FINE PRODUCTION RECORD

An excellent production record made by Daisy Cornucopia Girl, owned by C. E. Schmidt of Seradella Farm, Oscoda, Mich., is announced by the advanced registry department of the national Holstein association.

At the age of two years and ten months this cow produced 422.0 lbs. of milk containing 16.088 lbs. of butterfat in seven days. This butterfat production equals 20.1 lbs. of butter.

The advanced registry year book records all animals which produce up to the standard set for their age and length of the test. A survey shows that cows with official records of production sell easier and higher than cows without these records.

WORK AND PLAY IS YOURS AT C. M. T. C.

Thirty days filled with good fun, good sports, good health and good training will cost you nothing and be yours for the asking, if you wish to become a candidate for the Citizens' Military Training Camp.

You will receive your transportation and your food enroute to and from camp from the government and while at camp you will be fed, clothed, housed and taken care of by trained leaders, all again without one cent of cost to you or your family.

Rich with a fine experience and life-long friendships made you will return from your vacation with a clean mind in a sound body, with a new enthusiasm for the day's work and a renewed loyalty as a son and citizen.

All the government asks is that you come and give it your time and obey the rules and regulations of the camp. It will do the rest in a way that will make you and your parents boosters forevermore.

A large part of the training at the camp consists of games and athletic work, together with competitions in sports, marching, camping, shooting, demonstrations by regular troops and dozens of other things that will give you health, self-confidence and a bigger and broader outlook on your country as a whole.

Iosco county is entitled to three representatives at this year's camp, who will be chosen by physical examination, which will cost the applicant nothing. Applications should be made to Travers Ousterhout, Tawas City, the county chairman for blanks upon which to make your application.

Traveling Clinic in Iosco County Week of May 21

The traveling lecturers and clinics of the Michigan department of Health will visit Iosco county during the week of May 21, and two lecturers from the state department of health, Dr. Frank A. Poole and Miss Melita G. Hutzl, will be in the county the week of May 14. They will give lectures in various places in the county, stressing the fact that most people's health could be much improved through sane methods of living, and that in many cases the sources of ill health lie in physical defects which may be entirely unsuspected.

It is to help discover the people who are not up to par physically that the traveling clinic comes to the county the week of May 21. The clinic is now composed of three units, a baby unit, a school children's unit, and a tuberculosis unit, each with a specialist and an assisting nurse. All three doctors are anxious to help raise the health standard in every community that they visit.

Mothers with little children are urged to take them to the clinic to see if they are physically normal. Dr. Florence Browne, the baby specialist, will be prepared to examine from twenty to thirty infants (or children less than six years old) each day. She is interested in examining children in apparently good health, since many times defects which may be corrected easily at this age are not discovered until years later, when they have had a chance to permanently handicap the child.

Dr. Frank L. Rose will conduct the school children's clinic and Dr. John I. Pinckney, the tuberculosis specialist, will examine suspected cases of tuberculosis and any other persons, who even though they may not have the disease may still have been exposed to it through association with others.

The work of the clinic consists entirely of examinations; when an individual needs medical attention he is advised to see his family physician immediately. The three physicians will be on duty from 9 to 12 and from 2 to 5 each day and all examinations will be entirely free of charge.

The schedule for the clinic is as follows: Whittemore, May 21; Oscoda, May 22; East Tawas, May 23, 24, 25. The lecture schedule, with R. Poole and Miss Hutzl as speakers will be as follows:

PHYSICAL TRAINING POPULAR AT MICHIGAN

That education at the University of Michigan is not one-sided is proved by the fact that approximately 7,000 students took active part in some phase of athletics last year. The intramural athletic department provided facilities by means of which every man on the campus had ample opportunity to engage in competitive games played between classes, fraternities, and other campus organizations. It is expected that the completion of the new field house on the Ferry Field will prompt a still larger number of students to engage in health-giving physical exercise and thereby increase their mental efficiency as well.

