## WORLD IS FIELD OF U. of M. STUDENT RADIO OPERATOR

The far corners of the world are reached by two radio stations operated by Allen F. Prescott, University of Michigan student and son of Charles Prescott, of the Saginaw Bay company.

The two stations are SCCL of East Cleveland and SDLD at the Prescott summer home in Tawas City, Michigan.

Much of the radio traffic conducted by Prescott is with the Donald McMillan station on the vessel Bowdoin, caught in the Arctic ice at Anatalok Bay, Labrador. Messages from the crew of the Bowdoin are relayed by Prescott to all parts of the United States.

Besides holding frequent conversations with the McMillan party, Prescott has conversed with the station operated by the University of Michigan party, wintering in Greenland, and also has talked with a Norwegian whaler within 13 degrees of the South Pole in the Antarctic Sea. He has scores of radio friends in Australia and New Zealand with whom he communicates.

Although he has talked with amateurs in 34 countries, Prescott believes that his most interesting experience was in following the fated course of the British barkentine, E. R. Sterling, enroute last December from Australia to England.

By arrangement with its radio operator, Prescott conversed with the vessel daily on its course around the Cape of Good Hope and up the west coast of Africa.

Then one night he heard an S. O. S. sent out as the ship was wrecked off the Cape Verde Islands. He took a graphic story from the radio operator, learned some of the crew had been killed, and then the ship's station became silent.

## YOUNG PEOPLE'S CONFERENCE GREAT SUCCESS

The Young People's Conference held last week end in the East Tawas M. E. church was a decided success. This is the first time in the history of Isoco County that the Christian Young People representing 16 Sunday schools have ever been assembled together in meetings purposely for them. Many expressed pleasure and surprise that the attendance and interest were so good at all sessions. There were around 180 served at the banquet. This proves that the younger generation wants the better things of life and are ready to receive them if they are supplied in an interesting and sympathizing way.

Song services led by Rev. C. E. Edinger and James Mark were enjoyed by all. Much praise is due Rev. L. H. Hagle and the East Tawas M. E. young people for the pageant that was presented Friday evening. It is a pleasure to know that many Sunday schools are training their pupils in group singing and much talent was shown. Those favoring with selections were the M. E. Junior Choir of East Tawas, Tawas City Baptist young people, Whittemore M. E. Sunday school, Presbyterian GanG class of East Tawas, and a solo by Junior Mark. The instrumental pieces by Helen Turner, Arthur Evans, Jr., Ethelwyne Pollard, and a duet by Margaret Merschel and Helen Johnson were very entertaining.

The toasts and recitations given by the several young people were good and showed sincere thought. (continued on last page)

## SUNRISE ON LAKE HURON ALONG PROPOSED TAWAS-OSCODA ROAD

## SCHOOL NOTES

### High School

We find that the names of some of the judges for the oratorical elimination contest were omitted in last week's school notes. Mrs. R. M. Baguley, Mrs. H. Bigelow, and Miss Marguerite Terwilliger carefully judged the orations on thought and composition.

Miss Sylvia Wixon of the State College called at the high school Tuesday to meet the girls who are members of the sewing club. She gave a very interesting talk, and, by praising the work done, encouraged the girls very much.

Because they had tied for first place in the declamatory contest on Friday evening, Billy Robinson and Doris Kasischke gave their declamations before the High School Tuesday morning to determine which one should represent the school at Alpena in the sub-district contest.

Billy was given the honor by the judges. Miss Worden, Mrs. R. M. Baguley, and Rev. F. Metcalf acted as judges.

Those in charge of the oratorical and declamatory contests wish to thank all those who acted as judges in either one of the contests. We greatly appreciate their kindness and assistance.

The winners of the contest of Friday evening are anticipating their trip to Alpena.

## TO THE ELECTORS OF PLAINFIELD TOWNSHIP

At the urgent solicitation of a number of my friends, I have decided to become a candidate for the office of Supervisor on the Progressive Republican ticket at the township caucus to be held March 10, 1928. If nominated and elected, I will give to the people of Plainfield township an impartial administration. Your support is earnestly desired.

