Games Next Sunday  
Alabaster at Tawas

Clayton pitched superb ball against Tawas last Sunday and lifted Twining over the heads of Tawas in the league percentage table. In only one inning did he allow more than one hit, Tawas earning one of her two runs and being handed the other through errors in the fourth innings. In four of the remaining eight innings the home boys got the first man on but were unable to help him around.

Oxel Johnson wasn't very far behind, only two runs being earned off him. An attempted forceout that was too late was directly responsible for the two earned runs in the sixth inning. A wild throw in the fifth scored Twining's first run. A dropped foul fly, a base on balls and a dropped fly all helped to score their last one in the seventh. Roach had a bad day at third with four errors, one of which scored a run, but pulled off some snappy fielding as well. Benny Boldt snared five flied in left.

Tawas now must depend on Alabaster to bring Twining down with in striking distance of the pennant. Harrisville is forfeitig all her unplayed games but Alabaster has a postponed game that will be played off the 20th. The pennant is not lost yet.

Premium lists are available by applying to the president or secretary and will be placed in several stores in the Tawas this week.

Not all the acts have been booked as the officers have been making a thorough search for some thing worth while and contracts will be closed within the next few days. They are also negotiating for a show for the fair made up of some real entertainers. One that will be of interest to radio fans is Harry Snodgrass, the king of the Iovories. This troupe also includes several of those who worked to rescue Floyd Collins from Sand Cave.

### BIRNEY-GROFF

St. Benedicts church, Highland Park, was the scene of a pretty wedding on Tuesday morning when Miss Phyllis Birney, daughter of Mrs. Anna Birney, formerly of Tawas City, became the bride of Hugo Groff, son of Mr. and Mrs. Michael Groff of this city.

The bride was daintily gowned in an exquisite frock of rose tone crepe Elizabeth with hat to correspond and carried a shower bouquet of butterfly roses, lilies of the valley and swansonia.

She was attended by Miss Annette Laidlaw, who wore a cinnamon brown crepe Romaine and carried a shower bouquet of Columbia roses. Mr. Groff was assisted by his brother, Harold.

A five course dinner was served at the home of the bride's sister, Mrs. William Laidlaw, to thirty immediate relatives and friends. Mr. and Mrs. Groff left immediately on the steamer Western States for a trip to Mackinaw Island and Sault St. Marie.

They will be at home to their friends at 16667 Log Cabin Boulevard, Detroit, after September 1.

Prior to her marriage Miss Birney was honored with many lovely showers by her sister, Mrs. Wm. Laidlaw, Misses Annette Laidlaw, Viola Groff, Mildred Murphy, Genevieve Taylor and Mrs. John Groff.

WHAT THEY SAY ABOUT EAST MICHIGAN

"I am enthusiastic about California, but I must admit your Michigan weather is wonderful!"—W. Harold Kingley, California publisher.

"That the East Michigan Tourist association is accomplishing a lot for this section is manifest in the number of tourists that have been seen this year. That the organization is attracting attention through the work it is doing evidence in the comments which are made by the residents of this section!"—Sheriff McKenna, Ogemaw county.

HURON SHORE REALTY STILL ACTIVE

Four representatives of a Detroit Realty concern were in East Tawas last week seeking Huron shore frontage. Several options, it is reported, were secured by the Detroiters. Illustrating the appreciation in shore frontage was one offer of \$30,000 made for a stretch of shoreline. This property cost the present owner \$750. The offer was refused.

## MAY PAVE M-10 TOWAS IN 1926

When a delegation representing the counties along M-10 headed by H. N. Butler of East Tawas, appeared Tuesday before the administrative board, Gov. Groesbeck assured them that this road would be placed on the program for improvement in 1926.

It was declared by H. N. Butler, spokesman for the delegation, that the traffic on this road has become so great that maintenance has become impossible. The improvement will consist of about 40 miles of paving from Pinconning to Tawas City. It is being urged that the pavement be built along the shore route. This is undoubtedly the logical road for improvement as it will give north-eastern Michigan one of the most beautiful highways in Michigan as well as a more direct route to the northern cities and towns. It will open up to improvement a large amount of valuable Saginaw bay property which has been held back on account of poor roads, and will help to develop the towns and cities and the farm property in the large territory adjacent to the proposed road.

