OSCODA WINS AT BI-COUNTY TOURNAMENT

The tournament held at Oscoda last Thursday, Friday and Saturday, February 23, 24 and 25 ended a very successful basketball season for the Bi-County Athletic Association. As a result of the tournament, both the Oscoda boys and girls became Bi-County champions for 1928.

Other members of the association were East Tawas, Whittemore, St. Joseph and Harrisville, who were more than eager to end Oscoda's record of being unbeaten, but all efforts proved futile, and the Oscoda boys and girls emerged from the association games and the tournament with a clean slate. Every game, in the elimination series and finals, was a hard contest and provided plenty of excitement for the fans. Banners were awarded by the Association to the 1928 champions.

William Crowe of Oscoda refereed all games.

The following are the line-ups for the tournament games:

COMMISSIONER REPORTS STATE ROAD MEETING

This year's road meeting at Ann Arbor was the largest ever held. Five hundred sixty road commissioners and state and county engineers were present. We had some very high-powered speakers from different parts of the United States.

The meetings were very instructive to both engineers and road commissioners. We learned a lot about road building from our State Highway Department. I could not help but notice that the papers from our highway engineers were just as good, if not a little better, than those from other states, such as Minnesota and Pennsylvania.

State Highway Commissioner Rodgers has what I call a wonderful organization, and with this body of engineers, the State of Michigan is going to see some mighty fine road building done.

I think that the time is but a short way off when real estate will be relieved of road tax so far as state roads go and possibly county roads. I think the gas tax and weight tax are the proper ways to get the money to build roads. That (continued on last page)

JOHN MCARDLE DIES SUNDAY

John McArdle, highly esteemed Tawas township resident, died Sunday, February 26, at his residence at the age of 67 years.

John McArdle was born near Stratford, Ont., February 24, 1861, and passed from this life at the age of 67 years and one day.

When about 15 years of age, he went to Stratford, where he became an apprentice and served four years learning the tinsmith trade, at which he worked for two years following. At the age of 21, he came to Tawas township, where he had one sister and three brothers living at that time. About a year later he bought eighty acres of wild land on which he lived, when at home, but spent much of his time for a number of years in the lumber woods and at his old home in Stratford.

On September 22, 1888, he was united in marriage to Louise Chambers of Tawas township, and to this union four children were born: Mrs. Eugene McCarthy of Flint, Mrs. John Katterman of Tawas township, John C. McArdle of Detroit and Cecil McArdle, who preceded him in death three weeks ago.

By hard work he made the comfortable farm home on the Meadow road, where the children were born and raised, and where they lived until three years ago, when they moved to the present home on the Hemlock Road. He was a successful thresherman and followed that work for thirty-five years. He has held various positions of trust and was always honorable and upright in all his dealings. He was a good friend and a kind and affectionate husband and father.

Besides the immediate family, he is survived by two brothers, James of Tawas township, Robert of Stratford, Ont., and four sisters, Mrs. David Jacobs, Mary and Maria McArdle, all of Stratford, and Mrs. Henry Jacobs of Calgary, Saskatchewan, three grandchildren and other relatives and friends who mourn his loss.

Those from out of town who attended the funeral were: Robert McArdle and Mrs. David Jacobs of Stratford; Mrs. L. P. Latham of Detroit; and Mr. and Mrs. Wm. Sherman and Mrs. Roy Davis of Bay City.

The funeral will be held in the large auditorium. President Mills has appointed committees and work has already begun on entertainment, banquet, and the choice of speakers. This meeting promises to be a most interesting one and will be enjoyed by all the sportsmen of the three counties involved.

Secretary Schreck has complete charge of the entertainment, and nationally known speakers will be on the program. Something different is also being planned so that the meeting will be entertaining and instructive to everyone present. The directors of the organization will meet several times between now and the annual meeting in order to watch carefully all arrangements that are being made and to do everything possible for the consideration of the guests that will be present.

CARD OF THANKS
We wish to express our heartfelt thanks to the neighbors and friends for the many acts of kindness and sympathy shown us in our deep sorrow over the loss of our dear husband and father, and for the beautiful floral offerings and those who loaned cars.