Honey of High Food Value.
Honey is one of the most concentrated foods. Most foods contain a certain amount of indigestible matter which is discharged from the system in the form of waste. In honey a fraction of 1 per cent only is actual waste.

Control Your Appetite.

This is from "Les Miserables," by Victor Hugo:

"My friends, Tholomys shouted, with the accent of a man who is recapturing his empire, 'gluttony chastises the glutton. Indigestion was sent into the world to read a lecture to our stomachs; and, bear this in mind, each of our passions, even love, has a stomachache which must not be filled too full. In all things, we must write betimes the word finis, we must restrain ourselves when it becomes urgent, put a bolt on our appetites, lock up our fancy, and place ourselves under arrest. The wise man is he who knows how, at a given moment, to arrest himself."

"Playful" Indeed!

In his book, "Flashlights From the Seven Seas," the Rev. William L. Stidger, of Detroit, says the Battaks of Sumatra have what he refers to facetiously as a "playful" custom of getting rid of their old men. When a man gets so old that they think it is about time for him to tell his last tale, they put him up a coconut tree. Then all the young bucks of the village get together and try to shake him down. If he is too feeble to hold on, and comes down, that is a sign of Heaven that his days are through, and they proceed to cook and eat him.

Obituary—John Morrison

John Morrison was born near Dublin, Ireland, July 2, 1836, and departed from this life on April 29, 1923, being 86 years, 9 months and 27 days of age. At the age of 16 he came with his parents to Ontario, Can., settling near Durham. The journey at that time, 1852, was made in a sailing vessel, taking three months.

He was married in 1870 to Mary Hill of Durham, Ont. Three children, Robert, James and Mrs. Mary Brandt, all of Hale, being born to this union. A little over five years later his wife died and he was again married in 1877 to Sarah Hunt of Mt. Forest, Ont. To this union five children were born. The eldest, Thomas John, was drowned at the age of 10 years. William of Saginaw, Albert of New York City, Mrs. R. D. Brown of Hale and Stanley of Oscoda, survive.

In the year 1877 Mr. Morrison moved his family to Pinconning, Mich., where he lived until 1898, moving in that year to Omer, Mich. During the past few years he made his home at Hale.

Mr. Morrison was a gentleman of the old school, of a courteous, kindly disposition, sterling integrity, square and honest in all his dealings. He bore the infirmities of old age with unflinching patience, always cheerful, making the best of life day by day. In his early years he was a regular attendant of the Presbyterian church, but in 1905 he united with the M. E. church at Omer, later transferring his membership to the M. E. church at Delano.

He leaves his wife, seven children, sixteen grandchildren, four brothers, three sisters and many other relatives to mourn his demise. The funeral services were held on Wednesday at the M. E. church, Rev. Hughes officiating. He paid tribute to the upright life of the departed and his willingness to be called home, expressed to him but a short time before by these words of the Apostle Paul: "I have fought a good fight; I have finished the course; I have kept the faith." Interment was made in Evergreen cemetery.

Card of Thanks

We wish to express our appreciation and thanks to the friends for the sympathy, the many acts of kindness and the beautiful floral offerings extended to us during our recent sorrow in the death of our beloved husband and father.

Mrs. John Morrison and Children.

Methodist Church Notes

Remember, the prayer meeting this coming week is in the Baptist church, Wednesday evening 7:30. Every Christian be present, please.

Sunday is Mothers' Day and in church and Sunday school we shall pay special attention to that matter this week. God could not be everywhere, so He made mothers. Where did you get your life standards? From your good mother, and she got hers from the church. Your mother attended church. Why don't you?

10:00 a. m. standard, Mothers' Day sermon "Earth's Uncrowned Queens."

11:15 a. m. we shall remember "Mother" in Sunday school on that day.

Faith of our mothers, living yet. In cradle song and bedtime prayer, In nursery love and fireside lore, Thy presence still pervades the air,

Faith of our mothers, living faith, We will be true to thee till death. Rev. Ed. L. J. Hughes, Pastor.

