FANS TREATED TO FAST GAME

Lovers of good baseball were treated to some real stuff when they saw the Tawas team win from the fast Schust Bakery of Saginaw last Sunday. The game was a fine pitchers battle with Joe Halligan, toiling for Tawas, having the edge over Benjamin of the Bakers and had the fielding been errorless the score would have read 1 to 0. That one run would have been a home run inside the field by Jack Johnson, the second time in two weeks the stunt has been pulled by a Tawas man. But in the sixth inning Halligan, first up, was safe on second when Stag fielded his grounder and threw the ball to the right field fence. Jack Johnson then leaned on the ball for a homer, crossing the plate about ten feet behind Joe. Syze then drove a liner at the pitcher that hit Umpire Bolen, Syze being safe on first. Musolf hit a high fly to left. The wind carried the ball in so far the T. Fleischmann missed it but forced Syze at second. Nelem flied deep to Mott, Musolf stole. The ball hit Stag's arm and rolled into right center, Musolf scoring. Dillon then ended the inning by flying to right.

Although five singles were made off Halligan, only 28 men faced him Rahl getting three on attempted steals and double plays cutting off two more extras. The last put out of the game was on a throw from center field by J. Johnson to catch Colpean at first on what looked like a sure single.

Next Sunday and Monday the Essexville team will be here to engage the Tawas team in a pair of games. Essexville has Urban and Rogon, young ex-leaguers, in their lineup and the fans are sure to see real baseball as the Tawas win of last Sunday is sure to put the home boys on their toes.

SAND LAKE PROPERTY DEVELOPING RAPIDLY

Lots at Sand Lake that could have been purchased for \$200.00 or \$300.00 each a few years ago are now selling readily at \$1000.00 each. Over twenty cottages have been erected at this popular summer resort during the past season. The cottages are of excellent construction and the place has the appearance of a solid development with an excellent future.

Recently a postoffice was established there. Owing to the fact that there were other Sand Lakes in the state another name was required and it has been designated as Isoco Postoffice. Mrs. L. S. Little is postmaster. The mail is handled by a star route from Melvor.

LOCAL VETS WILL GO TO STATE MEET

Members of the Jesse C. Hodder Post, No. 189, American Legion, are about set for their plans for attending the veterans convention at Bay City, September 6, 7 and 8, including Labor Day.

The joint convention committees of Harding-Olk-Craigie Post of the American Legion and the Bay City Chamber of Commerce, have carried forward the convention plans for the world war veterans very materially. Headquarters for the convention committees will be at the armory, but the Chamber of Commerce officers will co-operate in every way. The Retail Merchants' Association and Community Service, at Bay City, have also assured the American Legion workers of their whole-hearted support.

One of the innovations will be a reunion banquet of Michigan's two fighting divisions. Capt. Geo. J. Laetz will have charge of the 32nd division reunion, while Dr. Howard V. Geister will have charge of the 85th division reunion. The American Legion Weekly with over one million on their mailing lists all over America each week is giving the Bay City convention fine publicity. Post Commander G. V. Bradbury is having Bay City booster letters sent to every one of Michigan's 356 Legion posts and the 110 local units of the Legion Women's Auxiliary. State headquarters of the Legion is boosting the Bay City convention in every bulletin. District meetings are being held this month all over Michigan and Col. A. H. Gansser expects to attend them all and extend the invitation to come to Bay City September 6, 7 and 8. Assurances so far received indicate the largest attendance yet found at a Michigan Legion convention. Capt. Wm. R. Morris has assurances from all Bay City hotels that the usual rates will prevail, and he is booking reservations as fast as they are received.

MRS. GEORGE KING

Mrs. George King passed away at her home August 31 at 1:30 p. m. Death was caused by acute indigestion.

Hazel Wilson was born in Brown City, December 15, 1900. She was united in marriage to George King of East Tawas on April 16, 1919 at East Tawas. Mrs. King suffered from sugar diabetes for the past years.

She leaves her husband, George King, three sisters, Miss Nellie Wilson of Detroit, Mrs. Earl Bartlett of Brooklyn and Mrs. John Swartz, Jr. of Tawas City, also several aunts and uncles besides a great many friends. She was a member of the Isoco Chapter, O. E. S. No. 71 and Womens Auxiliary of the American Legion.

The funeral was held from the Christ Episcopal church, Thursday, September 3 at 2:00 p. m. Interment in the Tawas City cemetery.