Mrs. John McArdle,
Mr. and Mrs. Eugene McCarthy,
Mr. and Mrs. John Katterman,

TOBIE SOKOLA

Tobie Sokola, older son of Mr. and Mrs. Pete Sokola, died at the Mercy hospital, Bay City, Sunday evening, February 26 after a two weeks' illness with typhoid fever and osteo-mylites. Everything was done that modern medical science could provide to save his life, but all in vain. His parents, who were with him when the end came, had the body prepared and shipped to the home in Sherman Monday morning.

Tobie Sokola was born at Detroit on May 7th, 1915 and was 12 years, nine months and 19 days old at the time of death. He attended school in Sherman District No. 5 and was well liked by all his playmates. All the scholars and the teacher of the school attended the funeral.

He is survived by his parents, one brother and two sisters. A number of relatives from Detroit were here to attend the funeral.

The funeral was held at the St. James Church at Whittemore on Thursday morning at 10:00 o'clock. Rev. Fr. Phillips of Omer officiated. Burial was made in the Catholic cemetery at Whittemore.

FUNERAL OF JOS. TRUDELL HELD TODAY

The funeral services of Joseph Trudell were held at 8:30 o'clock this morning from St. Joseph's church. Rev. Fr. E. A. Brogger officiated. Mr. Trudell died Tuesday evening at his residence in East Tawas at the age of 80 years. The deceased had been a resident of Isosco County for 47 years. During the greater portion of his life he had been engaged in the fishing industry.

Joseph Trudell was born at Bay City in 1848 and was the third white child born in that city, his sister being the first. He was the son of John Trudell, Bay County pioneer, who, in the early days, was Indian agent and interpreter for the government in that section. In 1867 he was united in marriage at Bayport to Emeline Fisher. In 1881 he came to Alabaster, where he spent some time as a fisherman. Following this he lived at Tawas City and for many years he has lived at East Tawas, where he continued his vocation as commercial fisherman almost continuously until his death.

He is survived by the widow, who is critically ill at this time, two sons, Capt. Benjamin Trudell of Grand Marais, Adelbert Trudell of East Tawas; three daughters, Mrs. Phillip Helmer of Pinconning, Mrs. Elgin Gates of East Tawas and Mrs. Ernest Larson of Tawas Point; six grandchildren, and a brother, Louis Trudell, of this city.

Mr. Trudell was a man of sterling integrity, and, through his long connection with the commercial fishing industry in Saginaw Bay and Lake Huron, had made many friends.

Those from out of the city who attended the funeral were: Capt. Benjamin Trudell of Grand Marais; Mrs. Phillip Helmer of Pinconning; John Corwin and Eli Lixey of Alpena.

SET TIME FOR SPORTSMEN'S ANNUAL MEET

The meeting this year will be held in Oscoda in the large auditorium. President Mills has appointed committees and work has already begun on entertainment, banquet, and the choice of speakers. This meeting promises to be a most interesting one and will be enjoyed by all the sportsmen of the three counties involved.

WHITTEMORE AGAIN DOWNS ALABASTER

The Community House at East Tawas was the scene of a real basketball game Tuesday evening, when the Whittemore Independents defeated the Alabaster five by a score of 38 to 32. The game was fast and hard-fought throughout, with Whittemore leading from the start. The game was a marked contrast to the one played by the same teams a week ago at Whittemore, when the Whittemore team ran up a score of 58 to Alabaster's 19. Whittemore had things just about its own way during the first half of the game, running up a 14-point advantage, the score being 20 to 6. But, led by C. Johnson, the Alabaster quintet came back strong in the last half and came within six points of the winners at the end of the game. J. Forsten, center for the winners, was high point man of the game, getting nine (continued on last page)

SCHOOL NOTES

New pupils are expected to enroll soon.

The Freshman class led the high school in percentage of attendance during the last school month, with an average of 98.7%. The Seniors were next with an average of 98.5%. The Sophomores had 98.2% and the Juniors had 95%.

The Sophomores had the least number of tardinesses, having only one. The Freshmen had four, the Juniors 11 and the Seniors 26.

A faculty meeting was held Wednesday afternoon from 3:45 to 4:45. Some very interesting points were discussed.

Seventh and Eighth Grades

Clare Thompson has been absent for two weeks because of an absence in his ear.

For opening exercises we are reading "Ruth Fielding at the War Front" by Emerson.

