Mrs. Prescott returned on Wednesday and will remain in Tawas City until the latter part of August, when the family will move to Cleveland to make their home.

**LIGHTNING KILLS TWO BOYS INJURES ANOTHER**

During the terrible thunder storm which visited this section of the state on Tuesday, Joseph Light, aged 13, son of Mr. and Mrs. Joseph Light, and Robert Tebo, aged 13, son of Mr. and Mrs. Joseph Tebo, both of AuSable, were struck by lightning and killed. Percy McKenzie, who was with the boys, was also struck, but was resuscitated.

The boys were returning from Oscoda to their homes in AuSable and were struck while crossing the bridge over the AuSable. All were thrown into the river, and the first two were dead when found.

Young Light was to have received his diploma with the eighth grade graduates at the exercises in this city on Wednesday.

Another result of the storm was to put the electric light and power lines running to the Tawasos out of commission, and service was not resumed until late that evening.

**TAWAS CITY 4; ALPENA 6**

Tawas City baseball team went to Alpena last Sunday and played a very good game of ball with the Alpena team. Long hitting by Groff, Swartz and Halligan were features of the game. Swartz tripled the first time up.

Alpena took the lead in the 3rd inning, four hits and three errors giving them three scores in that inning. Alpena has a fast team this year and a good diamond.

Tawas City was out-hit by only 3 hits, and three of the Tawas City hits went for extra bases. Tawas City is playing better ball this year than last and with Farmer by Mark in the box makes them pep up and play ball. Mark pitched a nice game of ball Sunday and was in good form with men on bases. He did not pass a man.

We assure you that we will be somewhere near the top in the D. & M. League. Tawas City plays Oscoda at the fair grounds next Sunday, June 10. Everybody come out and help us win. Game at 2:30 p. m.

## EIGHTH GRADE GRADUATION

The graduation exercises for the eighth grade pupils of Iosco county were held on the court house lawn on Wednesday, June 6, the large porch of the court house doing duty as a stage, while the audience of some seven or eight hundred parents and friends of the graduates stood on the lawn and sidewalks adjacent.

The weather was ideal for such an outdoor gathering, the cool, cloudy weather of the forenoon having given way to a warm, sunny afternoon.

The program consisted of the presentation by various groups of the pupils of a historical pageant depicting conditions in various stages of the country's history from the early days to the present. Indian dances, scenes from the lumbering days, an old fashioned wedding and dance, home and school scenes, ancient and modern, and other interesting incidents, ending with a modern community meeting, kept the big audience literally and figuratively "on tiptoe" with interest for about two hours.

The episodes were interspersed with musical and vocal numbers that added much to the pleasure of the occasion.

Supt. J. K. Osgerby of the East Tawas schools and a member of the county board of school examiners, made the presentation address to the graduates about to receive their diplomas. His address was full of wise and splendid counsel to the young people, advising them that as they had been honest and fair in their school work, so must they be honest and fair in their dealings with the world in order to preserve a good name.

He paid a high tribute to our educational system and voiced his regret that probably many of the pupils about to receive their eighth grade diplomas would not go farther on the educational ladder.

One hundred and twenty-nine pupils passed the examination in Iosco county this year and received diplomas. Following are the graduates.

## COUNTY NURSE WORK

MARIE B. WOLFF  
County Nurse

The examination in June of every child who is to enter school in the fall is urged by the Bureau of Child Hygiene and Public Nursing of the Michigan department of health. It hereby appeals to mothers, teachers, club women and nurses to help see that the children in their communities receive a thorough examination by a physician, and that his recommendations are carried out.

The period between birth and the school age is divided into two parts:

1. Infancy, from birth to 2 years.
2. The pre-school period, from 2 to 5 years.

Mothers often care for their babies very carefully during the period of infancy, keeping them in touch with the doctor, having them weighed and examined frequently, and taking care to follow dietary instructions. But often after the second year they rest content with their previous efforts and unless their children are acutely ill they are allowed, like Topsy, to "just grow."