Mr. and Mrs. Earl Bartlett of Brooklyn, Miss Nellie Wilson of Detroit and Mr. and Mrs. Clarence King of Comins attended the funeral.

ST. JOSEPH'S SCHOOL

St. Joseph's school opens Tuesday morning, Sept. 8, and a full attendance is expected both in high school and in the grades. Although a complete classical course is encouraged, a commercial course is offered for those who wish to enter offices after leaving school.

The program offered this year promises to keep up the record for high grade work for which the school has already acquired a wide spread reputation. A brief synopsis of the work offered follows:

A course in Ethics beginning with the little ones of the primary department and extending to the senior class will be given by the pastor, Reverend Brogger.

Latin and Spanish are in the regular program, and an opportunity for French is offered in case a sufficient number of students desire it.

Art and Vocal Music according to graded courses will be offered to all grades.

Sewing will be taught to the girls in the grades from the fourth to the eighth inclusive.

Opportunities will be extended to a limited number for private work in Art and Sewing.

In the Music Department special attention will be given to the study of the Violin and to a progressive series of piano instructions including classes in Theory, Harmony, and Composition.

CHLORIDE APPLIED TO M-10

Calcium chloride is being applied to M-10 in Isoco county. So far the road has been treated from the Arenac county line to Whittemore. This treatment has proven an excellent means of holding down the dust and materially helping to keep the roads so treated in better condition.

A crew of men have been detailed to paint the mail boxes and standards white and place them in a uniform manner on M-10 in the county. This improvement is nearly completed.

O. E. S. HONORS PAST WORTHY MATRONS

Last Friday evening Tawas City Chapter O. E. S. honored her eleven Past Worthy Matrons by presenting them with jewels. The Chapter was in turn honored by the presence of Mrs. Dolly Buckingham, Worthy Grand Matron of the state of Michigan and Mrs. Mary Liddy, Past Grand Electa. Mrs. Buckingham, in her usual pleasing manner, made the presentation speech to the Past Worthy Matrons, each of whom responded with well chosen words. The speeches were interspersed with music, both instrumental and vocal and after the program a well appointed supper was served in the dining room. Dancing completed the evening.

MANY ATTRACTIONS FOR FAIR

In less than two weeks the Isoco County fair will be in full swing. Fair officials have put forth every endeavor to make this fair the best in the history of the association.

Free attractions have been booked that are worth more than the price of admission alone. Horse races have been booked for each day of the fair. An eighteen piece uniformed band will furnish music for the occasion. The usual mid-way of shows, rides and concessions will be a big feature.

Enteries of live stock, poultry and agriculture are expected to exceed that of many years previous. The merchants display will be worth your while.

In all the officials venture to say that the 1925 fair will be the best yet. Get a membership ticket and see it all, something doing day and night.

There are several premium lists still available. If you did not get one, a postal to the secretary will bring it. Bring an exhibit. Make the fair what it was originally intended to be—an agricultural fair.

INVITES IOSCO, PEOPLE TO VISIT FORD EXHIBIT

W. C. Roach of the local Ford sales and service extends an invitation to all from this territory who may attend the state fair at Detroit next week to visit the Ford display. The new models of Ford cars will be shown, a Stout all metal aeroplane will be on exhibition, (one of the new additions to the Ford family) and a full line of tractors and equipment. The famous Ford band will give concerts daily. A spacious rest tent has been provided.

NAVAL RESERVES VISIT E. TAWAS

The naval training boats, Wilmington under Commander Nickolett, Dubuque under Commander R. T. Broadhead, Paducah under Commander Kelly and the Sub. Chaser 412 under Commander E. A. Lichtenstein, entered Tawas bay Wednesday morning and during shore leave, Wednesday and Thursday, the men and officers were guests of H. K. McHarg, Jr., and the East Tawas Board commerce. The squadron will go to Detroit today but will return next week Thursday and Friday for further maneuvers in the harbor. East Tawas is making elaborate plans to entertain the sailors again next week.

The boats are manned by over 300 United States naval reserves who are now receiving part of their training by actual maneuvers on the Great Lakes. The men are from Detroit, Chicago, Toledo, Duluth and Milwaukee. Many are college men, a large number are from the engineering department of Marquette university of Wisconsin.

A dance for the men and officers was given at the Community house Wednesday evening. Thursday evening the officers were dinner guests at the home of H. K. McHarg, Jr., in the evening a dance was given at the Community house.