Yours truly,  
FRANK E. BERNARD

## HIGH SCHOOL SPEAKERS HOLD ELIMINATION CONTEST

The High School declamatory and oratorical elimination contest was held last Friday evening at the Court House. In this event the winners of a previous similar contest, in which all the declamators and orators of the high school took part, contested for honors. The winners of first place will represent the school at the sub-district oratorical and declamatory contest at Alpena on March 30.

The following are the winners in the final elimination contest: Orations, Onalea Main—first, Wallace Leslie and Theodora Look—tied for second; Declamations, Doris Kasischke and Billy Robinson—tied for first, Elvera Kasischke—second. Other contestants were: Jean Metcalf, orations; and Myrna Sommerfeld, Delta Leslie, Bessie Metcalf, Frieda Stark, and Dorothy Bigelow, declamations.

Rev. Sievert of this city, Michael F. DeFant, principal and debating coach at East Tawas high school, and Mrs. Chas. Edinger, acted as judges. While their decisions were being averaged, the Girls' Glee Club sang two numbers: "Come Back to Erin" and "Let a Smile Be Your Umbrella."

## TAWAS-OSCODA SHORE ROAD A NECESSITY

A great deal of discussion is being heard at this time regarding that section of U. S. 23 between the Tawas and Oscoda. A map of this road from Tawasville to Oscoda looks as if an effort had been made to take the tourist in every direction on the compass and lose him if possible; and it is true that hundreds of tourists every year are hopelessly lost trying to follow the twists and turns of U. S. 23 between these two points. Half a day passes during the summer that many cars are not turned back from the Huron Shore, the cemetery road, or Tawas Lake because the reasoning tourist refuses to go in the opposite direction from which he is travelling. This stretch of road is about 23 miles long and has 27 turns on which there are a number of fatal and expensive accidents every season. The damages suffered by the public on this road during the past three years would build a cement road over the proposed route.

The State Highway Department has made a survey this winter of a direct route from Tawas to Oscoda which would reduce the distance about six miles and eliminate every short turn. There are no hills, no fills to speak of and no bridges on this route and a cement road could be built at a minimum cost. It follows sand ridges run. (continued on last page)

## EAST TAWAS HIGH DEBATING TEAM WINS TROPHY

Michael DeFant, principal at East Tawas high school and coach of its debating team, received notice recently from C. A. Densmore, head of the Debating Department of the University of Michigan, that the team, composed of Luella Gackstetter, Ray Ross, and Norman Merschel, had won a trophy as a result of its efforts during the past several months. The debaters had won five debates and lost one for the entire season.

In the preliminary debates, East Tawas was one of the eight schools in the state to make 15 points out of a possible 16. East Tawas won all of the preliminary debates in which it took part, defeating teams from Alpena, Harrisville, Sterling, and Pinconning, thus being eligible to participate in the elimination debates for the state championship.

Sterling, which had also gained a sufficient number of points to enter the elimination debates, was put out of the race when it was defeated by East Tawas. The wonderful start East Tawas made in this series was suddenly ended last Thursday, March 1, when its team was defeated by a two to one vote by Ithaca in the second debate of the elimination series. The debating team and Mr. DeFant may be complimented on their wonderful achievements, after having been so near the finals before they were retired.

## ST. JOSEPH SCHOOL TO GIVE MUSICAL AND TALENT PLAY

"Sunshine," the play which is to be put on by St. Joseph high school at the State Theatre, Tawas City, March 15th, and the Community Building, East Tawas, on March 16th promises to be one of the breeziest, funniest, most mirth-producing mixtures of laughter and tears, wit and pathos yet attempted by the school.

The variety of types in the personae and the range of ideals (from those of the meanest villain, and an impudent, impertinent, curious little girl up to those of "Sunshine" herself) make it impossible that there should be one dry, uninteresting moment in the evening's entertainment.

Baseball fans will take special delight in "Buddy Brady," the famous "southpaw."