Shall we send our children to school without KNOWING whether they are undernourished or have defects which can be corrected?

There has recently been published by the Federal Children's Bureau a report on the "Physical Status of Pre-School Children," by Dr. Anna E. Rude. This is the result of a systematic examination in Gary, Indiana, of 3125 children between the ages of two and seven years. We shall omit the year from six to seven, and give the report of these examinations on the 2905 children from two to six years.

We urge you to look over these figures and to note especially the steady increase of defects as the child grows from two to six years. Figures collected by the traveling clinic in Michigan are similar though they are based on a smaller number of examinations.

It is found that underweight and number of defects are practically independent of the income and social status of the parents.

The following figures are given in percentages of the number examined.

Number Examined	With Anemia	Underweight or more than 10% below normal	With Deafness	Defective Teeth	Abnormal Eye-Examination	With Enlarged Glands	With Abnormal Skin Conditions	With Body Markings	Defective Deafness
2 years under 3	511	1.0	16.6	21.1	39.7	13.3	12.9	4.0	24.9
3 years under 4	496	0.6	11.9	44.0	51.2	24.8	15.3	5.4	29.0
4 years under 5	549	3.8	10.2	66.3	58.1	37.9	27.3	9.1	37.2
5 years under 6	667	10.0	6.6	79.9	56.5	54.4	37.5	12.0	48.6

## WEST-PFEIFFER

A very pretty wedding was solemnized at St. Joseph's church, East Tawas, Monday morning, June 4, when Lillian Agnes West was united in marriage to Louis Pfeiffer, son of Mr. and Mrs. Peter Pfeiffer of Tawas City.

The bride was attractive in a gown of white all tulle crepe. Her bouquet was of roses and lilies of the valley. Miss Florence Kulazski, who attended the bride, was costumed in pink organdie and wore a corsage bouquet of carnations and lilies of the valley. The groom was attended by his brother, Edward Pfeiffer. The ceremony was performed by Rev. Brogger, who officiated at a nuptial high mass.

Following the ceremony a wedding breakfast was served to the bridal party at the home of the groom. The chosen colors of the bride, pink and white, were carried out in the decorations. Among the out of town guests were Mr. and Mrs. G. Halm of Saginaw and Mrs. N. Anderson of Whittemore.

After a trip to Saginaw and other points Mr. and Mrs. Pfeiffer will reside in Tawas City.

## WARNING

To those who go in bathing in the river near Armstrong's and Mrs. Galbraith's lots and houses, undressing and going in the water naked as some do, warning is given that they will hereafter be dealt with according to law. Mr. and Mrs. David Armstrong, Mrs. B. Galbraith. adv

## "SHE WANTS TO KNOW."

In a window on one of the busiest corners of Broadway, where visitors to New York pass by the hundreds every hour, is a telegraph office. A little sign in the window says: "Send her a wire. She wants to know." Well of course she does. Probably it was a man who had some time forgotten to let her know who wrote that laconic little card. When he got home all set up with the success of his trip and ready to have a good talk, he found her white with worry and contemplating telegrams to every one he knew in New York. He had gone off after telling her all about the difficulties of the trip, and she sat home for three or four days going over them in her mind. When everything had broken right, he was so happy that he thought only of his homecoming and stayed over a train to get presents for everybody. The whole atmosphere had changed for him. He forgot the tension he had left behind. She never said much, for she was a loyal person, but it has taken more than new records and the patent potato peeler he brought to make her forget those days of unnecessary worry, says the Designer. He "got it," though, and his conscience helped him write that very human bit of advertising.

The railroad tracks in the United States would reach very nearly to the moon and return, and a locomotive with 35 freight cars behind it could be placed at seven-mile intervals along that whole distance merely by using the equipment now in use on American railroads. Two hundred side tracks extending from New York to Philadelphia would be required to hold the freight cars of this country alone. Nor is the passenger equipment small. If the 56,000 passenger cars were street cars and started from a given point at the rate of one a minute, 40 days would be required to get them all in motion. In 1920 a number of people equal to more than 30 times the population of the entire earth were carried a distance of one mile. The Pennsylvania station in New York city handled 36,000,000 passengers in 1920—very nearly the population of France—one-third as many people as live in the United States. The employees of the railroads number more than 2,000,000, which is equivalent to the number of American soldiers sent to France.