NOTICE  
All persons who have not paid their dog tax, are required to do so at once. After September 1, 1925, we will prosecute all who have not obtained their dog license and kill their dog besides. I trust that all who have not paid will comply with this warning at once.

Charles W. Curry, Sheriff of Iosco county. Dated August 6, 1925.

BUTLER HEADS DELEGATION TO SECURE PAVING FOR M-10 HIGHWAY

The work of installing new heating plants in the court house and county jail was started Wednesday by Fred T. Leutke.

This has been contemplated for some time by the board of supervisors, as the old heating plant had been found to be inefficient, and a committee was appointed at the last session to secure bids. Two proposals were received, Edw. Pierson of East Tawas made a bid of \$2000.00 and Fred T. Leutke of Tawas City \$1960.00.

Instead of a single plant to heat the court house and jail as in the past, an individual plant for each building will be installed. The work is to be completed by September. 15.

## TREASURERS ENJOY HOSPITALITY OF E. TAWAS

The first annual convention of county treasurers of the state of Michigan was held at East Tawas last Thursday, Friday and Saturday with a good representative attendance of treasurers and their families. Delegates were present from the extreme southern as well as the extreme northern part of the state.

The Chamber of Commerce and Kanotin clubs of East Tawas gave the visitors a very fine banquet at the Holland hotel Thursday night. A. C. Carton was principal speaker. His subject was "The Deep Waterway Project." Mr. Carton has made a very extensive study of this subject and made some very interesting statements.

Saturday morning a permanent organization was effected with the following officers for the ensuing year: W. H. Price of Iosco county, president; Bessie M. Galloway of Ionia county, vice president; George Haid of Berrien county, secretary; B. Hoover of Tuscola county, treasurer; George E. Chapin of Calhoun county, trustee.

Friday afternoon, in spite of the rain, eight cars full of visitors made the trip to the AuSable river and through the National forest. A great deal of interest was taken in the reforestation project and the beauties of the AuSable were fully appreciated.

Friday evening, Deputy Auditor General George L. Hanser spoke on taxation and so many interesting phases of the subject were brought out that the discussion lasted until a late hour.

Quite a spirited contest developed over the location of the next convention. Telegrams and letters were received from Ionia, Grand Rapids and St. Ignace. The last named city received the largest number of votes and the next convention will be held there.

Owing to the continued fall of rain Saturday the program was cancelled for that day, but the visitors insisted they were having the finest kind of a time and had nothing but the highest praise for the city, the many points of interest nearby and the splendid treatment they received. Copies of the resolution will be published next week.

Johannah Ida Timreck was born on February 14, 1888 in Tawas City, and reached the age of 37 years, 5 months and 25 days. On November 29, 1906 she was married to Fred B. Conklin of Tawas City to which union two children were born, Albert and Donald.

She leaves to mourn her loss, her husband, Fred B. Conklin, two sons, Albert and Donald, her parents, Mr. and Mrs. Chas. Timreck, Sr., four sister, Mrs. Augusta Lietz, Mrs. Mary Kobs, Mrs. Emma Kasischeke and Mrs. Ida Schmaltz and three brothers, Charles, Albert and Herman besides a host of relatives and friends.

The out of town relatives to attend the funeral were Mr. and Mrs. F. H. Rich of Flint.

Funeral services were held on Wednesday from the Emmanuel Lutheran church, Rev. Aug. Kehrbeg officiating. Interment was made in the Tawas City cemetery.

When mending wall paper, never cut  
a regular patch, but tear off a suffi-  
ciently large piece and paste it over  
the place, carefully matching the pat-  
tern. This patch will show far less  
than if the edges are cut square.

COAL FREE**

The extraordinary opportunity we are offering comes  
only once a year. Thousands of people from all over the  
country took advantage of it last year; many more thou-  
sands will join the Heatrola Free Coal Clubs this year.

**Join the Heatrola Club Now!**

It's your opportunity to secure free of  
charge a ton of coal in connection with  
the purchase of an Estate Heatrola. You  
pay only a small amount to join the Club

of the Heatrola. Terms to suit your con-  
venience can be arranged, and the Heat-  
rola will be delivered at any time you  
may specify.