Orchestra music, quartettes and solos with just a touch of music of Erin will complete this program. Caste of Characters—Maudie McCann, aged ten—Cecelia McDonald; Mrs. Burch McCann, of Detroit, the mother—Sadie LaCrosse; Mrs. Sol Whipple, of Whipple's Corners—Thelma Stewart; Miss Tessie Mitford, the mental case—Genevieve Carroll; Juba K. Buttercup, (continued on last page)

**The Smoothness and Snap That All America is Demanding**

There's no longer any doubt about it. America is demanding more and more from its automobiles. More power . . . more style . . . more speed. And above all else . . . more smoothness and snap.

Because of its ruggedly constructed chassis . . . its big clutch and smoothly shifting gears . . . and the super-precision construction demanded in the All-American principle of design.

Once you've experienced its smoothness . . . once you've witnessed its snap . . . you'll know why the All-American Six is winning such tremendous success!

Smoothness that brings to driving new pleasures and new delights. Snap that responds to the traffic signal as a sprinter responds to the gun. Smoothness and snap that you know are the very essence of motoring satisfaction. Smoothness and snap that you find revealed in the All-American Six.

You find them there because of Oakland's big, impressive brute of an engine which starts so easily 'way below zero. Because of its famous GMR cylinder head . . . force feed fuel pump . . . 79-lb. crankshaft and other vital parts.

Published in the interest of the people of Iosco County.

Wilson Grain Co.

BURLEY & LEE, Editors

Employer—Yes, I advertised for a good strong boy. Think you can fill the bill?

Boy—Well I just finished licking the other applicants outside the door.

Another car of coal received today.

Clouse—I do my daily dozen every day.

Albright—I don't care so long as I am not one of the dozen.

Waldo Curry says that Hexite is the best drier used for the amount of money invested.

The feeds we carry—Whole corn, cracked corn, whole oats, ground oats, ground corn and oats, scratch feed, winter wheat bran, Blue Bird middlings, small wheat for chickens, Old Process oil meal, cotton seed meal, meat scraps, oyster shells.

I want some hot popped butt corn—I mean cot but-tered pop corn, that is, corn hot-tered pop butt, or rather hop cuttered pot-tern, I mean—oh, well, gimme some peanuts.

Salt—Barrell salt in 100 lb. sacks, 50 lb. sacks, 25 lb. sacks and 50 lb. salt blocks.

Another car of Hexite is here.

Judge—Have you ever been sentenced to imprisonment? Prisoner—Oh, no, never! Judge—There, there, don't cry—You're going to be right now.

Mike Oates purchased his fourth load of Hexite yesterday.

Sam—Judge, I was just looking at this lady when she soaked me on the peninsula.

Judge—What do you mean, peninsula?

Sam—Well judge, a long, narrow neck stretched out to sea.

Mr. and Mrs. G. Townsend of Birmingham are guests of Mr. and Mrs. Deuell Pearsall.

Friends of Mrs. Joseph Pearlman of Bay City, for many years a resident of our village, will be sorry to know of her death. She has been ailing for some time, but death came suddenly. ## Mineral Color in Stucco

In the Orient the colored stucco used is of a natural shade—that is, the color is a part of the material. The same result is achieved in this country by the mineral pigment into the stucco at the factory. In this way exact portions of mix are obtained and the product is so con- trolled that it is of a specific color that does not change or fade due to the action of the weather.

thing will be done on it. If, how-  
 ever, the travelling public and those  
 who are interested in this neces-  
 sary improvement make a determined  
 demand for it now, it is not impos-  
 sible to get some definite action  
 this year. The cost of putting in  
 the grade and drainage structures  
 has been estimated by men experi-  
 enced in this line of work as low  
 as \$60,000.00, which would not be  
 a large amount for the state to in-  
 vest in this district which pays  
 such large returns to the state in  
 gas taxes collected from the tourist.