When a man deliberately closes his mind, satisfied with such knowledge and such wisdom as he has, he is like an athlete who, satisfied with his muscular development, should rivet a close-fitting iron band about his biceps. Not only would his biceps gain no more in power and flexibility but soon it would begin to lose the power and flexibility it already had gained. No living organism stands still, it either grows or dwindles; either improves or deteriorates, says the Ohio State Journal. The man who closes his mind has reached the zenith of his power and with him retrogression has already begun; as a growing, expanding influence he is done. He has committed intellectual suicide, though the process of complete dissolution may be slow.

## Overcrowded.

Billy's nose was out of joint, all on account of the arrival of little sister. He took his overcoat and hat to the nurse and asked her to put them on him, as he was going away. She asked him if he hadn't better wait and see his father. He replied: "I'm going to my father; Uncle Frank is going to be my father now. This house is getting too crowded."

It is not generally known that wild cats are still found in parts of Scotland and are extremely fierce. They make their homes in rocks and hollow trees. At one time they were found all over England, but, like snakes, they have not been seen in Ireland.

## FORD EXPANSION PLAN AFFECTS NUMEROUS CITIES

Survey Shows Extensive Improvements Made at Assembly Plants Throughout Country

One phase of the Ford Motor Company's expansion program, entailing the expenditure of millions of dollars, is strikingly illustrated in a survey of improvements made in assembly plants throughout the country, all of which have brought better business and employment conditions to the several cities affected.

The survey, which is just announced through the Ford News, shows that every assembly plant of the company, numbering twenty-eight, is now in full operation and producing more Ford cars and trucks than ever before.

New additions have been erected, or are under construction, new equipment has been installed and greater facilities afforded all around.

The plant at Atlanta, Ga., has been considerably enlarged since its reopening a year ago. At that time its capacity was 150 cars and trucks a day. This has already been increased to 210 and when improvements are completed the maximum for an eight hour day will be from 250 to 275.

Railroad tracks which formerly ran inside the building have been removed to make way for an assembly line and a new concrete loading dock will be completed in June on which big stock conveyors will be installed running into the building.

The Cleveland, O., assembly branch has been entirely re-equipped and is now assembling cars at the rate of 150 a day. A new electric enameling oven is in process of construction there to further facilitate the work.

Several changes have been made at the Louisville, Ky. branch where a one-story addition has been erected. The assembly line has been removed from the third to the first floor, a body oven has been installed for drying all paint coats on open bodies and the finish varnish coat on closed bodies, and a new type electric enameling oven is being erected. Production has been increased from 100 to 170 cars a day.

At Indianapolis, Ind. the branch assembly line has been greatly extended and dock facilities increased which permits this branch to turn out 300 cars a day.  
Denver, Colo., and Portland Ore., have again been opened and equipped with extensive drying ovens and recently enameling ovens have been lengthened in twelve other assembly plants.

The New Orleans, La., branch is now housed in a complete new building, 425 by 425 feet, employing approximately 700 men and turning out from 150 to 200 cars a day, together with 25 closed bodies daily.

Ordinance No. 76  
An ordinance to be termed the Annual Appropriation Bill, making provision for appropriating the several amounts required to defray the expenditures and liabilities of the city of Tawas City for the ensuing fiscal year.

The City of Tawas City Ordains:  
Sec. 1. That there shall be raised upon the taxable property of the city of Tawas City the following sums:  
The sum of \$4,200, which amount so raised shall be placed in and constitute the Contingent fund; the sum of \$1,250, which amount so raised shall be placed in and constitute the General Street fund; the sum of \$500, which amount so raised shall be placed in and constitute the Bridge fund; the sum of \$300, which amount so raised shall be placed in and constitute the Cemetery fund; also the sum of three mills upon each dollar of assessed valuation, which amount so raised shall be placed in and constitute the Interest and Sinking fund.

