COUNTY NURSE WORK

MARIE B. WOLFF
County Nurse

Because of the fact that Dr. Lucy Elliott of Lansing is working in the northern peninsula this month, and that she will be passing through Iosco county at the time our next Baby Conference is held, Dr. Haines has arranged, upon our request, to have her take the mothers' conference and baby clinic again this month. Dr. Elliott is then bound for counties in the southern part of the state and we don't know when we shall see her again. We are fortunate to have her.

Mothers are urged to take advantage of this opportunity by coming to her lecture to mothers and those interested in motherhood, on Thursday, April 26, from 2 to 4 p. m., standard time, at the court house, Tawas City. This will be very educational and interesting. Tea will be served. Interest your neighbor and bring her with you.

The baby conference will be held on Friday, April 27, all day. The following schedule has been worked out so as to prevent undue waiting and delay. Tawas City babies, 9 a. m. to 12 noon. Babies from the country, 9 a. m. to 12 noon.

Alabaster babies, 2 p. m. to 4 p. m. East Tawas babies, 2 p. m. to 4 p. m. Babies from Oscoda, Hale, Whittemore and elsewhere, any time during the day.

Please keep this schedule, as we wish to be just and give good service. This is just as important as any circus, and you know how we all find some way to get to a circus. So let us not find any excuses for absence. This is a well babies' conference, and it is free. Remember also that we want return visits, the more often you come the better.

The following is part of a letter from Dr. Blanche Haines, director of the bureau of child hygiene and public health nursing, Lansing, State Board of Health:

"Dr. Lucy Elliott of Flint has been secured especially for center and prenatal work. Dr. Elliott holds the degree of A. B. from Smith college and M. D. from the University of Michigan, and has been an instructor in obstetrics at Michigan University medical school. She has paid special attention to maternity work.

"We wish to give the centers the benefit of this interest and this experience in promoting infant and maternal care. We look to the centers to help us reach the expectant mothers.

"The importance of reaching the expectant mother is shown by the fact that in 1921 48.5 of all the babies who died under one year of age died in the first month of life, largely due to prenatal causes. Michigan has a high maternal death rate, about the same as that of the United States as a whole, which in 1920 had the highest maternal death rate of any record keeping nation. To combat this mortality mothers must recognize the importance of prenatal care, which will reduce both maternal and infant mortality."

COMING

Another economical feature of the Tappan-Joy Range is its smooth finish—either procelain enamel or plain. Easy to keep clean, it saves the cook's time.

We will be glad to demonstrate to you exactly how the Tappan-Joy features will shorten your hours in the kitchen.

Mr. Stoutenberg with his wife and family moved to this county in 1881 and has lived in or near this vicinity ever since. Dorcas at the home of Mrs. Glass on Thursday.

Keep in mind the Young People's Rally to be held in Tawas City April 30. Delegates were appointed Sunday morning. We are in hopes that the roads are in condition for autos so that many from here can attend the evening service.

Sunday evening's service was enjoyed by all present. The Christian Endeavor topic "The Lord's Day" was very interesting. Rev. Joshua Roberts gave a very fine talk.

This is an early announcement but none the less interesting. Please remember the date, June 1. County Sunday school convention in Hale. Later announcements will tell you all about it. We hope with the united efforts of the seventeen Sunday schools in the county to make this event a success.

The W. W. G. girls are busy sewing these evenings, getting ready for a sale and play in the near future.

We would again extend an invitation to our Sunday school. Come and study with us the fine Old Testament characters in this quarter's lessons.

Obituary—Mrs. James Syme

Clara Johnson was born at Cape Vincent, Jefferson county, N. Y., July 26, 1846, and died at her home in Wilber April 6, 1923. Nearly 44 years ago she came to Michigan and in April, 1880 was married to Alexander Marshall and settled on a farm in Wilber. To this union five children were born, four of whom have passed away. The other, Frank Marshall, resides in Detroit.

The family lived at McKinley and later at AuSable for a few years where in 1900 Mr. Marshall died. In April, 1901, Mrs. Marshall was united in marriage to Jas. Syme and for nearly 22 years they have resided here. During that time she has won the love and respect of a host of neighbors and friends, both for her generosity and readiness to give help at all times, and the following will best express her attitude toward all with whom she came in contact:

There are hermit souls that live withdrawn
In the peace of their self content.
There are souls, like stars, that dwell alone
In a fellowless firmament.
There are pioneer souls that blaze their paths
Where highways never ran.
But let me live by the side of the road
And be a friend to man.

