TWENTIETH CENTURY CLUB "Iosco Day" proved an interesting and instructive day to members who were present at the March 31st meeting.

Roll call of "Pioneers" brought forth many a name whom we recall as "makers of Iosco county history."

The first paper of the afternoon, "History of Iosco County," was most interestingly presented by Mrs. G. A. Pringle. L. E. Sanderson of Alabaster followed with an instructive talk on the U. S. Gypsum plant, presenting to the club specimens of different products manufactured. We extend our gratitude to Mr. Sanderson for the clear and concise manner in which he presented the whys, hows and wheres of one of Iosco county's greatest industries.

All joined heartily in the song, "I-OS-CO."

Each member of the club is urged to bring a daughter, preferably of high school age, to the next meeting held April 14th, "Mother and Daughter Day."

THE ELECTION An exceptionally heavy vote for a spring election was registered in Iosco county last Monday. In several precincts in the county the regulation number of ballots was not sufficient and extra ballots had to be sent. And even then some voters were deprived of their vote on the state ticket.

In Tawas City the republican ticket went out with the exception of mayor Eugene Bing who headed the Citizens ticket being elected by a large majority.

In the judicial election, unofficial returns give Albert Widdis a majority in the district of between 500 and 800 over H. R. MacGillis.

Edward Londo, slip candidate for supervisor in Tawas township, won over Frank Blust, the regular nominee, by a majority of 11 votes. Sada McKiddie, slip candidate for treasurer in Alabaster township, was also elected. In Reno township Harold Black won out for township clerk on slips, and in East Tawas R. M. Small was a successful slip candidate for alderman.

The proposition to authorize the city council of Tawas City to use the \$7000.00 bonds voted a couple of years ago to build a city hall in connection with a community building, to build the city hall independent of the community building, was carried by a vote of about three to one. The erection of the new city hall will be started as soon as the weather is favorable.

T. B. SEAL WORK BRINGS RECOGNITION TO SCHOOLS

Three schools in Iosco county, which made the highest records for the sale of tuberculosis Christmas seals in 1922, were awarded special service certificates by the Michigan Tuberculosis association this week. The schools so honored were: Serradella Farm, Miss Mary Chaperon, teacher, average sale per pupil 38.4 cents; Five Channels, Mrs. Flora Slosser, teacher, average sale per pupil 27.4 cents; Wilber No. 1, Miss Leone Smith, teacher, average sale per pupil 19.4 cents.

Excellent work in the seal sale was done in the schools throughout the county. The certificates are a recognition of exceptional success, but the general average of sales in the schools speaks well for the enthusiasm and energy of teachers and pupils, according to association officials.

The award of certificates was necessarily based on complete reports sent to the tuberculosis association. In some cases only incomplete reports of the sale were sent in, and these could not be considered in determining the award of certificates.

IOSCO COUNTY HEALTH CLINICS

The baby conference held at Iosco Center No. 1 on March 23 in Tawas City in the court house was very well attended by fathers, mothers and babies. The enthusiasm and interest shown by the people of the local and surrounding communities in this particular phase of preventive medicine gives one reason to believe that the people of Iosco county as a group are going to in the future make use of every opportunity to improve their health, their understanding of disease and its cause, as well as to learn how many of the preventable diseases may be prevented absolutely.

The state physician, Dr. Lucy Elliot, was much pleased at the interest shown, was sorry that some mothers could not come to the overflow clinic held the next morning and that she didn't have more time to speak to all of us.

With a bit of effort it may be possible for Iosco county to secure Dr. Elliot again, to do prenatal work in our county when the state institute has its clinic here this spring. We shall make every effort to obtain her for this work.

The state health institute consists of a group of state physicians who come by appointment to various counties to hold special clinics for people of all ages. We shall have a tuberculosis clinic for people of any age who wish to be examined for this disease; then there will be a general medicine clinic for those who wish to have a general medical examination for the diagnosis of some special complaint. There will be a baby conference also in connection with this, and a clinic of instruction for prenatal care it is hoped.

This institute is free of course and open to everyone. The definite date will be given out by the state very soon. We have been scheduled for the institute since November, so we are quite sure to have the clinics when we asked for them, which was for the late spring so that folks from the country could attend them more easily.

As the public health work has been done over the county, I have found school children and boys and girls beyond the school age whom I felt would profit by a special physical examination; I also found adults whom I would recommend for a special examination. This institute affords a wonderful opportunity for this kind of work. I would be aided very much in bringing any special cases before the clinic if the patients would write me a personal letter telling me about themselves briefly so that I may determine the clinic best suited for that individual case. I wish any person wishing to come to the clinic would give me his name and address in advance, so that I could get in touch with you.

"An ounce of prevention is worth a pound of cure."

L. D. S. CHURCH Sunday school, 10:00 a. m. Preaching service, 11:00 a. m. Evening service, 7:30 p. m. Prayer service Wednesday 7:30 p. m. M. A. Sommerfield, Pastor.

COST—is what you put into a cream separator.
VALUE—is what you take out of your cream separator.
Value in a cream separator depends upon the
amount and the quality of service to be got out of it.
Because it lasts fifteen to twenty years, the
De Laval is the most economical cream separator
to buy. Considering its cleaner skimming, easier
running, greater capacity and less cost for repairs,
the price of the "cheapest" machine on the market
is exorbitant in comparison.

this is truer today than ever

Figure your Roofing this way—

A large share of the expense in any roof is the labor of laying it. If you put on the right kind of roof, that settles the matter for good and all. You are never going to have to fuss with it and your first cost is going to be your last cost. That is the result when you insist on having "HALF CENTURY" BRAND WHITE CEDAR SHINGLES.

There is no wood that can excel White Cedar in weather-resisting quality. That's why it is such a wonderful shingle wood. And "Half Century" Shingles are the best White Cedar Shingles because they are made the right thickness and are air cured.

Shingles that are cut too thin or are too hastily seasoned, as is apt to be the case when they are cured under the dry kiln process, are liable to split in nailing and they have a tendency to crack, curl and warp.

"Half Century" Shingles are cut right, cured right and they last as long as their name indicates. And they stain beautifully in any shade.

All lumber dealers can supply you. (Look for the trade-mark on every bundle. It's your guarantee of quality.)

Ask us for a copy of our valuable booklet, "How to Lay a Shingle Roof." It's free. WHITE CEDAR SHINGLE MANUFACTURERS
