## TAWAS CITY HIGH WILL OPEN TUESDAY, SEPT. 8

The Tawas City public schools open the 1925-1926 school year Tuesday, September 8, under the supervision of Rolland M. Bogue. This is Supt. Bogue's second year here.

Indications are that the coming year will be one of the best experienced by the school. A large enrollment is predicted and with a corps of capable teachers, there should be nothing to prevent the Tawas City schools continuing among the best schools in this district.

During the past several weeks, Henry Fahselt, janitor, has been busy renovating the interior and placing it in splendid condition for the coming year.

Following is the list of teachers: Rolland M. Bogue, superintendent, Francis M. Cooks, principal, Mrs. F. Moeller, Mrs. L. Bigelow, Miss Helen Grou, 7th and 8th, Mrs. Ferne Bogue, 5th and 6th, Miss Bernice Miller, 3rd and 4th, Miss Alice White, primary, and Mrs. Emma Ansthuetz, ward.

All out of town students desiring to attend the Tawas City schools should notify Mrs. R. Baguley, secretary of the board of education.

The boundaries for the children going to the ward school are as follows: Lake street from D. & M. shops to Friedman's corner, then the east side of Second avenue (from Mrs. August Luedtke's residence to First street) then east and west sides of Second avenue to city limits, thence following city limits eastwardly to D. & M. shops.

## CHARLES H. THOMPSON

Charles H. Thompson died at the home of his sister, Mrs. Thomas Frocks in Reno township Wednesday after an illness of nine months.

Charles H. Thompson was born in Flint on March 28, 1856, and was 59 years, four months and 22 days old at time of death.

In his early manhood he learned the machinist's trade which he thoroughly mastered in later years. Through all those months of affliction he daily looked forward to the time he would be able to return to the shop to take care of his unfinished work.

The chosen words of the minister, "He weakened my strength in the way; he shortened my days," were symbolical of the last few days of his life.

In 1903 he was united in marriage to Miss Jennie Horton of Cheboygan, who preceded him in August, 1905.

There is left to mourn his loss, two sisters and one brother, Mrs. Thos. Frocks, Mrs. L. D. Watts and Elton Thompson. All were present at his bedside to administer his last desires. He also leaves other relatives and a host of friends.

The funeral was held from the Reno Baptist church, Friday afternoon. Rev. Roberts, pastor of the church officiated and the remains laid to rest in the Reno cemetery.

## AGED WOMAN INJURED BY CAR DURING FIRE

Mrs. Andreas, 75 years of age, living with her daughter, Mrs. Chas. Randall at their summer cottage near Alabaster is slowly recovering after having been knocked down by an auto last Saturday.

The Randall barn had caught fire and Mrs. Andreas and little grand daughter were on their way to a neighbor's house when she was hit by a car carrying men to assist in putting out the fire. In the excitement the men failed to see her. She is partially paralyzed from the accident, but is now getting along as well as can be expected.

The barn and a Reo car which was stored in it, were completely destroyed. The house was saved by the earnest workers after catching fire eleven times.

## KENNEDY-POWELL

On Saturday, August 22, Miss Leona Kennedy, daughter, of Mr. and Mrs. John Kennedy, formerly of Tawas City, was united in marriage to Dr. James W. Powell of Detroit, formerly of Little Rock, Ark. The bride attended high school in this city and is also graduate of business college at Detroit. The groom is a well known physician of the northern section of Detroit, a graduate of the University of Arkansas and did post graduate work in New York City. They will make their home in Detroit.

One bushel of ashes to a ton. Guaranteed. Ed Schanbeck, Phone 83.

## BOY ACCIDENTALLY SHOT

Alfred, the 12 year old son of Mr. and Mrs. T. G. Scofield of Hale, was accidentally shot last Thursday afternoon. He with Frankie Blanchard and Lawrence VanWormer, were in the woods near the Scofield home, where Frankie was shooting crows. They had started home, Alfred ahead, when the trigger of the gun caught in the brush, discharging it. The bullet passed through the boy's body. Lawrence who was following, summoned help and as quickly as possible he was hurried to the hospital at Bay City, but the wound proved fatal. He passed away Friday morning.