Sec. 2. The foregoing appropriations and provisions are made and required to defray the expenditures and liabilities of the corporation of the city of Tawas City, Michigan, for the ensuing fiscal year, payable from the several funds heretofore mentioned and set forth, and it is hereby determined that the above amounts are necessary to be raised by levy and to be assessed upon the tax rolls of said city for the year 1923, and to be paid into the several funds, the object and purpose of which are heretofore set forth, together with the amounts appropriated for the object or purpose of each of the general funds. This ordinance is in conformance with Section XXX of the compiled laws of 1915.

Sec. III. This ordinance is enacted and ordered to take immediate effect.  
Moved by Bigelow and seconded by Schrieber, that Ordinance No. 76 be read by title and passed to its first reading. Roll call. Yeas—Rouiller, Schrieber, Luedtke, Bigelow and Hatton. Nays—none. Carried.

Ordinance No. 76 was then read by title.  
Moved by Rouiller and seconded by Hatton, that Ordinance No. 76 be read by sections and passed to its second reading. Roll call. Yeas—Rouiller, Schrieber, Luedtke, Bigelow and Hatton. Nays—none. Carried.

Ordinance No. 76 was then read by sections.  
Moved by Schrieber and seconded by Luedtke, that Ordinance No. 76 be read in full and passed to its third reading. Roll call. Yeas—Rouiller, Schrieber, Luedtke, Bigelow, and Hatton. Nays—none. Carried.

Moved and seconded that meeting adjourn. Carried.

**SIZING UP NATION'S WEALTH**  
Middle Atlantic States Hav. Larg-  
est Income, With Nevada at the End  
of the List.

What is the richest part of the United  
States—the richest, that is, in the  
sense of having the largest income?  
Probably most people would have no  
difficulty in answering this question.  
That the Middle Atlantic states have  
the largest amount of liquid cash  
would naturally be expected from their  
great population and industrial develop-  
ment. And from this standpoint the  
Middle Atlantic states are the most  
prosperous, and, as would be expected,  
New York, with an income of more  
than \$9,000,000,000, leads all the rest,  
whereas Nevada, with \$85,000,000,  
brings up at the tail of the procession.  
The figures have recently been com-  
piled by Dr. Wesley C. Mitchell and  
published by the National Bureau of  
Economic Research.

Yet there is another way in which  
to gauge prosperity and perhaps, upon  
the whole, it is a more satisfactory  
test. That is the per capita distribu-  
tion. Is that section the richest which  
has the largest aggregate income or  
that in which the individual income is  
the largest? Probably most philoso-  
phers would incline to the latter view.  
And in this regard the Pacific states  
have a slight advantage over the Mid-  
dle Atlantic—\$796 as compared with  
\$673. Yet New York state, with an  
average income per person of \$874, is  
still at the head of the list.  
This study also discloses the earn-  
ings of farmers, which, in some parts  
of the country, are high—as incomes  
go. In 1919 farmers in the Pacific  
states averaged \$2,800 a year and in  
the West North Central states, \$2,300.  
The few remaining agriculturists  
who are attempting to scratch a living  
from the discouraging hills of New  
England are obliged to content them-  
selves with \$1,160, while Alabama and  
Mississippi yield their farmers less  
than \$900 a year.—World's Work.

**SHIP INSPECTORS AT WORK**  
Branch of United States Department  
of Agriculture Has Largely  
Extended Scope of Duties.

All fruits and vegetables consumed  
on passenger ships operated by the  
United States shipping board out of  
New York will hereafter be inspected  
by the United States Department of  
Agriculture, it is announced. Ap-  
proximately 500,000 pounds of fruits  
and vegetables a month are consumed  
on the 11 large vessels in this service.  
Arrangements are also under way to  
make federal inspections of produce  
consumed in army and navy hospitals  
in New York. The inspection service  
of the Department of Agriculture has  
made tremendous growth since its in-  
auguration in 1917, when inspection  
offices were opened at New York,  
Philadelphia, Washington, Chicago,  
Minneapolis, Kansas City and Fort  
Worth. About 6,000 inspections were  
made during the first eight months  
of the service, and 30 stations were  
soon in operation at important ter-  
minal markets.