One of the strongest arguments  
 for speedy action on this project is  
 the fact that the lake shore along  
 this route is being platted into lots  
 and sold the public. At the pres-  
 ent time the state could secure this  
 right of way for practically noth-  
 ing as it is in the hands of a few  
 persons all of whom would be glad  
 to contribute to this project. In a  
 few years, however, a large num-  
 ber of these lots will be in the  
 hands of different people from  
 whom the state might have to pur-  
 chase at lake frontage prices, mak-  
 ing the road an expensive proposi-  
 tion. The present road through  
 Wilber is not standing up under  
 the present heavy traffic. One sec-  
 tion of the road went out last  
 spring, the gravel disappearing in  
 the soft clay, and had to be re-  
 built. The same thing is bound to  
 happen every spring. If the heavy  
 traffic was taken off this road, it  
 would stand up for many years  
 while the cost of maintaining it for  
 the next five years would go a long  
 way towards building the new road.  
 There is no place in the state where  
 a more serious condition prevails  
 or where the state could give a  
 better demonstration of economy in  
 road building and service to the  
 public.

This road would put twelve miles  
 of the best lake frontage in Mich-  
 igan on the market and even at  
 the prices now prevailing would  
 mean \$1,000,000 valuation for the  
 first row of lots. An average of  
 one cottage every 150 feet would  
 add another \$1,000,000.

There are many other arguments  
 in favor of the Tawas Scenic high-  
 way and if this section of the state  
 will concentrate all its efforts on  
 this proposed route something defi-  
 nite may be accomplished.

**YOUNG PEOPLE'S CONFERENCE  
 TURNS OUT SUCCESSFULLY**

The basketball game between Whit-  
 temore and East Tawas caused  
 much excitement. East Tawas was  
 the winning team.

All enjoyed the address "Church  
 and Youth" by Rev. E. C. Holm-  
 berg. Youth is a formative period  
 and the Christian church is a great  
 influence. This is a truth-seeking  
 generation and it wants practical  
 Christianity. The church has gone  
 too far in liberalism and many are  
 asking "What can a man believe?"

We were pleased with Fred Rep-  
 logle, State Young People's Super-  
 intendent. Some of the thoughts  
 brought out in the addresses, "How  
 Big Are You," and "My Life and  
 How to Invest It," caused real in-  
 teresting discussions among the  
 young people in various Sunday  
 schools last Sunday. How high  
 should our ideals be? Is it wise to  
 change our vocations several times?  
 What factors should be considered  
 in choosing a life work?

The evening address, "Christians,  
 1928 Model," gave some good ideas.  
 We should search for new truths  
 and put something new on this mo-  
 del that has never been on before.  
 The minute we stop growing, we  
 begin to die. One great event for  
 us is to live the Christian Life.  
 Where do you stand in applica-  
 tion of Christian living today?

A young people's council was el-  
 ected Saturday afternoon. Its duty  
 is to co-operate with and assist the  
 County Young People's Superinten-  
 dent in carrying on the young peo-  
 ple's work of the county. Officers  
 for the coming year are: County  
 Young People's Superintendent, Mrs.

**Garages**

Have you ever considered the economy of  
 having a two car garage constructed on  
 your property, using one and renting the  
 other? Get our estimate and let us show  
 you how you can actually pay for your  
 garage out of rent income while using  
 the other half for your car.

You can call the following points and talk for **THREE  
 MINUTES** at the rates shown. Rates to other points  
 are proportionately low.

The rates quoted above are Station-to-Station night rates,  
 effective from 8:30 p. m. to 4:30 a. m.

A Station-to-Station call is one that is made to a certain tele-  
 phone, rather than to some person in particular.

If you do not know the number of the distant telephone, give  
 the operator the name and address and specify that you will talk  
 with "anyone" who answers at the called telephone.

Day rates, 4:30 a. m. to 7 p. m., and evening rates, 7 p. m. to 8:30  
 p. m., are higher than night rates.

A Person-to-Person call, because more work is involved, costs  
 more than a Station-to-Station call. The rate on a Person-to-  
 Person call is the same at all hours.

Additional rate information can be secured  
 by calling the Long Distance operator
