs. Mary Murphy. Aprons will be provided for the ladies and overalls for the men.

Considerable interest was aroused last Sunday by a wild deer which came across the ice from the direction of Tawas Point, ran down the shore toward Alabaster, and then came back and came ashore near the Harting residence. The animal finally crossed the river and disappeared in the woods.

News was received here Wednesday afternoon of the death of Mrs. Alvin Wright of Pinconning. Mrs. Wright died from pneumonia after an illness of only a week. She will be remembered by residents here as Miss Maude Shippy. The remains will be brought to Tawas City for burial and the funeral held from the M. E. church this Friday afternoon.

At the election to be held April 2, an amendment will be voted upon to provide for the incorporation of ports and port districts. This is the same amendment as was voted upon and defeated last year. It should be passed as it will provide for improvement not now possible and the expense will be paid by the district specially benefited and not by the state at large.

The Tawas City Methodist church raised \$1,100 in two days this week for the Methodist Educational Advance, a campaign that has been conducted throughout the state to raise \$2,200,000 to promote the educational interests of the church at Albion, Ann Arbor and other educational centers. This is considered very good when compared with the amounts raised by some of the larger churches.

An important measure to be voted upon by the people of Tawas City at the spring election will be the proposition to authorize the use of the \$7,000 in bonds which was voted a couple of years ago for the purpose of building a city hall in connection with a community building to build a city hall alone. This is not a proposition to raise more money, but simply to make available the money already voted. The bonds were authorized two years ago and part of them were sold, the money now lying idle in the bank. The city needs a new city hall and a place to house the valuable fire apparatus, other than the miserable building which now shelters it, and it is the idea of the council if the money is released to go ahead and build the new city hall this year. There should not be a dissenting vote, as this improvement is one that has been badly needed for many years.

Jos. Barkman, fire insurance, adv. Edw. Marzinski was a business visitor in Bay City last Saturday.

E. B. Pollette of Hale was a business visitor in the city Wednesday.

A baby boy was born to Mr. and Mrs. Fred. Luedtke on Saturday, March 10.

Eyes tested and glasses fitted correctly by W. B. Murray, optician, East Tawas.

County Treasurer W. H. Price has been busy this week settling with the treasurers of the various townships and cities of the county.

CAUCUSES AND CONVENTIONS

The republican ward caucuses and city convention were held last Friday evening and despite the blizzard a fair number of voters from each ward were out.

In the first ward caucus Charles Dixon was renominated for supervisor; Wm. Rouiller was renominated for alderman, and Orville McDonald was nominated for constable.

The second ward renominated P. O. Colby for supervisor and A. A. Bigelow for alderman.

The third ward renominated the old officers, I. D. Friedman for supervisor and Wm. Hatton for alderman.

At the city convention Jas. E. Ballard was renominated for mayor and W. C. Davidson for clerk. F. F. Taylor was nominated for treasurer.

The citizens caucuses and convention were advertised for Monday evening, but the only ward turning out a sufficient number of voters to do business was the third, where Collie Johnson was nominated for supervisor and Emil Buch, jr. for alderman.

At the city convention the third ward contingent was augmented by one representative from the first ward and the following city ticket was nominated: Mayor Eugene Bing; treasurer, Mrs. Hattie Conant. The office of city clerk was left vacant.

NEW TRUDELL FISH HOUSE COMPLETED

One of the notable additions to the city in the building line is the new plant recently completed by the Trudell Fisheries Co. to house their growing business. It is stated that the Trudell Fisheries Co. now have the largest and most complete plant along the Huron shore from Bay City to Alpena.

The new building is 36x81 feet in size, with two floors and a large attic which can be used in case of further expansion. The first floor will be the packing shed and contains a roomy place for crushed ice and a large freezer in which fish will be stored in summer and frozen for the winter trade. The ice crusher and other machinery will be operated by a large electric motor and the entire building is well lighted by electricity.