Dorcas sale Saturday afternoon and evening. We hope to please you with our fancy work and aprons and good things to eat.

Sunday is "Mothers' Day." Through the Herald we would extend an invitation to every mother to come with their boy and girl to the Sunday school. We will make it an hour worth while. Special music and a place for every mother.

An Appreciation

We wish to thank all those who assisted in any way in putting out the fire in our lumber on Monday afternoon, especially those who fought so faithfully. Had it not been for the heroic work of men, women and children it surely would have burned to the ground. A friend in need is a friend indeed, and we surely appreciate your services.

Mr. and Mrs. Frank E. Bernard.

MILLS STATION

Lew Ross was at Saginaw on business Tuesday.

Jep Bronson was a business visitor at Prescott Monday.

John Foghins returned on Sunday to his work in Saginaw.

Howard Gregg was a caller at the Walters home Friday evening.

C. E. Burtless spent the week end at the ranch, returning Sunday evening.

The Ross family and Mr. Gregg motored to Prescott Saturday evening.

Mrs. Geo. Partlo and daughter, Irene, spent Thursday at the Ross home.

Mr. Black improved his premises last week by setting out a nice orchard.

Rev. and Mrs. Shugg of Whittemore were callers at the Ross home last Friday.

John Sawyer and Alfred Tilley were callers at the Burtless ranch Sunday evening.

H. M. Walters and Marie Hanson were business callers in Whittemore on Saturday.

We wonder if we are going to have winter over again. We certainly had some blizzard the 9th of May.

Mr. and Mrs. Wm Uptegrove and Mr. and Mrs. Peter Sawyer were business visitors in Whittemore Saturday.

Jepth Bronson has purchased a new Ford truck. He expects to leave soon for the north, where he will use it in hauling gravel.

Freddie Webster and a friend, who are working on the gravel road, motored to the Burtless ranch to spend Sunday, returning to their work on Sunday evening.

We understand that the Burtless ranch has purchased a new Fordson tractor. It will be a great advantage to them because of the large land area they cultivate.

Chance.

When Camille Flammarion was five years old, he saw an eclipse of the sun reflected in a bucket of water.

That aroused his interest in the stars. Today he is a celebrated French astronomer.

Flammarion suggests that he might have followed some other line of work, if chance had not led him to the water pail.

Chance—the possibility of the unexpected happening at any moment—is what makes life interesting. The laws of chance have a lot to do with our careers. Many successful men are creations of chance, or luck, though they try to pin it on hard work and not watching the clock.

Two Claims to Distinction.

Florence is called the mother of oil and the mother of apple orchards in Colorado, and the West. The oil field was located in 1802, and the first well was drilled in 1804. James Frazer in 1804 hauled apple trees across the plains and planted them near Florence, and they are still standing. From them has been developed the famous Colorado orange apples, and this was the parent of the extensive Florence and Canon City apple orchards. Florence has 50 producing oil wells, and is the only developed oil field in Colorado.

Bible Outlay Increased.

The 1923 budget of the American Bible society for the translation, publication and distribution of Bibles will be \$1,160,000, an increase of \$40,000 over 1922, Frank H. Mann, general secretary, announced recently.

Estimated requirements totaled \$1,405,244, but a cut of \$244,467 was made because income for the full amount was not in sight.

The amount voted will be used in furnishing the Scriptures in more than 150 languages and dialects in practically every country in the world.

Stray Bits of Wisdom.

Childhood is like a mirror which reflects in after-life the images first presented to it.—Samuel Smiles.

The Test.

When in love try not to say foolish things. If you succeed you are not in love.

Leslie Ellsworth has moved his family into the James Cataline house, after spending the winter in Port Huron.

A great improvement could be made if our citizens would co-operate with the officials of our city in the way of speeding and parking, as it would be a great help towards making our streets more safe.