Mrs. Syme was a member of the M. E. church and the funeral was held there on Tuesday afternoon, Rev. A. Mitchell officiating. Interment was in the Wilber cemetery.

Relatives and friends who came to the funeral were: Frank Marshall, John Syme, Mrs. Agnes Clute and Mrs. Anna Webster of Detroit; Mr. and Mrs. Harry Latta and children of Reno; Mr. and Mrs. Frank Brown of Baldwin; Miss Edna Otis and Laura Dorey of East Tawas; Mrs. Chas. Schrieber of Pontiac, Mrs. John Fraser of Grant and Mrs. Gregory of East Tawas.

U. S. FOREST SERVICE NOTES

Forest Protection Week, April 22 to 28, 1923.

The Importance of Forest Protection Week in Michigan

Forty years ago was the golden age of Michigan. Then, the state led the world in the production of forest products. Destructive logging and severe forest fires have destroyed Michigan's great natural heritage. Today we are importing lumber from Oregon and the Gulf states and paying out approximately \$10,000,000.00 cash annually in freight rates to bring this lumber to Michigan. This is a big drain on Michigan's finances but one that must be paid without question. What would this have meant if the people of Michigan had established a sane forest policy forty years ago? Obviously, prosperity, good schools, flourishing towns that have long been dormant or ceased to exist.

The great fight in Michigan at this time is the prevention of forest fires. It is a vital necessity to save our scant supply of merchantable timber and protect vast areas of young trees that will at some time make merchantable timber. Forest fires also greatly affect the wild life of the state. Green forests mean protection to game animals and birds, and protects the water in our streams and lakes for the protection of fish.

The tourist business in Michigan means millions of tourists in the state annually, and yet our recreational resources have hardly been touched. The shore lines of our streams and lakes must be kept green if the tourists are going to continue to use Michigan as their playground.

President Harding has laid great emphasis on the need for forest protection and proclaimed the week of April 22-28 as Forest Protection Week. Michigan needs every patriotic citizen to talk fire prevention. Are you doing your share?

Will you help safeguard Michigan against forest fires?
Green forests mean fish, game and tourists.
Growing timber is a national necessity, but it must be protected against fire.
In destroying the forests we are not only damaging the present, but we are literally burning up the future.
The forests and wild things of this world were placed here for your pleasure. You are the custodian and therefore responsible to future generations. Preventing forest fires will solve the question.
Eighty-seven per cent of the forest fires are preventable because they are due to the ignorance and carelessness of human beings.
A tree will make a million matches, but one match may destroy a million trees.
Great fires from little campfires grow. Be a "Vestal Virgin" and watch your fire, to see that it DOES go out.
True Americans guard the forest—do your bit.
Lightning and men start forest fires—but the lightning can't help it.
Keep the forests green—keep the streams clean—no fires.
Don't start something you can't finish—forest fires for instance.
Forests Furnish Future Homes.
Don't burn them.

Thought and Habit.

Life, in a way, seems to be an accumulation of habits; physical habits and mental habits. We do things one certain way for years and we think certain thoughts for years. We think oftentimes, just because it is a habit, that what we do and what we think is the right way to do and think. We may have contracted a bad habit and never have known it. We may have been wrong for forty years.—Jarvis S. Hicks.

NOTICE

It has been circulated by certain persons, who are not friends of mine, that I don't pay my debts. I wish to say that if those persons have a good and valid claim against me for anything I will be only too glad to pay the same, as it is not my policy to beat anyone out of a cent that I owe, and furthermore I am collectible.

"IN THE NAME OF THE LAW"

You owe it to yourself to see the greatest heart drama of a decade—
A policeman and his wife and their two boys, simple-kindly folk caught amid the cruel onrush of fate and swept along to the dawn of enduring happiness.

Don't miss this great drama. One solid mile of heart-thrills, thrills—chills—and an amazingly happy ending. If you can sit through this stupendous picture without feeling your pulse pound like a trip hammer, you are the most hard-boiled person in town.