The funeral service was conducted Monday at the M. E. church. Rev. Roberts officiated. Interment was made at Evergreen cemetery.

The bereaved family have the sympathy of the community.

Out of town relatives were Mr. and Mrs. Ulam Scofield of Birmingham, Mr. and Mrs. Moseoe Scofield of Temperance, Mrs. Mary Scofield and Miss Ida Scofield of Toledo.

## MUELLER-HEUMAN

The home of Mr. and Mrs. Frank Mueller of this city was the scene of a charming wedding last Saturday at 6:30 o'clock when their daughter, Amanda, became the bride of Robert Heuman of Detroit.

The bride's chosen colors, blue and white, were prettily carried out in the decorations. Miss Mueller's bridal dress was of white tulle and she wore a veil trimmed with Spanish lace, and carried a bouquet of white roses and white snap dragons.

Misses Margaret Mueller and Linda Mueller of Saginaw as bridesmaid wore strawberry rose crepe and pou-dre blue crepe dresses and carried pink roses and snap dragons.

Ferdinand Schmaltz and Elmer Heuman of Detroit attended the groom. Rev. F. A. Sievert performed the ceremony. Marion Heuman sang, "Whispering Hope."

Out of town guests that were present were, Mathew Heuman, Mr. and Mrs. Elmer Heuman and family, Mr. and Mrs. Albert Heuman, Mr. and Mrs. George Radamsky, Mr. and Mrs. Herman Krachmar and family, Mrs. Fred Ritter and Mr. and Mrs. Ernest Mueller, all of Detroit; Rev. and Mrs. Chas. Mueller and family and Jacob Mueller and four sons of Saginaw.

Dinner was served at seven o'clock to 75 relatives and friends.

Mr. and Mrs. Heuman left Monday afternoon for Detroit, where they will reside at 14110 Ward avenue.

## TAWAS TEAM LOSES TO ALPENA

Although they outbit the Alpena boys, Tawas lost to the upstate team at Alpena by an 11 to 6 score. The full team did not go up, but the substitutes put up as good a game as the regulars.

In the fifth inning, with the score 6 to 0 in favor of Tawas, a few ar-biter decisions gave our gang the idea that the game was slated to read as an Alpena win. So from then on Tawas helped all they could to allow it to go as scheduled and with marked success, eight hits, two walks and nine errors counting eleven runs for Alpena.

Noel, with three singles and a shoe-string catch, furnished the only thrills of the game. Youngs and Kearly of Harrisville did the battery work for Alpena.

Alpena plays here September 13. Tawas ..... 2 0 1 0 3 0 0 0 — 6 Alpena ..... 0 0 0 0 3 0 6 2 \*—11

Tawas—Hits 10, errors 9. Alpena—Hits 9, errors 3. Batteries—O. Johnson and Rahl, Thompson and Kearly.

Beginnin next Sunday the home fans can count on baseball at Tawas beach every week end until October.

Joe Halligan has been added to the hurling staff and the regulars will all be there to put each game in the win column.

The Schust Baking Co. of Saginaw will play here next Sunday, August 30. On September 6 and 7 the Essexville team will endeavor to set down the Tawas team. On September 13 the Alpena team will play here. On September 20 the Ruggles Truck Co. team will be here and on the 27th we expect the J. W. Shannons of Detroit.

The admission to these games will be 50 and 25 cents and the management expects the games to be well attended as long as an effort is being made to give the fans good base ball.

For the best results, advertise your auction sale in the Tawas Herald.

## EAST TAWAS PUBLIC SCHOOLS HAVE BRIGHT OUTLOOK

The East Tawas public schools are growing, not only in numbers only, but in influence and efficiency. This growth has been steady and sound. These schools are meeting the needs of the community and thus justifying their cost.

A well defined program of development and equipment was adopted by the board of education a few years ago, to the end that these schools should in due time maintain a commercial department; an industrial and fine arts department; add scientific agriculture to its scientific department; and while maintaining athletics, also provide for the physical culture of every pupil in the schools from the kindergarten to the senior high school inclusive. This program of enriching the curriculum it was resolved to accomplish without sacrificing any item of value in the academic subjects, language, mathematics, history sciences, etc., but rather to improve them by placing at the head of each of these departments severally, a thoroughly competent teacher, one holding a college degree if possible.