Ward School

The first grade is making books for the days of the week. This was taken from a third grade composition on thrift: "Do not give your dad your pennies to keep. He will be sure to spend them."

We are glad to have Effie Prescott back at school after her illness. Billie and Dewey Bamberger, Bobby Fitzhugh, Jack Swartz and Janet Keiser are absent this week.

The 1 A's have started reading in their new first readers and the 1 B's in the Companion Primer.

Emma McCormick and William Sims had perfect spelling lessons in the second grade all last week; Bobby Roach and Frederick Luedtke had A's in the third grade.

The second grade finished their Peter Rabbit books this week.

Bobby Roach won in the third grade speed test on the subtraction combinations, finishing in four minutes with all of them right.

COMMISSIONER REPORTS

STATE ROAD MEETING

kind of tax makes the people who use the roads build and maintain them.

I was greatly interested in one paper, the title of which was "Township Roads." This paper was interesting to me because I live in a rural district and see how money is spent on township roads. There are \$14,000,000 raised each year by the townships and very few of them have a definite program. Lee J. Rothger, Department of Civil Engineering, Michigan State College, Lansing, gave this paper. He is willing to help any township get started on a road system that will soon bring the people of the township out of the mud and place them on a good road. I will not go into details on this as I have given you his address, and any township board or highway commissioner wanting to stop the waste of money on township roads can write Mr. Rothger and he will gladly put them on a sound township road building system. There being no supervisors or highway commissioners at the meeting, I take this way of getting the information back to the townships. I hope every township in Iosco County will write Mr. Rothger at the State College and at least get his system before the spring work begins and try to save money and still have better township roads.

You may say, "How about your County Road Commissioners?" Believe me, we had it pounded into our heads at Ann Arbor good and plenty how to build roads and at the same time to save money for our county, and we are aiming to do so! I know road building is very costly, but it is very necessary. We must give the public service, and that means money, which, in turn, means taxes, but here is the situation: The railroads are abandoning their branch lines, which is making counties and the state build roads to their settlements. Iosco County is one that must give its settlements roads that can carry its transportation. One can see the position the County Road Commission is in. These conditions arise and we have to take care of them, and that means money, but as I said, I don't think the day is far off when real estate will be exempt from road tax. Talk to your state senator and state representative about it—they help make the laws!

Magic Now Lost Art

If it ever existed magic is now a lost art. Nothing is accomplished without employment of brain and brawn. The magic of thought stirs to action which properly directed produces results. The magicians of today are its thinkers.

The Sweetest Music

The sweetest music is not in the oratorio, but in the human voice when it speaks from the instant life tones of tenderness, truth or courage.—Emerson.

Lofty Bridge

The Bear Mountain bridge over the Hudson river has a clear height of 155 feet above the surface of the water.

Colors Have Meaning

The red and green light on each of the wings of an airplane respectively and the white light on the tall serve the same purpose as the corresponding lights on ships. They enable the pilot of another machine to identify the different portions of an airplane.

Effect of Scarlet Fever

From recent medical observations it would seem that an attack of scarlet fever tends to destroy the diphtheria antitoxin present in the circulation, causing the Schick test to become positive.

Divisions of Indians

Indian tribes were formed originally as family units—that is, the members of a certain family banded themselves, maintaining certain customs of life and religion. Various factors after ward caused the tribes to expand.

No Watch Perfect

The bureau of standards says it is a well-known fact that it is impossible to secure a perfect adjustment of a watch—that is, to eliminate all variations in the watch's rate. It is, in fact, impossible to secure perfection of rate in any respect owing to the interrelation of the various adjustments and to certain factors which prevent the securing of ideal uniformity of rates.

Rheumatism and the Mind

Rheumatism is due to excess uric acid in the system, and tests have proved that the acid is formed in large quantities by the cynically minded, and hardly at all by the kindly minded. That is not to say that all sufferers from rheumatism are bitter cynics, for exposure to damp will produce the disease. But for every twelve cases of "damp" rheumatism there are eight-eight of the other sort.—E. J. Hager.

Egyptian Parrots

The parrots of Egypt were first met with by explorers of the Romans in the time of Nero. They are gray parrots with some pink and a little yellow on their plumage.