His Speech "Sit Down, Boy!"  
Hitherto the proceedings of the Fili-  
pino legislature have been in Tagalog  
or in Spanish, although English is  
technically an official language.  
But the last election returned to  
the legislature a number of young  
men educated in English schools in  
the Philippines or in the United  
States. They are intent upon break-  
ing up the Spanish-speaking tradition  
of the older generation of Filipino  
public men, who received their early  
training under the Spanish regime.  
Therefore, quite a sensation was  
caused in the gallery of the house re-  
cently when English was used for the  
first time in debate. The speech was  
admirable in point of brevity, and can  
be reported in full. It was addressed  
by one of the members to a colleague  
on the floor, and was: "Sit down,  
boy!"—Living Age.

To Duplicate Famous Shrine.  
Plans are being made for the erec-  
tion in Fiskdale, Mass., of a shrine  
patterned after the famous Ste. Anne  
de Baupre in Canada to house a relic  
for which healing powers are claimed.  
The relic, owned by St. Anne's parish,  
in the Bay state, has attracted sev-  
eral thousand persons from all parts  
of New England in Sunday pilgrim-  
ages in recent months. Some of them  
have asserted their visits resulted in  
cures of various ailments.  
The project is to acquire land in  
the rear of St. Anne's church owned  
by a former pastor and to erect a large  
shrine with a statue of Ste. Anne,  
stations of the cross and holy stairs.

Mennonites Go to Mexico.  
Two hundred Mennonites have left  
Herbert, Saskatchewan, for Mexico,  
where they propose carving out new  
homes for themselves. Cars of the  
United States road were used when  
the Canadian Pacific refused to allow  
its rolling stock to cross the bound-  
ary. In all 25 box cars and some  
colonist cars are being used. The  
Mennonites are moving to San Anton-  
ito, Chihuahua, Mexico. Shortage of  
cars has also delayed the move from  
Wymark, Sask.

Mechanical Coal Cutters.  
There were 495 coal cutters in use  
in South Africa in 1921, according to  
the official statistics of the govern-  
ment mining engineer. Of this number  
50 were operated by electricity and  
the balance by compressed air. With  
the exception of three or four, all of  
the electric machines were imported  
from the United States.

Frozen Fish Swim Again.  
Eleven fish frozen in a block of ice  
for six months are swimming in an

The block of ice containing the fish  
was kept in a refrigerator room in a  
warehouse near Portland. It was sent  
to that city along with a shipment of  
iced salmon.

Caulliflower and Vesuvius.  
The caulliflower grows best at the  
foot of Mount Vesuvius, which has

for caulliflower. Their soil is particu-  
larly rich.

**HALE AND VICINITY**

**NOTICE**  
Dr. Moss, dentist, will be in Hale Monday, June 11, to do dental work. a

Miss Selma Curtis of Midland is home for a few days vacation.  
C. Bennett has reopened his "tire shop" in Mrs. Bernard's store building.  
Lloyd Murray went to Saginaw last week and has secured a position in that city.

Howard Curtis, who is attending college at Chicago, is spending a two weeks vacation at home.

Mr. and Mrs. L. A. Howe are enjoying a week's motor trip to Memphis and Richmond, Mich.

Mrs. Wm. Nunn and Miss Winifred Nunn spent field day at Oscoda and the week end with relatives.

The merchants of Hale have adopted the following closing hours for the summer season: All stores will close at 6 o'clock standard time on Tuesday and Thursday evenings. Keep these days in your mind and do not ask your merchant who values your patronage to choose between offending a customer or breaking his word to his business associates.

Our baseball team journeyed to East Tawas last Sunday and by the help of Umpire Sims were defeated by a score of 8 to 7. For this offense and the decisions made by the same man in both previous games, our team has decided to withdraw from the league and will play Rose City on the home grounds Sunday, June 10.