This entire program is well nigh accomplished. Ten typewriters are busy every hour of the day, two well equipped class rooms are occupied by the commercial department. Our graduates are able to make responsible positions in offices as stenographers, typists, bookkeepers etc., and they are doing it. Our manual training room looks like a real shop today, tools and machines make glad the hearts of a large group of boys who eagerly take up the work in mechanical drawing and manual arts, devoting certain evenings of the week as well as class hours during the day to this work whose only hardship is that the evening or the class hour is too short. Scientific agriculture is just coming into its own and the farmer boy finds his project a means of earning not only a credit in high school but a handsome profit besides.

We have a Michigan State College degree man the entire year in charge of this work and state and federal aid is backing it up. Any boy or girl interested in practical things and scientific work will be delighted with

## MUST HAVE PERMISSION TO SET OPEN FIRES

Open fires except for domestic purposes, cannot be built except when the ground is covered with snow or adequate fire breaks have been provided. The following is the text of amendment to Section 7, Act 143 of Public Acts of 1923, which went into effect Thursday, August 27:

Sec. 7 It shall be unlawful when the ground is not covered with snow to start or have any open fire except for domestic purposes and to protect persons or property in case of fire, without the written permission of the conservation commission or other authorized conservation officer or supervisor of a township or some other elective officer designated by said supervisor, unless a fire break sufficient to check the spread of such fire shall have been freshly made or plowed around the area wherein said fire is set. Permission to set fire to any woods, grass lands, brush or slash for the purpose of clearing or improving lands, or for preventing other fires shall be given whenever the same may be safely burned upon such reasonable conditions and restrictions as the conservation commission may prescribe to prevent spreading and getting beyond control. Such permission shall be in the form of a written permit on blanks to be furnished by the department of conservation and such permit may be revoked in the discretion of the said conservation commission in cases of extreme danger when such act is clearly necessary for the safety of life and property.

Provided, That railroad companies and road contractors when burning large areas under such permit shall have some competent person constantly in charge of such fires so as to prevent the spreading thereof. Any persons or corporations violating any provision of this section shall be deemed guilty of a misdemeanor and on conviction shall be punished by a fine of not less than twenty-five dollars nor more than one hundred dollars or by imprisonment in the county jail for not more than ninety days, or both such fine and imprisonment in the discretion of the court.

#### Wisdom in Choice

A doctor who had taken up as his  
specialty the treatment of skin dis-  
eases was asked by a friend how he  
happened to select that branch of med-  
icine. "There were three perfectly  
good reasons," replied the physician.  
"My patients never get me out of bed  
at night; they never die and they  
never get well."—Medical Review of  
Reviews.

#### "Higher Criticism"

The higher criticism is a science the  
aim of which is the determination of  
the literary history of books and writ-  
ings. It is called the higher criticism  
to distinguish it from the related  
science of lower or textual criticism  
which has for its object the ascertain-  
ing the history of writing as the work  
of penman and printers.

#### NOTICE

Moved by Alderman Lanski and  
supported by Alderman Harris that  
the following resolution be adopted:  
Whereas the Detroit & Mackinac  
Railway Company is the owner of  
Blocks 18, 20, 21 and 25 in Scheffler  
& Co's. addition to Tawas City, ad-  
joining their fenced railroad yards,  
and propose to erect thereon a tim-  
ber treating plant, which will employ  
a number of men, and such blocks  
are bisected by Fir, Spruce and Hur-  
on Streets, so called and named on  
the plat thereof, and has requested  
the common council of Tawas City to  
close and discontinue such streets,  
where they bisect these property;  
and whereas the common council has  
carefully considered the matter, and  
believe such request should be grant-  
ed, and such streets being now un-  
used by the public for any purpose  
whatever.