The second floor is devoted to net storage and is fitted up for repairing this necessary adjunct of the fishing business. The neatly fitted office of the company is also on this floor.

Few people, perhaps, realize the importance of the fishing business in Tawas City. Besides the two large companies, the Trudell Fisheries Co. and John T. Trudell, there are two or three smaller fishermen and the aggregate number of men employed is large. Trudell Fisheries Co. employ from eight to twelve men, John T. Trudell from six to eight and the other fisherman probably ten or twelve. Fishing is a well paid business and these men earn thousands of dollars in the course of the year, most of which is spent right here in Tawas City, as the men own or rent their homes and have their families here.

The coming summer the Trudell Fisheries Co. plan to tear down most of the buildings they have used in the past and build a large new ice house, thereby further improving the appearance of their property.

THE NEW PRIMARY DISTRIBUTION PLAN

Taxpayers Should Study it and Then Advise Senator and Representative to Vote Favorably

Considerable agitation was caused some weeks ago by the proposal in the legislature to abolish the primary school fund and transfer the money to the general fund of the state. So much opposition developed to this plan that it was abandoned, and now the legislature has before it a new plan for the distribution of the primary money. This plan is endorsed by the state board of education and by the leading educators of the state and it is hoped that the plan will be adopted. Under this new plan the smaller districts would receive a much larger proportionate share of the primary money and the large centers with their larger taxable valuation would lose accordingly. Following is an explanation of the plan, written by Archie C. Belding, county school commissioner of Charlevoix county and published in the newspapers of that county. It explains the matter very clearly and we republish it for the benefit of our readers:

Most of our readers have heard something about the new primary school fund distribution measure, which may take the place of the former unpopular "grab" act, designed to divert thousands of dollars of school moneys into the general fund of the state. School Commissioner A. C. Belding, who attended the recent meeting with the state superintendent of schools at Lansing, describes what was accomplished at that time and explains the measure as follows:

The plan was to divert the primary school interest fund to state purposes and so deprive the schools of that support. Nearly every organization in the state jumped on the plan with both feet until the advocates of the bill could find no legislator who would present it to either house or senate. Its passage would have been a calamity to the primary school system of Michigan.

Last year the primary school interest fund amounted to \$11,925,492.73. It was divided equally among 1,019,147 children, between the ages of five and nineteen inclusive, making between eleven and twelve dollars per capita. In several districts of the state this was money enough to pay all their teachers and some beside. The majority of the districts received only a fraction of the teachers' wages, the rest having to be raised on a then over-taxed community. Districts enrolling nearly all of the census received the same proportion as those that received less. Wayne county's valuation which is figured in millions got the same consideration as our northern districts with their five figure valuations. Detroit with its school tax of six fifty got its eleven plus along with Charlevoix, with a rate of about twelve dollars on the thousand, and Boyne Falls with its forty-eight dollar school tax. Educators say this method is unjust. The whole state has felt so for some time, but the plan has continued in force. That bet-ter plan has been made, the fairness of which takes all argument from the losers.

A meeting was called by the Superintendent of Public Instruction on Saturday morning, February 17th, to which were invited all people interested. (Continued on page 5).

E. T. H. S. WINS TWO GAMES

A good size crowd was present at the Community building on Friday evening and watched the high school girls and boys teams win over West Branch.

In the first half of the girls' game the score was tied, but in the last half the East Tawas forwards, Collier and Butler, started to ring up the baskets and the final score ended 22 to 15 with West Branch on the losing end. Both teams played hard and were very evenly matched.

The West Branch boys were no match for the high school and were beaten 43 to 15. The score at the end of the first half stood 20 to 6. The visitors showed good form during part of the game, but couldn't keep it up. LeClair for the high school scored 12 field baskets.

EPISCOPAL BOYS WIN

Last Friday evening, March 9, the Episcopal Dare Devils of East Tawas went to the neighboring city of Tawas City to play basket ball. Tawas City was thought to have a fast second team this year.