Gov. Vic Donahey of Ohio will be at East Tawas during the maneuvers here next week. People wishing to get first hand information relative to this important arm of defense, the naval reserves, will gather at East Tawas and witness the various events next Wednesday and Thursday.

FAMILY REUNION

The second annual reunion of the Chase family was held in McCurdy Park, Monday, August 31, with 70 members of the family in attendance. Rolla L. Chase of Owosso presided, because of the illness of the president, Elmer King of Ann Arbor. The business meeting was held immediately following dinner and the following officers were elected: R. L. Chase, president, and Mrs. J. Ernest Chase, secretary and treasurer.

Included in the guest list were William E. Chase, aged 83 years, of San Jose, Calif; his sister, Mrs. E. Adell Chase Babbitt, aged 85 years of Dale, N. Y., and another brother, Newton Chase of Alden, N. Y. Guests coming from a distance were Miss Lena Dean of Pasadena, Calif., Mrs. Bertha Weaver Bronson, of Lockport, N. Y., and Mrs. Henry Babbitt and son, Allyn, of Buffalo, N. Y., and Mrs. Mary L. Schreiber of Atica, N. Y. Michigan guests included those from Howell, Caladonia, Fowlerville, Ann Arbor, Alto, Saginaw, Detroit, Byron, Lansing, Webberville and East Tawas. Telegrams were read from absent members living in California, who held a reunion of the members in Los Angeles.

Miss Dorothy Finger of Detroit, added much to the program with her clever and amusing interpretations of "Mrs. McDuffy at the Ball Game" and "Rear Seat Driving." Other members of the company gave short talks, relative many items of interest regarding the early history of the Chase family.

Mr. and Mrs. Elmer King are to be hosts for the 1926 reunion in Ann Arbor.

THE PENCIL MAKES A FARM PAY BETTER

Farm Accounting Reveals Losing Methods and Points Way to Bigger Profits.

(From Banker-Farmer)

A farm cannot properly be called successful unless it pays a fair rate of interest on the investment and returns fair wages for the farmer's labor. Agriculture is considered by all odds the most important industry in the world, and yet in no other industry is the business end so neglected.

It is common to find a farmer with an investment of fifteen to twenty thousand dollars, yet does he keep books? Perhaps he may jot down a note now and then of an important deal, but this is of no value in an analysis of his business as a whole. No other industry, however small, is carried on without books of some sort.

Farming is a business and to be successful must be conducted in a businesslike way. The business man's mind should have indelibly printed upon it two questions: What profit is my business making? How can that profit be increased? To know the latter, one must find out the former; and to find out about profits requires the keeping of books.

It is not necessary for a farmer to have a course in bookkeeping. Almost every agricultural college in the country has issued a simplified farm accounting book which it sells at cost, and only a few minutes are required each day to jot down the day's happenings.

Accounts Increase Profits

Instances number a thousandfold where farmers have profited by knowing their business. Accounts kept by nineteen farmers in Illinois led them to improve the organization and operation of their farms in ways that added approximately \$650 to their average net income in 1922, the seventh year they had kept accounts.

An Iowa farmer found at the end of the first year he kept books that crops fed to livestock brought more money than when sold outright. His figures showed that his cows were poor; compared with other farms in the state, he found the number of acres cultivated per man on his farm, as well as the number of acres per horse, were below average. He rented more land and replanned his fields, so that the crop areas per man and horse were increased. He sold some of his scrubs and bought good cows. The second year his income from the farm, after paying all expenses and interest on the money invested, had been increased over \$350.

Costs Can Be Regulated

"I have discovered," says one farm bookkeeper, "that the kind of man you have on a job, as well as the particular team, often makes quite a variation in the cost of performing certain tasks. I have learned from the pages of my book that if I could have increased the yield of my wheat field by two bushels and my corn by five bushels I would have realized a substantial profit from them."

While the farmers may not be able to fix prices on their products, they do have a voice in determining the costs of production. To reduce this cost they must first know what the costs are.

The number of farmers who are keeping books on their business has increased remarkably in recent years, but the number of businesslike farmers is woefully small when listed alongside the sum total of the farmers in the country.

SALESMAN WANTED—Do you consider yourself qualified to sell quality lubrication in drums, half-drums, and quarter-drums on 30 day terms to farmers, threshers, truckers and industrial concerns in your section? We have several branches in the state and now seek representation in agricultural sections offering genuine opportunity to capable salesman who will invest only earnest effort. Must own auto. Age limit 30-55. Employment through personal interview. Address, Division Manager, Box 135, Saginaw, Mich.