**Methodist Church Notes**

Everybody who attended the Sunday school convention had a great time last Friday. The spirit of unity and good fellowship made us all feel good. Have you ever heard that saying: "Hale knows how to entertain?"

The prayer meeting on the coming Wednesday is at the Baptist church. Come and complete the circle.

Children's Sunday program will be one week from next Sunday in the morning. Everything is under way for a fine time.

It has been noised abroad that the Long Lake church is closed. This is not the truth, Long Lake church is very much alive. Some Sunday turn your auto that way and pay a visit to the church.

Next Sunday the service is at 10:00 a. m. standard. Our subject will be "Beauty and Dress Considered from the Christian Standpoint."

The best time to worship the Lord is in the morning. It gives you the worshipping attitude all day.  
Ed. L. J. Hughes, Pastor.

**Baptist Church Notes**

Prayer meeting this week Wednesday in the Methodist church.  
Surely the county Sunday school convention held here June 1 was a decided success. Many Sunday schools throughout the county were well represented. The splendid talks given by the state and local speakers were an inspiration. And with the bountiful dinner and supper served in the church dining room the day was complete.

Children's Day program will be given Sunday evening, June 17. Program begins at 8:00 local time.

Preaching services next Sunday evening. Christian Endeavor preceding the preaching. We too shall follow the rule of our sister church in making the summer services as short and interesting as possible. Come. This invitation means You.

Next Sunday morning the Sunday school will begin at 11:00 local, one-half hour earlier than the usual time. Why? Come and the superintendent will tell you why.

Dorcas this week Thursday in the class room.

For Sale—Model 90 Overland car in good condition. Five good tires. Cash or on time. For particulars inquire at Herald office. 24-pd

**Graduation Exercises**

A large crowd gathered at the M. E. church Sunday evening, May 27, and enjoyed the baccalaureate address given by Rev. A. Mitchell to the graduating class of Wilber high school. Music was furnished by the Tawas City M. E. quartette. Dresses of navy crepe de chine were worn by the graduates. The church was decorated with the class colors, blue and white.

The commencement exercises took place at the church on Monday evening. The stage setting was quite unique. The members of the class, Hazel Newberry, Jennie Abbott and Nora Styles, dressed in white middle suits, were seated in a boat, the sail of which formed a background for their motto, "Launched But Not Anchored."

The class flower was the white rose. The program was as follows:  
Opening song, "America" Community Salutatory Jennie M. Abbott  
Song "Twilight" Choir  
Class History and Prophecy  
Duet, "Santa Lucia" Nora J. Styles  
Valedictory and Class Will  
Hazel A. Newberry  
Song, Commencement Hymn Class  
Presentation of Diplomas Mr. Styles  
Song, "Good-Night" Choir  
Benediction Rev. Mitchell

After the exercises the young folks gave a dance in the Red Hall in honor of the class. They report a pleasant time.

**SUNDAY SCHOOL CONVENTION**  
(Continued from Page 1)

Piper gave a splendid talk on "The Forward Step in Religious Education." During the afternoon and evening Revs. Shugg and Mitchell cheered our hearts with their splendid duets and in the evening Rev. Edinger of East Tawas rendered a beautiful solo in a very pleasing manner.

Dinner and supper were served in the dining room of the church and much credit is due to the chairman of the entertainment committee and the helpers in kitchen and dining room, for without "pie and black tea" what would a convention be?

The following officers were elected for the coming year:  
President—J. H. Nisbet, Tawas City  
Vice-Pres.—W. Latter, Reno.  
Sec'y—Annabel McLean, Hale  
Treas.—W. H. Price, East Tawas  
Annabel McLean was elected delegate, with Mr. and Mrs. J. H. Nisbet as alternates, to represent Iosco county at the state convention to be held at Grand Rapids in November.

Of the fifteen Sunday schools in the county eleven were represented at the convention. There were also six visitors from other counties and 105 delegates in all. We trust some lasting good may come of this meeting.