The first half found the Dare Devils in the lead by a score of 7-4. The second half was the fastest, but the offensive part of the game. The Dare Devils led by a score of 10-11.

The line-up was as follows: George Siglin, r. f.; Clyde Everitt, l. f.; Carl Acton, c.; Lloyd Cooper, r. g.; Chas. Cater, l. g.; Milton Misener, sub.

There is a big difference in quality of shingles, just as there is in any other product. It makes a lot of difference in the value and durability of the roof on your house (or barn) if that roof is of

"HALF CENTURY" BRAND WHITE CEDAR SHINGLES

"Half Century" Brand Shingles are all "air-cured". That fact in itself makes them a lot more durable and satisfactory than shingles that are rushed through excessively heated dry kilns just so that they can be marketed in a hurry.

Then there is a lot greater natural weather resistance in some woods than in others. *White Cedar* weathers wonderfully.

Another thing: shingles that are cut too thin will split under nails. "Half Century" Brand Shingles are of uniform thickness—always.

And *White Cedar* Shingles give just the effect you want with any shade of stain or paint.

It pays to look for the "Half Century" Brand Trade-Mark, shown above, on every bundle of shingles.

NEW PRIMARY DISTRIBUTION PLAN
(Continued from Page 1)

estimated in education. The room was filled with business men mostly, some of whom were in no way connected with schools. The representatives of our largest cities went on record as being in favor of this method of distribution. In fact only one remained seated when a favorable vote was asked. This new plan bases the distribution on:

1. The census, because that is a part of the constitution.
2. The enrollment which represents the school load being carried.
3. The valuation which represents the ability to carry the load.

Any district wishing to find its portion under the new plan must multiply the census by the enrollment and divide the product by the valuation expressed in thousands. This time \$86.70 gives the amount the district would have received last year.

- The proposed method of apportionment will:
1. Equalize school opportunity within the state.
 2. Put a premium upon getting as large a proportion of the school census enrolled in school as possible.
 3. Grant assistance where needed and in proportion to the needs. Poor districts will be given the same consideration regardless of whether they are located in poor or rich counties.
 4. Raise the educational standard of the state.
 5. Automatically take care of any situation that may exist or rise due to sudden changes in the census, enrollment or valuation of any school district.

Several eminent mathematicians have carefully studied the plan and have pronounced it sound. Prof. E. A. Lyman, head of the department of mathematics in the state normal college at Ypsilanti, states that the plan is not only sound, but in his opinion, it is as near ideal as it is possible to devise. The Department of Public Instruction believes that it is well worth the serious consideration of the people of the state.

We must not only see to it that our legislators are on the right side of this question and will vote for its passage when presented, but we must help to advertise it through those counties not familiar with this plan of distribution of the primary money.

The plan to deprive the schools of the fund entirely has poisoned so many against any change in the present distribution that they must be conveyed to the justice of the new plan. If we would win, we must gain the support of the other counties.

Archie C. Belding, Commissioner of Schools. The new plan would be of great benefit to Iosco county and would especially help the smaller districts where the enrollment is large and the property valuation small. Last year Iosco county had a school census of 2,755; enrolled 2,031. The equalized valuation of the county was \$6,680,000. We received \$32,233.50 in primary money. Under the proposed plan we would receive \$55,869.13, an increase of \$23,635.63, and this would reduce the school tax \$2.64 on each \$1,000 valuation.

Every reader of this article is urged to write to the senator and representative from this district and urge them to support this bill when it comes to a vote in the legislature. If Detroit, Grand Rapids, Flint, and other large centers which would lose under the new plan, are in favor of it, surely the smaller communities should be interested enough to make themselves heard at Lansing.

Miss Ina Bradley, county commissioner of schools for Iosco county, has prepared figures showing the difference under the old and new plan in a number of representative districts in this county, some of which are given below. A very few of the districts in this county would suffer a slight loss in the amount received from this source, but the gain to the county at large would be so great that this should not be considered.