The basis of any system of farm accounting is the annual property list or inventory. It is the starting point of the farm records. One must take into consideration decreases or increases in the value of all property owned to gauge the progress of the business. Lacking facts as to the value of his property, no business man can form an accurate estimate of how he stands financially. Increased cash may be due to property which was sold, or increased debts may be due to improvements made. If a farmer is falling behind, the inventory will emphasize this fact. Often when a man is discouraged and thinks he is making no progress, his inventories will tell him that he is better off than he thought.

At the end of each year a financial statement is drawn off. This is the farmer's rating and no farmer with a good financial statement need fear walking into a bank and asking for a loan.

The Planet Mercury

Mercury is the smallest planet, and
the nearest to the sun. Owing to its
proximity to the sun it is difficult to
see it with the naked eye. Its mean
distance from the sun is 38,000,000
miles, while that of the earth is about
94,000,000 miles. Mercury completes a
revolution of its orbit in 88 days;
it is about 3,000 miles in diameter;
and its mass is only about one-eigh-
teenth that of the earth.

MORTGAGE SALE

Default having been made in the conditions of a certain mortgage by Andrew J. Lowe, (a single man,) and Anna M. Lind to Jennie Allen dated the 11th day of September A. D. 1922, and recorded in the office of the Register of Deeds for the county of Iosco and state of Michigan, on the 28th day of January A. D. 1925, in Liber 27 of mortgages, on page 78, on which mortgage there is claimed to be due at the date of this notice, for principal and interest the sum of three thousand twenty and fifty-nine one hundredths dollars (\$3020.59) and an attorney's fee of fifty (\$50) dollars, as provided for in said mortgage, and no suit or proceedings at law having been instituted to recover the moneys secured by said mortgage, or any part thereof.

Notice is hereby given that by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, on Saturday the 28th day of November, A. D. 1925 at 10 o'clock in the forenoon, the undersigned will, at the court house in the city of Tawas City that being the place where the circuit court for the county of Iosco is held, sell at public auction, to the highest bidder, the premises described in said mortgage, or so much thereof as may be necessary to pay the amount so as aforesaid due on said mortgage, with seven per cent interest, and all legal costs, together with said attorney's fee, to-wit: The east half of the southeast quarter of section thirty-two; the southeast quarter of the northeast quarter of section thirty two, town twenty three north of range six east. Also a piece of land in the southwest corner of section fourteen town twenty three north of range five east, described as follows: Commencing at a point four hundred thirty one and one half feet north of the section corner common to sections fourteen, fifteen, twenty two and twenty three, town and range aforesaid, thence east four hundred eighteen feet to D. & M. Ry. right-of-way; thence west twenty eight rods and eleven feet to section line; thence south along section line fifty rods and fourteen and one half feet, to place of beginning.

The Pot and the Kettle

Senator Borah, always averse to European alliances on the part of the United States, said at a Washington dinner party:
"When two European nations begin taunting each other for imperialism, exploitation of aboriginal races, land grabbing and that sort of thing, it always reminds me of the fisherman."
"With a bitter, mocking laugh a chap said to a fisherman who sat fishing on a sun-baked rock:
"By gosh, friend, your time can't be very valuable to you. I've stood here watching you for two hours, and you haven't had a bite."
"My time's worth too much to me," the fisherman answered, "to waste two hours of it watchin' a man fish who ain't ketehln' nothin'!"

National Playground

Three tracts of public land, two in southern California and the other on the eastern coast of Florida, were temporarily set aside for outdoor recreational purposes through executive orders issued recently on the recommendation of the secretary of the Interior. The California tracts consist of 1,822 acres in San Bernardino county. One contains springs and an excellent camping site accessible to public highways. The other includes Indian pictographs and beautiful scenery at the junction of two canyons. The tract in Florida contains 52 acres. It is in St. Lucie county on the Atlantic ocean and has an excellent bathing beach.—New York Times.

Preserve Famous Ship

The English have concluded their processes of reconstruction and preservation on Nelson's famous flagship, Victory. A ship which made so much history and which served as the sea home of such a famous Englishman ought to be preserved. Incidentally she may be interesting to the present British generation as a reminder that in Nelson's day a first-class ship of the line could be built for a cost of about \$100,000, whereas in these times one costs \$30,000,000 and goes to the scrap heap in a decade.—Worcester Telegram.