Therefore the common council of  
Tawas City deems it advisable to  
vacate, discontinue and close such  
bisecting streets, to-wit: Spruce  
street running northeasterly from  
Oak street to the west line of the  
railroad yards as now fenced; also  
Huron street running southeasterly  
from Fir street to the railway yard  
fence, such streets being in Scheffler  
& Co's. addition to Tawas City.

It is further ordered that the  
council meet and hear any objections  
to the closing of such streets at a  
meeting to be held at the city hall on  
the 8th day of September A. D. 1925  
at 8 o'clock p. m., and that notice  
thereof be published once each week  
for four successive weeks as provid-  
ed by law.

Roll Call. Yeas—Wendt, Schrie-  
ber, Harris, Johnson and Lanski. Nays  
None. Carried.

#### CAN SING

By DOUGLAS MALLOCH

IF A bird in a cage can sing, my dear,  
As though the days of the spring  
were here.

If a bird, forgetting the time o' year,  
Can sing in a room that is dark and  
dim

As though he sat on a greening limb,  
Ye, sing for those who imprison him.  
Can sit alone, and can still sing on—

Surely then you and I can sing,  
Whatever shadows around us cling  
Or what the moment may chance to  
bring.

Surely then you and I can be,  
Though bound in body, in spirit free,  
Can sing a little as well as he.

For few shall find what they most de-  
sire;  
We are all shut in with our strands  
of wire.  
Till hearts grow heavy and bodies tire:

We may not labor at what we dream;  
But the whistling boy has the willing  
team,  
And a little song makes a shorter seam.

We lose some loves as we pass along,  
There are some go far, there are some  
go wrong,  
But still there is joy enough for song.

No night so dark but the dawn is  
near—  
Oh, we can find some thought to cheer  
If a bird in a cage can sing, my dear!

**FEDERAL RESERVE HELPS FARMERS**

How Its Aid to England's Return to a Gold Standard Benefits American Agriculture.

By M. A. TRAYLOR  
Second Vice President American Bankers Association.

There has been no more important event for the American farmer and stock man since the Armistice than the recent return of Great Britain to a gold standard. It seems a long distance from the Montana farm to the gold vaults of the Bank of England, but the price the farmer gets for his wheat and cattle depends not a little on that fact.

M. A. Traylor

The farmer sells his wheat to the elevator man and not the real buyer in many cases. Is an Englishman, a Frenchman, a German, or an Italian. About one-third of the wheat crop is usually sold abroad and this part is a large factor in fixing the price of the entire crop. Between the farmer and the foreign buyer there are many steps. In recent years the most important step has been that at which the foreign buyer has to pay the American exporter, for the international mechanism of payment has been badly out of order because Europe was off the gold standard. It was just as though an English buyer drove up to your farm house, bargained for your wheat and drew up the contract. But when you discussed payment, he said: "I'm sorry I haven't any good United States money to pay you with; I'll have to pay you in my English paper money, which isn't worth its face value in gold. I don't know what it may be worth next week, but that is your risk."

**A Deadly Foe of Trade**  
How many would be willing to sign contracts on this basis? Yet that is the way most of the world's trade has had to be carried on since the Armistice. In practically all countries except the United States the currencies have had no fixed value in gold, but have changed in value from day to day. Whenever one country sold anything to another country, somebody had to take the risk of loss because the value of the money might change before payment was made. Such uncertainty of payment is a deadly foe of trade, and people were afraid to do any larger international business than they had to.

Exports of food stuffs from the United States fell from two and a half billion dollars in 1919 to eight hundred millions in 1923, and the difficulties of European buyers in making satisfactory payment for American farm products was one of the large factors in the drop in the prices of farm products. But now the recent action of Great Britain in declaring that it will again redeem its paper money in gold means that British buyers of American products can pay for them with money which is accepted the world over at its face value in gold. With the return of Great Britain to the gold standard, a majority of the countries of Europe have paper currencies equal to gold.

**How Reserve Banks Helped**  
American bankers have assisted in the British return to the gold standard by giving a \$100,000,000 credit to the British government. But more important than this was the action of the Federal Reserve Banks in granting the Bank of England material co-operation. They placed \$200,000,000 gold at the disposal of the Bank of England for two years, to be used by it, if necessary, in maintaining the gold standard. The readiness of the Reserve Banks thus to co-operate was an important influence in the willingness of the British to take this all important step.