Estate Heatrola is the new-day way of  
home heating; more efficient than a base-

much easier on the coal pile. It is finish-

# WHAT THIS GRADE-MARK TRADE-MARK MEANS TO YOU

Know the Hemlock Grade-Mark

The initials N and H of the design signify that the lumber is Northern Hemlock—your native building lumber. The number 1 with a diamond in the grade of the piece on which it is stamped by the expert grader at the mill.

It means responsible manufacture and uniform grading at the mill—every piece plainly identified and in accordance with the rigid grading rules adopted by this association.

It saves you money and takes the guesswork out of your lumber utilization, Northern Hemlock grades being based upon the broad economic ground of their relative usefulness to you.

On your Hemlock load-bearing dimension—studding, rafters and joists, it guarantees they are extra standard size (more wood and strength to the piece) insuring greater strength and rigidity to your framing.

Add to this the facts that native Hemlock is immune to dry-rot, that it takes and holds paints perfectly and you'll appreciate the many advantages and investment value in Northern Hemlock construction—framing, underflooring, sheathing, siding and exterior trim.

Yes, it pays to use good lumber of known quality and full standard size. BUY BY THE GRADE-MARK. Save money. Your Lumber Dealer will gladly assist you in selecting the right grade for the right purpose.

## For Scorched Cloth

Wools and silks scorch much more readily than cottons or linens and because the fabric is disintegrated by the high heat, they cannot be restored. Very slight scorch on the surface of materials which are not particularly delicate may sometimes be rubbed away with a bread crust. If the garment is fast color hanging it in the sun may help to improve the appearance.—Housewife.

## Placing Tommy

It was too rainy to go out, so Peggy and Tommy were entertaining themselves by picturing the wonderful things they would have when they grew up. "I shall have a lovely motor car," said Peggy. "So shall I," said Tommy. "And a radio," continued Peggy. "So shall I," said Tommy. "Oh, Tommy," Peggy said in an exasperated tone. "I believe you are what they call a 'so-shall-ist'."

## Beginning of Printing

**Had Passed Away**

Returning from his visit to the sea-shore the Rev. Dean told the family about the ocean. "Why," he exclaimed, his eyes big with excitement, "it jumped and leaped all around! I brought some of it home to show you. Now just look," and he produced a big bottle of sea water, the contents of which he poured into a pan, where it lay inert and lifeless. "Huh! that's funny," he said. "It must have died coming home."

**Set Civilization Back**

The Vandals were a Teutonic race formerly inhabiting the southern shores of the Baltic, who, about the beginning of the Fifth century, ravaged Gaul and overran Spain and northern Africa. In 455 they pillaged the city of Rome, mercilessly despoiling it of its treasures of art, literature and civilization. The Vandals established themselves in northern Africa, but their kingdom was overthrown in 533 by Belisarius.

Col. A. H. Gansser appeared before the state administrative board at Lansing, as the representative of the Bay City Legion post and the Legion of Michigan recently, and requested official recognition and support. As a result, the state administrative board instructed its finance committee to appropriate \$3,000 for the Bay City Legion convention.

Governor Groesbeck will be one of the guests of honor at the convention, together with members of the state administrative board. Every day brings word of special Legion attractions coming to Bay City for Labor Day. Jackson post plans to bring its famous company of zouaves. Sault Ste. Marie, through its chamber of commerce and Legion post, will invite the Legion of Michigan to come there in 1926, according to Max Harris, post adjutant. The "Soo" delegation will come to make a real fight for next year's convention.

**Cats Without Tails**

In most Manx cats the tails are represented merely by a tuft of hair without any remnant of bone. This strain is met with in many parts of Russia and there is a very general opinion that it originally came from Japan. Unless the jungle cat, which is a nearly whole-colored species, can claim the position, the origin of these Manx-Malay cats is still unknown.

It was made at Glastonbury abbey by one of the monks in 1225, and in Elizabeth's reign was removed from Glastonbury to Wells cathedral. **Got Idea Worth While**

The saw is said to have been invented in ancient Rome by a man named Talus. He came upon the jawbone of a large snake, and employed it to cut through a piece of wood. He then fashioned an instrument of iron similar to the snake's jawbone and this was the first metal saw. Sawmills came into existence in central Europe early in the fifteenth century.