This action of the Reserve Banks was a most constructive step in aid of American farmers and producers who will benefit greatly by the removal of this element of uncertainty from their export transactions. If all the sins of omission and commission charged against the Federal Reserve System by banker, business man, live stock man or political blatherskite in the last five years were true, and practically none of them are, the service rendered commerce and industry by the System in connection with the restoration of the gold standard in so large a part of the world would far outweigh any mistakes that those in charge of the System may have made. No banker, business man or farmer should permit any self serving declaration by favor seeking demagogue to swerve him from a determination to see that the System is maintained for the future welfare of the country. Fundamentally conditions are very sound and we are doing a very large volume of business, no little part of which is due to the equalizing and stabilizing effect exercised by the Federal Reserve System on the credits of the country. Throughout all the stress of the last five years there have been no times of either stringency or plethora of bank credit. Rates have run along on a rather level keel and in my judgment have had much to do with the stable volume of business which we have enjoyed, and which is quite contrary to the old experience of the aftermath of panics. With a credit structure such as only the Federal Reserve System can guarantee, I feel we need have no apprehension but on the contrary sound optimism for the future.

## EAST TAWAS PUBLIC SCHOOLS HAVE BRIGHT OUTLOOK

the opportunity offered in our science laboratory. Beginning next month, music, drawing, and physical culture will receive daily attention in our schools. Miss Zelma Hales, a master in this line of school work, will have charge, giving her whole time to a line activities which will relieve the strain on teachers in the lower grades and provide cultural instruction to the entire school. Miss Hales is the fifth teacher in these schools now holding college degrees.

The schools are housed in a modern building in which has been just installed a new heating system, and otherwise improved for the comfort and convenience of pupils and teachers. The lighting and ventilating are approved as thorough and adequate. In fact everything has been made ready for the most successful year in the history of these schools.

After September 1st of this year, all beginners in the teaching profession are required to have a years training. That year of professional training may be taken in the Iosco County normal, which is conducted in connection with the East Tawas public schools, and satisfy the state requirements. The graduate of the Iosco county teachers' training class is granted a three year teachers' certificate, which may be twice renewed also ten units of credit in the state normal or three-fifths of a year's credit in the University of Michigan. A recommended graduate of any approved high school is eligible. There is still room for more students in this teachers' training class.

## COYOTES RAVAGING FLOCKS OF SHEEP

During the past few weeks sheep ranchers in Ogemaw, Iosco and Oscoda counties have been losing a large number of lambs. They would find the carcass of the lamb with its throat lacerated, which appeared to have been done with a knife.

It was thought to be the work of some wild animal and was reported to the conservation department. After an examination by an expert it was found to be the work of coyotes. Immediately District Deputy Howard Thompson appealed to the department for assistance and two special state trappers were sent here, where an attempt will be made to exterminate the pests. It is said that the state men use a No. 3 wolf trap for the work. The two special men that have been detailed for this work are Emil Skoglund and Jack Bennett from Houghton. They are working in the eastern part of the county and Iosco county.

It is reported that 75 lambs have been killed on the Three E ranch in Iosco county; 35 on the Welsch ranch; 50 on the Rassal ranch in Oscoda and a large number on the Gus Anderson and Peter Couchy ranches.

Unless the animals can be exterminated they will be a great menace to Michigan ranchmen and farmers as they prey upon other animals on the farm than sheep.—Ogemaw Republican.

## COMING!

A goodly number of our people are going north for blackberries.

## Card of Thanks

We extend to our neighbors and friends our heartfelt thanks for the kindness and assistance during the illness and death of our brother. We wish to especially thank friends at Jackson Churches, Saginaw, for their generosity, also the minister and the choir.

Mrs. Thos. Frockins  
Mrs. L. D. Watts\*  
Elnon Thompson.

## Protect the Birds

Theodore Roosevelt said: "It is the duty of every man, woman and child to protect birds." Every one who realizes the incalculable number of insects which even one bird will destroy in a season should be willing to take some pains to protect these charming and useful aerial allies of the farmer and orchardist.
